Each polling officer so appointed shall keep order at his station, shall regulate the number of voters to be admitted at a time, and may exclude all other persons, except the clerks, the agents of the candidates, and the constables on duty.

Rule 6.—Each polling officer shall be supplied by the Chairman of the Municipal Commissioners with a copy of so much of the register of the persons entitled to vote as

Rule 10.—The polling officer shall satisfy himself that the voter is qualified to vote under Rule 3, and that the person for whom he votes is qualified, under Rule 3, to be elected a Municipal Commissioner. 1st.—That he is not qualified to vote.

2ndly.—That he has already voted.

3rdly.—That his name is not on the register of voters prescribed by Section 18 of Act IV. (B.C.) of 1876.

Rule 13.—If any objection authorized by the next preceding rule shall be made to any voter, the polling officer shall, on the back of the voting paper, record the name and residence of the objector and the nature of objection, and shall direct, verbally or by letter, the objector and the voter to appear within three days from the day of the election before the Chairman of the Commissioners, and the decision of the Chairman of the Commissioners, made after due inquiry into the objection, shall be final.

NOTIFICATION.

The 13th June 1876.—The following application, made by the Municipal Commissioners of Darjeeling, for a loan of Rs. 30,000 under the Local Public Works Loan Act, XXIV of 1871, for the purpose of increasing and improving the water-supply of the station, for extending the drainage, and for railing the more dangerous roads thereof, is hereby published for general information, under Section 5 of the Rules prescribed by the Government of India in the Financial Department in Notification No. 3761, dated the 15th October 1873.

R. L. MANGLES,
Offg. Secy. to the Govt. of Bengal.

We, the undersigned Municipal Commissioners of Darjeeling, under Act III (B.C.) of 1864, beg to submit the following application for a loan of Rs. 30,000, and to request that His Honor the Lieutenant-Governor will be pleased to grant it:—

1. The loan is required for the following purposes:—

I.—The increase and improvement of the water-supply of Darjeeling, which is insufficient for the purposes of the station during four months of the year, by tapping the Kotwalli Spring at a point on or near the Auckland Road, and connecting this point with the existing pipes above Woodlands, and by erecting new and improved hydrants. Estimated cost Rs. 15,000.

II.—The extension of the present drainage in the direction of the Hospital, Kohel and other hill streams, so as to prevent the accumulation of sewage in the slopes lying under the Bazar and Victoria Road. Estimated cost Rs. 8,000.

III.—The construction of railings along the more dangerous parts of the following roads:—

Auckland Road.	Birch Hill Road.
Victoria Road.	Station Roads.

Estimated cost Rs. 9,000.

2. The amount of loan now applied for is Rs. 30,000.

3. The security offered for the above will be as follows:—

	Rs.	A.	P.
I.—Proceeds of house-tax, estimated to yield ...	5,784	12	0
II.—Horse and poney-tax	600	0	0
III.—Rent of locations	4,684	0	0
IV.—Bazar rents	13,000	0	0
V.—Native village rent	1,300	0	0
VI.—Pound fines	500	0	0
Total ...	25,868	12	0

4. The house and horse taxes are levied under Act III of 1864.

The rents of locations with which those of native villages are to be classed were first assigned to the use of the Sanitarium in 1838. This was confirmed by orders of Government passed in 1854, again in orders No. 217, of the 14th January 1864, and finally in the Resolution of the Government of Bengal dated 27th June 1873.

The bazar rents are derived from buildings erected by the Municipality out of its revenues, and situated on land made over to it by Government.

The pound fines were made over to the Municipality under orders dated 14th October 1862, contained in letter No. 3625, from the Under-Secretary to the Government of Bengal to the Superintendent of Darjeeling.

5. It is proposed to take the loan in two instalments of Rs. 15,000 each, viz. Rs. 15,000 on the loan being sanctioned and Rs. 15,000 on the 1st July next. It is proposed to pay back the loan in twenty years by equal half-yearly instalments of Rs. 750, or 1,500 per annum.

In this manner the payments would be made within twenty years, as provided in Clause C, Rule X of the Rules of the 15th October 1873.

6. It is not possible to give the details required for the three years last preceding, as the limits of the Municipality were much reduced in the beginning of the year 1874-75, and the sources of income, as well as the objects of expenditure, were so much affected by this change that any attempt at comparison with former years would be deceptive.

The following table shows proceeds of the various sources of Municipal income in 1874-75:—

	Rs.	A.	P.
House-tax	5,028	8	4
Horse-tax	570	0	0
Bazar rents	11,732	4	3
Rent of locations	4,484	8	0
Rent of native village	1,231	11	5
Pound fines	229	13	0
All other sources, viz. hospital subscription, sale of garden produce, &c.	4,583	2	7
Total ...	27,868	15	7

The expenditure during the year was Rs. 27,494, out of which Rs. 700 consisted of recoverable advances, and Rs. 1,583 was a contribution to a work outside the new limits of the Municipality.

7. The value of bazar buildings, &c., is about Rs. 1,50,000.

8. There are no existing prior charges upon any of the sources of income above enumerated.

The 20th June 1876.—The following revised rule is substituted for para. 12 of the instructions subsidiary to the Putwaree Rules in Orissa, notified in the *Gazette* of the 1st March 1876, Part I, page 205 :—

These rules and instructions apply to all estates paying revenue to Government, but will not apply to lakhirajdars and proprietors of estates not paying Government revenue, who are exempt from the operation of the rules. Subordinate mukuddums, mouroosee surburakars, and other tenure-holders paying revenue through their superior zemindars, cannot be brought under the rules unless, under terms of the settlement, expressed or implied, the performance of putwarees' duties by subordinate tenure-holders was provided for, or they received a malikana allowance including the remuneration of a putwaree.

In cases where no special arrangement was made or implied in the settlement for performance of putwarees' duty by tenure-holders, Government look to the zemindar, who is amenable to the rules.

3. The constitution of the managing Committee has been very considerably changed by the retirement of the gentlemen named in the margin† on expiry of their term of office, and by the appointment of the gentlemen marginally‡ named. Baboo Grish Chunder Bose, Mr. R. Harvey, Rajah Narrendro Krishna Bahadoor, Baboo Radha Mohun Mundle, and Baboo Shama Churn Pottundo, whose term of office had also expired, have been re-appointed.

4. Five general meetings and three sub-committees were held during the year. The attendance of members was not so regular as might have been desirable, and on one occasion the number was so small that a general meeting had to be adjourned for want of the required number of members to form a quorum. It should be noted, however, that some members of the Committee were conspicuous for the regularity of their attendance. But if not regular in attendance, they have generally shown a decidedly warmer interest in the business of the road cess administration. Similar credit is also due to the members of the branch Road Cess Committee in each sub-division.

5. As in former years, besides the revenue derived from the cess on lands as well as houses, the income of the fund consisted of sums levied on account of fines and penalties or otherwise under the Act, and the proceeds from tolls at ferries and roads which have been expressly assigned by Government to the fund.

6. The gross collections from the above sources during the year amounted to Rs. 1,48,423-2-9, or Rs. 18,780-10-2 in excess of the gross collections for the preceding year.

An unexpended balance of Rs. 32,707-4-11¼ remaining over from that year made up the total income of the fund during the period of report to Rs. 1,81,132-7-5, as follows:—

	Rs.	A.	P.
Last year's balance	32,707	4	11¼
Land cess	1,12,047	11	0
House ditto	9,217	1	6

Sale proceeds of fruits, &c., from roadside trees ...	341	9	3
Miscellaneous	874	6	0
Total ...	1,81,132	7	5.

7. Against this total income must be set off a total expenditure of Rs. 1,68,881-0-1 incurred under the following heads:—

	Rs.	A.	P.
Collection and office establishment	9,415	12	4
Mr. Campbell's pension	387	0	0
Contingent charges...	838	6	2
Original works	46,807	9	2
Repairs...	79,114	5	10
Engineer's establishment	16,496	8	6
Refunds, &c.	15,821	11	1.
Total ...	1,68,881	0	1

The details of each of the above items are set forth in form No. 6, Part II, of the annual accounts herewith submitted.

8. The roads in this district, ranged in the classes laid down in the Government Circular No. 56, dated 18th August 1875, are as follows:—

	No.	Miles.
Class I.—Roads bridged and metalled	29	143
Class II.—Roads raised and bridged, but not metalled ...	31	187½
Class III.—Roads raised, but unbridged and unmetalled...	13	116½

Class IV.—Village roads.—Too numerous to be specified in detail for each sub-division, but an attempt is being made to classify them.

Class V.—Improvements to natural water communications.—No improvements attempted, as funds were absorbed by roads and bridges.

Class VI.—Canals.—No improvements attempted, as funds were absorbed by roads and bridges.

9. From the 33 ferries plying on the different rivers and khals, Rs. 14,045-15-7 were realized as tolls during the year, while the road tolls collected at the 12 toll-bars during the same period amounted to Rs. 10,834-2-2.

10. The principal works executed during the year are as follows:—

I.—Original Works.

	Rs.	A.	P.
(1.) Takee road, 21st to 25th mile, metalling ...	21,618	0	0
(2.) Nimtah road, completing and metalling ...	3,270	0	0
(3.) Kallygunge to Issoreepore, unmetalled road ...	1,980	5	6
(4.) Kholakhally dâk road, retired line constructed	922	14	0
(5.) Bridge over the Biddadhoree at Annuntopore, renewed	3,338	11	2
(6.) New bridge over the Gangnea khal on the Satkhira road	2,432	10	4
(7.) Three new culverts on the Chandooria and Kullaroa roads	892	12	10
(8.) Ten new culverts on the Annuntopore and Bhangore road	3,455	3	0
(9.) One culvert on the Bolakhally road ...	830	10	6
(10.) One wooden bridge on the Hara road at Hatoogunge	816	15	0
(11.) Two new culverts on the Bowali road	678	5	7
(12.) Five new culverts on the Chungfully road ...	2,008	10	9
(13.) One new culvert on the Dum-Dum slaughter-house road	255	11	6
(14.) One new culvert on the Fulta Bernaee road ...	537	8	0

11. The metalling of the Takee road (No. 1), although the orders for commencing on it were received very late in the year, has been finished. It was the most useful work of the year in the district, completing, as it does, thorough communication from Barasat to Bus-eerhât. The Nimtah road (No. 2), which was taken in hand for the reasons given in paragraph 11 of last year's report, has been completed. The new road from Kallygunge to

Issoreepore (No. 3) was undertaken by the Deputy Magistrate of Satkhira as a relief work during 1873-74. The short and disjointed lengths in which it was constructed have now been connected so as to form eight miles of road in two sections of five and three miles each. The construction of a retired line on the Kholakhally dák road (No. 4) was rendered necessary by the encroachment of the Kholakhally khal on the road.

The bridge on the river Biddadhoree at Annuntopore (No. 5) was a work of some difficulty, owing to the site being liable to submersion by water. The old arches, which were very dilapidated and unsafe, have been replaced by wooden platforms; an additional opening has been made to afford sufficient waterway, and space has been provided for boats and dinghees under the bridge. By the reconstruction of this important work, Bhangore Hât, a large mart on the Soonderbun route, has been placed in water communication with the main road to Jessore, a distance of 16 miles. The new bridge over the Gangnea khal (No. 6) has been constructed to improve the communication by road between Satkhira and Busseerhât. The work was of importance. The bridge has been neatly and substantially built, but the completion of the approaches to it was deferred till the present dry season. The other works under this head were also very necessary, and, so far as they have been completed, have been carefully executed.

12. The total expenditure incurred during the year on original works was Rs. 46,807-9-2, showing an excess of Rs. 22,929-6-6, or very nearly double the previous year's total expenditure on the same account, which was Rs. 23,878-2-8.

13. II.—*Repairs to metalled roads and bridges*.—Under this head, works were carried out on 23 roads, with an aggregate length of about 107 miles, against 12 roads, with an aggregate length of 60 miles, in the previous year. The principal roads and the cost of their repairs were as follows:—

North of Calcutta.

				Rs.	A.	P.
(1.)	Takee	road, 20 miles	...	12,975	14	0
(2.)	Thakoorpooker	ditto, 5 ditto	...	2,507	10	6
(3.)	Sodepore	ditto, 6 ditto	...	893	14	6
(4.)	Ghoseparah	ditto, 16 ditto	...	3,566	11	0

(16.)	Sonarpore	ditto, 2 ditto	...	1,408	6	3
(17.)	Culpee	ditto, 16 ditto	...	9,144	0	3
(18.)	Dam across Soorjeepore khal on Culpee road	...	...	559	9	0
(19.)	Chappahatty road, 6 miles	...	...	924	14	6

14. Of the Takee road (No. 1), a most useful road, three miles were thoroughly repaired, and the remaining length was kept in good condition by patch repairs. The roads Nos. 2, 3, 4, 5, 7, and 8 had been very much neglected, and would have fallen into a bad state but for the timely repairs executed during the past year. The portion of road No. 8 from the Grand Trunk Road to the railway station has been now put into serviceable condition. Roads Nos. 9 to 12 have been thoroughly repaired. The Barripore road (No. 15) is one of the most useful roads in the district, but neglect for years had brought it down to such a bad state that the very heavy repairs executed during the past year were necessary to restore it to good order throughout. Of the Sonarpore road (No. 16), one mile has been thoroughly repaired and one mile put into fair order by patch repairs. Very heavy repairs were needed on the Culpee road (No. 17), and three miles have been thoroughly repaired, while the remaining length has been patched up into very fair order.

15. *III.—Repairs to unmetalled roads*.—Of roads falling under this class, 26, with an aggregate length of 198½ miles, were repaired during the year at a total cost of Rs. 18,537-6-2, against 10 roads, with an aggregate length of 90 miles, at a cost of Rs. 16,663-14-10, during the year previous. The heaviest outlay was incurred on account of the following roads:—

			Rs.	A.	P.
(1.)	Kushnugger	road, 16 miles ...	2,562	10	6
(2.)	Kaindrah to Chandecria	ditto, 11 ditto ...	923	15	6
(3.)	Bissopore to Bhangore	ditto, 12 ditto ...	918	14	0
(4.)	Kolakhally	ditto, 10 ditto ...	522	0	0
(5.)	Baskipore and Ustee	ditto, 13 ditto ...	913	4	6
(6.)	Ustee branch	ditto, 4 ditto ...	574	5	3
(7.)	Hara	ditto, 13 ditto ...	1,337	9	3
(8.)	Culpee	ditto, 11 ditto ...	660	15	9

16. The total expenditure incurred during the past year in repairs to (1) metalled roads and bridges and (2) unmetalled roads amounted to Rs. 79,114-5-10, or Rs. 1,957-12-7 in excess of the previous year's expenditure on this account.

17. *IV.—Miscellaneous.*—The expenditure under this head amounted to Rs. 15,821-11-1, consisting of the following items:—

	Rs.	A.	P.
I.—Partial refund of grants-in-aid made during last year, 1873-74 (*vide* Government order No. 1077, dated 2nd March 1875)	15,000	0	0
II.—Refund of excess collections made from certain estates lying in the Nuddea district ...	821	11	1
Total ...	15,821	11	1

19. The following memorandum shows the allotment made to each sub-division for the improvement of village tracks and water-courses in 1875-76 as compared to 1874-75. It will be seen that the allotments have been increased in amount in accordance with your orders on last year's report. The funds have been administered by the same agency and under the same conditions as before:—

Name of sub-division.	Allotment for 1874-75. Rs.	Allotment for 1875-76. Rs.
Alipore	1,500	1,700
Barripore	1,500	1,700
Diamond Harbour	1,500	1,700
Dum-Dum	500	800
Barrackpore	1,000	1,200
Baraset	1,500	1,700
Busseerhât	1,500	1,700
Satkhira	1,500	1,700
Total ...	10,500	12,200

20. The total amount of the cesses leviable under the District Road Cess Act, as estimated by the Collector, under section 69, together with other sources of income for the cess year 1875-76, and the balance of the past year, is expected to be as follows:—

		Rs.
(1)	Cess on lands	1,08,500
(2)	Ditto houses	10,000
(3)	Road cess leviable otherwise than under the District Road Cess Act	250
(4)	Road tolls	10,625
(5)	Ferry ditto	14,685
(6)	Balance of last year	13,596
	Total ...	1,57,656

21. It is necessary to state that as arrangements for providing a separate engineering establishment for working the Road Cess Act were given effect to only in the course of the past cess year, a contribution of Rs. 9,150-9-9 was made from the Road Fund under Government Resolution No. 1209 of the 8th March 1875, paragraph 10, towards the Public Works charges incurred during the months from October 1874 to March 1875. The cost of the Committee's own engineering establishment from April to the end of the road cess year amounted to Rs. 7,345-9-9.

22. The principal works involving the larger proportion of the heavier outlay, as determined by the Road Cess Committee at their general meeting held, under section 70 of the Act, on the 12th August last, are as follows:—

I.—Original Works.

		Rs.
(1)	Culverts on Bhangore road	1,400
(2)	Wooden bridge over Bhomra khal on the Satkhira road	2,500
(3)	Ditto ditto ditto Fultah Baraset road	2,500
(4)	Road from Dukhin Baraset to Sounderbuns	12,047
(5)	Metalling a part of Goburdanga road	10,300
(6)	Cost of iron road rollers	2,500
	Total ...	31,247

II.—Repairs to Metalled Roads.

		Rs.
(1)	Russapuglah and Bansdhonee roads	1,706
(2)	Old Tallygunge road	1,000
(3)	Bursea ditto	2,000
(4)	Ballygunge to Barripore road	17,296
(5)	Sonarpore feeder ditto	1,601
(6)	Culpee ditto	7,500
(7)	Bistoopore ditto	2,100
(8)	Sodepore feeder ditto	2,500
(9)	Ghoseparah ditto	6,300
(10)	Takee ditto	12,500
(11)	Thakoorpooker ditto	1,000

III.—Repairs to Unmetalled Roads.

(1)	Narainpore road	2,100
(2)	Repairs of approaches to ferry ghâts	1,320
(3)	Improvement of village roads	12,200

23. The advantages derivable from the existence of a District Road Fund have begun to become so very generally known to the rural population, that more applications are now made for the construction of village paths than the fund can afford to comply with.

24. The annual meeting referred to in paragraph 22, although fixed by Government orders for July last, could not be held till the 11th of August, in consequence of the discovery that the term of office of some members of the Committee had expired, and of the necessity of selecting a new set of members to carry out the provisions of the Act.

25. Mr. Peacock was Chairman of the Road Cess Committee at the commencement of the year, but he left for Dacca in January, being succeeded by Mr. Rees, who again was relieved in February last by Mr. Wells, who was the Chairman up to August. Mr. Macaulay relieved Mr. Wells and retained charge of the office to the end of the cess year. Deputy Collector Baboo Rakhal Doss Mookerjee, who held the post of the Secretary of the Committee from the commencement of the year, left the district in the early part of January on his being transferred to Tipperah, and has been succeeded by Deputy Collector Baboo Hem Chunder Kur, of whom Mr. Wells writes as follows:—"His intimate knowledge of the district and its requirements and his experience were very valuable in dealing with the matters which came up for disposal." And again—"Before leaving, I think it right to record my great satisfaction with the manner in which the Secretary and Executive Engineer have respectively discharged their duties." I may add that, so far as my own experience goes, I entirely concur in Mr. Well's commendation of both these officers.

R. H. WILSON,
Chairman, R. C. C., 24-*Pergunnahs*.

The 13th November 1875.

No. 137, dated Kishnaghur, the 21st March 1876.

From—C. C. STEVENS, Esq., Magistrate and Chairman of the District Road Cess Committee, Nuddea,

To—The Commissioner of the Presidency Division.

I HAVE the honor to submit the following report of the road work undertaken in this district during the cess year 1874-75.

2. The year commenced with a deficit balance of Rs. 34,805-10-5, the result of famine expenditure which had not been provided for by Government grants.

3. The estimated collections of revenue for the year were as follows :—

	Rs.
Arrears of land cess	11,820
Cess on land for the year	70,568
Ditto houses ditto	17,414
Ferry tolls	19,632
Miscellaneous	250
Road tolls	2,580
Total ...	1,16,264

4. The actual collections of revenue were as follows :—

Sources of Income.	Amount.	Worse than estimate by	Better than estimate by
	Rs. A. P.	Rs. A. P.	Rs. A. P.
Arrears of road cess	11,153 0 0	667 0 0	
Cess on houses	12,220 6 6	..	803 6 6
Ditto lands	60,965 7 3	1,602 8 9	
Ferry tolls	16,330 7 9	3,301 8 3	...
Road ditto	2,539 0 0	...	259 0 0
Miscellaneous	2,536 11 9	.....	2,336 11 9
Total Collection ...	1,15,145 1 3	1,118 14 9	..

5. The total estimated income was therefore something less than one per cent. more than the sum which proved to be the actual income of the year. The estimates of income from road cess were upon the whole a little too sanguine, though the collection of house cess exceeded our expectations. The results obtained from the ferries fell nearly 20 per cent. below the estimates ; enough allowance was certainly not made for remissions and delays in payment. During the present year a better system has been introduced, and I have no doubt that the ferry collections will improve in consequence. The realization is made over to the sub-divisional officers, and the first payments of the farmers are credited at once as revenue, instead of being held in deposit.

The road tolls were nearly 40 per cent. better than the estimates; the chief reason of this was that the Gopalnuggur toll-bar proved much more profitable. than had been anticipated. Under the head of miscellaneous we have apparently a very large miscalculation : out of the sum of Rs. 2,536-11-9, however, no less than Rs. 1,978-12-6 was unexpended balance of road money refunded. Of the rest, about two-thirds was the proceeds of dâk bungalows and one-third was obtained from the one per cent. for roads, which used to be levied in settlements.

6. To the above sum of Rs. 1,15,145-1-3 must be added Rs. 5,240-0-10, which stood at the credit of the Public Works Department.

7. The following were the sums estimated as the expenditure of the year :—

	Rs.
Collection of revenue	3,058
Original works	28,159
Repairs to roads	60,101

9. The total expenditure thus exceeded the estimates by no less a sum than Rs. 74,510-14-4. The fact that there is an excess of expenditure over the estimate arises, as will be seen from the table given in the last paragraph, from famine expenditure.

10. The item of collection of revenue shows an excess of Rs. 1,820. This difference is mainly due to its having been found necessary to employ a larger number of peons at head-quarters, to provide for peons at sub-divisions, and also to give additional clerical assistance.

11. There is a large saving under the head of original works, but this is merely nominal. Several expensive works were postponed on account of financial difficulties, but must be executed sooner or later. It was found requisite to spend a larger sum on repairs than had been anticipated when the budget was framed; it is very difficult at the time appointed for this purpose to prophesy what the effect of the season will be. Under the head of district establishment there is an apparent saving of Rs. 3,291; this is due to the fact that the Committee did not receive the permission of Government to entertain its own engineer till the year had nearly expired. In the current year, the Committee has been obliged to pay for the services of the executive engineer and his staff the sum which would have been paid to the district engineer had he held office throughout the year.

Of the liabilities incurred during the year, Rs. 11,483-11-6 remained unpaid at the end of it. This has all been paid off since.

12. Of the Rs. 13,265-1-2 expended on original works, no less than Rs. 8,859-6-6 was spent on village roads. The Committee, as in the previous year, made gross allotments to the several branch committees. These allotments were distributed by the branch committees within the sub-divisions to which they severally belonged. The term village road has not been defined, and it seems to be better that it shall not be. In some instances, money allotted to this purpose has been spent in repairing or making roads in the interior of villages; in others it has been spent in connecting villages, and in fact making lines of road of somewhat less importance than those which fall in our lists. I believe I have been acting in accordance with the spirit of Government orders in permitting each branch committee to exercise discretion in this matter. I shall decidedly object to the restriction of village road money to the tracks in villages themselves, yet occasionally it may properly be spent on such tracks; and, at any rate, I think it is carrying centralization much too far for us to dictate to the branch committees in such a matter, for they know better than we do what they want. In some cases village road money is supplemented by private contribution.

13. The next item in importance is that of the Daringhatta bridge on the Chogdah and Bongong road. This money was spent in collecting materials. The bridge will be an iron girder bridge, with three spans of 32 feet each, on masonry piers and abutments. The estimates were prepared by the executive engineer in March 1872, and sanctioned by the superintending engineer of the circle. The total budget allotment for the year was Rs. 4,400, but partly through the interference of the rains and partly because of financial difficulties, the greater part of this sum was unexpended. The total cost of the bridge is estimated at Rs. 9,57[illegible], and it is hoped that the work will be finished in the current year.

14. Of the sum of Rs. 1,339 spent on a bridge on the Kishnaghur and Meherpore road, the greater part ought to have been shown as "Repairs," since it was expended in repairing the approaches to the bridge. The remainder was spent in collecting materials for the bridge, which is now in course of erection, and is likely to be finished in the current year. The estimated cost is Rs. 1,301.

15. The sum of Rs. 292-8-0 was paid for the Taltollah and Moonshigunge embanked road; this road was really intended more as an embankment than as a mere road. The total cost was Rs. 1,196-5-9, the excess amount being defrayed by subscription.

16. For "river and canal works" Rs. 845-6-5 was expended. This sum was spent on embankments.

17. The repairs of the pucca roads were estimated in the budget to cost Rs. 34,251, but when the detailed estimates were framed, they came in the aggregate to Rs. 43,482. The sum actually expended was Rs. 38,482-5-10. It may in general terms be said that the budget-estimate was not far from accurate in the case of the heavier and more important works, but fell below the requirements of the less important ones.

18. The repairs of pucca roads in this district form a very heavy item in the expenditure. When the Road Fund was formed, the expensive railway feeders from Kishnaghur to Buggoola, from Santipore to Ranaghat, from Chogdah to Bongong, from Kissengunge to Kotechandpore, from Meherpore to Chooadangah, from Chooadangah to Jhenidah, from Dadapore to Kooshteah, and from Kooshteah to Salgamudia, were all thrown upon the fund. These had been previously provided for from Provincial Fund, and had been in the charge of the Public Works Department. The roads from Chogdah to Bongong, from Kissengunge to Kotechandpore, and from Chooadangah to Jhenidah, are useful mainly to the people of Jessore and to the railway, while the District Committee would never have constructed the pucca roads from Meherpore to Chooadangah, from Dadapore to Kooshteah, and from Kooshteah to Salgamudia, since the traffic is quite insufficient to require pucca roads on those lines. It is thus evident that a serious incumbrance was inflicted on the Committee, and from the time of the changes the Committee has always retained the hope that Government would give some relief. The expenditure on the roads which I have described as being of comparatively little use was Rs. 2,697-13-0—a moderate sum; on the other hand, the expenditure on the roads which are of use chiefly to Jessore and to the railway was Rs 16,697-7-8, and even with this large amount those roads were not properly maintained. It has always been thought by the Committee, and acknowledged to some extent by the higher authorities, that it would be fair to relieve the Road Fund of the road from Chogdah to Bongong, which is really the highroad from Calcutta to Jessore. Unfortunately, no such relief has as yet been given, and the Committee has looked with some envy on their richer neighbours of Jessore, who have the whole length of expensive communication with Calcutta and most of their roads to the railway provided free of expense, while this district is compelled year after year to do without works really required by its internal traffic.

19. In addition to the expenditure above alluded to, the executive engineer paid Rs. 5,425-12-5 for liabilities of the previous year; he had in his hands funds sufficient to meet this.

20. The repairs of the principal kutcha roads, including culverts, were estimated in the budget at Rs. 25,850; the actual expenditure on earthwork, &c., was Rs. 24,767-6-5, but the culverts cost Rs. 2,992-1-1 in addition. The total excess was therefore Rs. 1,909-7-6. None of the works under this head call for special mention.

21. The dâk bungalows at Buggoola and Kishnaghur were duly kept up; they do not pay their expenses, but it seems proper that such institutions should be supported by the fund.

22. The item of Rs. 36,039-7-9 comprises payments made for famine work and adjustment of accounts. Detailed accounts have been already submitted to the Controller.

23. The item of Rs. 6,437-13-10 comprises salaries and travelling allowances of extra sub-deputies, overseers, relief clerks, &c.; these expenses were for the most part actually incurred in the year 1873-74, and were debited to the Road Fund in the year under report.

24. The item of Rs. 35,080-5-8 comprises the value of all the Government grains expended on roads, &c, during the scarcity, and debited to the Road Fund in 1874-75. Detailed accounts of this expenditure have been separately submitted.

25. The season as a whole was not a bad one for the roads, but little serious damage was done by floods; and, but for the disturbance occasioned by relief accounts, we should have probably had a balance in our favour at the end of the year. As it is, on 30th September, the accounts had been overdrawn to the amount of Rs. 41,477-7-2, and liabilities for a further amount of Rs. 11,483-11 6 had been incurred. These have now been cleared off and the amounts restored to a state of equilibrium.

26. In the present year the principal works for execution are the following:—

(*a*) The existing lines of communication will generally be kept in order.

(*b*) The wrought-iron girder bridge over the Dariaghatta khal on the Chogdah and Bongong road will be completed.

(*c*) A bridge will be reconstructed over the Gokulkhally khal on the Chooadangah and Meherpore road.

(*d*) Three bridges will be constructed on the Kishnaghur and Kissengunge road. Last year, as an experiment, causeways were tried at the suggestion of the executive engineer, but they proved a complete failure. We are now substituting for these a wrought-iron girder bridge on masonry piers and abutments and with 30 feet waterway, a timber girder bridge with 20 feet waterway and on masonry piers and abutments, and a timber bridge on tál-tree posts of 40 feet waterway.

A bridge of 10 feet span will be constructed on the road from Kissengunge to Kotechandpore road.

(*f*) A tâl-tree bridge of 30 feet span will be constructed on the sixth mile of the Chooadangah and Jhenidah road.

(*g*) The abutment of the large timber bridge over the Shurushatty khal on the Kishnaghur and Meherpore road will be reconstructed.

(*h*) Village roads will be made or repaired.

27. It is hoped to conclude the present year with a fair working balance, since for efficiency it is absolutely necessary that the bulk of the kutcha repairs shall be made in November and December—an arrangement which the state of our funds has never enabled us hitherto to make. In connection with this matter, I beg leave to bring to notice the great inconvenience arising from the adoption of the present "road cess year." We have now to prepare our budget-estimates before the damages occur which have to be remedied; this can be altered as regards pucca, but not as regards the kutcha roads. We ought always to have at the end of the year what I have spoken of above as a "fair working balance," but must be a considerable sum in itself, for at the end of September we have the accounts of pucca works to make up, and we have the kutcha works in immediate prospect; but when we have at the end of the year a balance of Rs. 20,000 or Rs. 25,000, we shall find it no easy matter to induce the Road Committee to estimate at their true value this apparent sign of prosperity, and we shall run considerable risk of being provided with insufficient funds. Another inconvenience (and one which has tended in a great measure to cause the delay in the submission of this report) is, that just at the height of the working season, when engineer, overseers, and office establishments are busily engaged in out-door work, as well as in preparation of estimates for operations to be undertaken at once, they have to prepare also accounts and reports for the past year. In my opinion and in that of the district engineer, it would be far better to make the road year coincide with the ordinary official year. By the 31st March the kutcha roads ought to be finished, and the great bulk of the expenditure for pucca roads has been incurred; the only objection that I see is, that in the case of pucca roads the bricks required for the operations of one year must have been prepared and paid for in the preceding year. This, however, would not cause any very great practical inconvenience. There is perhaps something in the objection that it is not desirable to give the district officer another report to write in April or May, since he has already much of that kind of work to do. Still the advantages of making the change which I advocate seem greatly to outweigh the disadvantages.

28. Three meetings for the purpose of passing the estimates and of deciding on the rate of road cess were held by the Committee. A quorum was obtained on each occasion. Some of the members proposed to reduce the cess from 2 pice to 1½ pice per rupee, but the higher rate was carried. I fear it will never be possible to reduce the cess, since the wants of the district are already great, and are constantly increasing.

29. Of the establishment and its work during the year I am glad to be able to speak well. The temporary system under which we were found to make over work to the Public Works Department, and were not allowed to select our own engineer, is now at an end, and I think we shall derive considerable benefit from the change.

30. I regret the great delay which has occurred in the submission of this report. I have already mentioned the cause which prevented the preparation of the materials in good time. Since they have been in my hands I have been much pressed with urgent work, and have been unable to set apart sufficient time for the preparation of the report.

C. C. STEVENS,
Chairman.

No. 91R, dated Jessore, the 14th December 1875.

From—A. SMYTH, Esq., Magistrate and Chairman, Road Cess Committee, Jessore,
To—The Commissioner of the Presidency Division.

I HAVE the honor to submit herewith my local improvement report and the annual road fund accounts for the year 1874-75.

2. The works intended for execution during the year were considered and passed by the District Committee at a meeting held in August 1874. All important local works were carried out by the Executive Engineer, Public Works Department, up to the end of July, when the Committee appointed Mr. C. H. Burt (late Executive Engineer, Bogra Special Division,) as its Engineer, subject to the confirmation of the Government; and the village roads and minor works have been carried out by the branch committees under the special supervision of the members.

3. The District Committee met four times,—once in the middle of the year, once in the beginning, and twice towards its close; the latter meeting being principally to consider the refund of the loan of Rs. 7,500 received from Government, and to fix the salary and allowances to be given to the district engineer.

4. Many of the members reside at great distances from the Sudder Station, and it is consequently not always easy to obtain their attendance, especially at the principal meeting of the year, which is fixed for the month of August, which is generally the most critical period of the indigo season.

5. The distant members are, however, for the most part members of the branch committees, and render useful service in them, not only by giving useful opinions and votes, but supervising and assisting in works not requiring professional skill.

6. The transfer of Mr. Paterson on the 1st April last, in the middle of the busiest time of the year, although his duties were undertaken by the Engineer of the Presidency Division, who was stationed in Nuddea and could give little time to Jessore, was productive of considerable inconvenience. It was the difficulty of carrying on works and examining projects during the period between his departure and the arrival of Mr. Burt, at the close of

July, that led chiefly to the large balance unexpended at the close of the year. The undertakings of the year may be divided into two classes, *viz.* the more important road works executed by the Public Works Department, and the minor works and surface repairs executed by the respective branch committees. The following is a brief description of the works carried out in each sub-division during the year, and the expenditure incurred thereon.

The following village roads were undertaken, most of which were completed, or nearly so, when work had to be suspended for the rains, *viz.*—

		Miles completed.

26. *Station roads.*—Some pucca paths were made about the sub-divisional cutcherry, and also a path from the cutcherry to the Magoora road. A portion of the bazar kutcha road had to be raised, as a provision against the floods breaking in and damaging the town.

NURRAIL SUB-DIVISION.

(6) A road has been laid out between Bhabhagdi and the Obhoyanuggur outpost, but only a portion has been completed in the village of Bhabhagdi.
(7) Part of road between Satbaree and the Bhyrub river has been completed, but the project has been abandoned.
(8) A road has been completed between the villages of Bhadrabilla and Loshkerpore, a distance of two miles and a half, with the exception of a slight break at Auria.
(9) A road between the ferry-ghât at Rajapore and Koomargunge has been nearly completed.
(10) A road has been completed between the villages of Situa and Budhanagar, a distance of four miles, with the exception of a small portion through the lands belonging to the latter village.
(11) Roads have been completed through the villages of Culna, Kundan, Alfadangah, and Barakali, as also between Mulia and Pyaroghât, a distance of three miles.

28. Besides these original works, extensive repairs have been made to several of the existing roads and bridges, and two wooden bridges have been begun. The total expenditure has been Rs. 2,529.

29. The Deputy Magistrate reports as follows in regard to the year's operations under review:—"The results of these works have been very satisfactory. The public have appreciated the utility of roads, and people now more eagerly apply for them. No opposition was made this year in marking out the lines of roads, and no difficulty was experienced in executing the works."

MAGOORA SUB-DIVISION.

30. A sum of Rs. 6,630 was allotted for village and other roads, and Rs. 5,069 were expended thereof on the following roads, *viz.*—

(1) From Benodpore to Singhea, 12 miles, Rs. 2,000. This sum was spent through the agency of Mr. H. Oats, indigo-planter, who had the work executed in a very satisfactory manner.

(2) From Sulkea to Kanducool (old military road to Dacca). Rs. 720 were spent on this road, but the work was not executed satisfactorily by the contractor.

(3) From Magoora to Gopalpore, a distance of 8 miles. These repairs to surface were executed at a cost of Rs. 270.

(4) From Benodpore to Mohamedpore, 8 miles. This road was repaired at a cost of Rs. 240 through the agency of contractor.

(5) Various village roads have been completed throughout the sub-division, on which sums have been spent averaging from Rs. 50 to 100.

31. *Station roads.*—A sum of Rs. 400 was allotted for this purpose, of which Rs. 245 have been spent in repairing eight roads; these were supervised by the Deputy Magistrate himself.

32. During the year the name of Mr. Eddis, indigo-planter of Sricole factory, was added to the list of members of the branch committee, thus making in all fifteen, three of whom are European planters and the rest native pleaders and jotedars.

33. In regard to the year's operations and the working of the Cess Act, the Deputy Magistrate reports as follows:—

"I think the money has been fairly spent by him to whom it was entrusted, and the work, on the whole, was satisfactorily done. The cess, I am led to believe, is no longer considered as a burden and not taken in the light in which people took the income-tax, as they see that Government appropriate the cess to no other purposes but for improving communications—*i.e.*, roads, waterway, &c.—for their own use and benefit."

KHOOLNAH SUB-DIVISION.

34. No works of any magnitude were undertaken in the sub-division during the year, the chief expenditure being on account of village roads. A sum of Rs. 5,650 was sanctioned for this purpose for station roads and for protecting the river bank with spur work, the whole of which was expended by the branch committee in constructing and repairing 56 miles of roads; the distribution of the charges being as follows:—

	Rs.
Establishment	277
Earthwork in roads and also for bridges ...	4,783
Arboriculture	9
Spur work	550
Contingencies, including the purchase of an old boat ...	30

35. Nine pucka and eleven temporary wooden bridges have been constructed during the year. The measurements of work executed were submitted for each road by the overseer and were checked by the Deputy Magistrate, the Sub-Deputy, and the canoongoe, and in the case of ten of the roads by the members.

36. The Deputy Magistrate reports that the Committee met thirteen times during the cess year, and that the Vice-Chairman and members worked willingly.

BAGIRHAT SUB-DIVISION.

37. No works of magnitude were undertaken in this sub-division during the year, the only expenditure being on account of village roads, for which a sum of Rs. 4,981 was sanctioned by the District Committee, of which only Rs. 1,832 have been expended on the following important roads, *viz.*—

(1) Champatalla to Rohimabad.
(2) Karajara to Gomastry.
(3) Jatrapore to Aikal.
(4) Bisteepore to Karamara.
(5) Bagirhat to Musiguuge.
(6) Ditto to Damiana.

38. The Deputy Magistrate reports that, owing to the early setting in of the rains, it became impracticable to construct many of the proposed roads, and that there exists great difficulty in obtaining a sufficient number of coolies to carry on the works. He further

reports as follows in regard to the working of the Cess Act in the Bagirhât sub-division :—

"The people of the locality have now come to understand the benefit and convenience which they derive from the completion of these roads. They exhibit earnestness in the progress of works, and hardly show opposition to make over their lands for the purpose of constructing these roads. The system of advancing money to local zemindars and respectable residents has been resorted to for the construction and repairs of their village roads and bridges, and the individuals do with pleasure take the responsibility of supervising the works within their villages."

39. The rate has been paid without complaint. On the peasantry its incidence is light, and if the landholder's share is somewhat more severely felt by him, he will ultimately benefit by the improved means of communication, which will give the produce of his land a better way to market and enable it to pay a higher rent wherever the right of enhancement has not been resigned. All classes benefit by good roads, and so the tax is generally as little distasteful as a tax, however useful, can be expected to be.

To—The Commissioner of the Presidency Division.

3. The following changes occurred in the Committee during the year :—

I presided at five meetings that were held between the commencement of the year and the 28th June 1875, when I proceeded on leave for three months. During my absence Mr. C. C. Quinn was appointed as Officiating Magistrate and Collector of this district, and presided at the last two meetings that were held during the latter part of the year.

Mr. J. S. Carey acted as Vice-Chairman up to 15th June 1875, and on his being transferred to another district, Baboo Gooroo Churn Dass was elected Vice-Chairman at a meeting held on the 15th June 1875.

Mr. J. H. McLaughlin, the senior covenanted assistant under the Magistrate and Collector, acted as an *ex-officio* member of the Committee up to 19th July 1875, and on his proceeding on leave, Mr. G. A. Grierson, Assistant Magistrate, became an *ex-officio* member of the Committee in his place, and attended first at a meeting held on the 23rd August 1875.

Baboo Dwarka Nath Dey, the Road Cess Deputy Collector, retired and made over charge to Baboo Gooroo Churn Dass on the 7th of April 1875, and Baboo Gooroo Churn Dass attended first at a meeting held on the 15th May 1875.

4. There have been seven meetings of the Committee during the year under review, at which an average of thirteen members attended. A notice containing a list of the business to be transacted at each meeting was sent to every member of the Committee.

5. The following are the principal subjects which engaged the attention of the Committee during the year.

In consequence of Bengal Government's Resolution No. 1209, dated the 8th March 1875, the Committee, at a meeting held on the 15th May, after much debate and by the narrowest majority possible, resolved that the district should remain under class I, with an establishment of its own. On advertising the appointments required in the public papers, several applications were received and were considered by the Committee. Mr. Hogan was in the first instance elected for the engineership, but subsequently, as there was much delay

in the confirmation of the appointment, Baboo Surja Kumar Pundit and Mr. Mackenzie were nominated, and Mr. Martin, Mr. Field, and Baboo Nakur Chandra Bose were nominated for the overseership. The nomination rolls have been submitted to Government for the approval of these appointments, but the nominations have not as yet been approved of. Since the close of the year the nomination of Mr. Hogan has been disapproved, and I have recommended the nomination of Baboo Surja Kumar Pundit, and have forwarded his nomination roll. The accounts for the cess year ending 30th September 1874 were examined and passed by the Vice-Chairman, together with the three other members of the Committee appointed for the purpose.

6. The estimate of income and expenditure for the year under review was prepared by the Committee at a meeting held on the 21st of July 1874. The receipts were estimated at Rs. 94,305-3-0 and the expenditure at Rs. 93,390. The actual receipts were Rs. 83,119-14-6 and the actual expenditure was Rs. 68,695-1-7, and the balance was Rs. 14,424-12-11. The decrease in the receipts was caused by the impossibility of realizing the total demand of land cess during the year, and the decrease of expenditure as compared with that which was estimated, and also as compared with the actual receipts, was caused by the resolution of the Committee to entertain its own engineer. Consequent on this resolution, the district engineer, Mr. Carey, the Assistant Engineer, and one of the overseers were immediately transferred, and the agency by which the repairs of roads could be effected was thus greatly reduced, while the appointment of a district engineer who was expected to join on the 1st of July has not, as before stated, as yet been made.

7. The estimate for the ensuing year was prepared and passed at a meeting held on the 27th July 1875. The estimated receipts were Rs. 1,01,074, including the balance of the year under report. The estimated expenditure was Rs. 99,504. The estimate has been approved of by the Commissioner.

8. The Committee resolved, at a meeting held on the 23rd August 1875, to levy during the year the maximum rates to cover the expenditure required for the repairs of the existing roads and for the construction of some important roads that had been commenced or undertaken during 1873-74.

9. With regard to the original works and repairs which were executed during the year, I have the honor to state that as the accounts for the past year have not yet been passed by the Road Cess Committee, I have not referred to the expenditure on the different roads. With regard to many of the roads no remarks appear to be required, and I have only referred to the roads which appear to require special notice on account of their importance.

10. Mr. Wickes, the present Executive Engineer, took charge of the district after the real working season was over, and when the repairs of many of the roads had been completed. Before this time Mr. Carey was in charge of the office, and was also Vice-Chairman of the Committee. Many of the roads were repaired by European residents of the district, indigo-planters, and silk factors, to whom my thanks are due for the assistance which they have given, as in former years, in the execution of works in the vicinity of the places in which they reside.

11. The following are the original works which were executed during the year:—

Bridging the Jellinghee road.—Two new bridges were estimated to be constructed on the Jellinghee road—one bridge of three openings of ten feet at Katadoura; the other of two openings of ten feet at Islampore. The Katadoura bridge was completed up to the springing of arches, when the early rise of the flood rendered further work impossible. The Islampore bridge was (practically speaking) completed and opened before the close of the cess year, the completion of the parapet walls and plastering the bridge being all that remained to be done.

Raising and bridging the Badshahee road.—The embankment of this road has been completed from the boundary of the district to the river Dwarka (a distance of 17 miles), and from Nowada on the Nulhatee State Railway to Jarur, where it joins the Jungypore and Mooraroe road (distance 10 miles). The remainder of the road, 10½ miles, has not yet been commenced. Three lakhs of bricks were moulded and put into kiln for the construction of a bridge near Jarur.

Patkabaree road.—This is in the greater part of its length a new road, about 27 miles in length, including the portion (3½ miles) from the cutcherries to and along the southern drain, which has been provided for in a separate allotment, and is therefore dealt with separately in this report. From the point where the road leaves the southern drainage cut to Muhammadpur ghât, a distance of 13½ miles, the embankment has been completed and temporary bridges have been constructed. From Muhammadpur ghât to Patkabaree, a distance of 10 miles, a commencement has been made, and it is hoped that in the course of a year or two the work will be completed. It will, however, be necessary to take up land in parts, and it is doubtful to what extent the Committee will be able to contribute funds for the purpose.

Panchgaon road.—This is a new road, 18 miles in length, 12 of which were constructed last year and the remainder completed this year. Three miles of the road constructed last year were found to be insufficiently raised, but the necessary work has been done this year with the exception of 1,500 feet, which will be finished in 1876-76. The road has been temporarily bridged throughout except at one place in the Hasia "beal," where a public ferry has been opened. This is a very important road, as it connects the Badshahee road, which runs nearly north and south (and I hope before long Rampore Haut and the railway), in the western part of the district with the western part of the city of Moorshedabad, and thence by roads north and south with Azimgunge and the suburbs of

Berhampore on the opposite side of the river. The benefits conferred on a large extent of country by this road have been very great.

Inspection bungalows and huts.—An inspection bungalow has been constructed at Khurgram, and inspection huts at Katadra, Hurrearparah, Rampore Haut, and Nowada.

Surveying roads.—The drainage areas of the Badshahee road have been surveyed and plotted, and the dimensions of the bridges required have been calculated. A section has been taken of the Panchgaon road and the drainage areas have been surveyed, and the size of the bridges required has been determined.

Bridging Kendu road.—Two lakhs of bricks have been moulded and burnt for bridges required on this road.

Bridging the Dunigram Road.—The culverts estimated to be constructed on this road have been completed and it is now bridged throughout. One opening of eight feet, one of four feet, and five of three feet have been constructed, and flooring and drop walls provided to two bridges which had been previously built. There is now only the gap between Dunigram and Panchgaon, a distance of some seven miles, to prevent through communication between Rampore Haut and Moorshedabad, and it is hoped that during the current year measures may be taken to acquire the land which will be necessary for the construction of a road between these places, and that work may be started on it.

Road alongside southern drainage cut.—This road is really the commencement of the Patkabaree road. Funds for its completion were only provided in September last. The girders and timber work required for the two bridges on it have been ordered, and the bridges have been completed up to girder level.

12. Repairs were executed in most of the roads of the district, among which notice appears to be required of the following:—

Bhugwangola road, with branch to Jeeagunge.—This is a pucca road, about 22 miles in length, including the Jeeagunge branch. Six miles of the road have been metalled and seven miles have been patched and repaired; the remainder of the road was in good order and did not need repair. This was formerly a provincial road, and is one of great importance. The maintenance of so many miles of metalled road necessarily causes large demands upon the funds at the disposal of the Committee.

Station roads.—The first mile and a quarter of the Kishnaghur road (which is within the station of Berhampore, but without municipal limits), on which there is heavy traffic, has been converted from a kutcha to a metalled road; the flanks of the road have been raised and side drains formed. The pucca road from Choapore to Punchanundtollah (one mile) has been remetalled, the flanks raised, and a side drain constructed.

Kandee road.—A temporary bridge and causeway was made across the Dwarka river for the convenience of traffic in the dry season. The bridge was removed when the floods rose. The road was thoroughly repaired in 1873-74, and therefore nothing was done to it in 1874-75. I have myself recently seen that the road is in good order, and even now only requires surface repairs. Bridging is, however, required on the section of the road between Kandee and the boundary of the district.

Mouraroe road.—Six miles of the road between Budala and Jungipore, which were in a very bad state, were put into thorough repair, and a branch road to Sooatikri and the northern part of Raghunathgunge (opposite Jungipore) was thoroughly repaired. As remarked in my report of last year, the Mouraroe road is under-bridged, and the expense of erecting bridges of proper dimensions would be greater than the funds of the Committee can afford.

Nulhattee road.—Eleven miles of this road (which runs alongside the Nulhattee State Railway) were put into thorough repair, and the planking of the large bridge at Phoolbarrah (10 openings of 20 feet each) was removed. There is a good deal of traffic on this road. As the soil in almost its entire length is of the stiff clay which is so soft after heavy rain and so hard after subsequent exposure to a hot sun, constant repairs are required.

Road on right bank of Bhagiruthee.—In 1873-74, eight of the thirteen miles of the portion of this road between Radhaghat and Azimgunge were raised. Four more miles have been completed this year; the remaining mile will be completed in 1875-76. The road was formerly an unraised track, which passed for a mile through the Telkur beel; it has now been raised (including the mile through the beel) above flood level, with the exception of the incompleted one mile already spoken of. Slight repairs were also executed on the other sections of this road.

Jellinghee road.—The surface of this road has been repaired throughout (29 miles), and the 17th mile has been raised two feet to bring it above flood level, and a large breach in the same mile, caused by the flood topping the road, has been filled in. Some minor breaches in the 28th mile were also filled in. This is the most important of the eastern roads, and when more bridging has been done will be in traversable order throughout the year. The Baromasia road, which leaves this road at Islampore and runs to the Meerpore ghat of the Ganges, was also repaired, and a large breach near Islampore was filled in.

Beauleah road.—The surface of this road was repaired throughout where required. Three large breaches were filled in in the 12th and 15th miles, and the 14th mile was raised. Temporary bridges and temporary causeways were thrown across the Gobra and Bhyrab rivers, to accommodate the traffic in the dry season. These were removed when the flood rose.

Jeeagunge to Khoorea road.—This road, which was very low in places, has been raised as far as funds were available. The total length raised aggregates about 6¾ miles. Funds have been provided in the budget of the current year to raise the remaining portion.

Dewanserai and Murcha road.—About two miles of this road have been raised on an average two feet; five large breaches have also been filled in. A culvert (eight feet span) was commenced, and was three-fourths completed when the year closed.

Jungipore and Khamra road.—The whole of this road (six miles), which was in very bad order, was thoroughly repaired. It has, however, been again breached by the inundation from the Ganges.

Baromasia to Jellinghee; Furreedpore to Nowadapara.—These roads were repaired by planters from the funds received from the Vice-Chairman. The work done consisted of ordinary surface repairs.

Old Calcutta road.—This road, which leaves the Kishnaghur road some six miles from Berhampore and joins the metalled road to Moorshedabad three miles from Berhampore (7 miles in length), has been repaired throughout, and is in good order.

Kishnaghur road.—This road (20 miles) has been repaired throughout, and is in good order.

Dunigram road.—This road (nine miles in length) was thoroughly repaired throughout, and the approaches to the new bridges were raised.

Kassimbazar to Chaonakhally.—This road (one mile in length) was raised in 1872-73, and, after allowing the new earth to consolidate, was this year metalled throughout. Part of the funds from which the work was executed was contributed by Maharani Sarnamayi some nine years ago.

13. Of the allotments made for village roads under the District Committee and the various branch committees, the full amount has been spent in the Rampore Haut sub-division only. A small unexpended balance remained in the case of the Choa branch committee, while the balances to the credit of the District Committee and of the Kandee and Lalbagh branch committees were somewhat considerable. This is in great part due to the fact that during part of the working season the funds of the Committee were so low that it was impossible to supply the branch committees with the necessary funds. At a later period of the year permission was given to overdraw the account to the extent of 5 per cent. of the Committee's income, and after the payment of the two instalments of road cess at the end of June and September, the funds of the Committee were naturally increased to a large extent, insomuch that the balance to its credit at the end of the year was somewhat considerable. There can be no doubt that the seasons for payment of road cess do not at all suit the working season on roads; and that as one instalment of the cess is paid at the very end of September, there must necessarily be a balance to the credit of the Committee at the end of the cess year, unless overdrawals are permitted. In the course of the working season it was found necessary to apply for an advance of Rs. 12,000, to be repaid from subsequent collections, and this was sanctioned in January last.

14. It will be observed that in the Jungipore sub-division no portion of the allotment for village roads was expended. During the past cold weather I had arranged with the sub-divisional officer the manner in which the allotment was to be expended. The present sub-divisional officer has been called upon to explain why no portion of the sum allotted was used for the repair of the village roads.

15. No details of the manner in which the funds allotted to the branch committees were used appear to be required. The roads repaired were generally small roads connecting villages, or acting as feeders to the larger and more important roads under the Committee. As far as I could ascertain from observations during my tour, the money had been judiciously spent.

16. The most important works that remain for prosecution and completion in this and subsequent years are—

1*st*.—The establishment of through communication between Moorshedabad, Berhampore, Azimgunge and the surrounding country, and Rampore Haut, and the railway, by the construction of a road from Panchgaon on the Badshahee road and Dunigram; the communications up to these two places being already complete.

2*nd*.—The completion of the Berhampore-Huriharpara-Patkabaree road; of which so much has been made already.

3*rd*.—The completion and bridging of the Badshahee road.

4*th*.—The completion of the road on the west bank of the Bhagiruthee.

5*th*.—The improvement of the existing feeder roads to the railway at Rampore Haut, Mooraroe, and Pakour, and the construction of more such feeder roads.

During the first two years (but especially during the distress of 1874) a good deal was done in prosecution of the latter object by the raising and repairing roads from Nurainpore in the west, and Margram and Bishtopore in the east, to the station of Rampore Haut. During the current year it is proposed to extend the latter road to Khurgaon on the Badshahee road, which is in direct communication with the important town of Kandi, and with a considerable extent of rice-producing and rice-exporting country. The communications of the western part of the district have until the last few years been much neglected, but of late the inhabitants of this part cannot certainly complain that it has not received its full share of attention.

No. 16P-R, dated Calcutta, the 8th April 1876.

From—C. T. BUCKLAND, Esq., Commissioner of the Presidency Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit the annual accounts of receipts and expenditure of the District Road Funds in this division for the cess year 1874-75 ending in September 1875, with the reports on the works completed and in progress during the year, received from the several Road Cess Committees.

2. The delay in submitting the accounts and the reports is chiefly due to the fact that the district accounts and report from Nuddea were not received in this office till 23rd March 1876, for which the Magistrate has not assigned any sufficient explanation.

3. The total amount of receipts and expenditure shown in the accounts of each district agrees with the aggregate of the quarterly returns for that district.

4. The collections in this division during the year under report were generally satisfactory.

5. In the 24-Pergunnahs the expenditure on works of repair during the year amounted to Rs. 79,114-5-10, and the cost of original works to Rs. 46,807-9-2. Of the last-mentioned amount, Rs. 21,618 were expended in metalling the Takee road, Rs. 3,455-3-0 in constructing new culverts on the Annuntopore road, Rs. 3,338-11-2 in building a bridge over the Biddodhuree river, Rs. 3,270 in metalling the Nimtah road, and the balance in petty new works not requiring special notice. All these original works were completed during the year.

6. The work undertaken in Nuddea consisted chiefly of repairs, which cost Rs. 1,08,346-10-11, whilst Rs. 13,265-1-2 were expended on original works. The last-mentioned amount was chiefly laid out in constructing village roads, none of which is of sufficient importance in itself to deserve particular notice.

7. In Jessore no original works were undertaken during the year under report. The repairs cost Rs. 54,553-14-10.

8. In Moorshedabad repairs cost Rs. 38,629-11-10, against Rs. 22,077-8-2 expended on original works. The Patkabaree and Panchgaon roads were raised and bridged at a cost of Rs. 5,188-5-8 and Rs. 5,141-8-4 respectively. The other original works undertaken were of minor importance.

9. The progress made during the year on works in connection with repairs appears to have been satisfactory in every district in this division. Not having taken charge of the division until some months after the present report was due, it is not in my power to offer any further remarks on the proceedings of the District Committees.

REVISED DRAFT RULES PROPOSED UNDER ACT III (B.C.) OF 1876.

No. 200.

NOTIFICATION.—IRRIGATION BRANCH.

Dated the 13th June 1876.

In exercise of the powers conferred on him by Act III B.C. of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following draft rules for the Sone Canals.

Rules under Act III B.C. of 1876.

1. The Collector, before awarding compensation under sections 16 and 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Water shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur. From the decision of the Divisional Canal Officer an appeal shall lie to the Superintending Canal Officer, whose order shall be final.

3. Water shall not ordinarily be granted where the length of the water-course, from its head to its point of contact with the village boundary, would exceed two (2) miles.

4. Water for irrigation shall not be supplied, except through a water-course so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(*a*) the water will pass without wastage;

(*b*) the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation, will not be obstructed.

5. The Divisional Canal Officer may withhold or postpone the grant of water for a crop to any cultivator whose fields he may have ascertained by personal inspection (by himself or one of his assistants) to be unprepared for irrigation by division into compartments not greater in area than 1 cottah or 1361·23 superficial feet, and by the addition of small water channels, as is customary in irrigation from wells.

Rice-fields are exempted from the operation of this rule.

NOTE.—*This rule shall only apply in those cases in which the discovery is made previous to the first watering of a crop; the water having been once given cannot be withheld for that crop, but a higher rate may be levied as provided in Rule* 25.

6. Persons desiring to construct a village channel shall prefer a written application to the Divisional or Sub-Divisional Canal Officer. In the latter case the application shall be forwarded to the Divisional Canal Officer.

7. The application, if granted, shall be subject to the Act, and also, unless otherwise specially agreed upon, be deemed granted under the following conditions:—

(*a.*)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.

(*b.*)—That the applicants nominate a headman known or ascertained to be a substantial person possessed of property to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the water-course according to their shares, and to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the water-course.

(*c.*)—That in any case where persons desirous of taking water fail to appoint a headman, or cannot agree among themselves as to the headman, the Collector shall nominate, and the Divisional Canal Officer appoint, a headman.

(*d.*)—That the headman shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under Rule 10.

(*e.*)—That for each crop, previous to water being taken for any field, application shall be made in the prescribed form (Appendix A.) through the said headman to the Sub-Divisional Canal Officer or other officer authorized to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B.) from such officer.

(*f.*)—That in any case where the Divisional Canal Officer, owing to the known recusancy of any village, or of any class of cultivators, anticipates difficulty in realizing water-rates, he shall intimate the same to the Collector or Sub-Deputy Collector, in whose option it shall be to require payment of water-rates in advance.

(*g.*)—That any other cultivators in the same village, able and willing to irrigate their lands from the said water-course, shall be admitted as shareholders in the water-course on paying their proportionate share (to be determined by the amount of land they hold) of the first cost and maintenance of the water-course.

(*h.*)—That all alterations in the number of shareholders, distribution of shares, or nomination of headman, shall be reported for the sanction of the Divisional Canal Officer.

8. The Divisional Canal Officer may accept the nominee of the shareholders in a water-course as "headman" of such water-course, and is empowered to pay him the fees as hereinbelow detailed, subject to the condition of satisfactory performance of duty.

9. The allowance to the headman of a water-course for duties connected with that water-course, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be 5 per cent. on the assessments of canal water-rates derived from the water-courses in his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

10. The allowance to the headman of a water-course for collecting the water-rates shall be 5 per cent. on the assessments, and shall be paid by the Collector on receipt of the full payment of demand for that crop and not otherwise, unless he can satisfy the Collector that the balance in arrear is so through no negligence of his. The payment to be made within two months of the dates named in the permit.

11. An appeal against retrenchments under Rules 9 and 10 shall lie to the Superintending Canal Officer and Commissioner respectively if preferred within thirty days of such retrenchment, and the Superintending Canal Officer or Commissioner's decision shall be final.

12. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

13. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following regulations:—

(*a*)—No tank shall be so filled unless exclusively used for domestic purposes, and for watering cattle; such tanks are generally in the immediate neighbourhood of villages.

(*b.*)—No tank shall be so filled from which irrigation is practised.

(*c.*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d.*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer, issued on the written applications of the parties concerned. The filling of tanks can only be permitted at such times, and to such extent, as the Sub-Divisional Canal Officer approves.

(*e.*)—No tank shall be so filled unless the water-course used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f.*)—The privilege herein accorded may be suspended for twelve months for breach of these regulations, by written order of the Divisional Canal Officer, subject, however, to revision by the Superintending Engineer, whose decision shall be final.

14. The Divisional Canal Officer may, by written order under section 76 (*a*) (ii), stop the supply to any water-course when he has satisfied himself by personal inspection (by himself or one of his Assistants) that the water-course is not maintained in proper repair. Immediate report of any such closure shall be made to the Superintending Canal Officer, and the special ground for stoppage explained.

15. The Divisional Canal Officer may, under section 76 (*a*) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the headmen of water-courses. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Officer to stop any supply of water in case of pressing emergency.

16. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

17. Claims to remission, under section 76 (*b*), of ordinary charges payable for use of canal water shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss the Divisional Canal Officer may remit the whole or any portion of the charges. All applications for remission of water-rate shall be made to the Divisional Canal Officer at least seven days previous to the cutting of the crop. An appeal from the Divisional Canal Officer's decision shall lie to the Superintending Canal Officer, whose order shall be final.

18. Before awarding compensation under section 76 (*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. Under this rule an appeal shall lie to the Commissioner of the Division, whose order shall be final.

19. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follows:—

WATER-RATES.

NOTE.

* 1 Cottah = — = 1600 square feet.
1 Beegha = — = 3200 " "
Acre = — = 43560 " "

20. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

21. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

22. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate.

23. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

24. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant Governor.

25. Persons irrigating lands from a canal without a written permit for water for such lands, or taking water at times prohibited by proper authority, shall be chargeable with double water-rates on the area irrigated, in addition to such penalties as may be imposed under sections 93 and 94 of the Act.

26. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. five rupees per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower charge if he thinks fit.

27. If mixed crops be grown in the same field, the water-rate shall be calculated on the highest rated crop.

28. When the original crop sown in a canal-irrigated field fails and is ploughed up and a fresh crop is sown in the same season, the water-rates leviable shall be due on the second crop.

29. When a field is irrigated which has not been prepared by division into compartments and by the addition of small water channels as prescribed in Rule 5, an additional charge may be imposed, equal to half the amount of water-rate leviable on the field. In each case the Divisional or Sub-Divisional Officer must certify that he personally examined the field, and that it was not properly prepared for irrigation according to the terms of the rule.

30. The amounts demandable for water-rate shall be determined and apportioned by the Divisional Canal Officer.

31. All water-rates shall become due on the dates noted on the "permits," viz. the dates on which the crops ordinarily come to maturity, and are as follows:—

Water-rate on spring crops,—wheat, barley, peas, poppy, &c.,—shall become due on 31st March.

Water-rate on summer crops,—cheena, &c.,—shall become due on 30th June.

Water-rate on bhadoi crops,—seera rice, Indian-corn, murwa, &c.,—shall become due on 31st October.

Water-rate on annual and winter crops,—aghani rice, joaur, &c.,—on 31st December. and shall be paid within one month of such dates.

32. In the case of lands held on Báoli tenures, half the water rates shall be recoverable from the zemindar or landlord.

33. Collection of all water-rates will be made by the Collector strictly in accordance with the statement of demands furnished to him by the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

34. The Collector will make the collections through the Deputy Collectors attached to each division of the canal, and the Subordinate Canal Revenue Establishment.

35. Objections to the demand on the score of short supply, or of matters affecting the Irrigation Department, addressed to the Collector, shall be referred by him to the Canal Divisional Officer. Meanwhile the collection of the demand shall not be suspended.

36 Claims for remission so referred by the Collector, and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer.

37. A remission statement signed by the Superintending Canal Officer, shall be sufficient authority for a refund by the Collector.

38. If the decision of the Divisional Canal Officer uphold the original demand, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order. The decision of the Superintending Canal Officer shall be final.

39. In cases in which the water-rate is irrecoverable, from the absconding or bankruptcy of the defaulter, or when the question at issue does not depend on the canal supply, or the action of the Irrigation Department, the Collector will obtain sanction to remission of canal demands from the Commissioner of the Division All such remissions shall be reported at the close of each official year to the Divisional Canal Officer.

40. If a cultivator is dissatisfied with the entries made against him in the "permit" (Appendix B), whether as to the fact of the land having been charged "flow" instead of "lift," or as to the measurements and entries of class of crop, he must lodge a complaint, either personally or through the headman of his water-course, with the Divisional or Sub-Divisional Canal Officer within fifteen days of the issue of the permit.

41. No person, without the permission in writing of the Divisional or Sub-Divisional Canal Officers, shall pass, or shall cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting upon such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

42. No Canal Officer, unless specially exempted by the Lieutenant-Governor, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

to any country belonging to the Union not coming under the foregoing heads	5	1	1½

2. The higher rates thus prescribed for correspondence sent *viâ* Brindisi to the United Kingdom and countries served through it result from the conveyance of such mails by special train through Italy and France; and the lower rates of letter postage for Aden, Malta, and Gibraltar, are those hitherto in force, which it is not the object of the present arrangement to increase.

3. The annexed Schedule shows in detail the countries coming under the foregoing heads, as well as the routes and other particulars connected with the transmission of correspondence to them.

Printed Papers and Legal and Commercial Documents.

(N.B.—Attention is drawn to the limit of weight, *viz.* 2 lb, fixed for a packet of printed papers or legal and commercial documents. *See Schedule.*)

4. Under the head of "Printed Papers" are included newspapers, stitched or bound books, pamphlets, music, visiting cards, catalogues, prospectuses, announcements and notices of various kinds, whether printed, engraved or lithographed and photographs. Under the head of "Legal and Commercial Documents" are included acts or deeds of all kinds drawn up by public functionaries, invoices, policies of insurance, copies or extracts of deeds under private seal, written upon stamped or unstamped paper, scores or sheets of manuscript music, *and in general all manuscript papers and documents which have not the character of an actual and personal correspondence.*

5. Articles posted as "Printed Papers" or as "Legal and Commercial Documents" must be placed under bands or simply folded, so as to admit of the contents being easily examined, and, excepting as follows, "Printed Papers" must contain no manuscript writing, figure, or mark whatever:—

(*a.*) Proofs of printing or of music may bear corrections made with a pen, relating exclusively to the text or to the execution of the work. Manuscript may be annexed to such proofs.

(*b.*) Circulars, Notices, &c., may bear the signature of the sender, with his trade or profession, and may also show the place of origin and the date.

(*c.*) A book may contain a manuscript dedication or a complimentary inscription from the author.

(*e.*) Prices may be added in manuscript or otherwise on printed or lithographed stock and share lists, prices current, and market reports.

(*f.*) No other manuscript additions may be made; nor are typographical additions allowed, if they tend to take from the packet its general character.

6. Articles posted as "Printed Papers" or "Legal and Commercial Documents" which do not fulfil the foregoing conditions, or are not fully prepaid, will be treated as unpaid letters, with the sole exception of newspapers and printed papers, such as circulars, notices, &c., which will, in such cases, not be forwarded.

Patterns of Merchandise.

(*N. B.*—Attention is drawn to the limit of weight, *viz.* 8 ounces, fixed for a packet of patterns. *See Schedule.*)

7. Patterns of merchandise are chargeable with the reduced postage under the following conditions:—

(*a.*) They must be placed in bags, or in boxes, or envelopes removeable so as to admit of an easy examination of their contents.

(*b.*) They must not have any saleable value, or bear any manuscript writing other than the name or the trade or profession of the sender, the address of the person for whom the packet is intended, a manufacturer's or trade mark, numbers and prices.

8. Patterns of merchandise may not be introduced into a letter, or into a packet of any other kind, unless they form an integral part of a particular work.

9. Patterns not packed in accordance with these conditions, or not fully prepaid, will be treated as unpaid letters, except those which are valuable. The latter will not be forwarded, nor any of which the conveyance would be attended with risk or danger.

Money, Jewels, &c., and articles liable to customs duty.

10. No letter or packet containing gold or silver money, jewels, or precious articles, or any article liable to customs duty may be sent through the post under this Notification.

Correspondence received from countries belonging to the Union.

11. Although post cards are not among the classes of correspondence, for the transmission of which by post from India provision has been made, those received from other countries of the Union will be delivered in India as paid letters.

12. Letters received from any country of the Union as unpaid or insufficiently paid will be charged, on delivery, at the rate which would be chargeable on a letter posted in India for that country by the same route, together with an additional rate of two and a half annas per half ounce. The value of any stamps (as marked by the country of origin) which may be affixed to an insufficiently paid letter will be deducted from the amount thus chargeable, fractions of an anna in the remainder being raised to one anna.

13. No additional postage will henceforth be charged for the redirection of letters or other articles sent through the post from any foreign country, whether belonging to the General Postal Union or not, to any place in British India.

(*b*) a rate on the annual value of all holdings situated within the Municipality:

provided that such rate shall not exceed seven and a half per centum on the annual value of such holdings, except within the Municipality of Dacca, in which it shall not exceed ten per centum on such annual value; and provided also that no rate shall be imposed on any holding of which the annual value is less than six rupees.

Additional taxes.

78. The Commissioners may, from time to time, at a meeting convened as aforesaid, and with the sanction of the Lieutenant-Governor, order that the following tax, fee, and tolls, or any of them, be levied within the limits of the Municipality in addition to either of the taxes mentioned in the last preceding section:—

79. When it has been determined that a tax shall be imposed on persons occupying holdings within the Municipality, according to their circumstances and property, the Commissioners, after making such enquiries as may be necessary, shall cause to be prepared an assessment list which shall contain the following particulars, and any others which the Commissioners may think proper, to include:—

(*a*) name of the street or road in which the holding is situated;

(*b*) number of the holding on the register;

80. Save as is herein otherwise provided, every assessment of the tax upon persons, shall take effect from the beginning of the year next following that in which the notice required by section one hundred and three is published, and shall be valid for three years and until the beginning of the year next after the date on which a new assessment or valuation may be published, or until the assessment and valuation be revised and amended.

Provided that when Chapters I, II, and V are extended to any place, the first assessment may take effect from the beginning of the quarter next following that in which the said notice shall be published.

Provided also that whenever the tax on persons which was assessed under the District Towns' Act, 1868, remains in force in any second class Municipality and is levied therein under the provisions of section seven, the Commissioners may revise such assessment, or may make a new assessment, and may order that such revision or new assessment shall take effect from the beginning of the year next following the date on which the notice required by section one hundred and three is published.

In any Municipality in which the tax on persons is imposed, no tax shall be assessed on any person in respect of his occupation of any holding which is the property of Government and used for the purposes of a public building, but a rate of seven and a half per centum shall be assessed on the annual value of every such holding, to be ascertained in the manner prescribed by section ninety two, and such rate shall be payable by the Government.

Procedure if aggregate amount of rates assessed on any person exceeds Rs. 84 per annum.

82. Whenever any tax shall have been assessed on any person in respect of his occupation of two or more holdings, and the aggregate of the amount so assessed upon him shall exceed eighty-four rupees per annum, such person may, within fifteen days of the publication of the notice required by section one hundred and three, apply to the Commissioners to cancel such assessment, and to substitute for the total amount of tax so assessed upon him in respect of the said holdings a rate to be calculated at seven and a half per centum on the annual value of such holdings; and the Commissioners shall thereupon substitute such rate, and for the purpose of calculating the amount of such rate, shall determine the annual value of the said holdings in the manner prescribed by section ninety-two.

Every rate imposed under this section shall be payable by the occupier of the holdings so rated.

Power of exemption.

83. The Commissioners may exempt from assessment any person who may by them be deemed too poor to pay the tax; but the name of the occupier of every holding shall be included in the assessment list, whether he be assessed or exempted from assessment.

Power to apply for reduction of assessment in altered circumstances.

84. Any person mentioned in the assessment list, who shall at any time after the publication thereof have ceased to occupy any holding in respect of the occupation

of which he has been assessed, or whose means and property in respect of which he has been so assessed shall have been reduced, may apply to the Commissioners to exempt him from his assessment or to revise the same.

89. Save as is herein otherwise provided, such valuation shall be valid for three years from the date on which it first takes effect in the Municipality, and until the beginning of the year next after the date on which a new valuation may be made, or until the valuation be revised and amended.

Provided that whenever the tax on the value of holdings which was imposed and assessed under the District Municipal Improvement Act, 1864, remains in force in any Municipality and is levied thereon under the provisions of section seven, the Commissioners may revise the valuation and rating according to which such tax is being levied, or may make a new valuation and rating, and may order that such revision or such new valuation and rating shall take effect from the beginning of the year next following the date on which the notice required by section one hundred and three is published.

The Commissioners, in order to prepare the valuation list, may, whenever they think fit, by notice, require the owners or occupiers of all holdings to furnish them with returns of the rent or annual value thereof, and the Commissioners, or any person authorized by them in that behalf, at any time between sunrise and sunset, may enter, inspect, and measure any such holding after having given forty-eight hours' previous notice of their intention to the occupier thereof.

Annual value of holding how to be ascertained.

92. The gross annual rent at which any holding may be reasonably expected to let, shall be deemed to be the annual value thereof, and such value shall accordingly be determined by the Commissioners, and entered in the valuation list.

Determination of rate of tax on holdings.

93. Subject to the provisions of section seventy-seven, the Commissioners, at a meeting to be held before the close of the year next preceding the year to which the rate will apply, shall determine the percentage on the valuation of holdings at which the rate shall be levied, and the percentage so fixed shall remain in force until the order of the Commissioners determining such percentage shall be rescinded, and until the Commissioners at a meeting shall determine some other percentage on the valuation of holdings at which the rate will be levied from the beginning of the next year.

Provided that when Chapters I, II, and V are extended to any place, the first rate may be levied from the beginning of the quarter next after that in which the percentage has been fixed by the Commissioners at a meeting.

95. If any house belongs to one owner, and the land on which it stands and the adjacent land which is usually occupied therewith, belongs to another, the Commissioners may value such house and land together and may impose thereon one consolidated rate.

The total amount of the rates shall be payable by the owner of the house, who shall thereafter be entitled to deduct from the rent which he pays for the land such proportion of the rate as

paid by him as is equal to the proportion which such rent bears to the annual value of the holding.

If the owner of the house and the owner of the land do not agree in respect of the proportion of the rate so deducted by the owner of the house, the Commissioners shall, on the application of either party, make an award declaring the amount payable by each, and such award shall be final.

Tax due from non-resident owner may be recovered from occupier, and deducted by him from his rent.

96. If the sum due from the owner of any holding remains unpaid after the notice of demand has been duly served, and such owner be not resident within the Municipality, or the place of abode of such owner be unknown, the same may be recovered from the occupier for the time being of such holding, who may deduct, from the next and following payments of his rent, the amount which may be so paid by or recovered from him:

Provided that no arrear of rate, which has remained due from the owner of any holding for more than one year, shall be so recovered from the occupier thereof.

Power of Commissioners in cases of excessive hardship.

97. Whenever, from the circumstances of the case, the levy of the rate on any holding in the Municipality would be productive of excessive hardship to the person liable to pay the same, the Commissioners at a meeting may reduce the amount payable on account of such holding, or may remit the same.

Application for reduction of assessment.

98. If the value of any holding shall be diminished from any cause beyond the control of the owner thereof, the owner thereof may apply for reduction of the valuation of the same.

99. The Commissioners may, at any time after the publication of the notice required by section one hundred and three, value and rate any holding which was without authority omitted from the valuation and rating list, or which has become liable to valuation and rating after the publication thereof, and may enhance the valuation and rating of any holding which may appear to have been insufficiently valued or rated through mistake or fraud; and may re-value and re-assess the rate on any holding the value of which has been increased by additions or alterations to any building thereon.

Any rate imposed or enhancement made under this section shall take effect from the beginning of the quarter next following that in which the rate shall be imposed or enhancement made.

Power to revise assessment list.

100. The Commissioners may at any time substitute for any name mentioned in the valuation and rating list the name of any person to whom any holding mentioned therein shall have been transferred.

Such person shall be liable to pay the rate payable on such holding from the first day of the quarter next after the date of the transfer.

Remission or refund on account of vacant holdings.

101. When any holding has been vacant for sixty or more consecutive days during any year, the Commissioners shall remit, and, if the rate has been paid, shall refund, one-half of so much of the rate of that year as may be proportionate to the number of days the said holding has remained unoccupied; provided that the owner of such holding, or his agent, has given to the Commissioners notice in writing of the vacancy thereof.

The amount of tax to be remitted or refunded shall be calculated from the date of the delivery of such notice.

Penalty.

102. Whoever, being the owner of any holding for which a remission or refund of the rate has been made under the last preceding section, fails to give notice of the re-occupation of such holding within ten days of such re-occupation, shall be liable to a fine not exceeding three times the amount of rate payable quarterly on such holding.

Of general provisions relating to the tax on persons and the rate on holdings and to the recovery of the same.

Publication of notice of assessments.

103. When the assessment list of the tax upon persons or the valuation and rating list of the rate on the annual value of holdings shall have been prepared or revised, the Chairman shall sign the same, and shall cause it to be deposited in the office of the Commissioners, and shall cause the notice in form (A) or the notice in form (B) of the first schedule (as the case may be) to be published in the manner prescribed by section three hundred and sixty-five.

Application for review.

104. Any person who is dissatisfied with the amount assessed upon him, or with the valuation or rating of any holding,

or who disputes his occupation of any holding, or his liability to be assessed, or rated,

may apply to the Commissioners to review the amount of assessment, valuation, or rating, or to exempt him from the assessment or rate.

Procedure upon review.

105. Every application presented under the last preceding section shall be heard and determined by not less than three Commissioners, who shall be appointed on that behalf by the Chairman. The Commissioners so appointed, after making such inquiries as they may deem necessary, may pass such order as they shall think fit in respect of such application.

The decision of such Commissioners, or of a majority thereof, in such cases shall be final.

Limitation of time for application of review.

106. Unless good cause shall be shown to the satisfaction of such Commissioners for extending the time allowed, and save as is otherwise expressly provided in this Act, no such application shall be received after the expiration of one month from the date of publication of the notice required by section one hundred and three relating to the list containing the assessment, valuation, or rating in respect of which the application is made, or after the expiration of fifteen days from the date of service of the first notice of demand for payment at the rate in respect of which the application is made, whichever period shall last expire.

108. By notification to be posted up in their office, the Commissioners shall declare at what hours of each day (not being a Sunday or other recognized holiday) the office shall be open for the receipt of money.

Tax payable in advance.

109. The amount due by any person on account of the tax on persons, or the rate on holdings, shall be deemed to be the amount entered in the lists the notice relating to which is published under section one hundred and three, unless the amount entered in such lists is subsequently altered by the Commissioners as provided in this Act, in which case the amount to which the assessment or rating is so altered shall be deemed to be the amount due.

Every instalment of such tax or rate shall be deemed to be due on the first day of the quarter in respect of which such instalment is payable.

Receipts to be given.

110. For all sums paid on account of any tax or rate under this Act, a receipt stating the amount and the tax or rate on account of which it is paid shall be given, signed by the tax-collector or by some other officer authorized by the Commissioners to grant such receipts.

Bill and notice of demand to be presented after one month.

111. At any time within six months after any sum has become due on account of any tax or rate, the Commissioners shall cause to be served upon the person liable to the payment thereof a bill for the said sum, which shall contain a statement of the period and of the tax or rate on account of which the charge is made.

If the amount mentioned in such bill be not paid on presentation thereof, a notice of demand in the form marked (A) in the second schedule, with copy of the bill appended thereto, shall be served on the person liable to pay the same, and such notice of demand may be served at any subsequent time, provided that no charge shall be made in respect of the service of such notice.

Such notice shall be signed by the Chairman or an officer authorized in that behalf, and shall be served by a person authorized to receive payment.

If not paid in fifteen days, process of distress may issue.

112. If any person, after service upon him of such bill and notice, shall not, within fifteen days of the service of such notice or from the date of any order made on an application for review under section one hundred and five, pay the sum due, either to the Commissioners at their office, or to some person authorized by them to receive the money, or show to the Commissioners sufficient cause for not paying the same, the amount of the arrear due, with costs on the scale shown in the table of fees marked (B) in the second schedule, may at any time within three months after the date of service of the said notice, or of the order made on an application to review as aforesaid, be levied by distress and sale of any moveable property belonging to the defaulter, except ploughs, plough-cattle, tools or implements of trade or agriculture, wherever found, or of any such moveable property, subject to the same exceptions, which may be found within the holding in respect of which such defaulter is liable to such tax or rate.

If the said property or any part thereof belong to any person other than the defaulter, the defaulter shall be liable to indemnify the owner thereof for any damage he may sustain by reason of such distress, or by reason of any payment he may make to avoid such distress or any sale under the same.

Distress how to be made.

Officer may break open door.

114. The officer charged with the execution of the warrant may, under the special order of the Commissioners, between sunrise and sunset, break open any outer or inner door or window of a house, in order to make the distress, if he has reasonable ground for believing that such house contains any moveable property belonging to the defaulter, and if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance.

Provided that he shall not enter or break open the door of any room appropriated for the zanáná, or residence of women, which by the usage of the country is considered private, except after three hours' notice and opportunity given for the retirement of the women.

On payment of tax, Commissioners to give a license.

126. On receiving the amount of the tax due as aforesaid, the Commissioners, or some person authorised by them in that behalf, shall give to the person paying the same a license for the several carriages, horses, and other animals for the period in respect of which the amount is received.

Such license shall be for the current half-year and no longer.

129. The Commissioners at their discretion may compound, for any period not exceeding one year, with livery stable-keepers and other persons keeping carriages or animals for hire, for a certain sum to be paid for the carriages or animals so kept by such person, in lieu of the tax at the rates specified in any order made by the Commissioners under sections one hundred and twenty-two and one hundred and twenty-three.

The Commissioners shall from time to time cause to be prepared and entered in a book, to be kept by them, and to be open to the inspection of any person interested therein, a list of the persons to whom, during the then current half-year, a license has been given, and of the carriages, horses, and other animals in respect of which they have paid the tax.

131. The Commissioners, or any person authorized by them in that behalf, may at any time between sunrise and sunset enter and inspect any stable or coach-house, or any place wherein they may have reason to believe that there is any carriage, horse, or other animal liable to the tax for which a license has not been duly taken out.

And the Commissioners may summon any person whom they have reason to believe to be liable to the payment of any such tax, or any servant of such person, and may examine such person or servant as to the number and description of the carriages, horses, and other animals in respect of which such person is liable to be taxed.

132. On proof being given to the satisfaction of the Commissioners that a carriage, horse, or other animal for which a license has been taken out for any half-year has ceased to be kept or to be used within the Municipality during the course of such half-year, the Commissioners shall order a refund of so much of the tax for the half-year as shall bear the same proportion to the whole tax for the half-year as the period during which such carriage, horse, or other animal has not been kept or used in the Municipality bears to the half year; but no such refund shall be allowed unless notice be given to the Commissioners within one month of the time when such use of such carriage, horse, or other animal ceased, and the Commissioners shall pass no order for refund until after the close of the half-year in respect of which the refund is claimed.

huts which should be removed, the roads, drains, and sewers which should be constructed, and the low lands which should be filled up, with a view to the removal of the said risk of disease.

On receipt of report Commissioners may cause notice to be served.

Expenses may be recovered by instalments or remitted in case of poverty.

266. The Commissioners at a meeting may order that any expenses payable in respect of any work done by them in consequence of the failure of the owners or occupiers to execute such work when required to do so under the last preceding section, shall be recovered by instalments from the person liable to pay the same; or if it should appear to them that the said person is unable by reason of poverty to pay the same, may order the same, or any portion thereof, to be paid out of the Municipal Fund.

267. If any of the said huts be pulled down, the Commissioners shall cause the materials of each hut to be sold separately, if such sale can be effected, and the proceeds shall be paid to the owner of the hut; or if the owner be unknown, or the title disputed, shall be held in deposit by the Commissioners, until the person interested therein shall obtain the order of a Civil Court of competent jurisdiction for the payment of the same.

If Commissioners fail to act, Lieutenant-Governor may take steps.

268. In case the Commissioners should omit to take any action under sections two hundred and sixty-four and two hundred and sixty-five, or in the opinion of the Lieutenant-Governor should fail to give proper effect to the provisions thereof, the Lieutenant-Governor may cause any block of huts to be inspected by the Sanitary Commissioner of Bengal, who shall make a report in writing to the Lieutenant-Governor on the sanitary condition of the locality, and in the event of his reporting that the sanitary condition of the locality is such as to be attended with risk of disease to the inhabitants or the neighbourhood, shall specify the huts which should be removed, the roads, drains, and sewers which should be constructed, and the low lands which should be filled up, with a view to the removal of the said risk of disease.

If Commissioners make default in carrying out order, Lieutenant-Governor may carry it out.

270. If the Commissioners make default in carrying out the said order of the Lieutenant-Governor, the Lieutenant-Governor may appoint some officer to perform the same, and such officer may exercise such powers as the Commissioners, or the Commissioners at a meeting, might have exercised in respect of the execution of the required works, and in respect of the recovery of the expenses incurred thereby, and shall be liable to all or any of the obligations imposed upon the Commissioners by section two hundred and sixty-seven, and the expenses incurred by such officer in the execution of the said works shall, subject to the provisions of section two hundred and sixty-six, be paid by the owners or occupiers of the huts, or the owner of the land, as the Lieutenant-Governor may direct.

273. Any Magistrate, on the application of the Commissioners or any of their officers, setting forth that there is just cause to believe that any article which has been rendered, or has become noxious or unfit for use as food or drink for man, is in the possession of any person for the purpose of being sold or offered, or exposed for sale, within the limits of a Municipality, as food or drink for man, may grant a warrant to enter upon the premises of such person, and to search for and seize such article;

and if it appear to the said Magistrate that the same is noxious or unfit for such use, he shall order it to be forfeited and disposed of in such way as to him shall seem proper.

Power to Commissioners to enter and inspect markets, shops, &c., and to seize unwholesome articles exposed for sale.

274. articles of food or drink appear to be intended for the food or drink of man, and to be unfit for such food or drink, may seize the same;

Of Unions.

Extent and commencement of this Chapter.

319. In every place which, in accordance with the provisions of section three, becomes a Union under this Chapter, every person who has been appointed to be a member of a panchait for such place under Act XX of 1856, and is serving as such member at the commencement of this Act, shall be deemed to be a member of the panchait duly appointed for such Union; and in every such Union any tax which may have been imposed and assessed under the provisions of the said Act shall be deemed to have been imposed and assessed under this Chapter, and may be levied as in this Chapter provided.

Lieutenant-Governor may extend Chapter.

320. The provisions of this Chapter may be extended by the Lieutenant-Governor, by notification published in the *Calcutta Gazette*, to any city, town, suburb or bazar not being within the limits of the ordinary original jurisdiction of the High Court at Fort William in Bengal, from such date as may be specified therein, and shall thereupon come into force in such city, town, suburb or bazar on the date so specified.

Lieutenant-Governor may vary limits of town or withdraw it from operation of Chapter.

321. The Lieutenant-Governor may, by like notification, at any time vary the limits of any Union, or withdraw any Union from the operation of this Chapter.

Unions may be formed.

322. The Lieutenant-Governor may, by notification to be published in the said *Gazette*, form into a Union for the purposes of this Chapter any city, town, suburb, or bazar, or any part or parts of a city, town, suburb, or bazar with any other city, town, suburb, or bazar, or part or parts of a city town, suburb, or bazar; but no agricultural village intervening shall be included in such Union.

Government may define limits of towns, &c

323. For the purposes of this Chapter, the Lieutenant-Governor may define and declare the limits of any Union formed under the last preceding section, and all occupiers of houses within any such Union shall be liable to be assessed according to the provisions of this Chapter for the purposes mentioned in the next succeeding section; but such Union shall not include any agricultural village.

Magistrate to raise amount of expense.

324. The Magistrate of every Union shall, by ways and means in and by this Chapter provided, cause to be levied and raised in such Union the amount of the expense of the police to be borne under the provisions of this Chapter by such Union, and the cost of raising such amount; and the Magistrate may by the same ways and means cause to be levied such further sum as to him shall seem meet, and apply the same in cleansing such Union, in providing drinking-water or in lighting or otherwise improving the same:

Provided that the aggregate amount to be raised under the provisions of this section shall not exceed the average rate of one rupee and eight annas per annum for each house, and the amount assessed in respect of any one house shall not be more than the pay of a police officer of the lowest grade who is appointed to such Union.

The Town Fund.

325. All sums raised, levied, or received by the Magistrate, and all fines paid or levied under this Chapter, and all other sums which the Lieutenant-Governor may direct, shall constitute a fund which shall be called the Union Fund of the Union on account of which they are raised, levied, or received; and all expenditure authorized by this Chapter shall be made from such fund.

Magistrate may cause estimates to be prepared.

326. The Magistrate shall, before the close of each year, cause to be prepared in detail estimates showing the probable receipts and expenditure of the Union during the ensuing year, and shall lay such estimates before the Commissioner of the division, who may accept, amend, or reject the same.

Nature of the tax to be levied.

327. The tax to be levied in any Union for the purposes of this Chapter shall be an assessment according to the circumstances and the property to be protected of the persons liable to the same.

Constitution of panchaits.

328. For the purposes hereinafter mentioned, the Magistrate shall constitute and appoint a panchait for each Union, or, when he may see fit to divide any Union into convenient wards, for each ward thereof; and shall issue a certificate of appointment, specifying the names, residence, business, or other description of the persons appointed, and the period for which the appointment is made.

Every panchait shall consist of three or five respectable persons residing or carrying on business in or near to any such Union, or in or near to any such ward thereof:

Provided that instead of any one such person, the Magistrate may appoint any person whom he may think fit to be a member of the panchait notwithstanding such person may not reside or carry on business in or near to such Union, or in or near to any such ward thereof.

Duties of panchait.

329. The panchait so appointed, or the majority of them, shall, once in every year, if required so to do by the Magistrate, prepare and make, in accordance with the rules laid down in the requisition, an assessment upon the several persons liable to be assessed in respect of their occupation of property within the Union, or any ward thereof as aforesaid for which the panchait shall be appointed, and shall enter the same in a list which shall specify the names of the several occupiers of property within such Union or ward thereof liable to be assessed under the provisions of this Chapter, the trade, business, or other description of such occupier, the property occupied, and the amount payable monthly by such occupier.

Form of Magistrate's requisition.

330. The requisition of the Magistrate to the panchait to make out such list shall be in the form marked (A) set forth in the fourth schedule, or to the like effect.

Panchait may revise existing assessment.

331. The panchait shall, if required by the Magistrate so to do, instead of making a new assessment, revise and amend the assessment then in force.

Magistrate may amend and settle assessment as revised by the panchait.

332. When an assessment shall have been made or revised, as the case may be, the panchait shall forward to the Magistrate the list containing the same, and the Magistrate shall revise and, if necessary, amend and settle it.

Magistrate may exempt occupiers unable to pay the assessment.

333. The Magistrate may, at his discretion, exempt from the assessment any occupier who may be unable from poverty to pay the same.

Notice of assessment to be published.

334. When the assessment shall have been settled, the Magistrate shall sign the list, and shall cause a copy thereof to be prepared in the form (B) in the fourth schedule, and deposited in his office, and a notification in the form (C) of the said schedule or to the like effect, and written in the language which is ordinarily spoken in such Union, to be published in the manner provided in section three hundred and sixty-five.

Assessment to stand good for one year.

335. Unless revised or corrected as hereinafter provided, every assessment made under this Chapter shall stand good for one whole year, and until a new one is made.

In case the occupier of any property included in any assessment shall be changed before a new assessment is made, the new occupier, instead of the former occupier thereof, shall be liable in respect of such property for any portion of the assessment which shall have become payable during his occupation; and, after notification to such person, the Magistrate may cause his name to be substituted in the said list for the name of the former occupier.

Change of occupation before a new assessment.

Every assessment which shall be revised according to the provisions of section three hundred and thirty-one shall be deemed a new assessment;

Revised assessment to be deemed a new one.

Provided that if no new assessment is made within the first three months of any year, a notification of the list of the previous year shall be published as required by section three hundred and thirty-four, and such list shall thereupon be deemed to be the assessment for the current year, and shall be open to appeal under the next succeeding section.

Appeal from assessment.

336. Any person assessed who shall be dissatisfied with his assessment or who shall dispute his occupation of any property, or his liability to be assessed, may appeal to the Magistrate; and the Magistrate, after making such inquiries as he deems necessary, by examination of the appellant on oath or solemn affirmation, or otherwise, may confirm the assessment or amend the same.

The decision of the Magistrate in such cases shall be final, and no objection shall be taken to any assessment, nor shall the liability of any person to be assessed be questioned in any other manner or by any other court:

Provided that no appeal shall be received after the expiration of one month from the time of the publication of the notification prescribed by section three hundred and thirty-four, or of the notification of the substitution of the name of an occupier under section three hundred and thirty-five, unless the Magistrate, upon reasonable cause shown, shall extend the time for receiving such appeal.

Commissioner of division may direct revision of assessment.

337. The Commissioner of the division, with the consent of the Lieutenant-Governor, may at any time direct the Magistrate to revise the assessment of any Union, or ward thereof as aforesaid, specifying the reasons which, in his opinion, render such revision necessary, and the Magistrate shall, according to such direction, revise and, if necessary, amend the same.

Magistrate may direct revision of assessment at any time of the year for reasons to be stated.

338. The Magistrate may require the panchait to revise the assessment at any period during the year, but on every such occasion he shall address a written order to the panchait specifying the reasons which render such revision necessary, and requiring an amended return within a stated period.

Publication of assessment as revised under the two last sections.

339. Whenever any assessment is revised during the year as provided in the two last preceding sections, a copy of such revised list shall be prepared and deposited as provided in section three hundred and thirty-four, and a notification shall be published in the manner directed in the said section. And all objections to such revised assessment shall be made and dealt with in the manner prescribed by section three hundred and thirty-five.

If panchait refuse or omit to act, Magistrate may assume their functions.

340. If the persons appointed a panchait, or a majority of them, refuse or omit, for a period of fifteen days after the receipt of an order from the Magistrate, to perform the duties required of them, the Magistrate may himself make or revise the assessment, and may enforce the same as if it had been made or revised in the first instance by the panchait:

Provided that the functions of the panchait shall not thereby absolutely cease and determine, but may be resumed at any time, only not so as to invalidate any act done by the Magistrate under this section.

Duration of panchait and service thereon.

341. Every panchait shall be appointed for the period of one year, and any person who has served as member of a panchait during one year may be reappointed so to serve during the following year.

Member of panchait removeable only on application of rate-payers.

342. If a majority of the persons assessed in any Union or ward for which a panchait shall be appointed, not being in arrear, make application in writing to the Magistrate for the removal of any member of the panchait appointed for such district, the Magistrate, if he think it expedient, may remove such member from the panchait.

Vacancies in panchait how to be supplied.

343. If any vacancy shall occur among the members of a panchait, or if any member appointed shall refuse or decline or be unable to act, the Magistrate may, by a written communication to the person appointed, nominate and appoint another person to supply the vacancy or to be a member of the panchait.

Appointment and duty of sudder panchait.

344. In cities and large towns containing three or more divisions or districts, the Magistrate may appoint a sudder panchait consisting of not less than five members, who may be selected either from the members of the local panchaits or from any other residents of the town.

It shall be the duty of the sudder panchait to assist the Magistrate, when required so to do, in carrying out generally the objects of this Chapter, and particularly in revising the assessment made by the panchaits of wards of the Union, and inquiring into, and reporting on, appeals preferred against the same.

Appointment of Tax Collectors and other establishments.

345. Subject to the approval of the Commissioner of the division, the Magistrate may appoint one or more tax collectors and such other servants as may be necessary for preparing, or assisting the panchait in preparing the assessment, for copying the same, for collecting the tax, keeping the accounts and records, and otherwise carrying out the purposes of this Chapter. The Magistrate shall take from every tax collector such security for the due disposal of the sums collected by him as may be thought necessary.

Collection of assessment.

346. On such dates as may be fixed by the panchaits for payment of instalments of the tax, the tax collector shall proceed in person, or through some one of his office establishment, to collect the amount due for the current month from each person subject to the tax, and for all sums so collected the tax collector shall grant a receipt.

Provided that, with the sanction of the Commissioner of the division previously obtained, the collection may be made quarterly instead of monthly, and in such case the amount due for each quarter shall be collected in the last month of that quarter.

Recovery of sums not paid to the Tax Collector.

347. For the recovery of all sums which may not be paid to the tax collector on demand, the Magistrate shall proceed as far as possible in accordance with sections one hundred and eleven to one hundred and twenty (both inclusive).

Part V of Chapter II is applicable to towns.

348. The provisions of Part V of Chapter II shall, as far as possible, be applicable to Unions. In so applying them, the sections of the said Part shall be read as if the word "Union" were substituted for the word "Municipality," and for the word "municipal," wherever such words occur;

and all functions assigned to the Commissioners of Municipalities by the said Part shall be performed by the panchaits of Unions:

provided that the District Superintendent of Police shall present his estimate as mentioned in section one hundred and sixty-seven to the Magistrate, and not to the panchait;

provided also that the Magistrate shall cause such estimate to be translated, made available for inspection by any tax-payers, and laid before the panchaits in the manner provided in section one hundred and sixty-nine, and that the District Superintendent of Police shall cause the bill mentioned in section one hundred and seventy-three to be laid before the Magistrate and not before the panchait, and the Magistrate shall cause the amount to be paid as provided in the same section.

Penalty for removing, &c., name of street or number of house.

349. The Magistrate may cause a name to be given to any street and affixed in such place or places as he may think fit, and may also cause a number to be affixed to every house for the purpose of identifying such house; and if any person shall wilfully remove, obliterate, or destroy such name or number, he shall be liable to a fine not exceeding twenty rupees.

PART VI.

Bill of the Legislative Council of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following further Report of a Select Committee, together with the Bill as settled by them, was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 22nd June 1876:—

We, the undersigned Members of the Select Committee to which the Bill to extend certain parts of the Code of Criminal Procedure to the Courts of the Police Magistrates in the Presidency towns was referred, have the honor to report that we have considered the Bill and the papers noted in the margin.

From Home Department, No. 979J., dated 14th June 1876, forwarding letter from Government of Bombay, No. 2990, dated 30th September 1875, and enclosures.

2. We have provided (section 1) that the Bill shall come into force, not at once, but on such day as the Governor-General in Council directs by notification.

3. We have defined the word 'place,' and have struck out as unnecessary the definitions of 'special and local law,' 'inquiry,' 'inquired into,' 'cognizable and non-cognizable offence,' 'Magistrate,' 'High Court.'

4. For the same reason we have omitted the clause relating to the salaries of Presidency Magistrates.

5. We have also omitted the provision that such Magistrates shall exercise the powers which under any law may be exercised by two Justices of the Peace.

6. We have struck out the clause declaring that *all* existing Magistrates of Police (honorary as well as stipendiary) shall be deemed Presidency Magistrates under the proposed Act. The Local Governments will therefore have to make timely arrangements for re-appointing such of those Magistrates as they may deem fit to exercise the enhanced powers which Presidency Magistrates will possess.

7. We have provided (section 11) that no punishment inflicted by a Presidency Magistrate shall exceed the punishment provided for the offence by the Penal Code or other law creating it. Under the Bill, as it recently stood, a Magistrate might give two years' imprisonment for criminal trespass.

8. We have struck out as unsuited to the Presidency towns the provisions authorizing the issue of process upon mere suspicion entertained by a Magistrate.

9. We do not think it expedient that any previous conviction should be allowed to be proved in order to enhance punishment: we have therefore (section 94) confined for this purpose previous convictions to those of offences against property, of offences relating to coin and stamps, and of the other offences enumerated in sections 2 and 4 of the Whipping Act.

10. We think that a Presidency Magistrate should record the evidence in all appealable cases, *i.e.* as the Bill now stands, in all cases in which he inflicts a fine exceeding Rs. 200, or imprisonment for a term exceeding six months. We have altered section 115 accordingly. We have also amended the rules (section 16) relating to the record of confessions.

11. As the powers of Presidency Magistrates will be so much increased, we think that in all serious cases a formal charge should be compulsory. We therefore propose (section 116) to require a charge in all cases punishable with imprisonment for a term exceeding six months; and we have taken from the Code of Criminal Procedure, sections 126 and 127, provisions as to the time at which the charge shall be drawn up and as to explaining it to the accused.

12. We think that whenever the Magistrate inflicts imprisonment, or fine exceeding Rs. 50 (and not merely in cases which are appealable to the High Court), he should add to the final order a brief statement of the reasons for the conviction. We have provided for this in section 126.

13. We have empowered (section 146) a Presidency Magistrate to obtain, for the purposes of inquiries and trials, not only letters, but telegrams. But we have provided that when he is not the Senior Magistrate, the direction to deliver the letter or telegram required must come from the Senior Magistrate.

14. We have enabled (section 153) the Magistrate to examine the Chemical Examiner. As the latter official usually resides near at hand, there is not the same objection as there would be to calling him in the mofussil.

15. We have provided (section 158) that commissions addressed to the Magistrate of the district may be executed by such Magistrate of the first class as he appoints.

16. In the part of the Bill (sections 159—166) which relates to search-warrants, we have added sections corresponding with sections 382 and 386 of the Criminal Procedure Code.

17. We have extended (section 167) the right of appeal against convictions. As the Bill now stands, convicted persons may appeal where the Magistrate has sentenced them to imprisonment for a term exceeding *six* months, or to fine exceeding Rs. 200. The jurisdiction of the Magistrates without appeal will thus nearly correspond to what it is at present.

18. We see no objection to the principle of giving power to Government to appeal in case of acquittal—a principle which is recognized in the Code of Criminal Procedure. But by section 168 we have diminished, from six to two months, the period within which such appeals must be presented under the proposed Act; and we have empowered the High Court, on admitting the appeal, to order the accused to be arrested and to commit him to prison or release him on bail: in this respect the Code seems defective.

19. We have altered the section (181) relating to applications under Act X of 1875, section 147. Section 181 now provides that whenever such an application is made, the applicant shall give notice to the Public Prosecutor, &c., and that no order shall be made on the merits unless at least twenty-four hours have elapsed between the giving of the notice and the hearing.

20. We have struck out the clause giving appeals to the High Court in cases of contempt. Such cases will stand on the same footing with other decisions of Magistrates.

21. We have taken away the power to award costs as distinguished from compensation.

22. We have also struck out the power (taken from Madras Act VIII of 1868, section 15) to order the restitution of property forming the subject of a charge on which a conviction has been obtained. The matter seems to a majority of us sufficiently provided for by section 242.

23. The Bill in many cases required that a seal be affixed to warrants, charges, and decisions. We see no practical advantage in these requirements and have therefore struck them out.

24. We have provided (section 232) that the sections relating to security for good behaviour shall not apply to European British subjects in cases where they may be dealt with under the European Vagrancy Act.

25. We have found it expedient to re-arrange the Bill. As last published, it closely followed the order of the present Code of Criminal Procedure, which order may for our purpose be usefully altered.

We have therefore divided the Bill into four Parts and twenty-one Chapters, arranged as follows:—

Part I contains the usual preliminary matter, and a chapter dealing with the constitution and powers of the Presidency Magistrates' Courts.

Part II treats of an ordinary case from its inception to execution. It deals successively with the following subjects: the place of inquiry: complaints: prosecutions in certain cases: summons: warrant: bail: inquiry into cases triable by the High Court: the charge: trial of cases: evidence: appeals: execution.

Part III relates to special proceedings and treats of the following subjects: criminal lunatics: contempts: security for keeping the peace: security for good behaviour: restoring possession of immoveable property: maintenance of wives and children.

Part IV contains some miscellaneous matters. It treats, for instance, of offences against the Railway, Telegraph, Post Office and Arms Acts. It provides for references of questions of law to the High Court: for the disposal of property respecting which an offence has been committed: for the payment of the expenses of complainants and witnesses: for giving information of certain offences, and for assisting the Magistrates and the Police to prevent a breach of the peace, to suppress a riot: and to take a person whose arrest is authorized.

26. We have found it expedient to make a number of amendments in the wording of the sections taken from the Code of Criminal Procedure.

27. We have been urged to extend to the Presidency Towns Chapter XXXIX (as to Local Nuisances) of the Code of Criminal Procedure. But we think that the matter is more properly provided for by the local Municipal Acts.

28. We think that the Bill has been so altered that it should be republished, and we accordingly recommend that it be republished in the *Gazette of India*, in the *Calcutta Gazette*, the *Fort St. George Gazette*, and the *Bombay Government Gazette*, and that its further consideration be stayed until the Council re-assembles in Calcutta.

When summons may issue.

34. When a complaint is made before a Presidency Magistrate having jurisdiction in the case that any person has committed, or is suspected of having committed, any offence triable by such Magistrate and punishable with fine only, or with imprisonment for a period not exceeding six months, or with both, the Magistrate may issue his summons directed to such person, requiring him to appear to answer the complaint at a certain time and place before such Magistrate as may then be there.

If the Magistrate believes that the accused person is about to abscond, he may, instead of issuing a summons, issue a warrant in the first instance for the arrest of such person.

When warrant or summons may issue on complaint.

35. When a complaint is made before a Presidency Magistrate having jurisdiction in the case that any person has committed, or is suspected of having committed—

(*a*) any offence triable by such Magistrate and punishable with imprisonment for a period exceeding six months, or

(*b*) any offence triable exclusively by the High Court, or which, in the opinion of such Magistrate, ought to be tried by the High Court,

such Magistrate may issue his warrant to arrest such person, or, if he thinks fit, his summons directed to such person, requiring him to appear to answer the complaint at a certain time and place before such Magistrate as may then be there.

Warrant to arrest, if summons not obeyed.

36. If the person served with a summons does not appear before the Magistrate at the time mentioned in such summons, and the Magistrate is satisfied that such summons was duly served in what he deems a reasonable time before the time therein appointed for appearing pursuant thereto,

or if it appears to the Magistrate that, after due diligence, the summons could not be served according to the provisions of this Act,

the Magistrate may issue his warrant to apprehend the accused person.

Magistrate may dispense with personal attendance of accused.

37. Whenever the Magistrate issues a summons, he may if he sees sufficient cause, dispense with the personal attendance of the accused person, and permit him to appear by his advocate, attorney, or pleader.

But such Magistrate may in his discretion, at any stage of the proceedings, direct the personal attendance of the accused person, and, if necessary, enforce such attendance by issuing a warrant to arrest him.

CHAPTER V.

OF PROSECUTIONS IN CERTAIN CASES.

Prosecutions for offences against the State.

38. A complaint of an offence punishable under chapter VI of the Indian Penal Code, except section 127, or punishable under section 294A of the same Code, shall not be received by any Presidency Magistrate, unless it be made by order of, or under authority from, the Governor-General in Council or the Local Government, or some officer empowered by the Governor-General in Council to order or authorize such complaint, or unless it be made by the Advocate-General.

Prosecution of Judges and public servants.

39. A complaint of an offence of which any Judge, or any public servant not removable from his office without the sanction of the Government, is accused as such Judge or public servant, shall not be received by any Presidency Magistrate, except with the previous sanction, or under the direction,

(*a*) of the Government, or

(*b*) of some officer empowered in this behalf by the Government, or

(*c*) of some Court or other authority to which such Judge or public servant is subordinate, and whose power so to sanction or direct such complaint has not been limited by the Government.

No such Judge or public servant shall, unless with the previous sanction of the Government, be prosecuted for any act purporting to be done by him in the discharge of his duty.

Power of Government as to prosecution.

The Government may, in any case or class of cases, prescribe the person by whom, and the manner in which, the prosecution is to be conducted, and may specify the Court before which the trial shall be held.

Definition of 'Government,' 'Judge,' and 'public servant.'

In this section the expression 'Government' means either the Local Government or the Governor-General in Council, and the expressions 'Judge' and 'public servant' have the meaning assigned to them respectively by the Indian Penal Code.

Prosecution for contempts of the lawful authority of public servants.

40. A complaint of any offence described in chapter X of the Indian Penal Code, not falling within section 175, 178, 179, 180, or 228 of that Code, shall not be received by any Presidency Magistrate, except with the sanction or on the complaint of the public servant concerned, or of his official superior.

Sanction to prosecution for certain offences against public justice.

41. A complaint of an offence against public justice, described in section 193, 194, 195, 196, 199, 200, 205, 206, 207, 208, 209, 210, 211, or 228 of the Indian Penal Code, when such offence is committed before or against a Civil or Criminal Court, shall not be received by any Presidency Magistrate, except with the sanction of the Court before or against which the offence was committed, or of some other Court to which such Court is subordinate.

Sanction to prosecution for certain offences relating to documents given in evidence.

42. A complaint of an offence relating to documents, described in section 463, 471, 475, or 476 of the Indian Penal Code, when the document has been given in evidence in any proceedings in any Civil or Criminal Court, shall not be received against a party to such proceedings by any Presidency Magistrate, except with the sanction of the Court in which the document was given in evidence, or of some other Court to which such Court is subordinate.

Nature of sanction necessary.

43. The sanction referred to in sections 40, 41, and 42 respectively may be expressed in general terms, and need not name the accused person, and may be given at any time. But it shall, so far as practicable, specify the Court or other place in which, and the occasion on which, the offence is alleged to have been committed.

A sanction under any one of the three last preceding sections shall be deemed sufficient authority for the Presidency Magistrate to alter the charge (if any) to one of an offence coming within either of the two remaining sections, if the facts disclose such offence.

Procedure in cases mentioned in section 40, 41, or 42.

44. When any Civil, Criminal, or other Court inferior to a High Court is of opinion that there is sufficient ground for inquiring into any complaint mentioned in section 40, 41, or 42, such Court may either itself inquire into and commit the case for trial before the High Court, or may send the case for disposal to any Presidency Magistrate having jurisdiction.

The Court may send the accused person in custody, or take sufficient bail for his appearance before such Magistrate; and may bind over any person to appear and give evidence in the case.

Prosecution for adultery.

45. A complaint of an offence under section 497 of the Indian Penal Code shall be made only by the husband of the woman concerned, or by the other person (if any) under whose care she was living at the time when the adultery was committed.

Prosecution for enticing away married woman.

A complaint of an offence under section 498 of the Indian Penal Code shall be made only by the husband of the woman concerned, or by the person (if any) having the care of her on behalf of her husband at the time when the offence was committed.

Application to be deemed a complaint.

46. The application of the public servant or Court to a Presidency Magistrate to inquire into or try any case under this chapter shall be deemed a sufficient complaint.

CHAPTER VI.

OF THE SUMMONS AND WARRANT.

Form of summons.

47. Every summons issued by a Presidency Magistrate to an accused person shall be in writing signed by such Magistrate, and shall be in the form (A) given in the third schedule to this Act, or to the like effect.

Summons how served.

48. If the accused person can be found, the summons shall be served on him personally, wherever he may be, by delivering or tendering the summons to him.

Every person to whom a summons is delivered or tendered under this section, shall, if required by the person delivering or tendering the same, sign a receipt therefor, or countersign a copy thereof.

Service when accused cannot be found.

49. If the accused person cannot be found, the summons may be served by leaving it for him with some adult male member or servant of his family residing with him; and the person with whom the summons is so left, shall, if so required by the serving officer, sign a receipt therefor, or countersign a copy thereof. If there is no such member or servant with whom the summons can be left, the serving officer shall fix it on some conspicuous part of the house in which the accused person ordinarily resides, and thereupon the summons shall be deemed to have been duly served.

Service on servants of Government and Railway Companies.

When the person summoned is in the service of Government or of any Railway Company, the Magistrate issuing the summons may send it to the head of the office in which the person summoned is employed; and such head shall thereupon cause the summons to be served in manner hereinbefore provided.

Service of summons outside Presidency Towns.

50. When a summons issued by a Presidency Magistrate is to be served at any place outside the local limits of his jurisdiction, he may send the summons in duplicate to the Magistrate of the place where the accused resides or is, to be there served.

Proof of service in such cases and when server not present.

51. When a summons issued by a Presidency Magistrate is served outside such local limits as aforesaid, and also in cases where the person who has served the same is not present at the hearing of the complaint, the service may be proved

(*a*) by a solemn declaration, purporting to be made before a Magistrate, that such summons has been served, and such declaration may be endorsed on the duplicate summons and returned to the Magistrate who issued the summons, or

(*b*) by a copy of the summons purporting to be countersigned by the person to whom it is addressed, or

(*c*) by a receipt under section 48.

Provisions applicable to all summonses under Act.

52. The provisions relating to a summons, its issue and service, contained in sections 47 to 51 (both inclusive), shall be applicable to every summons issued under this Act.

Issue of warrant in addition to summons.

53. A Presidency Magistrate may, notwithstanding the issue of a summons under this Chapter, either before the appearance of the accused person as required by such summons, or after he fails so to appear, issue a warrant of arrest against him.

54. A Presidency Magistrate may issue a summons for the attendance, or a warrant for the apprehension, of any person within the local limits of his jurisdiction, in respect of any offence alleged to have been committed by such person in a different district, or on the high seas, or in a foreign country: provided that if the offence were committed within such local limits, the Magistrate might issue a summons or warrant.

Summons or warrant for apprehension of person within jurisdiction for offence committed beyond.

55. On the attendance or apprehension of such person, if the Presidency Magistrate has not jurisdiction in the case, he shall either send such person to Magistrate within the local limits of whose jurisdiction the offence is alleged to have been committed, or, if the offence is bailable, take bail for his appearance before such Magistrate.

Magistrate's procedure on arrest, under his own warrant, for offence committed out of his jurisdiction.

When the Presidency Magistrate cannot satisfy himself as to the Magistrate to whom the person so attending or arrested should be sent, he shall report the case for the orders of the High Court.

56. Every warrant issued by a Presidency Magistrate shall be in writing under his hand, and shall be in the form (B) given in the third schedule to this Act, or to the like effect.

Form of warrant.

Every warrant issued under this Act remains in force until it is cancelled by the Magistrate who issued it, or until it is executed.

Force of warrant of arrest.

57. A fee of eight annas shall be paid for every summons or warrant issued by a Presidency Magistrate, except in the case of a summons to attend and give evidence or to produce documents, in which case there shall be paid a fee of four annas:

Fees for summonses and warrants.

Provided that such Magistrate may in any case remit any such fee, if he is satisfied that the complainant is unable to pay the same, and shall remit it when the complaint is made by a public servant in the execution of his duty.

Power to remit fees.

58. A Presidency Magistrate, in issuing a warrant for the arrest of any person, may in his discretion direct by endorsement on the warrant that, if such person give sufficient bail as therein mentioned for his appearance before the Magistrate on a specified day to answer the complaint, the officer to whom the warrant is directed shall take such bail, and shall release such person from custody.

When Magistrate may direct bail to be taken.

The endorsement shall state (a) the number of sureties, (b) the amount in which they and the accused person are to be respectively bound, and (c) the day on which he is to appear before the Magistrate.

If bail be taken, the said officer shall forward the recognizance to the Presidency Magistrate.

Recognizance to be forwarded.

59. A warrant shall ordinarily be directed to a police-officer; but the Magistrate issuing a warrant may, if immediate execution be necessary and no police-officer be immediately available, direct it to any other person.

Warrants to whom directed.

60. A warrant may be directed to several persons, and, when so directed, may be executed by all, or by any one or more of such persons.

Warrant to several persons.

61. A warrant directed to any police-officer may also be executed by any other police-officer whose name is endorsed upon the warrant by the officer to whom it is directed or endorsed.

Execution of warrant by police-officer other than the one addressed.

62. Any Presidency Magistrate who issues a warrant of arrest may attend personally for the purpose of seeing that the warrant is duly executed.

Magistrate issuing warrant may superintend its execution.

Any such Magistrate may also at any time direct the arrest, in his presence, of any person for whose arrest he may issue a warrant.

Arrest in presence of Magistrate.

63. A warrant issued by a Presidency Magistrate shall ordinarily be executed within the local limits of his jurisdiction.

Where warrant may be executed.

But if the person against whom the warrant is issued goes into, or is in, any place outside such limits, the warrant may be executed in such place.

64. A Presidency Magistrate may direct a warrant to be executed outside the local limits of his jurisdiction, either with or without endorsement by a Magistrate within the local limits of whose jurisdiction it is to be executed.

Execution of warrant outside issuing Magistrate's jurisdiction.

Such warrant shall ordinarily be endorsed by the Magistrate within the local limits of whose jurisdiction it is to be executed.

The warrant may be forwarded to such Magistrate for endorsement either by post or by any police-officer to whom it is directed.

The Magistrate to whom such warrant is forwarded by post shall endorse his name thereon and cause it to be executed within the local limits of his jurisdiction.

If the warrant is forwarded by a police-officer to whom it is directed, he may take it either to a Magistrate, or to a police-officer not below the rank of an officer in charge of a station, within the local limits of whose jurisdiction the warrant is to be executed.

Such Magistrate or police-officer shall endorse his name thereon, and such endorsement shall be sufficient authority to the police-officer to whom the warrant is directed to execute the same within such limits, and the local police shall be bound to assist such officer in executing the warrant.

Whenever there is reason to believe that the delay occasioned by obtaining the endorsement of the Magistrate or police-officer within the local limits of whose jurisdiction the warrant is to be executed will prevent such execution, the police-officer to whom it is directed may execute the same without such endorsement in any place beyond the local limits of the jurisdiction of the Magistrate who issued it.

65. If a warrant is executed, whether with or without endorsement, outside the district in which it was issued, the person arrested shall, unless the Presidency Magistrate who issued the warrant be within twenty miles, or be nearer than the Magistrate in whose local jurisdiction the arrest was made, or unless bail be taken under section 58, be brought before the Magistrate within the local limits of whose jurisdiction the arrest was made.

Procedure on execution of warrant outside issuer's jurisdiction.

Such Magistrate shall, if the person arrested appears to be the person intended by the Presidency Magistrate, direct his removal in custody to such Magistrate, unless such person is then ready and willing to give the bail (if any) required under section 58, in which case the Magistrate before whom he is so brought shall accept such bail and forward the recognizance to the Presidency Magistrate.

66. Every Magistrate or police-officer to whom a warrant under this Act is directed for execution shall execute the same, or cause it to be executed.

Magistrate and police-officer.

67. If a Presidency Magistrate having jurisdiction in the case has reason to believe that any person accused of an offence not coming within section 34 is absconding or concealing himself, so that a warrant issued against him under this Act cannot be executed, such Magistrate may issue a written proclamation, requiring him to appear to answer the complaint within a fixed period, not less than 30 days from the date of publishing the proclamation.

Proclamation for person absconding.

Such proclamation shall be published as follows—

Proclamation how published.

(*a*) it shall be publicly read in some conspicuous place of the town or village in which the accused person usually resides;

(*b*) it shall be affixed to some conspicuous part of his ordinary place of abode, or some conspicuous place of such town or village; and

(*c*) a copy thereof shall be affixed to some conspicuous part of such Magistrate's court-house.

A statement by the Magistrate to the effect that the proclamation was duly published shall be conclusive evidence of compliance with the requirements of this section.

Evidence of publication.

68. A Presidency Magistrate may order the attachment of any property, moveable or immoveable, belonging to any person believed to be absconding or concealing himself.

Attachment of property of person absconding.

Such order shall authorize the attachment of any property within the local limits of the jurisdiction of the Magistrate making the order; and it shall authorize the attachment of any property without such local limits when endorsed by the Magistrate of the district in which such property is situate.

If the property ordered to be attached be immoveable, the attachment under this section shall, in the case of land paying revenue to Government, be made through the Collector of the district in which the land is situate, and, in all other cases, (*a*) by seizure under the order of the Magistrate having jurisdiction; or (*b*) by the appointment of a manager and receiver; or (*c*) by an order prohibiting the payment of rent to the absent person; or by all or any two of such processes as such Magistrate deems proper.

If the person so believed to be absconding or concealing himself does not appear within the time specified in the proclamation, the property under attachment shall be at the disposal of Government, but shall not be sold until the expiration of six months from the date of the attachment, unless it is of a perishable nature, or such Magistrate considers that the sale would be for the benefit of the owner, in either of which cases the Magistrate may cause it to be sold whenever he thinks fit.

69. When any person whose property is or has been at the disposal of Government under the last paragraph of section 68, appears or is found within two years from the date of the attachment, and proves to the satisfaction of the Magistrate by whose order the property was attached that he did not abscond or conceal himself for the purpose of evading justice, such property, or, if the same has been sold, the nett proceeds of the sale, or if part only thereof has been sold, the nett proceeds of the sale and the residue of the property, shall, after satisfying thereout all costs incurred in consequence of the attachment, be delivered to him.

Restoration of forfeited property.

CHAPTER VII.

OF BAIL.

70. Every person arrested under this Act shall be kept in custody until he is discharged by the order of a competent Court, or until he is admitted to bail.

Custody of person arrested.

When any person appears or is brought before a Presidency Magistrate accused of any bailable offence, such person shall be admitted to bail: Provided that cases in which the Magistrate has power to inflict fine only, or imprisonment for a term not exceeding six months, the Magistrate may discharge him on his binding himself by a personal recognizance in such sum of money as the Magistrate thinks sufficient, to appear and attend at the time and place therein mentioned, and to continue so to attend until otherwise directed by the Magistrate.

When bail shall be taken.

71. When any person accused of any non-bailable offence appears or is brought before a Presidency Magistrate, such person shall not be admitted to bail, if there appear reasonable grounds for believing that he has been guilty of the offence of which he is accused.

When bail shall not be taken.

If the evidence given in support of the complaint is, in the opinion of the Magistrate, not such as to afford such grounds,

When bail may be taken.

or if such evidence is adduced on behalf of the accused person as, in the opinion of the Magistrate, weakens the presumption of his guilt,

but there appears to the Magistrate, in either of such cases, to be sufficient ground for further inquiry into his guilt,

the accused person shall be admitted to bail pending such inquiry.

But if the Magistrate decide not to admit the accused person to bail, he shall commit him to custody by a warrant in the form (C) given in the third schedule hereto annexed, or to the like effect.

Warrant for intermediate custody.

Any Presidency Magistrate may, at any subsequent stage of any proceeding under this Act, cancel the admission under this section of any accused person to bail, and may commit him to custody, or may admit to bail any person who has been committed to custody under this section.

72. When any person accused before a Presidency Magistrate of any offence is admitted to bail, a recognizance, in such sum of money as the Magistrate thinks sufficient, shall be entered into by the person so accused and one or more sufficient sureties, conditioned that such person shall attend at the time and place mentioned in the recognizance, and shall continue so to attend until otherwise directed by the Magistrate, and if required, shall appear when called upon at the High Court, to answer the charge.

Recognizance of accused and sureties.

It is the duty of the Presidency Magistrate or other officer accepting bail to satisfy himself that every surety entering into such recognizance is a person of whom it may reasonably be presumed that he can, if necessary, satisfy its terms.

Every such recognizance shall be in the form (D) given in the third schedule hereto annexed, or to the like effect.

73. After the recognizance has been entered into, the Presidency Magistrate, in case the accused person has appeared voluntarily or is in the custody of some officer, shall thereupon release him, and in case he is in some jail, shall issue a warrant of release to the officer in charge of the jail, and such officer shall thereupon release him.

Discharge on bail.

74. If the accused person cannot find sufficient bail when permitted so to do, he may, if the Presidency Magistrate thinks fit, be admitted to bail upon finding the same at any time afterwards before conviction.

Admission to bail after failure in first instance.

75. If, through mistake or fraud, insufficient bail have been taken, or if the bail become afterwards insufficient, the accused person may be ordered by a Presidency Magistrate to find sufficient bail, and on failing so to do may be committed to prison.

Power to order sufficient bail when that first taken is insufficient.

76. The sureties for the attendance and appearance of an accused person admitted to bail may, at any time, apply to a Presidency Magistrate to discharge their recognizance.

Discharge of sureties.

On such application being made, the Magistrate shall issue his warrant of arrest, directing that the accused person be brought before him.

On the appearance of such person pursuant to the warrant, or on his voluntary surrender, the Magistrate shall direct the recognizance of the sureties to be discharged, and shall call upon the accused person to find other sufficient sureties, and if he fail to do so, may commit him to prison.

77. Whenever, by reason of default of attendance or appearance of the person bailed, a Presidency Magistrate is of opinion that proceedings should be had to recover the penalty mentioned in the recognizance into which such person has entered, he shall proceed to recover the same, by issuing a warrant for the attachment and sale of the moveable property belonging to such person, which may be found within the local limits of the jurisdiction of such Magistrate.

Procedure to compel payment of penalty by accused.

Such warrant may be executed within such limits, and it shall authorize the distress and sale of any moveable property belonging to the accused person without such limits, when endorsed by the Magistrate within the local limits of whose jurisdiction such property is found.

78. Whenever, by reason of default of attendance or appearance of the person bailed, the Presidency Magistrate is of opinion that proceedings should be had to recover from the sureties the penalty mentioned in the recognizance, he shall give them notice to pay the same, or to show cause why it should not be paid.

Procedure to compel payment of penalty by sureties.

If such penalty be not paid, and if no sufficient cause for its non-payment be shown, the Presidency Magistrate shall proceed to recover the penalty from such sureties, by issuing a warrant for the attachment and sale of any moveable property belonging to them, or either of them, which may be found within the local limits of the jurisdiction of such Magistrate. Such warrant may be executed within such limits; and it shall authorize the attachment and sale of any moveable property belonging to the sureties, or either of them, without such limits, when endorsed by the Magistrate within the local limits of whose jurisdiction such property is found.

If such penalty be not paid and cannot be recovered by such attachment and sale, such sureties shall be liable to confinement by order of the Presidency Magistrate, in the civil jail, during a period not exceeding six months.

79. The powers given by sections 77 and 78 may be exercised by every Presidency Magistrate in every case in which a recognizance has been given for the appearance of any person, if default is made by the non-appearance of such person before such Magistrate, according to the conditions of the recognizance:

In what cases powers given by sections 77 and 78 may be exercised.

Provided that the Magistrate may, at his discretion, remit any portion of the penalty mentioned in any such recognizance and enforce payment in part only.

Remission of part of penalty.

80. When any person is required by a Presidency Magistrate to give bail, such Magistrate may permit him to deposit a sum of money or Government promissory notes to such amount as the Magistrate may fix in lieu of such bail.

Deposit instead of bail.

CHAPTER VIII.

OF INQUIRY INTO CASES TRIABLE BY THE HIGH COURT.

Procedure in preliminary inquiries.

81. Cases triable by a High Court in the exercise of its ordinary original criminal jurisdiction, or which in the opinion of the Presidency Magistrate before whom the accused person is brought ought to be tried by such Court, shall be inquired into by a Presidency Magistrate; and in such inquiry he shall adopt the following procedure.

Examination of complainant and witnesses for prosecution.

82. When the accused person appears or is brought before the Magistrate, or if his personal attendance is dispensed with, after reasonable notice to his advocate, attorney, or pleader, the Magistrate shall at such time as he thinks fit, take the evidence of the complainant and of such persons as are stated by the complainant to have any knowledge of the facts which form the subject-matter of the accusation and the attendant circumstances.

Such evidence shall be recorded in the manner described in clauses 2, 3, and 4 of section 115.

Examination to be in presence of accused.

83. The complainant and the witnesses for the prosecution shall be examined in the presence of the accused person, or, when his personal attendance is dispensed with, of his advocate, attorney, or pleader (if any).

Procedure in inquiries preliminary to commitment.

The Magistrate may, in his discretion, summon or examine any witness offered on behalf of the accused person to answer or disprove the evidence against him.

Accused may examine, cross-examine, and re-examine.

The accused person or his advocate, attorney, or pleader shall be permitted to examine his own witnesses, to cross-examine the complainant and his witnesses, and to re-examine his own witnesses, in accordance with the Indian Evidence Act, 1872.

Examination of accused how recorded.

84. Whenever an accused person is examined in the course of a preliminary inquiry into a case triable by the High Court, the whole of such examination, including every question put to him and every answer given by him, shall be recorded in full, and shall be shown or read to him, and he shall be at liberty to explain or add to his answers.

When the whole is made conformable to what he declares is the truth, the examination shall be attested by the signature of the Magistrate, who shall certify under his own hand that it was taken in his presence and in his hearing, and contains accurately the whole of the statement made by the accused person.

Power of Magistrate to summon and examine any person.

85. The Magistrate may, at any stage of the proceedings, summon and examine any person whose evidence he considers essential to the inquiry, and recall and re-examine any person already examined.

Adjournment of inquiry and remand.

86. If, from the absence of a witness or from any other reasonable cause, it becomes necessary or advisable to adjourn the inquiry, the Magistrate may, by a written order, from time to time adjourn the inquiry on such terms as he thinks fit, and remand the accused person for a reasonable time, not exceeding fifteen days.

EXPLANATION.—After commencing the inquiry, if sufficient evidence has been obtained to raise a suspicion that the person accused may have committed an offence, and it appears likely that further evidence may be obtained by a remand, this is a reasonable cause for a remand.

When accused person to be discharged.

87. When a Presidency Magistrate finds that there are not sufficient grounds for committing the accused person for trial before the High Court, or for remanding him, he shall discharge him unless it appears to the Magistrate that such person should be tried before himself, in which case he shall proceed accordingly.

EXPLANATION I.—The absence of the complainant, except when the offence may lawfully be compounded, shall not be deemed sufficient ground for a discharge, if there appear other evidence of a nature rendering a trial desirable.

EXPLANATION II.—A discharge is not equivalent to an acquittal, and does not bar the revival of a prosecution for the same offence.

EXPLANATION III.—An order of discharge shall not ordinarily be made until the evidence of the witnesses named for the prosecution has been taken.

When accused to be committed for trial.

88. When evidence has been given before a Presidency Magistrate which appears to justify him in committing the accused person for trial for an offence triable exclusively by the High Court, or which, in the opinion of the Magistrate, ought to be tried by such court, the accused person shall be committed for trial accordingly.

Framing of charge on which accused is to be tried before High Court.

89. When the Magistrate determines to commit the accused person for trial before the High Court, he shall, after the evidence has been recorded, frame a charge under his hand, declaring with what offence the accused person is charged, and (subject to the provisions of the High Court's Criminal Procedure Act, 1875) committing him for trial by such Court on such charge.

All such charges shall be drawn up in accordance with the provisions of chapter IX.

Form of commitment.

Pending such trial, the Magistrate may commit the accused person to custody by warrant in the form (E) given in the third schedule hereto annexed, or to the like effect; and the charge, the record of the enquiry, and any weapon or other article necessary to produce in evidence shall be sent to the Clerk of the Crown or other officer appointed in this behalf by the High Court.

Charge, &c., to be forwarded to High Court.

Commitment when to be notified.

When the accused person is committed for trial before the High Court, the Magistrate shall issue an order to such person as may be appointed by

the Local Government in this behalf, notifying the commitment, and stating the offence in the same form as the charge, unless the Magistrate is satisfied that such person is already aware of the commitment and the form of the charge.

Charge to be explained, and copy furnished, to accused.

90. As soon as the charge on which the accused person is to be tried has been prepared it shall be read and explained to him, and a copy thereof shall be furnished to him, if he so require.

List of witnesses for defence on trial before High Court.

91. The accused person shall be required at once to give in, orally or in writing, a list of the persons whom he wishes to be summoned to give evidence on his trial before the High Court.

The Magistrate may, if he thinks proper, summon all or any such persons to attend and give evidence at the inquiry; and if he does so, the commitment shall not be considered to have been made until such evidence has been taken.

Further list.

The Magistrate may, in his discretion, allow the accused person to give in any further list of witnesses at a subsequent time.

Power to summon supplementary witnesses.

The Magistrate may summon and examine supplementary witnesses after commitment and before the commencement of the trial. Such examination shall, if possible, be taken in the presence of the accused person.

Nothing in this section shall be deemed to preclude the accused person from giving at any time before his trial before the High Court to the Clerk of the Crown a further list of the persons whom he wishes to be summoned to give evidence on such trial.

Summons to witnesses when accused person is to be committed.

92. When the person accused is to be committed for trial, and has given in any list of the persons referred to in section 91, the Magistrate may either summon such persons to appear before the High Court, or leave them to be summoned by the Clerk of the Crown.

Recognizance of complainants and witnesses.

93. Complainants and witnesses for the prosecution and defence, whose attendance before the High Court is necessary, and who appear before the Presidency Magistrate, shall execute before him recognizances, in the form (H) given in the third schedule to this Act, or to the like effect, to be in attendance when called upon at the High Court to prosecute or to give evidence, as the case may be.

Detention in custody in case of refusal to attend or to execute recognizance.

If any complainant or witness refuses to attend before the High Court, or to execute the recognizance above directed, the Presidency Magistrate may detain him in custody until he executes such recognizance, or until his attendance at the High Court is required, when the Magistrate shall send him in custody to the High Court.

CHAPTER IX.

OF THE CHARGE.

Form of Charges.

Charge to state offence.

94. Every charge under this Act shall state the offence with which the accused person is charged.

Specific name of offence sufficient description.

If the law which creates the offence gives it any specific name, the offence may be described in the charge by that name only.

How stated where offence has no specific name.

If the law which creates the offence does not give it any specific name, so much of the definition of the offence must be stated as to give the accused person notice of the matter with which he is charged.

The law and section of the law against which the offence is said to have been committed shall be mentioned in the charge.

What implied in charges.

The fact that the charge is made shall be equivalent to a statement that every legal condition, necessary by law to constitute the offence charged, was fulfilled in the particular case.

Language of charge.

The charge shall be written in English. If English is not understood by the accused person, the charge shall be interpreted to him in a language which he understands.

Previous conviction when to be set out.

If the accused person has been previously convicted of any offence punishable under Chapter XII or Chapter XVII of the Indian Penal Code with imprisonment for a term of three years or upwards, or of any other offence mentioned in section 3 or section 4 of Act No. VI of 1864 (*to authorize the punishment of whipping in certain cases*), and if it is intended to prove such previous conviction for the purpose of affecting the punishment which is to be awarded, the fact of the previous conviction must be stated in the charge. If such statement is omitted, it may be added at any time before sentence is passed, but not afterwards.

Illustrations.

(*a.*) A is charged with the murder of B.

This is equivalent to a statement that A's act fell within the definition of murder given in sections 299 and 300 of the Indian Penal Code; that it did not fall within any of the general exceptions of the Penal Code, and that it did not fall within any of the five exceptions in section 300, or that, if it did fall within exception I, one or other of the three provisos to that exception applied to it.

(*b.*) A is charged, under section 326 of the Indian Penal Code, with voluntarily causing grievous hurt to B, by means of an instrument for shooting. This is equivalent to a statement that the case was not provided for by section 335 of the Indian Penal Code, and that the general exceptions did not apply to it.

(*c.*) A is accused of murder, cheating, theft, extortion, adultery or criminal intimidation, or using a false property-mark. The charge may state that A committed murder, or cheating, or theft, or extortion, or adultery, or criminal intimidation, or that he used a false property-mark, without reference to the definitions of those crimes contained in the Indian Penal Code; but the sections under which the offence is punishable must, in each instance, be referred to in the charge.

(*d*) A is charged, under section 184 of the Indian Penal Code, with intentionally obstructing a sale of property offered for sale by the lawful authority of a public servant. The charge should be in the words

95. The charge shall contain such particulars as to the time and place of the alleged offence and the person against whom, or the thing in respect of which, it was committed as are reasonably sufficient to give notice to the accused person of the matter with which he is charged.

Particulars as to time, place, and person.

96. When the nature of the case is such that the particulars mentioned in sections 94 and 95 do not give sufficient notice to the accused person of the matter with which he is charged, the charge shall also contain such particulars of the manner in which the alleged offence was committed as will be sufficient for that purpose.

When manner of committing offence must be stated.

Illustrations.

(*a.*) A is accused of the theft of a certain article at a certain time and place. The charge need not set out the manner in which the theft was effected.

(*b.*) A is accused of cheating B at a given time and place. The charge must set out the manner in which A cheated B.

(*c.*) A is accused of giving false evidence at a given time and place. The charge must set out that portion of the evidence given by A which is alleged to be false.

(*d.*) A is accused of obstructing B, a public servant, in discharge of his public functions at a given time and place. The charge must set out the manner in which A obstructed B in the discharge of his functions.

(*e.*) A is accused of the murder of B at a given time and place. The charge need not state the manner in which A murdered B.

(*f.*) A is accused of disobeying a direction of the law with intent to save B from punishment. The charge must set out the disobedience charged and the law infringed.

97. The charge may be in the form given in the third schedule to this Act, or to the like effect.

Forms in schedule.

98. No error, either in the way in which the offence is stated, or in the particulars required to be stated in section 96, and no omission to state the offence, or to state those particulars, shall be regarded at any stage of the case as material, unless the person accused was in fact misled by such error or omission.

Effect of errors.

Illustrations.

(*a.*) A is charged, under section 242 of the Indian Penal Code, with "having been in possession of counterfeit coin, having known at the time when he became possessed thereof that such coin was counterfeit," the word "fraudulently" being omitted in the charge. Unless it appears that A was in fact misled by this omission, the error shall not be regarded as material.

(*b.*) A is charged with cheating B, and the manner in which he cheated B is not set out in the charge, or is set out incorrectly. A defends himself, calls witnesses, and gives his own account of the transaction. The Court may infer from this that the omission to set out the manner of the cheating is not material.

(*c.*) A is charged with cheating B, and the manner in which he cheated B is not set out in the charge. There were many transactions between A and B, and A had no means of knowing to which of them the charge referred, and offered no defence. The Court may infer from such facts that the omission to set out the manner of the cheating was, in this case, a material error.

(*d.*) A is charged with the murder of Khodá Baksh on the 21st January. In fact, the murdered person's name was Haidar Baksh, and the date of the murder was the 20th January. A was never charged with any murder but one, and had heard the inquiry before the Magistrate, which referred exclusively to the case of Haidar Baksh. The Court may infer from these facts that A was not misled, and that the error in the charge was immaterial.

(*e.*) A was charged with murdering Haidar Baksh on the 20th January, and Khodá Baksh (who tried to arrest him for that murder) on the 21st January. When charged for the murder of Haidar Baksh, he was tried for the murder of Khodá Baksh. The witnesses present in his defence were witnesses in the case of Haidar Baksh. The Court may infer from this that A was misled, and that the error was material.

99. Any accused person may apply to a Presidency Magistrate for an amendment of the charge made against him; and in considering whether any error in a charge did in fact mislead the accused person, the Magistrate shall take into account the fact that he did or did not make such an application.

Prisoner may apply for amendment.

100. A Presidency Magistrate may, upon the application of the accused person, or of the complainant, or upon his own motion, alter any charge at any stage of the proceedings before judgment is pronounced.

Magistrate may alter charge.

Every such alteration shall be read and explained to the accused person.

101. If the alteration is such that proceeding immediately with the trial is not likely, in the opinion of the Presidency Magistrate, to prejudice the accused person in his defence, the Magistrate may, in his discretion, after making such alteration, proceed with the trial as if the altered charge had been the original charge.

When trial may proceed immediately after alteration.

102. If the alteration is such that proceeding immediately with the trial is likely, in the opinion of the Presidency Magistrate, to prejudice the accused person in his defence, the Magistrate may either direct a new trial, or suspend the trial for such period as may be necessary to enable the accused person to make his defence to the altered charge; and, after hearing his defence, the Magistrate may further adjourn the trial to admit of the appearance of any witness whose evidence the Magistrate may consider to be material to the case, or whom the accused person may wish to be summoned in his defence.

When new trial may be directed or trial suspended.

Adjournment.

103. In all cases of alteration of a charge the complainant and accused person shall be allowed to recall and examine, with reference to such alteration, any witness who may have been examined.

Recall of witnesses when charge altered.

104. If the offence stated in the altered charge be one for the prosecution of which previous sanction is necessary, the case shall not be proceeded with until such sanction is obtained, unless sanction has been already obtained for a prosecution on the same facts as those on which the altered charge is founded.

Stay of proceedings if prosecution of offence in altered charge require previous sanction.

Joinder of Charges.

105. There must be a separate charge for every distinct offence of which any person is accused, and every such charge must be tried separately, except in the cases hereinafter excepted.

Separate charges for distinct offences.

Illustration.

A is accused of a theft on one occasion, and of causing grievous hurt on another occasion. A must be separately charged and separately tried for the theft and the causing grievous hurt.

106. When a person is accused of more offences than one of the same kind committed within one year of each other, he may be charged with, and tried at the same time for, any number of them not exceeding three.

More offences than one of same kind may be charged within a year of each other.

107. I.—If in one series of acts so connected together as to form the same transaction, more offences than one are committed by the same person, he may be charged with, and tried for, every such offence at the same time.

I.—Trial of more than one offence.

II.—If the acts alleged constitute an offence falling within two or more separate definitions of any law in force for the time being by which offences are defined or punished, the person accused of them may be charged with each of the offences so committed; but he must not receive a more severe punishment than could be inflicted for any of such offences.

II.—One offence falling within two definitions.

III.—If several acts, of which one or more than one would by itself constitute an offence, form, when combined, a different offence, the person accused of them may be charged with every offence or any of the different offences which he may have committed; but he must not receive for such offences, collectively, a punishment more severe than that which might have been inflicted for any one of such offences.

III.—Acts severally constituting more than one offence, but collectively coming within one definition.

Illustrations.

To paragrah I.

(*a*.) A rescues B, a person in lawful custody, and in so doing causes grievous hurt to C, a constable in whose custody B was. A may be separately charged with, convicted of, and punished for, offences under sections 226 and 333 of the Indian Penal Code.

(*b*.) A has in his possession several seals, knowing them to be counterfeit and intending to use them for the purpose of committing several forgeries punishable under section 466 of the Indian Penal Code. A may be separately charged with, convicted of, and punished for, the possession of each seal, under section 473 of the Indian Penal Code.

(*c*.) A, with intent to cause injury to B, institutes a criminal proceeding against him, knowing that there is no just or lawful ground for such proceeding. A also falsely accuses B of having committed an offence, knowing that there is no just or lawful ground for such charge. A may be separately charged with, convicted of, and punished for, two offences under section 211 of the Indian Penal Code.

(*d*.) A, with intent to cause injury to B, falsely accuses him of having committed an offence, knowing that there is no just or lawful ground for such charge. On the trial A gives false evidence against B, intending thereby to cause B to be convicted of a capital offence. A may be separately charged with, convicted of, and punished for, offences under sections 211 and 194 of the Indian Penal Code.

(*e*.) A, knowing that B, a female minor, has been kidnapped in order that she may be subjected to grievous hurt, wrongfully confines her and detains her against her will as a slave. A may be separately charged with, convicted of, and punished for, offences under sections 368, (read with 367) and 320 of the Indian Penal Code.

(*f*.) A, with six others, commits the offences of rioting, grievous hurt, and of assaulting a public servant endeavouring, in the discharge of his duty as such, to suppress the riot. A may be separately charged with, convicted of, and punished for, offences under sections 147 and 325 and 152 of the Indian Penal Code.

(*g*.) A threatens B, C, and D at the same time with injury to their persons with intent to cause alarm to them. A may be separately charged with, convicted of, and punished for, each of the three offences under section 506 of the Indian Penal Code.

(*h*.) A intentionally causes the death of three persons by upsetting a boat. A may be separately charged with, convicted of, and punished for, each of the three offences under section 302 of the Indian Penal Code.

The separate charges referred to in illustrations (*a*) to (*h*) respectively may be tried at the same time.

To paragraph II.

(*i*.) A wrongfully strikes B with a cane. A may be separately charged with, and convicted of, offences under sections 352 and 323 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a more severe punishment than if he had convicted him under section 323 only.

(*j*.) A wrongfully kills a buffalo worth sixty rupees belonging to B, and then moves the carcase in order to take it dishonestly out of B's possession without B's consent. A may be separately charged with, and convicted of, offences under sections 429 and 379 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a more severe punishment than if he had convicted him under section 429 only.

(*k*.) Several stolen sacks of corn are made over to A and B, who know they are stolen property. A and B thereupon voluntarily assist each other to conceal the sacks at the bottom of a grain-pit. A and B may be separately charged with, and convicted of, offences under sections 411 and 414 of the Indian Penal Code; but the Presidency Magistrate who tries them may not inflict a severer punishment than if he had convicted them under one of those sections only.

(*l*.) A dishonestly uses a forged document as genuine evidence in order to convict B, a public servant, of an offence under section 167 of the Indian Penal Code. A may be separately charged with, and convicted of, offences under sections 471 (read with 466) and 196 of the same Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under one of those sections only.

To paragraph III.

(*m*.) A commits house-breaking by day with intent to commit adultery, and commits, in the house so entered, adultery with B's wife. A may be separately charged with, and convicted of, offences under sections 454 and 497 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under section 497 only.

(*n*.) A commits robbery on B, and in doing so voluntarily causes hurt to him. A may be separately charged with, and convicted of, offences under sections 323, 392, and 394 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under section 392 or 394 only.

(*o*.) A entices B, the wife of C, away from C, with intent to commit adultery with B, and then commits adultery with her. A may be separately charged with, and convicted of, offences under sections 498 and 497 of the Indian Penal Code; but the Presidency Magistrate who tries him may not inflict a severer punishment than if he had convicted him under section 497 only.

108. If a single act or series of acts is of such a nature that it is doubtful which of several offences the facts which can be proved will constitute, the accused person may be charged with having committed all or any of such offences, and any number of such charges may be tried at once; or he may be charged in the alternative with having committed some one of the said offences.

Where it is doubtful what offence has been committed.

Illustrations.

A is accused of an act which may amount to theft, or receiving stolen property, or criminal breach of trust, or cheating. He may be charged with theft, receiving stolen property, criminal breach of trust, and cheating; or he may be charged with having committed theft, or receiving stolen property, or criminal breach of trust, or cheating.

When a person is charged with one offence he can be convicted of another.

109. If, in the case mentioned in the last preceding section, one charge only is brought against an accused person, and it appears in evidence that he committed a different offence, for which he might have been charged under the provisions of that section, he may be convicted of the offence which he is shown to have committed, although he was not charged with it.

Illustration.

A is charged with theft. It appears that he committed the offence of criminal breach of trust, or that of receiving stolen goods. He may be convicted of criminal breach of trust, or of receiving stolen goods (as the case may be), though he was not charged with such offence.

When offence proved included in offence charged.

110. When a person is charged with an offence and part of the charge is not proved, but the part which is proved amounts to a different offence, he may be convicted of the offence which he is proved to have committed, though he was not charged with it.

Illustrations.

(*a.*) A is charged, under section 407 of the Indian Penal Code, with criminal breach of trust in respect of property entrusted to him as a carrier. It appears that he did commit criminal breach of trust under section 406 in respect of the property, but that it was not entrusted to him as a carrier. He may be convicted of criminal breach of trust under section 406.

(*b.*) A is charged with murder. He may be convicted of culpable homicide, or of causing death by negligence.

What persons may be charged jointly.

111. When more persons than one are accused of the same offence, or of different offences committed in the same transaction, or when one person is accused of committing any offence and another of abetment of, or attempt to commit, such offence, they may be charged and tried together, or separately, as the Presidency Magistrate thinks fit, and the provisions contained in the former part of this chapter shall apply to all such charges.

Illustrations.

(*a.*) A and B are accused of the same murder. A and B may be charged and tried together for the murder.

(*b.*) A and B are accused of a robbery, in the course of which A commits a murder with which B has nothing to do. A and B may be tried together on a charge, charging both of them with the robbery, and A alone with the murder.

(*c.*) A and B are both charged with a theft, and B is charged with two other thefts committed by him in the course of the same transaction. A and B may be both tried together on a charge, charging both with the one theft, and B alone with the two other thefts.

Withdrawal of remaining charges on conviction on one of several charges.

112. When more charges than one are made against the same person, and when a conviction has been had on one or more of them, the complainant, or the Government Solicitor, or other officer conducting the prosecution, may, with the consent of the Presidency Magistrate, withdraw, or such Magistrate of his own accord may suspend, the inquiry into, or trial of, the remaining charge or charges.

Previous Acquittals or Convictions.

Person once convicted or acquitted not to be tried for same offence.

113. A person who has once been tried for an offence and convicted or acquitted of such offence shall, while such conviction or acquittal remains in force, not be liable to be tried again for the same offence, nor on the same facts for any other offence for which a different charge from the one made against him might have been made under section 108, or for which he might have been convicted under section 109.

A person convicted or acquitted of any offence may be afterwards tried for any offence for which a separate charge might have been made against him on the former trial under section 107, paragraph 1.

A person acquitted or convicted of any offence constituted by any act causing consequences which, together with such act, constituted a different offence from that for which he was acquitted or convicted, may be afterwards tried for such last mentioned offence, if the consequences had not happened, or were not known to the Court to have happened, at the time when he was acquitted or convicted.

A person acquitted or convicted of any offence constituted by any acts may, notwithstanding such acquittal or conviction, be subsequently charged with, and tried for, any other offence constituted by the same acts which he may have committed if the Court by which he was first tried was not competent to try the offence with which he is subsequently charged.

Illustrations.

(*a.*) A is tried upon a charge of theft as a servant and acquitted. He cannot afterwards be charged with theft as a servant, or, upon the same facts, with theft simply or with criminal breach of trust.

(*b.*) A is tried upon a charge of murder and acquitted. There is no charge of robbery; but it appears from the facts that A committed robbery at the time when the murder was committed; he may afterwards be charged with, and tried for, robbery.

(*c.*) A is tried for an assault and convicted. The person assaulted afterwards dies. A may be tried again for culpable homicide.

(*d.*) A is tried, under section 270 of the Indian Penal Code, for malignantly doing an act likely to spread the infection of a disease dangerous to life and is acquitted. The act so done afterwards causes a person permanently to lose his eyesight. A may be charged, under section 325 of the same Code, with voluntarily causing grievous hurt to that person.

(*e.*) A is charged by a Presidency Magistrate with, and convicted by him of, voluntarily causing hurt to B. A may not afterwards be tried for voluntarily causing grievous hurt to B on the same facts, unless the case comes within paragraph 3 of this section.

(*f.*) A is charged by a Presidency Magistrate with, and convicted by him of, theft of property from the person of B. A may be subsequently charged with, and tried for, robbery on the same acts.

(*g.*) A, B and C are charged by a Presidency Magistrate with, and convicted by him of, robbing D. A, B and C may afterwards be charged with, and tried for, dacoity on the same fact.

CHAPTER X.

OF THE TRIAL OF CASES BY PRESIDENCY MAGISTRATES.

Cases may be tried summarily.

114. The following procedure shall be observed in the trial of cases by Presidency Magistrates.

In every such case the Magistrate shall record the following particulars:

(*a*) the serial number,

(*b*) the date of the commission of the offence,

(*c*) the name of the complainant,

(*d*) the name of the accused person,

(*e*) the offence complained of or proved,

(*f*) the prisoner's plea,

(*g*) the final order,

(*h*) the date of such order.

Record of evidence.

115. No Presidency Magistrate shall impose a fine exceeding two hundred rupees or imprisonment for a term exceeding six months, unless he has recorded the evidence of the witnesses.

Sentences passed under section 13 on the same occasion shall for the purposes of this section be considered as one sentence.

Where the Magistrate records such evidence, it shall be sufficient either to take it down with his own hand or to cause it to be taken down in writing from his dictation in open Court. All evidence so taken down shall be signed by the Magistrate and shall be part of the record.

Evidence so taken down shall ordinarily be taken in the form of narrative, but the Magistrate may in his discretion take down, or cause to be taken down, any particular question or answer.

Every Magistrate recording the evidence of a witness shall record such remarks as he thinks material respecting the demeanour of such witness while under examination.

Charge when dispensed with.

116. In cases in which the Magistrate has power to impose fine only, or imprisonment for a term not exceeding six months, no formal charge need be made against the accused person; and the Magistrate may convict him of any offence punishable with fine only or with imprisonment for a term not exceeding six months, and which, from the facts proved, he appears to have committed.

Charge when necessary.

In cases in which the Magistrate has power to impose imprisonment for a term exceeding six months, there shall be a formal charge against the accused person.

All charges under this section shall be drawn up by the Magistrate in accordance with the provisions of chapter IX.

Effect on proceedings of defect in complaint or process.

117. Neither the complaint nor the process issued thereon shall be regarded otherwise than as notice to the accused person of the facts to be inquired into. No defect in the complaint or process shall invalidate the proceedings, unless it appears that the accused person was actually misled by such defect; and, in considering whether or not he was so misled, the Magistrate shall have regard to the manner in which the accused person conducted his defence.

Dismissal or adjournment on non-appearance of complainant.

118. If upon the day appointed for the appearance of the accused person, or any day subsequent thereto on which the case may be called on, the complainant does not appear, the Magistrate shall dismiss the complaint, unless he thinks fit to adjourn the hearing of the same to some other day. Such adjournment shall be made upon such terms as the Magistrate thinks fit.

Procedure on appearance of parties.

119. On the appearance of both parties on the day fixed for the trial, the substance of the complaint shall be stated to the accused person, and he shall be asked if he has any cause to show why he should not be convicted.

Conviction on admission of truth of complaint.

120. If the accused person admit the truth of the complaint, his admission shall be recorded, and if he shows no sufficient cause why he should not be convicted, the Magistrate may convict him accordingly.

Procedure when no such admission is made.

121. If the accused person does not admit the truth of the complaint, the Magistrate shall proceed to hear the complainant and such witnesses as he produces in support of his complaint, and also to hear the accused person and such witnesses as he produces in his defence.

Whenever any charge is drawn up under this Act, it shall be drawn up as soon as the Magistrate is of opinion that a *primâ facie* case has been established against the accused person, and shall be read and explained to the accused person, and he shall be asked whether he is guilty or has any defence to make.

Procedure on examining accused.

122. If the accused person be examined, the procedure prescribed in section 84 shall be followed.

Adjournment.

123. Before or during the hearing of any complaint, the Magistrate may, in order to secure the attendance of witnesses or for any other reason, adjourn the hearing, on such terms as he thinks fit, to a day to be then appointed and stated in the presence of the parties.

If on the day to which such hearing or such further hearing has been so adjourned the accused person does not appear, the Magistrate may issue his warrant for the arrest of such person.

If on such day the complainant does not appear, the Magistrate may dismiss the complaint.

Compensation to person groundlessly given in charge or complained against.

124. Whenever any person causes a police-officer to arrest another person, and whenever a complaint of any offence is made before any Presidency Magistrate, if it appears to the Magistrate by whom the case is heard that there was no sufficient ground for causing such arrest or for making such complaint, the Magistrate may award such compensation, not exceeding fifty rupees, to be paid by the person so causing the arrest or making the complaint, to the person so arrested or complained against, for his loss of time and expenses in the matter, as the Magistrate thinks fit.

In such cases, if more persons than one are arrested or complained against, the Magistrate may, in like manner, award to each of them such compensation not exceeding fifty rupees, as such Magistrate thinks fit.

All compensation, awarded under this section may be recovered as if it were a fine.

Withdrawal of complaint.

125. If a complainant, at any time before a final order is passed in any case in which the Presidency Magistrate may impose fine only or imprisonment for a term not exceeding

six months, satisfies the said Magistrate that there are sufficient grounds for permitting him to withdraw his complaint, the Magistrate may permit him to do so.

The withdrawal under this section of a complaint shall operate as an acquittal of the accused person.

Acquittal.

126. If the Magistrate, in any case tried under this chapter, finds the accused person not guilty, he shall record an order of acquittal.

Sentence.

If the accused person is convicted, the Magistrate shall pass sentence upon him; and, in all cases in which the Magistrate inflicts imprisonment, or fine exceeding fifty rupees, or both, he shall add to the final order mentioned in section 114, clause (*g*), a brief statement of the reasons for the conviction.

When the personal attendance of the accused person during the trial has been dispensed with, the sentence of the Magistrate shall be pronounced in his presence, except where the sentence is for fine only, in which case it may be pronounced in the presence of the accused person's advocate, attorney or pleader.

Procedure when, after commencement of trial, Magistrate finds case beyond his jurisdiction.

127. If in the course of any trial before a Presidency Magistrate, it appears that the case is one which he has not jurisdiction to try, or one which, in his opinion, ought to be tried by the High Court, he shall stop further proceedings under this chapter, and shall either forward the case to the Magistrate having jurisdiction, or commit the accused person, in accordance with the provisions of chapter VIII, to the High Court for trial.

Trial of persons previously convicted of offences against coinage, stamp law or property.

128. Whoever having been convicted of an offence punishable under chapter XII or chapter XVII of the Indian Penal Code with imprisonment for a term of three years or upwards, is again accused of any offence punishable under either of those chapters with imprisonment for a term of three years or upwards, shall ordinarily, if the Presidency Magistrate considers him an habitual offender, be committed to the High Court.

General Provisions as to Inquiries and Trials.

Permission to conduct prosecution.

129. A Presidency Magistrate inquiring into or trying any case may permit any person to conduct the case as prosecutor; but no person other than the Advocate-General, Standing Counsel, and Government Solicitor shall be entitled to do so without such permission.

Any person conducting the case may do so personally or by an advocate, attorney, or pleader.

Right of accused to be defended.

130. Every person accused before a Presidency Magistrate of an offence, may of right be defended by any advocate, attorney or pleader.

Procedure where accused does not understand proceedings.

131. If an accused person, though not insane, cannot be made to understand the proceedings, the Magistrate may proceed with the inquiry or trial; and if such inquiry results in a committal, or if such trial results in a conviction, the proceedings shall be forwarded to the High Court, with a report of the circumstances of the case, and the High Court shall pass thereon such order as it thinks fit.

Presidency Magistrates' Courts to be open.

132. The place in which the court of a Presidency Magistrate is held for the purpose of inquiring into or trying any offence, shall be deemed an open Court, to which the public generally may have access, so far as the same can conveniently contain them.

Provided that the Magistrate may, if he thinks fit, order at any stage of any inquiry into or trial of any particular case, that the public generally, or any particular person, shall not have access to, or be, or remain in, the room or building used by the Magistrate.

Compounding offences.

133. In the case of offences which may lawfully be compounded, the injured person may compound the offence out of Court, or in Court with the permission of the Presidency Magistrate. Such composition shall have the effect of an acquittal of the accused.

CHAPTER XI.

OF EVIDENCE.

A.—Of Securing the Attendance of Witnesses.

Power to summon material witness or examine person present.

134. Any Presidency Magistrate may, at any stage of any proceeding, inquiry or trial under this Act, summon, in manner provided by chapter VI, any witness, or examine any person in attendance though not summoned as a witness; and the Magistrate shall summon and examine such person if his evidence appears essential to the just decision of the case.

When warrant of arrest may issue in first instance.

135. If a Presidency Magistrate has reason to believe that any witness whose attendance is required will not attend to give evidence without being compelled to do so, he may, instead of issuing a summons, issue a warrant of arrest in the first instance.

Arrest of person disobeying summons.

136. If any person summoned under this Act to give evidence neglects or refuses to appear at the time and place appointed by the summons, and no reasonable excuse is offered for such neglect or refusal, the Presidency Magistrate, upon proof of the summons having been duly served, may issue a warrant under his hand to bring such person before him to testify as aforesaid.

Procedure when warrant cannot be served.

137. If such warrant cannot be executed, and the Magistrate has reason to believe that the witness absconds or conceals himself for the purpose of preventing the execution thereof, he may issue a notice, requiring the attendance of such witness to give evidence at a time and place to be named therein, and such notice shall be affixed to some conspicuous part of such witness' ordinary place of abode, or, if he has no such abode, of the Magistrate's Court.

If the witness does not attend at the time and place so named, the Magistrate may order the attachment of any moveable property

belonging to such witness, equal in value, as nearly as may be, to the amount of the costs of attachment and of any fine to which the witness may be liable under the provisions of section 172 of the Indian Penal Code.

Attachment, &c., of property ordered to be attached under section 137.

138. The provisions of section 68 and section 69 as to the attachment, sale and restoration of moveable property shall apply to all property ordered to be attached under section 137.

Power to order prisoner in jail to be brought up for examination.

139. Notwithstanding anything contained in the Prisoners' Testimony Act, 1869, any Presidency Magistrate desirous of examining, as a witness or accused person in any case pending before him, any person confined in any jail within the local limits of his jurisdiction may issue an order to the officer in charge of the said jail requiring him to bring such prisoner in proper custody, at a time to be therein named, to the Magistrate for examination.

The officer so in charge, on receipt of such order, shall act in accordance therewith, and shall provide for the safe custody of the prisoner during his absence from the jail for the purpose aforesaid.

Power to require complainants, &c., to execute recognizances.

140. The Presidency Magistrate may require complainants and witnesses for the prosecution and defence whose attendance before him is necessary, to execute recognizances, in the form (F) given in the third schedule to this Act, or to the like effect, to be in attendance when called upon to prosecute or give evidence, as the case may be.

Committal of person refusing to answer.

141. If any witness summoned or brought before a Presidency Magistrate refuses to answer such questions as are put to him, without offering any reasonable excuse for such refusal, such Magistrate may sentence him to simple imprisonment, or commit him to the custody of an officer of the Court, for any term not exceeding seven days, unless in the meantime such person consents to be examined and to answer; after which, in the event of his persisting in his refusal, he may be dealt with according to the provisions of section 205 or 206.

B.—Of Witnesses.

In cases tried upon summons.

142. In the case of offences punishable with fine only or with imprisonment for a term not exceeding six months, or with both, it shall ordinarily be the duty of the complainant and accused to produce their own witnesses. But the Presidency Magistrate may in his discretion—

(*a*) summon any person who appears to him likely to give material evidence on behalf of the complainant or the accused;

(*b*) summon any witness named by the complainant or the accused:

Provided that the Magistrate may, before summoning a witness, require that his reasonable expenses incurred in attending for the purposes of the trial be deposited in Court.

In cases tried upon warrant.

143. In the case of all other offences, the Magistrate shall ascertain from the complainant, or otherwise, the names of any persons likely to be acquainted with the facts of the case and to be able to give evidence for the prosecution, and shall summon to give evidence before him such of them as he thinks necessary.

The Magistrate shall also summon any witness and take any evidence that may be offered, in behalf of the accused person, to answer or disprove the evidence against him.

C.—Of Securing Documentary Evidence.

Summons to produce document required as evidence.

144. Whenever a Presidency Magistrate considers that the production of any document or other thing is necessary or desirable for the purposes of any inquiry, trial, or other proceeding under this Act, he may issue a summons to the person in whose possession or power such document or thing is believed to be, requiring him to attend and produce it at the time and place stated in the summons.

Issue of search-warrant in first instance.

145. Where there is reason to believe that the person to whom the summons is addressed will not produce the document or other thing as directed in the summons, the Magistrate may issue a warrant to search for such document or thing in the first instance.

Procedure as to letters and telegrams in custody of Postal Department or telegraph officer.

146. If any letter in the custody of the Postal Department, or any telegram in the custody of any telegraph officer as defined in Act No. I of 1876, is wanted for the purpose of any inquiry or trial by a Presidency Magistrate, the Magistrate may, if he is the Chief Magistrate, direct the postal authorities or such telegraph officer (as the case may be) to deliver such letter or telegram to such person as the Magistrate directs, and if he is not the Chief Magistrate, may apply to the Chief Magistrate, who may, if he thinks fit, give such direction.

The letter or telegram referred to in any direction given under this section shall be delivered accordingly.

Power to impound document produced.

147. Any Presidency Magistrate may, if he thinks fit, impound any document or other thing produced before him, or may, at the conclusion of the proceedings, order it to be returned to the person who produced it.

D.—Of the Examination of Accused Persons.

Examination of accused.

148. At any stage of any inquiry or trial under this Act, the Magistrate may, without previously warning the accused person, put such questions to him as he considers necessary.

The accused person shall not render himself liable to punishment for refusal to answer such questions, or for giving false answers to them, but the Magistrate shall draw such inference as may to him seem just from such refusal or false answers.

EXPLANATION.—The answer given by an accused person may be put in evidence against him, not

only in such inquiry or trial, but also in any other inquiry into or trial for any other offence which such answer may tend to show he has committed.

No influence to be used to induce disclosures.

149. Except as is provided in section 150, no influence, by means of any promise or threat or otherwise, shall be used to an accused person to induce him to disclose or withhold any matter within his knowledge.

Tender of pardon to accomplice.

150. A Presidency Magistrate may, with the view of obtaining the evidence of any person supposed to have been directly or indirectly concerned in, or privy to, any offence specified in column seven of the second schedule hereto annexed as triable exclusively by the High Court, tender a pardon to such person on condition of his making a full and true disclosure of the whole of the circumstances, within his knowledge, relative to such offence and to every other person concerned in the perpetration thereof.

Every person accepting a tender under this section shall be examined as a witness in the case.

Such person, if not on bail, shall be detained in custody until the termination of the trial.

Commitment of person to whom pardon has been tendered.

151. When a pardon has been tendered under section 150, if before the trial it appears to the Presidency Magistrate that any person who has accepted such tender has either by wilfully concealing anything essential, or by giving false evidence, not complied with the condition under which the tender was made, such Magistrate may commit him for trial for the offence in respect of which the pardon was so tendered or for any other offence of which he may appear to have been guilty in connection with the same matter.

The statement made by a person under pardon, which pardon has been withdrawn under this section, may be put in evidence against him.

E.—Special Rules of Evidence.

152. The deposition of a civil surgeon or other medical witness, taken and duly attested by a Magistrate, may be given in evidence in any inquiry or trial under this Act, although the deponent is not called as a witness.

153. Any document purporting to be a report from the chemical examiner, or assistant chemical examiner to Government, upon any matter or thing duly submitted to him for examination or analysis and report, in the course of any inquiry or trial under this Act, or in any preliminary inquiry relating thereto, may, if it bears his signature, be used as evidence in any inquiry or trial under this Act.

The Presidency Magistrate may presume that the signature to any such document is genuine, and that the person signing it held the office which he professed to hold at the time when he signed it.

The Presidency Magistrate may, if he thinks fit, summon and examine such chemical examiner or assistant chemical examiner as to the subject-matter of his said report.

154. A previous conviction or acquittal may be proved (*a*) by an extract certified, under the hand of the officer having the custody of the records of the Court in which such conviction or acquittal was had, to be a copy of the sentence or order, or (*b*) in case of a conviction by a certificate signed by the officer in charge of the jail in which the punishment or any part thereof was inflicted.

155. If an accused person abscond and after due pursuit cannot be arrested, the Presidency Magistrate may, in his absence, examine the witnesses (if any) produced on behalf of the prosecution, and record their depositions; and any such deposition may on the arrest of such person, be put in on his trial for the offence with which he is charged, if the attendance of the deponent cannot be procured.

Convictions on evidence partly recorded by one Magistrate and partly by another.

156. Whenever any Presidency Magistrate, after having heard the whole or any part of the evidence in an inquiry or trial, ceases to exercise jurisdiction therein and is succeeded by another Magistrate who has and who exercises such jurisdiction, the Magistrate so succeeding may act on the evidence so recorded by his predecessor, or partly recorded by his predecessor and partly recorded by himself, or he may re-summon the witnesses and re-commence the inquiry or trial.

Provided that the accused person may when the second Magistrate commences his proceedings, demand that the witnesses be re-summoned and reheard, in which case the inquiry or trial shall be re-commenced:

Provided also that the High Court may set aside any conviction passed on evidence not wholly recorded by the Magistrate before whom the conviction was had, if such Court is of opinion that the accused person has been materially prejudiced thereby; and may order a new inquiry or trial.

When attendance of witness may be dispensed with.

157. Whenever in the course of a trial under this Act it appears that the attendance of a witness cannot be procured without an amount of delay, expense or inconvenience which, under the circumstances of the case, would be unreasonable, the Presidency Magistrate may dispense with such attendance.

Issue of commission and procedure thereunder.

158. Such Magistrate may direct a commission to any Magistrate of the District or Magistrate of the first class, within the local limits of whose jurisdiction such witness may be.

The Magistrate to whom the commission is directed, or, if he be the Magistrate of the District, such Magistrate of the first class as he appoints in this behalf shall proceed to the place where such witness is, or shall summon such witness before himself, and shall take the evidence of such witness in the same manner, and may for this purpose exercise the same powers as in trials of warrant cases under the Code of Criminal Procedure.

If the witness is within the local limits of the jurisdiction of any Presidency Magistrate, other than the Magistrate dispensing with his attendance, the latter Magistrate may direct a commission to the former Magistrate, who thereupon shall have the like power to compel the attendance of, and to examine, such witness as he possesses for that purpose in cases pending before himself.

or when he considers that such inquiry or discovery will be furthered by a general search or inspection,

he may grant his search-warrant; and the officer charged with the execution of such warrant may search or inspect any place within the local limits of the jurisdiction of such Magistrate.

The Magistrate may, if he thinks fit, specify in the warrant the particular place, building or part thereof to which only the search or inspection shall extend; and the officer charged with the execution of such warrant shall then search or inspect only the place, building or part so specified.

Nothing in this section or in section 145 shall authorize a Magistrate to grant a warrant to search for a letter or telegram in the custody of the Postal Department or of a telegraph officer.

or for the deposit or sale or manufacture of forged documents, or counterfeit Government stamps, or counterfeit coin, or instruments or materials for counterfeiting coin or for forging,

or that any forged documents, or counterfeit stamps, or false seals, or counterfeit coin, or instruments or materials used for counterfeiting coin, or for forging, are kept or deposited in any place,

he may by his warrant authorize any police-officer above the rank of a constable—

(*a*) to enter, with such assistance as may be required, and by force if necessary, such place, and

(*b*) to search the same as specified in the warrant, and

(*c*) to take possession of any property, documents, stamps, seals or coins therein found, which he reasonably suspects to be stolen, unlawfully obtained, forged, false or counterfeit, and also any such intruments and materials as aforesaid, and

(*d*) to convey such property, documents, stamps, seals, coins, instruments or materials before a Presidency Magistrate, or to guard the same on the spot until the offender is taken before a Presidency Magistrate, or otherwise to dispose thereof in some place of safety, and

(*e*) to take into custody and carry before the said Magistrate every person found in such place, who appears to have been privy to the deposit, sale or manufacture or keeping of any such property, documents, stamps, seals, coins, instruments or materials knowing or having reasonable cause to suspect the said property to have been stolen or otherwise unlawfully obtained, or the said documents, stamps, seals, coins, instruments or materials to have been forged, falsified or counterfeited, or the said instruments or materials to have been or to be intended to be used for counterfeiting coin or for forging.

161. The provisions of sections 59 to 62, both inclusive, shall apply to all search-warrants issued under this chapter.

162. Whenever any house or place liable to search or inspection under this chapter is closed, any person residing in, or being in charge of such house or place shall, on demand of the officer or other person executing the warrant, allow such officer or other person free ingress thereto, and afford all reasonable facilities for a search therein.

Persons in charge of closed house to allow search.

163. A Police-officer or other person, authorized by a warrant to search any house or place, may break open any outer or inner door or window of such house or place, in order to execute the warrant, if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance.

Place to be searched may be broken open.

164. If the place ordered to be searched is an apartment in the actual occupancy of a woman who, according to the customs of the country, does not appear in public, the officer or other person charged with the execution of the warrant shall, unless a warrant of arrest has been issued against her, give her notice that she is at liberty to withdraw.

Search of zanána

After giving such notice and allowing a reasonable time for such woman to withdraw, and affording her every reasonable facility for withdrawing, such officer or person may enter such apartment for the purpose of making the search, using at the same time every precaution consistent with

this section for preventing the clandestine removal of the thing mentioned in the warrant.

OF APPEALS.

167. Any person convicted on a trial held by a Presidency Magistrate, may appeal to the High Court if the Magistrate has sentenced him to imprisonment for a term exceeding six months or to fine exceeding two hundred rupees:

Provided that, where an accused person has been convicted on his own plea, no such appeal shall lie except as to the extent or legality of the sentence.

Sentences passed under section 13 on the same occasion shall for the purposes of this section be considered as one sentence.

For the purposes of the Indian Limitation Act, 1871, all appeals under this section, and all applications to the High Court for the exercise of the powers given by Act No. X of 1875, section 147, shall be deemed to be appeals under the Code of Criminal Procedure.

Appeal by Government from order of acquittal.

168. The Local Government may direct the Public Prosecutor or other officer specially or generally appointed in this behalf to present an appeal to the High Court from a Presidency Magistrate's order of acquittal, or of dismissal, or of discharge; but in no other case shall there be an appeal by the prosecution from any order under this Act.

No appeal shall be presented under this section after two months from the date of the order complained of.

When an appeal is presented under this section, the High Court may order the accused person to be arrested and brought before it, and may commit him to prison pending the disposal of the appeal, or (if the offence of which he is accused be bailable) admit him to bail.

The High Court may, in any case so appealed, direct a new trial by any Presidency Magistrate, or may pass such order as may be warranted by law.

Copy of order to accompany petition.

169. Every petition of appeal under this Act shall be accompanied by a copy of the order appealed against.

Copies of proceedings.

170. If any person affected by an order passed under this Act desires to have a copy of such order, or of any deposition or other part of the record, he shall, on applying for such copy, be furnished therewith: provided that he pay for the same, unless the Magistrate, for some special reason, thinks fit to furnish it free of cost.

Procedure when appellant in jail.

171. If the appellant be in jail, he shall be at liberty to present his petition of appeal and the copy of the order appealed against, to the officer in charge of the jail, who shall thereupon forward such petition and copy to the High Court.

Procedure on receiving petition of appeal.

172. On receiving the petition of appeal and the copy of the order appealed against, the High Court shall peruse the same, and may fix a reasonable time for hearing the appellant or his advocate or pleader, or if he be present may hear him at once.

Power to reject appeal summarily.

The High Court may, if it considers that there is no sufficient ground for altering or revising the order appealed against, reject the appeal summarily.

Power to call for record.

Before rejecting an appeal under this section, the High Court may call for the record of the case, but shall not be bound to do so.

Sentence not to be enhanced when appeal rejected under this section.

In rejecting under this section an appeal by a person convicted, the High Court shall not enhance the sentence.

Notice of day for hearing appeal.

173. If the High Court does not reject the appeal summarily, it shall cause notice to be given to the appellant and the Public Prosecutor, Government Solicitor, or other officer empowered by Government in that behalf, of the day on which such appeal will be heard,

and in case of appeals under section 168, the High Court shall also cause a like notice to be given to the respondent.

Service of notice.

All such notices shall be served in manner provided by this Act for serving a summons.

High Court may alter or reverse finding and sentence, or enhance sentence.

174. The High Court shall send for the record of the case, and after perusing the same, and hearing the appellant or his advocate or pleader, if he appears, and the Government solicitor or other officer empowered by Government in this behalf, if he appears, may—

(*a*) alter or reverse the order of such Court, or

(*b*) enhance any punishment that has been awarded, but not so as to inflict a greater punishment than is prescribed by law for the offence, or

(*c*) order the appellant to be re-tried before any Presidency Magistrate or before the High Court, or

(*d*) if it considers that there is no sufficient ground for interfering with the sentence or order appealed against, reject the appeal.

Suspension of sentence pending appeal. Release of appellant on bail.

175. Pending any appeal under section 167, the High Court may direct that the execution of the order appealed against be suspended, and if the appellant be in confinement for a bailable offence, may order that he be released on bail.

Where the appellant is ultimately sentenced to imprisonment, the time during which he is so released shall be excluded in calculating the term of his imprisonment.

High Court may make or direct further inquiry.

176. In dealing with any appeal under this chapter, the High Court, if it thinks additional evidence upon any point bearing upon the guilt or innocence of the accused person to be necessary, may either take such evidence itself, or may direct it to be taken by a Presidency Magistrate.

When the additional evidence is taken by the Presidency Magistrate, he shall certify such evidence to the High Court, and the High Court shall thereupon proceed to dispose of the appeal.

Unless the High Court otherwise directs, the accused person or his advocate, attorney or pleader shall be present when the additional evidence is taken.

The provisions of this Act relating to summoning and enforcing the attendance of witnesses and their examination, shall, so far as may be, apply to witnesses examined before a Magistrate under this section.

Order when reversible by reason of error or defect in charge or proceedings.

177. No order passed by a Presidency Magistrate shall be reversed or altered on appeal on account of any error or defect, either in the charge or in the proceedings, or on account of the improper admission or rejection of any evidence, unless such error or defect has occasioned a failure of justice, either by affecting the due conduct of the prosecution, or by prejudicing the accused person in his defence.

Irregularity before trial properly held.

178. No irregularity in the proceedings prior to the commencement of the trial is a sufficient ground for reversing or altering any order passed in a trial properly held.

Procedure in case of conviction by Magistrate not having jurisdiction.

179. When a Presidency Magistrate has passed an order inflicting punishment on any person for an offence not triable by such Magistrate, the High Court shall cancel the order and either try the case itself or direct it to be tried by a Court of competent jurisdiction.

Unless otherwise provided, no appeal to lie from order of Presidency Magistrate.

180. No appeal shall lie from any order of a Presidency Magistrate, except in the cases provided for by this Act or by any other law for the time being in force.

181. Whenever an application is made to the High Court for the exercise of the powers conferred by the High Courts' Criminal Procedure Act, 1875, section 147, the applicant shall give to the Public Prosecutor, Government Solicitor, or such other officer as the Local Government appoints in this behalf, notice in writing of the application, together with a copy of the grounds on which it is to be made; and no order shall be made on the merits of the application unless at least twenty-four hours have elapsed between the giving of such notice and the hearing of the application.

Statement by Magistrate of grounds of his decision, to be considered by High Court.

182. When the decision of any Presidency Magistrate is called in question in the High Court, the Magistrate may submit with the record of the case a statement setting forth the grounds of his decision and any facts which he thinks material to the issue; and the Court shall consider such statement before overruling or setting aside the said decision.

CHAPTER XIII.

OF EXECUTION.

Court to send accused with warrant for execution of sentence to officer in charge of jail.

183. In cases tried by a Presidency Magistrate, the Magistrate passing any order inflicting imprisonment or whipping shall forward the accused person with a warrant for the execution of the sentence to the officer in charge of the jail of the Presidency town in which the trial was held,

or where there are more such jails than one, to the officer in charge of such of them as the Local Government from time to time directs in this behalf.

The warrant shall state the offence of which the accused person has been convicted, the nature of the punishment to which he has been sentenced, and if he has been sentenced to imprisonment, the term for which he is to be imprisoned.

Form and direction of warrant of commitment.

184. Every such warrant shall be in writing under the hand of the Magistrate who issues it, and shall be directed to the officer in charge of the jail aforesaid, and shall be in the form (F) given in the third schedule to this Act, or to the like effect.

Levy of fine.

185. Whenever a fine is imposed under this Act, the Presidency Magistrate may issue a warrant for the levy of the amount of the fine by distress and sale of any moveable property belonging to the offender, although the sentence directs that, in default of payment of the fine, the offender shall be imprisoned.

Such warrant may be executed within the local limits of such Magistrate's jurisdiction, and it shall authorise the distress and sale of any such property without such limits when endorsed by the Magistrate of the District in which it is found.

This section shall not apply to cases in which any special procedure is laid down, by any special or local law in force for the time being, for the recovery of any fine, but shall apply to cases in which no such procedure is laid down, and to all fines not levied when this Act comes into force, but which might have been levied under this section if it had been in force when they were imposed.

Section to what cases applicable.

When a warrant is issued under this section, the Presidency Magistrate may order the offender to be imprisoned until return can be conveniently made to such warrant, unless the offender enter into a recognizance with or without sureties as the Magistrate thinks fit, conditioned for his appearance before the Magistrate on the day appointed for such return, such day not being more than eight days from the time of taking the recognizance. But if, before issuing such warrant of distress, it appears to the Magistrate, by the admission of the offender or otherwise, that no sufficient distress can be had within the local limits of his jurisdiction whereon to levy such fine or penalty, he may, if he think fit, refrain from issuing such warrant.

Detention of offender until return made to distress-warrant.

No distress made under this Act shall be deemed unlawful, nor shall any person making the same be deemed a trespasser on account of any defect or want of form in the summons, conviction, warrant of distress or other proceeding relating thereto.

Distress not illegal, nor distrainer a trespasser for defect of form in proceedings.

The said warrant may be issued either by the Magistrate who imposes the fine, or by his successor in office.

Who may issue distress warrant.

186. Whenever a Presidency Magistrate imposes a fine under any law in force for the time being, he may order the whole or any part of the fine to be paid in compensation—

Payment of fine in compensation.

(*a*) for expenses properly incurred in the prosecution,

(*b*) for the injury complained of, where such injury can, in the opinion of such Magistrate, be compensated by money.

Such payment shall be made, as the Magistrate thinks fit, to or for the benefit of the complainant, or the person injured, or both.

If the fine be imposed in a case which is subject to appeal, no such payment shall be made until the period allowed for presenting the appeal has elapsed, or, if an appeal be presented, until after the decision of the appeal.

At the time of awarding damages in any subsequent civil suit relating to the same matter, the Court shall take into consideration any sum which may have been paid under this section.

187. When the punishment of whipping is imposed, in addition to imprisonment, in a case which is subject to appeal, the whipping shall not be inflicted until fifteen days from the date of such sentence, or, if an appeal be made within that time, until the sentence is confirmed by the High Court: but the whipping shall be inflicted immediately on the expiry of the fifteen days, or in case of an appeal, immediately on the receipt of the order of the High Court confirming the sentence.

Whipping, if imposed in addition to imprisonment, in appealable case, when to be inflicted.

188. In the case of a person of or over sixteen years of age, the punishment of whipping shall be inflicted with such instrument, in such mode, and on such part of the person, as the Local Government directs; and in the case of a person under sixteen years of age, it shall be inflicted in the way of school-discipline with a light ratan.

Mode of inflicting punishment of whipping.

In no case, if the cat-o'-nine-tails be the instrument employed, shall the punishment of whipping exceed one hundred and fifty lashes, or if the ratan be employed, shall such punishment exceed thirty stripes.

The punishment of whipping shall be inflicted in the presence of the officer in charge of the jail.

189. The punishment of whipping shall not be inflicted unless a medical officer, if present, certifies, or if there is not a medical officer present, unless it appears to the officer present, that the offender is in a fit state of health to undergo such punishment.

Punishment not to be inflicted if offender not in fit state of health.

If, during the execution of a sentence of whipping, a medical officer certifies, or it appears to the officer present, that the offender is not in a fit state of health to undergo the remainder of the sentence, the whipping shall be finally stopped.

Stay of execution.

190. No sentence of whipping shall be executed by instalments.

Not to be executed by instalments.

191. In any case in which, under section 189, a sentence of whipping is wholly or partially prevented from being executed, the offender shall be kept in custody till the Magistrate who passed the sentence can revise it; and the said Magistrate may, at his discretion, either remit such sentence, or sentence the offender, in lieu of whipping, or in lieu of so much of the sentence of whipping as was not executed, to imprisonment for any period which may be in addition to any other punishment to which he may have been sentenced for the same offence:

Procedure if punishment cannot be inflicted under section 188.

Provided that the whole period of imprisonment to which such offender is sentenced shall not exceed that to which he is liable by law, or that which the Magistrate is competent to inflict.

192. When sentence is passed under this Act on an escaped convict, such sentence, if of fine or whipping, shall take effect immediately, and if of imprisonment, shall take effect after he has undergone the portion of his former sentence which remained unexpired at the time of his escape.

Currency of sentence on escaped convicts.

193. When a person already under sentence of imprisonment or transportation is sentenced under this Act to imprisonment, such imprisonment shall commence at the expiration of the imprisonment or transportation to which such person has been previously sentenced.

Commencement of sentence on offender already sentenced for other offence.

CHAPTER XIV.

OF LUNATICS.

Procedure when accused is a lunatic.

194. When any person accused before a Presidency Magistrate of an offence appears to such Magistrate to be of unsound mind and incapable of making his defence, the Magistrate shall inquire into the fact of such unsoundness, and shall cause the accused person to be examined by such medical officer as the Local Government directs, and thereupon shall examine such officer as a witness, and shall reduce the examination into writing.

If such Magistrate is of opinion that the accused person is of unsound mind, he shall stay further proceedings in the case.

When accused appears to have been insane.

195. When, from the evidence given before a Presidency Magistrate, there appears to be sufficient ground for believing that an accused person committed an act which, if he had been of sound mind, would have been an offence, and that he was at the time when the act was committed, by reason of unsoundness of mind, incapable of knowing the nature of such act, or that he was doing what was contrary to law, the Presidency Magistrate shall, if such accused person appears to be of sound mind at the time of the inquiry or trial, proceed with the case.

Release of lunatic on bail.

196. Whenever an accused person is found to be of unsound mind and incapable of making his defence, the Presidency Magistrate, if the offence of which such person is accused be bailable, may release him on sufficient bail being given that he shall be properly taken care of, and shall be prevented from doing injury to himself or to any other person, and for his appearance when required before the Magistrate or such officer as the Magistrate appoints in this behalf.

Custody when bail not given.

If the offence be non-bailable, or if sufficient bail be not given, the Magistrate shall report the case for the order of the Local Government, and the accused person shall be kept in safe custody in such place as the Local Government directs.

Resumption of inquiry or trial.

197. Whenever proceedings are stayed under section 194, the Presidency Magistrate may at any time resume the inquiry or trial, and require the accused person to appear or to be brought before him.

When the accused person has been released under section 196, and the sureties for his appearance produce him to the officer whom the Magistrate appoints in this behalf, the certificate of such officer that the accused person is capable of making his defence shall be receivable as evidence.

Procedure on accused appearing before Magistrate

198. If, when the accused person appears or is again brought before the Magistrate, such Magistrate considers him capable of making his defence, the inquiry or trial shall proceed.

If the Magistrate considers the accused person to be still incapable of making his defence, the Magistrate shall again act according to section 194.

Finding in case of acquittal on ground of being lunatic.

199. Whenever any person is acquitted by a Presidency Magistrate upon the ground that at the time at which such person is alleged to have committed an offence he was, by reason of unsoundness of mind, incapable of knowing the nature of the act alleged as constituting the offence complained of, or that he was doing what was contrary to law, the order of acquittal shall state specially whether he committed the act or not.

Procedure when lunatic committed the act alleged.

200. Whenever such order states that the accused person committed the act alleged, the Presidency Magistrate before whom the trial was held shall, if such act would, but for the incapacity found, have constituted an offence, order such person to be kept in safe custody in such place and manner as the Magistrate thinks fit, and shall report the case for the order of the Local Government.

The Local Government may order such person to be kept in safe custody in a lunatic asylum or other suitable place of safe custody.

Visiting of lunatic prisoners.

201. When any person is confined under the provisions of section 196 or 200, the Inspector-General of Prisons, if such person is confined in a jail, or the visitors of the lunatic asylums, or any two of them, if he is confined in a lunatic asylum, may visit him in order to ascertain his state of mind; and he shall be visited once at least in every six months by such Inspector-General or by two of such visitors as aforesaid; and such Inspector-General or visitors shall make a special report to the Local Government as to the state of mind of such person.

Procedure where lunatic prisoner reported capable of making defence

202. If such person is confined under section 196, and such Inspector-General or visitors as aforesaid shall certify that, in his or their opinion, such person is capable of making his defence, he shall be taken before the Presidency Magistrate at such time as such Magistrate appoints, and such Magistrate shall deal with such person under the provisions of section 194; and the certificate of such Inspector-General or visitors as aforesaid shall be receivable as evidence.

Procedure where lunatic confined under section 199 is declared capable of being discharged.

203. If such person is confined under the provisions of section 200, and such Inspector-General or visitors as aforesaid certify that, in his or their judgment, he may be discharged without danger of his doing injury to himself or to any other person, the Local Government may thereupon either order him to be discharged, or to be detained in custody, or to be transferred to a public lunatic asylum, if he has not been already sent to such an asylum; and may appoint a commission, consisting of a judicial officer and two medical officers, whereof the chief medical officer attached to the lunatic asylum shall be one.

The said commission shall make formal inquiry into the state of mind of such person, taking such evidence as is necessary, and shall report to the Local Government, who may order his discharge or detention, as it thinks fit.

Delivery of lunatic to care of relative.

204. Whenever any relative or friend of any person detained under the provisions of section 200 is desirous that he shall be delivered over to his care and custody, the Local Government, upon the application of such relative or friend, and on his giving security to the satisfaction of such Government that the person so detained shall be properly taken care of and shall be prevented from doing injury to himself or another, may order such person to be delivered to such relative or friend.

Whenever such person is so delivered over, it shall be upon condition that he shall be produced for the inspection of such officer as the Local Government appoints, and at such times as such Government directs.

The provisions of sections 201 and 203 shall, *mutatis mutandis*, apply to persons detained under the provisions of this section; and the certificate of the inspecting officer appointed under this section shall be dealt with as a certificate of the Inspector-General of Prisons, or the visitors of lunatic asylums under the said sections.

CHAPTER XV.

OF CONTEMPTS OF COURT.

Procedure in certain cases of contempt.

205. When any such offence as is described in sections 175, 178, 179, 180, or 228 of the Indian Penal Code is committed in the view or presence of a Presidency Magistrate, he may cause the offender to be detained in custody; and, at any time before the Magistrate leaves his court on the same day, he may take cognizance of the offence, and sentence the offender to punishment by fine not exceeding two hundred rupees, and, in default of payment, by imprisonment in the civil jail for a period not exceeding one month, unless such fine be sooner paid.

In every such case the Magistrate shall record the acts constituting the offence, with the statement (if any) made by the offender, as well as the finding and sentence.

If the offence is under section 228 of the Indian Penal Code, the record must show the nature and stage of the judicial proceeding in which the Magistrate interrupted or insulted was sitting, and the nature of the insult or interruption.

Procedure where Court considers that accused should be imprisoned, or fined more than 200 rupees.

206. If the Presidency Magistrate considers that a person accused of any of the offences referred to in section 205 should be imprisoned otherwise than in default of payment of fine, or that a fine exceeding two hundred rupees should be imposed upon him, such Magistrate, after recording the facts constituting the offence, and the statement of the accused person, shall forward the case to another Presidency Magistrate, and shall require bail to be given for the appearance of such accused person before such other Magistrate, or, if sufficient bail be not given, shall forward such person under custody to such Magistrate.

Such other Magistrate shall proceed to try the accused person in the manner provided by this Act for trials before a Presidency Magistrate; and may sentence the offender to punishment, as provided in the section under which he is charged.

Discharge of offender on submission or apology.

207. When any Presidency Magistrate has sentenced an offender to punishment or forwarded him to another Magistrate for trial for refusing or omitting to do anything which he was lawfully required to do, or for any intentional insult or interruption, the former Magistrate may discharge the offender or remit the punishment on his submission to the order or requisition of such Magistrate, or on apology being made to his satisfaction.

CHAPTER XVI.

OF SECURITY FOR KEEPING THE PEACE AND FOR GOOD BEHAVIOUR.

A.—Security for keeping the Peace.

Personal recognizance to keep the peace in cases of conviction.

208. Whenever a person accused of rioting, assault, or other breach of the peace, or with abetting the same, or with assembling armed men or taking other unlawful measures with the evident intention of committing the same, is convicted of such offence before a Presidency Magistrate,

and such Magistrate is of opinion that it is necessary to require such person to execute a personal recognizance for keeping the peace,

he may, in addition to any other order passed in the case, order the person so convicted to execute a personal recognizance for keeping the peace during such period as the Magistrate thinks fit to fix, not exceeding one year.

Sureties for keeping the peace.

209. Whenever a Presidency Magistrate is of opinion that it is necessary to require sureties for keeping the peace in addition to the personal recognizance of the person so convicted, such Magistrate may require him to give such sureties, and may fix the penalties which the sureties shall be respectively bound to discharge, and may direct that, if such bail be not given, he shall be imprisoned for such term, not exceeding one year, as the Magistrate thinks fit.

Commencement of period during which persons may be bound to keep peace.

210. If the person so convicted be sentenced to imprisonment, the period so fixed, and the term of imprisonment in default of executing the recognizance, shall commence on the expiration of his sentence.

Where the order to execute such recognizance is not made at the time of signing, or by the Magistrate who signs the judgment, the person so convicted must be produced before the Magistrate making such order.

Extension of time for which person is bound.

211. Whenever it appears to a Presidency Magistrate that it is necessary for the preservation of the peace that the term for which any person is so bound should be extended, he may, before the expiration of the first year, record his opinion to that effect and the grounds thereof, and may refer the case for the orders of the High Court.

Such Court, after examining the proceedings of the Magistrate, and making such further inquiry as it thinks necessary, may, if it see cause, authorize him to extend such term for a further period, not exceeding one year, from the expiration of the first year.

EXPLANATION.—When the subject of dispute or ground for apprehension is the same as that on

which the first order was passed, the Magistrate must proceed under this section if the first bond is still in force, and not under section 215.

B.—Security for Good Behaviour.

When Magistrate may require security for good behaviour for six months.

212. Whenever it is proved before a Presidency Magistrate that any person is lurking within the local limits of his jurisdiction, or that there is within such limits a person who has no ostensible means of subsistence, or who cannot give a satisfactory account of himself, the Magistrate may require such person to enter into such recognizance, with sureties for his good behaviour, for a period not exceeding six months, as the Magistrate thinks sufficient.

When Magistrate may require security for good behaviour for one year.

213. Whenever it is proved before a Presidency Magistrate that any person is by repute

a robber, house-breaker, or thief,

or a receiver of stolen property, knowing the same to have been stolen,

or of notoriously bad livelihood,

or of a dangerous character,

such Magistrate may require similar security for the good behaviour of such person for a period not exceeding one year.

Procedure where security required for more than one year.

214. Whenever it is proved before a Presidency Magistrate that any person is an habitual robber, house-breaker, or thief,

or an habitual receiver of stolen property, knowing the same to have been stolen,

or of a dangerous character,

and that his release without security at the expiration of the limited period of one year would be hazardous to the community,

the Magistrate shall record his opinion to that effect, and make an order requiring similar security for the good behaviour of such person for a period not exceeding three years

If such person does not comply with the order, the Magistrate shall issue a warrant directing his detention pending the orders of the High Court.

C.—Provisions as to both kinds of Security.

Summons to person to show cause why he should not give bond to keep peace or for good behaviour.

215. Whenever a Presidency Magistrate receives information that any person is likely to commit a breach of the peace, or to do any act that may probably occasion a breach of the peace, or that he is one of the persons referred to in sections 212, 213, and 214, he may summon such person to attend at a time and place mentioned in the summons to show cause why he should not be required to execute a recognizance to keep the peace or for good behaviour, as the case may be.

EXPLANATION I.—A summons calling on a person to show cause why he should not execute such recognizance may be issued on any report or other information which the Magistrate believes; but the Magistrate shall not require any person to execute such recognizance until the Magistrate has adjudicated on evidence before him.

EXPLANATION II.—A Magistrate may, if he thinks fit, recall any summons issued under this section.

Contents of summons.

216. Such summons shall set forth the substance of the report or information on which it is issued, the penalty to be specified in the recognizance, and the term for which it is to be in force, and, if bail are to be taken, their number, the penalties which they shall be respectively bound to discharge, and the time and place at which the person summoned is required to attend.

When the person believed to be likely to commit a breach of the peace, or to be one of the persons referred to in sections 212, 213, and 214, is present in Court, no summons is necessary, but the Magistrate may at once require him to show cause why he should not be required to execute the recognizance.

When warrant of arrest may issue.

217. If the person summoned does not attend on the day appointed at the hour and place named in the summons, the Presidency Magistrate, if satisfied that the summons has been duly served, may issue a warrant for his arrest:

Provided that, whenever it appears to such Magistrate, upon the report of a police-officer or upon other credible information (the substance of which report or information shall be recorded by the Magistrate on the warrant), that there is reason to fear the commission of a breach of the peace which may probably be prevented by the immediate arrest of any person, or that there is reason to think that any person is one of the persons so referred to, the Magistrate may at any time issue a warrant for his arrest.

Magistrate may dispense with personal attendance of person informed against.

218. The Magistrate may, if he sees sufficient cause, dispense with the personal attendance of the person informed against under section 215, and may permit him to appear and execute the required recognizance, or show cause against such requisition, by an advocate, attorney, or pleader.

Discharge of person informed against.

219. If, on the appearance of the person so informed against or, if his attendance is dispensed with, of his advocate, attorney, or pleader, the Magistrate is not satisfied that there is occasion to bind over such person to keep the peace or to be of good behaviour, the Magistrate shall direct his discharge.

Order to give bond, and consequence of non-compliance.

220 If the Magistrate is satisfied that it is necessary for the preservation of the peace or the maintenance of good behaviour that such person shall execute a recognizance, the Magistrate shall make an order accordingly.

The penalty specified in every recognizance executed under this chapter shall be fixed with due regard to the circumstances of the case and the means of the person bound.

The penalty which the sureties shall be jointly and severally bound to discharge shall not exceed the penalty which the principal debtor is bound to discharge.

Proceedings to be laid before High Court.

221. If a person required to furnish security under section 214 does not furnish the same, or offers sureties whom the Magistrate rejects, the proceedings shall be laid, as soon as conveniently may be, before the High Court.

Such Court, after examining such proceedings and requiring any further information or evidence

which it thinks necessary, may pass such orders on the case as it thinks fit, provided that the period (if any) for which it may direct the security to be taken shall not exceed three years.

Contents of order for security.

222. Whenever security is required under this chapter, the amount of the security, the number and description of sureties, and the period of time for which the recognizance is to remain in force shall be stated in the order, and

Form of recognizance.

the recognizance shall be in the form (H) or (I), as the case may be, given in the third schedule hereto annexed, or to the like effect.

Imprisonment in default of security.

223. In the event of any person required to give security under the provisions of this chapter failing to furnish the security so required, he shall be committed to prison until he furnish the same:

Term of imprisonment.

Provided that no such person shall be kept in prison for a longer period than that for which the security has been required from him.

Imprisonment under this section may be rigorous or simple, as the High Court or Magistrate in each case directs

Binding of sentenced person.

224. If any person required under this chapter to enter into a recognizance is under sentence of imprisonment, he shall, on or after the expiration of his sentence, be brought up before the Magistrate for the purpose of entering into such recognizance.

Release of prisoners under requisition of security.

225. A Presidency Magistrate may at any time release any person imprisoned for failing to furnish security for good behaviour, whether by his own order or that of his predecessor in office, provided that the Magistrate is of opinion that such person may be released without hazard to the community.

Release of prisoner under requisition of security by order of High Court.

Whenever a Presidency Magistrate is of opinion that any person imprisoned for failing to furnish security for good behaviour, as ordered by the High Court, may be safely released without such security, such Magistrate shall make an immediate report of the case for the orders of the High Court.

Discharge of sureties.

226. A surety for the peaceable conduct or good behaviour of another person may at any time apply to a Presidency Magistrate to discharge his recognizance.

On such application being made, the Magistrate shall issue his summons or warrant requiring the person for whom such surety is bound to appear or be brought before him.

When such person appears or is brought before the Magistrate, such Magistrate shall discharge the recognizance of the surety, and shall order such person to give a fresh surety.

Commission, &c., of offence a breach.

227. The commission, or attempt to commit, or the abetment, of any offence whatever, and wherever it may be committed, is a breach of the recognizance.

Recovery of penalty from principal.

228. Whenever it is proved before a Presidency Magistrate that any recognizance entered into under this chapter has been forfeited, he shall record the grounds of such proof and call upon the person bound by such recognizance to pay the penalty thereof, or to show cause why it should not be paid.

If sufficient cause be not shown and the penalty be not paid, the Magistrate shall proceed to recover the same by issuing a warrant for the attachment and sale of any moveable property belonging to the person bound by such recognizance.

Such warrant may be executed within the local limits of the jurisdiction of the Magistrate in which it is issued; and it shall authorize the distress and sale of any moveable property belonging to the person so bound without such limits when endorsed by the Magistrate of the District in which such property is found.

If such penalty be not paid and cannot be recovered by such attachment and sale, the person so bound shall be liable to imprisonment by order of the Presidency Magistrate in the civil jail for a period not exceeding six months.

The penalty shall not be enforced until the person so bound has had an opportunity of showing cause against the enforcement, and until the breach of the condition of the recognizance has been proved.

Recovery of penalty from surety.

229. Whenever it is proved before a Presidency Magistrate that any recognizance entered into under this chapter by a surety has been forfeited, the Magistrate may give notice to the surety to pay the penalty to which he has thereby become liable, or to show cause why it should not be paid.

If no sufficient cause is shown, and such penalty is not paid, the Magistrate may proceed to recover the penalty from such surety in manner provided by the last preceding section.

And in case such penalty cannot be so recovered, the Magistrate may sentence the surety to imprisonment in the civil jail for a period not exceeding six months.

Proof of previous conviction.

230. Any previous conviction of the person to be bound may, in proceedings under this chapter, be proved in the manner prescribed in section 153.

Where proceedings under this chapter may be taken.

231. Proceedings under this chapter may be taken in any district in which the breach of the peace is apprehended, or in which an offence has been committed in breach of the bond, or in which the person whom it is desired to bind may be.

Provisions of chapter not applying to European vagrants.

232. The provisions of this chapter relating to security for good behaviour do not apply to European British subjects in cases where they may be dealt with under the European Vagrancy Act, 1874.

CHAPTER XVII.

OF RESTORING POSSESSION OF IMMOVEABLE PROPERTY.

Power to restore possession of immoveable property.

233. Whenever any person is convicted by a Presidency Magistrate of an offence attended with criminal force, and it appears to such Magistrate that by such criminal force any person has been dispossessed of any immoveable property, the Magistrate may order such person to be restored to possession.

No such order shall prejudice any right over such immoveable property which any person may be able to show in a civil suit.

CHAPTER XVIII.

OF THE MAINTENANCE OF WIVES AND FAMILIES.

Order for maintenance of wives and children.

234. If any person, having sufficient means, neglects or refuses to maintain his wife, or his legitimate or illegitimate child unable to maintain itself, a Presidency Magistrate may, upon due proof thereof by evidence, order such person to make a monthly allowance for the maintenance of his said wife or child, or both, at such monthly rate, not exceeding fifty rupees in the whole, as such Magistrate thinks fit, and to pay the same to such person as the Magistrate from time to time directs.

Such allowance shall be payable from the date of the order.

Enforcement of order.

If any person so ordered wilfully neglects to comply with the order, a Presidency Magistrate may, for every breach of the order, issue a warrant for levying the amount due in manner hereinbefore provided for levying fines; and may sentence such person, for each month's allowance remaining unpaid, to imprisonment for any term not exceeding one month:

Proviso.

Provided that, if such person offers to maintain his wife on condition of her living with him, and his wife refuses to live with him, such Magistrate may consider any grounds of refusal stated by such wife; and may make the order allowed by this section notwithstanding such offer, if he is satisfied that such person is living in adultery, or that he has habitually treated his wife with cruelty.

No wife shall be entitled to receive an allowance from her husband under this section if she is living in adultery, or if, without any sufficient reason, she refuses to live with her husband, or if they are living separately by mutual consent.

Alteration in allowance.

235. On the application of any person receiving or ordered to pay a monthly allowance under the provisions of section 234, and on proof of a change in the circumstances of such person, his wife, or child, the Magistrate may make such alteration in the allowance ordered as he thinks fit, provided the monthly rate of fifty rupees be not exceeded.

Enforcement of order.

236. A copy of the order of maintenance shall be given without fee to the person in whose favour it is made, or to his guardian (if any); and such order shall be enforceable by any Magistrate in any place where the person against whom it is made may be, on such Magistrate being satisfied as to the identity of the parties and the non-payment of the allowance due.

CHAPTER XIX.

237. The procedure prescribed by this Act shall be followed, so far as it can be, in all miscellaneous criminal cases and proceedings which are instituted in any Presidency Magistrate's Court.

239. The powers conferred on a Presidency Magistrate by section 238 may be exercised whether the offence is stated to have been committed within the local limits of his jurisdiction or not; but such powers shall only be exercised if the witnesses necessary for the prosecution of the offender are to be found within such limits.

Reference to High Court.

240. A Presidency Magistrate may, if he thinks fit, refer for the opinion of the High Court any question of law which may arise in the hearing of any case in which he has jurisdiction; or may give judgment in any such matter, subject to the decision of the High Court on such reference; and pending such decision by the High Court, may either commit the accused person to jail, or release him on bail to appear for judgment when called upon.

Disposal of case according to decision of High Court.

The High Court may direct by whom the costs of the reference shall be paid.

242. When the enquiry or trial before any Presidency Magistrate is concluded, he may make such order as he thinks fit for the disposal of any moveable property produced before him regarding which any offence appears to have been committed.

or if such person has been tried and found guilty, but the property so in custody has not been included in the charge upon which he has been found guilty,

or if any property has been seized by a police-officer under Chapter XI,

any Presidency Magistrate may make an order for the delivery of such property to the person appearing to be the rightful owner thereof; or, in case the owner cannot be ascertained, may make such order with respect to the property as the Magistrate thinks fit:

Provided that no such order shall bar the right of any person to sue the person to whom the property is delivered, and to recover such property from him so that the suit be instituted within six months next after such order has been made.

Expenses of complainants and witnesses.

244. Subject to any rules that may be made by the Local Government with the previous sanction of the Governor-General in Council, a Presidency Magistrate may order payment, on the part of Government, of the reasonable expenses of any complainant or witnesses attending for the purpose of any trial under this Act.

All persons to give information of certain offences.

RESOLUTION ON THE ANNUAL REPORT OF THE SANITARY COMMISSIONER OF BENGAL FOR THE YEAR 1875.

FINANCIAL DEPARTMENT—SANITATION.

Calcutta, the 28th June 1876.

READ—

The Report of the Sanitary Commissioner for Bengal for the year 1875, by Surgeon-Major J. G. Pilcher, F.R.C.S.

The Report of the Sanitary Commissioner for the past year has been prepared as nearly as possible in accordance with the instructions of the Government of India and of the recent orders of the Bengal Government, and is submitted by Dr. Pilcher with a punctuality that merits recognition. The various subjects laid down for discussion and review are all alluded to and sufficiently treated.

2. The general registration of vital statistics in Bengal commenced in 1869, but the results were so unsatisfactory that it was found necessary in 1872 to make special arrangements for the more careful record of births and deaths in one or more town and rural circles in each district, selected from among the general circles; and it is with the return of these selected circles or areas, as they

are commonly called, that the Sanitary Commissioner's report principally deals. The figures of the general circles are still manifestly incorrect, and the detailed returns of districts have not therefore been printed.

3. The following table furnishes a summary of the results of the registration in the general circles of Bengal for the past three years. The figures apply to the whole of Bengal where registration is effected, inclusive of the selected areas:—

	1873.		1874.		1875.	
	Population.	Ratio of deaths per 1,000 per annum.	Population	Ratio of deaths per 1,000 per annum.	Population.	Ratio of deaths per 1,000 per annum.
Urban areas	Not stated	Not stated	1,900,398	22 89	1,076,962	23·60
Rural areas	Ditto	Ditto	57,976,916	7 93	57,975,352	9 54
Combined areas	59,687,404	7 75	59,976,916	8 42	59,946,314	10·01

For the past five years the registered rate of mortality in the general circles has been—

In 1871	...	4·00	deaths per 1,000 of the total population.
„ 1872	...	5·81	ditto ditto.
„ 1873	...	7·77	ditto ditto.
„ 1874	...	8·42	ditto ditto.
„ 1875	...	10·01	ditto ditto.

It is obvious that these returns, when taken by themselves, are so inaccurate as to be of little or no value. At the same time an improvement is visible year by year, which, if not great, is at all events considerable enough to be encouraging. The improvement may be attributed to the fact that the custom of reporting deaths is becoming established, and that the police officers are beginning to understand better the nature of the statistics, and are therefore taking more pains to check the statements received.

4. The following statement furnishes a similar summary of the results of the selected area registration:—

	1873.		1874.		1875.	
	Population.	Ratio of deaths per 1,000 per annum.	Population.	Ratio of deaths per 1,000 per annum.	Population.	Ratio of deaths per 1,000 per annum.
Urban areas	1,117,663	26 84	1,279,492	28·59	1,283,968	29·37
Rural areas	1,392,800	23·26	1,406,936	21 20	1,404,113	20·73
Combined areas	2,509,883	24 85	2,686,428	24 72	2,688,078	24·80

The results of the selected area system thus show a great improvement on those from the general circles. Notwithstanding this, however, the expediency of continuing the system has recently been questioned by high and responsible sanitary authorities. The objections brought forward have been separately disposed of and need not be now repeated: it need only be said that they have not been accepted by Government. The general opinion of the local officers who have been consulted is very decidedly against making any change in the present system, and in the opinion of the Lieutenant-Governor that system should be maintained. The greatest respect is entertained for the views of the sanitary authorities, and their endeavours to improve the registration are most cordially acknowledged; but it seems to be the case that their endeavours can be most efficiently met by the gradual extension of the system of selected areas, and this is an object which accordingly will always be borne in mind by Government. From the general registration nothing more can be looked for than that the people should become gradually accustomed to regard registration as a matter of course, and not as a cause of suspicion, and that the statistics should gradually improve to something approaching accuracy.

In the special areas, by the help of compulsory measures, which would be impracticable in the district at large, we may look in time for statistics valuable to the areas themselves and indirectly useful to the rest of the country. Even as it is, the statistics of selected areas are good compared with the vital statistics compiled in other parts of India. Marked discrepancies between different places must of course occur; and so long as not one Bengalee villager out of a hundred knows his own age, we must expect differences in the recorded mortality of various ages. But this does not imply any inaccuracy in general results. The Lieutenant-Governor observes that, while in Bengal the Government declined to require details of this kind in the census, the general results of the Bengal census compared not unfavorably with those of other provinces. At the same time, the disproportion in the figures relating to the sexes is an undoubted blot, and whenever it occurs requires attention. The fact that notwithstanding all our efforts such blots do occur goes far to prove that, for the present at least, selected areas and special agencies, as well as increased attention, are necessary to secure perfectly trustworthy statistics.

5. The causes of mortality in the selected areas during the past three years, shown according to the number of deaths per thousand, are illustrated by the following statement:—

	1873.	1874.	1875.
Cholera	2·75	2·36	2·86
Bowel-complaints	2·20	2·41	2·44
Small-pox	·79	·68	·22
Fevers	14·75	14·31	14·58
Injury	·40	·54	·46
All other causes	4·13	4·40	4·21
Total ...	24·85	24·72	24·80

It will be seen from this statement that there was an increase in cholera, bowel-complaints and fever during the past year, and that under other headings there was a decrease in mortality.

6. The population of the selected circles of Bengal shows a proportion of 105 males to 100 females living. On the other hand, of the deaths registered, the proportion of males to females is as 124 to 100, thus showing a marked deficiency in the registration of female deaths. The attention of registering officers has frequently been called to this deficiency, but it cannot be said that any marked improvement has evinced itself in the recent returns.

7. As regards deaths according to season, it is pointed out that the largest number of deaths in one month was registered in November, and that the fourth quarter of the year was by far the most fatal to life. There was an increase of mortality in this quarter, as compared with the preceding nine months, under every head, excepting small-pox; but the unhealthiness of the quarter was chiefly due to the greater prevalence of cholera and fever.

8. As regards the mortality among various classes, the registered rates of mortality per thousand are as follow:—

	General Circles.		Selected Circles.	
	1874.	1875.	1874.	1875.
Christians	13·03	16·28	22·47	27·17
Hindoos	8·20	9·81	24·12	24·81
Mahomedans	8·30	10·[illegible]	26·77	26·90
Buddists	17·[illegible]9	18·69	36·07	32·60
Other classes	11·61	9·21	26·47	13·72

9. The Lieutenant-Governor is unable to agree with the Sanitary Commissioner's observation that "on the whole the returns of the general circles appear to be more reliable in regard to class than those of the selected circles." On the contrary, in this respect, as well as in all other tests of accuracy, it seems to the Lieutenant-Governor that the selected area returns do possess a very considerable value, while the general returns are still so inaccurate as to be of little or no use for scientific purposes.

10. The ratio of the mortality in some of the principal towns in Bengal is shewn in the following statement :—

	Population.	Ratio of mortality.
Burdwan	32,321	25·95
Sooree	9,001	23·33
Hooghly and Chinsurah	34,761	26·78
Serampore	24,420	32·48
Ooterpara	4,389	42·60
Howrah	97,784	49·03
North Suburban Town	27,263	42·25
Kishnaghur	26,750	21·45
Jessore	8,152	29·19
Rungpore	14,845	39·33
Darjeeling	3,157	43·07
Dacca	69,212	24·96
Comillah	12,948	27·72
Chittagong	20,604	24·41
Gya	66,843	36·63
Mozufferpore	38,223	17·76
Chupra	46,287	20·95
Monghyr	26,274	21·88
Bhagulpore	30,148	25·44

11. Although it may be considered that the results of this table show that the registration of deaths in Bengal towns is attended with a fair degree of success, the marked differences in the rates can only be accepted as proof that the returns of some towns are still imperfect. It is impossible to believe that the rate of mortality in Sooree, Burdwan, and Kishnaghur is only half the rate that prevails in Howrah and in the North Suburban Municipality. Generally speaking, however, the registration in the town circles is better than that in the rural circles; not only is the act of registration less troublesome in towns, but omissions to register can be more easily detected and rectified. The municipality affords an agency ready to hand which does not exist in the country areas.

12. During the past year births were registered in all the selected circles in Bengal, except in the districts of Dinagepore, Rungpore, Monghyr, and Beerbhoom. It was left to the discretion of district officers to introduce the registration of births, or to postpone the measure, and the Magistrates of these districts thought it advisable to defer registration. The Lieutenant-Governor thinks the time has now arrived when birth registration should be enforced in all the selected circles of Bengal. The results of the registration of births during the past two years are as follow :—

	Population.	Births registered.	Ratio per 1,000.
1874	2,488,985	54,301	21·81
1875	2,502,585	60,252	24·07

These figures show decided improvement. The following table contrasts the proportions of births and deaths per thousand of population among the selected areas during the past two years :—

	1874.		1875.	
	Deaths.	Births.	Deaths.	Births.
Sex.				
Males	26·68	22·9	26·82	25·53
Females	22·68	20·56	22·98	22·84
Class.				
Christians	22·47	25·32	27·17	31·20
Hindoos	24·19	20·11	24·69	23·22
Mahomedans	26·77	23·84	26·80	29·03
Buddists	38·07	39·35	33·80	43·84
Other classes	26·87	40·47	13·73	3[illegible]
Total ...	24·73	21·51	24·90	23·07

Except among Hindoos, the returns for the past year show in every case a larger proportion of births than deaths; and though much still has to be done to secure accuracy, it is probable that the Bengal registration in the selected areas is among the most successful that has yet been attempted in India. The proportion of births registered is 119 boys to 100 girls; in 1874 it was 117 boys to 100 girls, while in England the average proportion is 104 to 100. These figures seem to indicate a deficiency in the registration of females, which must be expected at this stage of registration in the country.

13. The Lieutenant-Governor has gradually during the year caused Act IV (B.C.) of 1873, the Births and Deaths Registration Act, to be extended over many of the town areas where municipalities are established. But until the machinery of registration is better organized and more familiar to the people it is necessary to insist upon the exercise of discretion and care, and to permit the introduction of the Act cautiously, and only under reasonable safeguards. The Lieutenant-Governor has accordingly stated that he is not desirous of extending the law prematurely, and that, except under special circumstances, the operation of the measure will be restricted within the limits of municipalities and of selected town areas. Without penalties—and penalties are not provided except under this law—registration must, however, remain inaccurate, and Government can only obtain accurate registration by making registration obligatory. It is certain that the country at large is not yet ripe for such a measure.

14. In order to attract greater attention to the registration of vital statistics, the Lieutenant-Governor has directed that the returns from the special areas should be published every month in the columns of the *Statistical Reporter*. There can be little doubt that the punctual publication of these returns has tended to ensure greater care and accuracy in their preparation. The adoption of new forms for the registration of births and deaths, with a view to bringing the existing forms into closer assimilation with the forms that have been approved in other parts of India, has also been sanctioned with effect from the commencement of the present year.

15. The Sanitary Commissioner has furnished a detailed account of the incidence of the principal diseases in Bengal during the year. The following tabular statement will show approximately the prevalence of these diseases during each month:—

	Cholera.	Bowel diseases	Fever.	Small-pox.
January	4,903	2,830	29,252	307
February	5,880	2,480	22,794	490
March	11,191	2,613	23,403	619
April	13,396	2,807	25,150	903
May	10,696	2,522	24,686	706
June	7,998	2,401	21,479	498
July	6,140	2,032	25,175	353
August	4,207	2,319	31,418	251
September	2,923	3,330	32,750	155
October	5,426	3,994	36,330	112
November	13,363	3,405	40,994	209
December	16,502	3,596	44,764	360

16. These figures are returned from the general areas, and are only valuable in so far as they indicate the proportion of mortality in the several months.

17. It is to be regretted that Dr. Pilcher has not furnished any remarks on the general health of the province during the year. On the whole, however, it may be inferred that the year was not a healthy one. Cholera was widely prevalent; not a district escaped; and in those which suffered most, cholera was endemic all the year round. The total number of deaths registered was 108,262,

against 56,876 deaths in 1874 and 58,675 deaths in 1873. Cholera prevailed with special intensity during the hot season from March to July, and during the drying months of November and December, which are always full of malaria in Bengal. The rainy season is the period of the year when there was least cholera. Nuddea is the district that suffered most, and then Jessore, the 24-Pergunnahs, and Dacca. The total number of recorded deaths from bowel-complaints amounted to 35,645, against 31,240 in 1874; but it is feared that these figures do not afford even an approximation to the actual mortality. Much of the mortality which ought to be registered under this class is said to be included with fever and other diseases. The greatest mortality occurs among pilgrims and is registered in Orissa.

18. As usual, the deaths registered from fever greatly exceed the mortality from any other cause. The number of deaths registered during the year was 368,087, against 328,721 in 1874 and 303,645 in 1873. In spite of this apparent increase, the Sanitary Commissioner is of opinion that fever prevailed with less severity throughout the province than in the previous years, and that the increase shewn is really due to improvement in registration. June is the month in which fewest deaths from fever are recorded; the deaths increase gradually until November, when the greatest intensity is reached, and after November the mortality gradually declines. Fever prevailed most in the districts of the 24-Pergunnahs, Moorshedabad, Maldah, Jessore, Beerbhoom, and Purneah. The fatal epidemic fever of Burdwan has continued to abate both in regard to the area affected by it and the intensity of the disease.

19. Only 5,280 deaths are reported to have occurred from small-pox in 1875, against 12,056 deaths in 1874 and 10,933 in 1873. As usual, the disease recurred with the greatest severity during the hot months. It is conclusively shewn by the Sanitary Commissioner that the mortality was highest in the towns and districts in which inoculation is practised, and that the mortality in the areas in which the Act prohibiting inoculation is in operation is considerably below that ruling in the areas unprotected by the Act. In some of the protected areas there were no deaths from small-pox.

20. Dr. Pilcher, while he was in charge of the office of Sanitary Commissioner, spared no trouble in visiting and inspecting municipalities in the interior of the provinces. The records he has left of his inspection are thorough, and in all cases of much value to the municipalities concerned. The Lieutenant-Governor has to thank Dr. Pilcher for an efficient and energetic administration of his office, as well as for his present succinct and useful report.

REVENUE SURVEY OPERATIONS DURING THE YEAR ENDING 30TH SEPTEMBER 1875.

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 28th June 1876.

READ—

A letter, No. 150A., dated 17th March 1876, from the Board of Revenue, submitting a report on the revenue survey operations in the Lower Provinces during the year ending on the 30th September 1875.

DURING the year under report there were four survey parties in operation:—

1. The Cadastral survey for Soane irrigation purposes.
2. The Midnapore village survey.
3. The Deara survey in Fureedpore and Dacca.
4. The survey of waste land grants in Darjeeling.

2. The Soane irrigation survey is engaged on a cadastral survey of the lands irrigable from the Soane Canal and its distributaries. The Board report that the total area of boundary work completed during the past season has been 685 square miles, of which 207 square miles, containing 351 villages, were completed in detail, showing each field on a scale of 32 inches to the mile. The total cost has been 12 annas and 4 pie per acre, which is very costly, but it is expected that the present season's work will be reduced to 9 annas per acre. This cost is apparently excessive, but allowance must be made for the commencement of a new style of work. It has been found in the North-Western Provinces that the cost was diminished year by year as the newly constituted surveys gained practice; but it is obvious that work for the irrigation, which shows details averaging one-fourth less in area cannot be reduced to the same rate and cost as the revenue cadastral work in the North-Western Provinces. It is said that considerable difficulty was felt at first in pushing on the work in Shahabad in consequence of the absence of village boundary marks and trijunction points, and of the unwillingness of the owners and cultivators to attend and point out the boundaries. Deputy Collector Baboo Hursahoy Singh was deputed to help the survey proceedings, and he is reported to have rendered most valuable assistance.

3. The establishment in connection with the Midnapore Division surveyed 978 square miles of gross area, in which 3,188 linear miles of boundary survey are included. More than 200 permanent points were permanently fixed and connected with the traverse work of the season. 1,140 square miles of village work on the scale of four inches to the mile, and 1,176 square miles of the Jungle Mehals on a scale of one inch to a mile still remain for survey. There is a large area of cultivation in these tracts which produce considerable quantities of grain, and their importance and value amply justify the expense of a large scale survey for the professional map.

4. The Ganges Deara survey party began its operations in the northern part of the Fureedpore district between the Chundna river and Goalundo, and worked down to Bunder Khola, 25 miles below Fureedpore. Simultaneously operations were carried on along the left or Dacca bank from Dowlutpore on the Mymensingh boundary to a point some miles below Bunder Khola. A survey was also made of the Jamoona river from Goalundo to Bangaon, a distance of 20 miles. This work was undertaken in the interest of the Eastern Bengal Railway in order to supply the best information regarding the changes in the stream which was then threatening, and has since swept away, the station and railway works at the Goalundo terminus. The total area surveyed amounts to 728 square miles. The cost of the work amounted to Rs. 72-14 per square mile, against Rs. 61 in Midnapore, the higher charge being attributed to the time and labour spent in searching for and verifying old marks and points.

5. The Darjeeling waste land survey was employed in making the necessary measurements for showing alterations in the boundaries of grants and checking areas for the purpose of recovering excess lands which had been taken possession of by grantees. The operations of this survey have subsequently been stayed under the orders of the Government of India.

6. Mr. Beadon succeeded to the charge of the non-professional survey in Bengal in February 1875. The demarcation done in the Midnapore division was 998 square miles, against 486 square miles in the previous year. The demarcation by pergunnahs and estates of the Jungle Mehals, covering an area of 1,100 square miles, was also undertaken and completed. The total area now ready for the professional survey is ample, being 2,231 square miles, including the area previously demarcated.

7. The principal work of the office, viz. the preparation of the registers, has practically been almost in abeyance during the year. It is hoped that the local enquiries which are now being made will not result in the discovery of so much error in the survey proceedings in Hooghly as was anticipated. The demarcation of the base line and the building of the base line pillars in the Deara survey have been satisfactorily prosecuted.

8. The Lieutenant-Governor is glad to recognize the favorable testimony borne by the Superintendent of Revenue Surveys to the services of the officers of his Department, and by the Board of Revenue to the services of the officers attached to the non-professional branch of survey. In particular, the services of Mr. Beadon are brought to notice by Mr. Schalch, and merit the acknowledgments of Government.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Junior Secy. to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE MARINE DEPARTMENT FOR THE YEAR 1875-76.

GENERAL DEPARTMENT.—MARINE.—No. 1838.

Calcutta, the 3rd July 1876.

READ—

The Annual Report of the Marine Department for the year 1875-76.

THE Officiating Master-Attendant, Captain A. Baker, was in charge of the Marine Department till the 18th March 1876, when he left the country on furlough for two years, making over charge to Lieutenant F. Warden. The death of Captain E. J. Butler, on the 3rd February 1876, deprived the Government of the services of an experienced and valuable officer. Captain Butler was drowned off Garden Reach while returning from the Sunderbuns in one of the famine steamers with a party of officers belonging to Her Majesty's troop-ship *Serapis*, the famine steamer having come into collision with the steam-tug *Challenge*.

2. The Pilot Service, which numbered 81 on the 31st March 1875, decreased during the year to 76, of whom six are licensed leadsmen; so that the number actually admitted as pilots is 70, which is the strength at which it is intended that the Pilot Service shall be maintained in future. Of the 70 pilots, 49 belong to the covenanted service, and 21 are licensed pilots. A scheme for the reorganization of the Pilot Service, and for the supply of recruits to fill future vacancies, was submittted during the year to the Government of India. Of the 49 service pilots, 37 were actually running, three were in command of pilot brigs, five were on leave, two were under suspension, and two were employed on staff duty. The 21 licensed pilots were all actually running; making 58 pilots in all available for service on board the vessels entering and leaving the Hooghly.

3. The following statement shows the number and tonnage of the vessels visiting the port during the last two years:—

Year.	Arrivals.	Tonnage.	Departures.	Tonnage.	Total.	Total tonnage.
1874-75	927	12,80,604	961	13,21,993	1,888	26,02,597
1875-76	914	12,74,944	906	12,84,321	1,820	25,59,265

This shows a decrease both in the number of vessels and in the gross tonnage, which is attributed to the depressed condition of trade during the year. But though the number of vessels visiting the port has for some years past shown a steady tendency to diminish, the tonnage in 1875-76 was greater than in any previous year, with the exception of 1874-75. It is also to be observed that the decrease last year was entirely in steamers, the number and tonnage of sailing vessels showing an increase when compared with the preceding year. The average tonnage of steamers exhibited an increase; but there was a decrease in the average tonnage of sailing vessels. The figures of total and average tonnage for the two years, distributed between steamers and sailing vessels, are as follow:—

	1874-75.	1875-76.
Number of steamers	920	811
Ditto of sailing vessels	908	1,009
Total tonnage of steamers	15,98,496	14,54,264
Average tonnage of steamers	1,737	1,793
Total tonnage of sailing vessels	10,04,101	11,05,001
Average tonnage of sailing vessels	1,105	1,095
Ditto of steamers and sailing vessels ...	1,423	1,406

4. The report gives a statement showing the number of vessels piloted by the 58 working members of the Pilot Service, and the annual and monthly average piloted by each member of the several grades. But this statement cannot be accepted as an accurate representation of the facts. It assumes that every pilot who was at work on the 31st March last had been at work throughout the year; and this was very far from being the case. The correct method of obtaining the average, by calculating the number of working days of each pilot during the year, was pointed out to the Master-Attendant in a letter dated the 10th October last, and the rule therein laid down should have been followed.

5. There were 45 cases of grounding during the year, but in 43 of these no damage is reported to have been done. Collisions occurred in seven cases, but in only one case was there considerable damage. The general conduct of the officers of the Pilot Service is stated to have been good, and it was not necessary to hold any marine court during the year. Departmental enquiries were made into four cases of grounding and two cases of collision. A master pilot was suspended by order of Government for intoxication while on duty, and an enquiry is now pending in the case of a branch pilot who is charged with serious misconduct.

7. Under instructions from the Government of India, a Committee has lately been appointed to report upon the river survey service, and the necessity for a professional survey of the entire bed of the river. Pending the receipt of the Committee's report, which it is hoped will be shortly in the hands of Government, no further steps have been taken for replacing the survey sailing vessels by steamers. The buoys from Calcutta to the sea are all in position and in good order; and there has been no material deterioration of the navigating channels during the year. The *Dolphin*, buoy-vessel, in addition to her usual work in the Hooghly, overhauled the buoys at Chittagong and on the Orissa coast. The Lieutenant-Governor observes that this section of the report contains no mention of the survey of the river Megna between Naraingunge and Chittagong, which was carried out in March last.

8. The pilot-vessels and floating light-vessels are in good condition. One of the light-vessels, the *Comet*, was condemned during the year, and sold; and she has been replaced by a new vessel of the same name, launched from the Government dockyard. A spare light-vessel is being built in England for the Hooghly.

9. The *Vulcan* has been employed during the year in her ordinary duty of recovering lost anchors and chains, and has also, rendered assistance in the River Survey Department. The cost of the establishment of the *Vulcan* amounted to Rs. 5,208, and a sum of Rs. 387-12 is due to the crew for salvage. The realized receipts of the year appear to have been only Rs. 122-2-6, but a quantity of anchors and chain which have been recovered will shortly be sold.

10. The houses of refuge were visited and replenished twice during the year, but complaints are still made of the stores being stolen, and the police have not been successful in checking these thefts.

11. The details given in the report show that a considerable amount of work was done in the Government dockyard and steam factory during the year.

By order of the Lieutenant-Governor of Bengal,

H. J. REYNOLDS,

Offg. Secy. to the Govt. of Bengal.

Distress continues to prevail among the poorest classes in North and East Mudhoobunnee, until weeding operations, in the beginning of August, afford them employment. General health of the district is good.

BEHAR.—(*Contd.*)			
Patna Divn.—(*Contd.*) 30	Muzufferpore, July 1, '76	Nil.	Weather—Hot. At Seetamurhee there was a fall of 1·64 inches of rain on the 24th ultimo. The prospects of the crops are satisfactory. Rain is much wanted for agricultural purposes. Public health is good.
31	Sarun, „ 1, „	·28	The weather this year is said to be unprecedented. Only three-fourths of an inch of rain has fallen since the 30th September last at head-quarters. The Collector has, however, received assurance from gentlemen residing in all parts of the district that they have had sufficient rain. It is only just round Chuprah itself, and to the eastward, where the drought continues. Gopalgunge had abundant rain on the 22nd and slight rain on the 23rd ultimo. *Cheena* has been harvested with fair results. Rain is urgently wanted for the *bhadoe* sowings. The early sowings have not germinated well for want of sufficient moisture on the ground. Sugarcane looks well. Cholera still prevails, but fatal results do not appear to be frequent. Prices have very slightly risen.
32	Chumparun, „ 3, „	1·89	Weather—Close and hot. There was no rainfall since Saturday last. Prospects of the crops are good.
Bhagulpore Divn. 33	Monghyr, „ 1, „	Nil.	Weather—Very hot. Prospects of the crops are good. Rain is now wanted.
34	Bhagulpore, „ 3,* „	Nil.	Weather—Wind from north-east chiefly. The sunshine after the heavy rain of previous week has been most welcome to the agriculturists. Prospects of the crops are reported very good from the two northern sub-divisions, although the rainfall there has not been up to the average. There is now every appearance of more rain. General health is very good.
35	Purneah, „ 1, „	3·02	Weather—Seasonable. Enough rain has fallen for the rice crops; too much for the indigo, which has in many places been destroyed by floods. Transplanting of the *kharif* is going on briskly.
36	Sonthal Perghs. „ 2, „	·69	Weather—Generally hot and cloudy. Ploughing and sowing forward.
ORISSA.			
Orissa Divn. 37	Cuttack, June 24, '76	3·66	Weather—Cloudy and sultry. Rain pretty general, but scanty. Sowing is nearly finished. Young paddy is sprouting. Cholera still bad on the sea coast. Public health otherwise good.
38	Pooree, „ 29, „	·14	Weather—Very warm. No rain. Ploughing and sowing are going on. In some places seeds have germinated. Cholera is raging in the town.
39	Balasore, „ 30, „	·57	The young crop looks healthy, and the remaining sowings are being finished off. Cholera seems to be somewhat less violent and less widely spread. The want of potable water along the coast continues intense, and mortality among cattle is reported from one locality. On the whole, extraordinarily little rain, for the season, has fallen in this district.
CHOTA NAGPORE.			
	South-Western Frontier Agency.		
40	Hazareebagh, June 30, '76	2·49	Weather—Very variable, but seasonable. State and prospects of the crops continue to improve. Reports of crops from all out stations are satisfactory. Puchumba has been visited with unusually heavy rain, viz. 6·4 inches in twenty-four hours.
41	Lohardugga, ...	.....	Return not received.
42	Singbhoom, „ 30, „	·59	Weather—Seasonable. Prospects of the crops are favorable.
43	Manbhoom, July 1, „	2·45	Weather—Hot and general rain during the last week, and there is prospect of more rain. Agricultural operations are being pushed on vigorously everywhere. Young paddy crops are looking well. Indian-corn is being put into the ground.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

NOTIFICATIONS.

Simla, the 15th June 1876.

RULES FOR THE CUSTODY, DISTRIBUTION, AND SALE OF POSTAGE STAMP LABELS.

Approved by the Government of India in Financial Department letter No. 801, dated 8th June 1876.

(*N.B.*—These Rules apply both to Service Stamps and to Ordinary Stamps, with the exceptions noted in Rules V and VIII.)

Supplies from Central Depôts.

I.—Supplies of postage stamps for the Madras Presidency, including Mysore and the local depôts subordinate to Madras, shall be supplied by the Superintendent of Stamps at Madras on the indent of officers in charge of local depôts.

II.—Supplies of postage stamps for the Presidency of Bombay, including Sind, Berar, the Central Provinces, and local depôts subordinate to Bombay, shall be supplied by the Superintendent of Stamps at Bombay on the indent of officers in charge of local depôts.

III.—Stamps for the Bengal Presidency, including the North-Western Provinces, Oudh, the Punjab, Central India, Rajpootana, Assam, and British Burmah, and local depôts subordinate to Calcutta, shall be supplied by the Superintendent of Stamps at Calcutta on the indent of officers in charge of local depôts.

IV.—The above-mentioned supplies from central to local depôts shall be issued on credit.

Local Depôts.

V.—Every treasury throughout India, including those attached to political, customs, and salt agencies, shall be a local depôt for the sale of postage stamps, provided that the value of the stamps sold at one time to any purchaser shall not be less than Rs. 5, and shall not include any fraction of a rupee. At any station at which there is a collector of land revenue, neither a salt agent nor collector of customs shall be entrusted with the custody and sale of postage stamps. All sales under this rule will be for cash on delivery; and

when the purchaser is one of those who are required to retail stamps under Rule VIII, or is one specially authorized under Rule IX, a discount of one-half anna per rupee will be allowed. But to purchasers other than the above, no discount will be allowed; and officers in charge of local depôts must see that discount is not allowed except to the privileged officers above referred to. The sale of embossed envelopes shall be subject to the same conditions, except that they shall be sold in packets containing sixteen envelopes each, portions of a packet not being saleable. The price of each packet shall be the value of the stamps borne by the envelopes contained in it, the discount (if any) being calculated on that value.

The above rule is only partially applicable to "Service Stamps," which may be sold *only to Government officials on a written application, accompanied by payment of the value in cash*, and on which *no discount is allowed.* A receipt containing in detail the gross value of each description of Service Postage Stamps sold will be granted by the treasury officer for the amount paid to him.

VI.—A supply equal to the probable consumption for five months of the district attached to each local depôt shall be kept in each, and as soon as the number in store has fallen below the number expended during the preceding six months, the collector, or other officer in charge of the depôt, shall indent* on the central depôt of his Presidency for a number equal to the consumption of the last three months for which accounts have been rendered to the central depôt of the Presidency. If by any accident the stock of stamps of any value should run short before the receipt of a fresh supply from the central depôt, the officer in charge of the treasury will indent on neighbouring districts for a quantity sufficient to meet the demand, which may be supplied or not, according to the discretion, and on the responsibility of the officer indented on, with reference to the wants of his own district. It will be the duty of the Superintendent of Stamps of the Presidency to report to the Director General of the Post Office, for the orders of Government, every occasion on which it may appear, from the monthly statement or otherwise, that the store of stamps of any particular value in any district has fallen below the authorized amount.

* Form 1.

Branch Depôts.

VII.—Every branch treasury and every tehsil treasury shall be a branch depôt for the sale of postage stamps under the conditions described in Rule V. It will receive its stamps from the local depôt to which it is subordinate, keeping always in store a supply sufficient to meet the probable demands of one month, estimated according to the average of former sales. It will keep an account of sales in the same form (3) hereafter prescribed for the treasurer's account, and will indent for supplies in the same form (4) as hereafter prescribed for the treasurer's indent. It will render an account monthly to the local depôt in Form 6A immediately on the expiration of the month.

Retail sale of Stamps.

VIII.—A supply of stamps *for sale by retail* shall be kept available at every post office, receiving house, tehsildaree, thana and every police station at which letters are received for despatch, and with every licensed stamp-vendor; and it shall be the duty of the officer, to whom the person in charge of any of the above-named places is subordinate, to take steps to ensure that the supply kept on hand is at all times equal to at least one week's demand. Persons in charge of the above-mentioned places will receive discount on purchases under Rule V.

This rule does not apply to "Service Stamps."

By the term "licensed vendor," as used above, is meant a stamp-vendor licensed under rules framed by the local Government in accordance with Section 48 of the General Stamp Act (XVIII of 1869).

Authorization of certain retail vendors other than the above.

IX.—A district officer may authorize the grant of discount at half-anna per rupee on purchases under Rule V to any person who is a *bonâ fide* retail vendor of postage stamps, although he may not be one of those required to retail them under the above rule. Such authority shall be given in writing, and must be produced by the person authorized when claiming discount on purchases: the authority will hold good for only 12 months from the date on which it is given, and may be revoked at any time at the discretion of the district officer. No such authority may be given to any person employed in a Government Treasury. A register showing the name, residence, and occupation of every person so authorized, and the date of the authority, shall be kept by the district officer.

Custody of Stamps in Local Depôts.

X.—The bulk of postage stamps in store at any local depôt shall be kept in parcels, containing a known number of sheets, in the treasury or other secure place, in one or more strong chests or presses, under double locks,—the key of one lock of each chest or press always remaining in the hands of the collector or other officer in charge of the stamps, and the key of the other in the hands of the treasurer.

XI.—The remainder of the stamps in store shall be in the hands of the treasurer, and shall not exceed the probable demand of fourteen days, estimated according to the average of former sales.

XII.—The treasurer shall keep a daily account of receipts and sales* in the vernacular of the district, in which the transactions of each succeeding day shall be entered consecutively, a balance being struck at the close of each day, and attested by the initials of the officer in charge of the treasury.

* Form 3.

XIII.—On the first open day of each month, and on every Monday during the month, the treasurer shall prepare in the vernacular, and submit to the officer in charge of the postage stamps, an indent† for a supply of postage stamps for the following week. The indent, after being approved or altered by the officer in charge of the postage stamps, shall be signed by him, and complied with as directed in the following rule. The indent thus signed shall be the warrant for the issue of the stamps.

† Form 4.

XIV.—The officer in charge of the postage stamps shall cause the store under double locks to be opened, and the required number to be counted and delivered to the treasurer in his presence. A store-book‡ shall be kept in English, in which the number and value of the stamps delivered to the treasurer shall be entered, and a balance struck at the time of delivery. This balance will be attested by the initials of the officer in charge and of the treasurer, both of whom shall invariably be present during the whole time that the store under double locks, or any part of it, remains open. The deliveries shown in the store-book will agree with the indent as approved.

‡ Form 5.

XV.—If the treasurer require stamps at any intermediate time, the same process will be observed as is prescribed in the two preceding rules.

XVI.—Stamps will be supplied from the store under double locks only to the treasurer and to branch depôts, and on indent from them respectively. Sales should be made not out of store, but from the supply in the hands of the treasurer or the supply in branch depôts.

XVII.—As soon as possible after the arrival of a despatch of postage stamps from a central depôt, or from any other local depôt, the packets or boxes are to be opened, one at a time, in the presence of the officer in charge of stamps. The stamps contained in each box or packet are then to be immediately counted and compared with the invoice,§ which, after being receipted, will be returned by the first post

§ Form 2.

to the depôt whence they were despatched. Unless the officer in charge of the stamps can certify that the stamps contained in any given packet or box were immediately counted by himself personally, or in his presence, he will be held responsible for the value of any that may be found deficient. The stamps are then to be placed in the store under double locks and entered in the store-books, and no stamps are to be delivered to the treasurer or sold to any party without being first brought into store.

XVIII.—Officers in charge of stamps will have the stamps in store, both those under double locks and those in the hands of the treasurer, counted in their presence on the last open day of September and March in each official year, and will certify having done so in the following terms at the foot of the monthly accounts of sales and stock‖ for those months furnished to the Superintendent of Stamps :—

‖ Form 6.

"*I do hereby certify that I have personally counted the postage stamps in store on* 18 , *the actual value of which is Rupees* (here enter the amount in words and figures); *and that the rules prescribed by the order of the Government of India, dated are duly observed.*"

XIX.—On occasions of transfer of charge, postage stamps will be made over in the same manner and under the same precautions as the cash balance in the treasury.

XX.—The officer in charge of each local depôt will submit, within the first week of each month, an account* to the Superintendent of Stamps of his Presidency, showing the balance in hand at the sudder and branch treasuries at the close of the preceding month, and the sales effected during that month.

*Form 6.

Returns to be made by Central Depôt.

XXI.—The Superintendent of Stamps of each Presidency will, on the 15th of each month, in addition to any account required by the Accountant General, furnish the Director General of the Post Office with a memorandum† showing the number of stamps distributed by him during the preceding month; and at the close of each month he will also furnish another memorandum‡ showing the number and value of stamps in hand, and the total amount of the actual sales of each local depôt and of all the local depôts supplied by him.

NOTIFICATION.

The 13th June 1876.—The following application, made by the Municipal Commissioners of Darjeeling, for a loan of Rs. 30,000 under the Local Public Works Loan Act, XXIV of 1871, for the purpose of increasing and improving the water-supply of the station, for extending the drainage, and for railing the more dangerous roads thereof, is hereby published for general information, under Section 5 of the Rules prescribed by the Government of India in the Financial Department in Notification No. 3761, dated the 15th October 1873.

R. L. MANGLES,
Offg. Secy. to the Govt. of Bengal.

We, the undersigned Municipal Commissioners of Darjeeling, under Act III (B.C.) of 1864, beg to submit the following application for a loan of Rs. 30,000, and to request that His Honor the Lieutenant-Governor will be pleased to grant it:—

1. The loan is required for the following purposes:—

I.—The increase and improvement of the water-supply of Darjeeling, which is insufficient for the purposes of the station during four months of the year, by tapping the Kotwalli Spring at a point on or near the Auckland Road, and connecting this point with the existing pipes above Woodlands, and by erecting new and improved hydrants. Estimated cost Rs. 13,000.

II.—The extension of the present drainage in the direction of the Hospital, Kohel and other hill streams, so as to prevent the accumulation of sewage in the slopes lying under the Bazar and Victoria Road. Estimated cost Rs. 8,000.

III.—The construction of railings along the more dangerous parts of the following roads:—

Auckland Road.	Birch Hill Road.
Victoria Road.	Station Roads.

Estimated cost Rs. 9,000.

2. The amount of loan now applied for is Rs. 30,000.

3. The security offered for the above will be as follows:—

	Rs.	A.	P.
I.—Proceeds of house-tax, estimated to yield ...	5,784	12	0
II.—Horse and poney-tax	600	0	0
III.—Rent of locations	4,684	0	0
IV.—Bazar rents	13,000	0	0
V.—Native village rent	1,300	0	0
VI.—Pound fines	500	0	0
Total ...	25,868	12	0

4. The house and horse taxes are levied under Act III of 1864.

The rents of locations with which those of native villages are to be classed were first assigned to the use of the Sanitarium in 1838. This was confirmed by orders of Government passed in 1854, again in orders No. 217, of the 14th January 1864, and finally in the Resolution of the Government of Bengal dated 27th June 1873.

The bazar rents are derived from buildings erected by the Municipality out of its revenues, and situated on land made over to it by Government.

The pound fines were made over to the Municipality under orders dated 14th October 1862, contained in letter No. 3625, from the Under-Secretary to the Government of Bengal to the Superintendent of Darjeeling.

5. It is proposed to take the loan in two instalments of Rs. 15,000 each, viz. Rs. 15,000 on the loan being sanctioned and Rs. 15,000 on the 1st July next. It is proposed to pay back the loan in twenty years by equal half-yearly instalments of Rs. 750, or 1,500 per annum.

In this manner the payments would be made within twenty years, as provided in Clause C, Rule X of the Rules of the 15th October 1873.

6. It is not possible to give the details required for the three years last preceding, as the limits of the Municipality were much reduced in the beginning of the year 1874-75, and the sources of income, as well as the objects of expenditure, were so much affected by this change that any attempt at comparison with former years would be deceptive.

The following table shows proceeds of the various sources of Municipal income in 1874-75:—

	Rs.	A.	P.
House-tax	5,028	8	4
Horse-tax	570	0	0
Bazar rents	11,732	4	8
Rent of locations	4,484	8	0
Rent of native village	1,231	11	5
Pound fines	229	13	0
All other sources, viz. hospital subscription, sale of garden produce, &c.	4,583	2	7
Total ...	27,868	15	7

The expenditure during the year was Rs. 27,494, out of which Rs. 700 consisted of recoverable advances, and Rs. 1,583 was a contribution to a work outside the new limits of the Municipality.

7. The value of bazar buildings, &c., is about Rs. 1,50,000.

8. There are no existing prior charges upon any of the sources of income above enumerated.

DECLARATION.

The 22nd June 1876.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense and for a public purpose, viz. for the location of the Sambhoo Nath Pundit Dispensary at Bhowanipore, in the district of 24-Pergunnahs, it is hereby declared that for the above purpose a piece of land 90 feet in length and 64 feet in breadth, measuring 8 cottahs, more or less, bounded on the north and east by portions of the holding under acquisition, on the south by the municipal tank, and on the west by the Russa Road, is required in holding No. 168, Sub-division J, Division VI, Dihi Punchanogram of the aforesaid district.

This declaration is made, under the provisions of Section 6, Act X of 1870, to all whom it may concern.

DISTRICT ROAD FUND.

NOTIFICATION.

No. 239.

The 8th July 1876.

UNDER Section 89 of Act X of 1871, the following annual accounts and reports of the District Road Committees of Patna, Gya, Shahabad, Mozufferpore, Durbhungah Sarun, and Chumparun, of works done and in progress during the past cess year 1874-75, together with the remarks thereon of the Commissioner of the Patna Division, are published for general information.

G. A. D. ANLEY, C. E.,
Offg. Asst. Secy. to the Govt. of Bengal, P. W. D.

No. 1125L—D, dated Bankipore, the 24th December 1875.

From—A. C. MANGLES, ESQ., Magistrate of Patna,
To—The Commissioner of the Patna Division.

IN forwarding herewith the annual statement* of receipts and expenditure of the Patna District Road Fund for the cess year 1874-75, ending 30th September 1875, I have, with regard to local improvements, the honor to report as follows.

* Completion reports and statement of income and expenditure

2. The Executive Engineer in submitting his statements informs that he is not in a position to report on the working of the year, inasmuch as he only lately took over charge of the office, and all the works were completed before he did so, nor do I on my part know that there is much to report on.

3. I was myself on leave for six out of the twelve months of the cess year, but owing to the present state of the funds, unless we have extraordinarily high floods, or something out of the ordinary course of events, to necessitate extra expenditure on this or that road, the expenditure of one year resembles very much that of the previous one; so that, no matter by whom the report is prepared, it can be but of very little interest.

4. During the year under report nothing out of the common occurred to necessitate any change in our original budget estimates, which provided for the annual repairs, according to our means, of the metalled and unmetalled roads throughout the district.

5. The truth is, our funds are so limited that the undertaking of any improvements is quite out of the question, it being all we can do to keep existing roads and bridges in proper serviceable order; but from October next, with the funds which will be at our disposal, owing to the introduction of the Road Cess Act, it is to be hoped that improvements will be made, and opportunity thus afforded for making a report of some interest.

No. 102L—D, dated Camp Surmara, the 6th February 1876.

From—A. C. MANGLES, ESQ., Magistrate of Patna,
To—The Commissioner of the Patna Division.

IN acknowledging receipt of your letter No. 24J of the 18th ultimo, I have the honor to submit as follows.

2. There were eight meetings of the Road Cess Committee during the year, but I regret to say that they were very badly attended by the non-official members, though I cannot well blame them for their non-attendance, the work done at these meetings being of a very uninteresting and commonplace nature.

3. The truth is that the money at the disposal of the Committee is of such a small amount that it only allows of our keeping existing roads in repair, and that only to a partial extent, so that all the Committee had to do was to examine the estimates submitted by the Executive Engineer for those repairs, to see that the most important roads met with the greatest amount of attention, and then, if the amounts estimated for did not exceed the estimated income, to pass those estimates.

4. When the road cess collections have been made, and we have more funds at our disposal which will enable us to strike out a line for ourselves and undertake some new works for the improvement of already existing lines of roads and making new ones, I have no doubt but that the non-official members will take more interest in the working of the Committee, and consequently be more regular in their attendance and more ready to give assistance.

5. For the reasons given above, no new lines of roads having been undertaken by the Committee during the year, no assistance in the way of giving lands was asked for from zemindars or suggested by them.

6. For the same reasons as those given by me last year, the assistance of zemindars was not solicited in the repairs of the roads. Very few, if any, of our influential zemindars reside on their estates, but take up their residence either in Patna itself, or at the different sub-divisional head-quarters, and the petty ones holding *dam* and *kouree* shares in insignificant estates are not to be trusted with the money, they being very little better than ryots themselves.

7. I have not as yet placed any of the road repairs in the immediate charge of the sub-divisional officers, they having as much or more on their hands than they can well get through already; but I have frequently warned them that I hold them responsible for seeing that the money on the different roads is being properly expended, and bringing the matter to my notice if it is not, that they should ascertain the amount estimated for the repairs of each road within the limits of their respective sub-divisions, and see that that sum is expended by the Department Public Works overseers to the best advantage.

8. The sums expended by the Executive Engineer during the year amounted to Rs. 34,891-11-5, whilst those expended by civil officers only amounted to Rs. 2,059-11-4. These latter expenditures were all of a miscellaneous nature, such as salary of establishments, furniture for dâk bungalows, repairs to steamer at Barh, rent of coal godown, &c., &c., and with one exception, in which a sum of Rs. 40 was spent by Mr. White for repairing the damage done by the tramway at Barh, were not expended in repairs or other road works.

9. In resubmitting the accounts as requested, I beg to inform that the total cost of establishment on account of collection of revenue, including Rs. 326 in first quarterly statement shown under heading "other establishment on works," amounts to Rs. 1,289-13, and not Rs. 963, as entered in your letter under reply.

10. Through a mistake the sum of Rs. 635-1-7 was shown under the head "contingencies;" this has now been rectified, and the amount in question transferred to the proper headings.

C. A. WILKINS,
For Chairman of the Patna District Road Committee.

No. 268, dated Gya, the 19th February 1876.

From—H. G SHARP, ESQ., Joint-Magistrate of Gya,
To—The Commissioner of the Patna Division.

REFERRING to your No. 29J., dated 12th instant, I have the honor to state that there is nothing particular to say in regard to the working of the District Committee during the year. The members generally attended the meetings whenever they were called upon to do so, and evinced much intelligence and interest in the subjects which were considered at those meetings. The Committee has worked satisfactorily.

2. As no new roads were projected or undertaken during the year, there was no necessity for acquiring lands, and accordingly no occasion arose for the especial assistance of zemindars in the matter. But I must state that whenever it has been necessary to take up lands for roads, the zemindars concerned have never declined to render the assistance required of them, but have afforded every facility in the matter.

3. With the exception of Mr Chardon, who undertook the repair of a portion of the Jehanabad—Arwal road, which is adjacent to his residence, no other landholders were entrusted with the duty of looking after any annual repairs during the year, as it was not considered expedient.

No. 200, dated Camp Deo, the 7th February 1876.

From—F. M. HALLIDAY, ESQ., Magistrate of Gya,
To—The Commissioner of the Patna Division.

I HAVE the honor to submit the enclosed statement showing the receipts and expenditure of the District Road Fund for the cess year ending 30th September 1875.

2. During the preceding year a special grant of Rs. 75,000 was made to this district to meet the cost of any additional works during the period of distress. The expenditure, however, on district works during the above period of distress was comparatively small; hence a large balance, amounting to Rs. 69,165, remained unexpended at the beginning of the year under review. It was accordingly proposed at the commencement of the year 1874-75 to expend the whole of this balance, together with the probable receipts of the District Road Fund during the year, in completing and improving the roads which had been projected during the famine, and in providing pucca bridges and culverts on these roads. Accordingly a budget estimate for Rs. 80,000 was drawn up in the beginning of the year and submitted for the approval of Government. But shortly after Rs. 40,000 out of the unexpended balance of the special grant was withdrawn by Government, and it became necessary to revise and curtail the budget estimate so as to bring it within the funds at the Committee's disposal Thus several of the important and costly works originally intended to be carried out had to be abandoned.

3. The receipts of the year from tolls, ferries, and other sources amounted to Rs. 9,950. This sum, with the unexpended balance of the previous year (minus the Rs. 40,000 withdrawn by Government), made a total of Rs. 89,116 available for expenditure on district road works during the year. The total cost of works and repairs, including cost of establishment, &c., was Rs. 24,485.

4. Part II of the statement shows in detail the works executed during the year and the expenditure thereon. The only original works done during the year were the completion of three roads at the head of the statement commenced during the distress, the completion of certain culverts on the Ticaroe road, and the construction of two small bridges on the Obra

road. Of repairs, the metalling on a portion of the Daudnagar roads was renewed; about 84,000 cubit feet of hill soorkee and kunkur were spread, rolled, and consolidated on the Behar and Rugowlee road; and about 54,000 cubic feet of road-metal carted and stacked on the side of the above road; and earthwork repairs were done to the other district roads.

5. The following works were executed under the supervision of the sub-divisonal officers with the Committee's minor establishment:—

Deputy Magistrate of Nowada.

(1) Behar and Rugowlee road.
(2) Pukri—Borwan road.
(3) Worisligunge road.
(4) Gobindpore road.

Deputy Magistrate of Aurungabad.

(1) Culverts on the Daoodnuggur and Obra road.
(2) Maharajgunge road.
(3) Ruffigunge road.
(4) Obra and Daoodnuggur road.
(5) Deo Road.
(6) Amba road.

6. The sub-divisional officers took much interest in the works executed under their superintendence, and did well generally.

7. The remaining works were carried out by the Executive Engineer of the district and his staff with the aid of the establishment provided by the Committee.

8. The expenditure on certain works as shown in the statement is in excess of the amounts allotted in the budget. The reason for this is that, subsequent to the submission of the budget, it was found necessary to add to or alter works according to the circumstances of each, and to divert funds from one head to another, the total of the estimate not being exceeded.

9. During the year under review the District Road Committee met twice on the dates marginally noted. Copies of the Committee's proceedings have been submitted to you from time to time. At the above meetings the accounts of the District Road Fund were examined, the budget estimates reconsidered and revised, the election of a Vice-Chairman and additional members resolved, and the question of contribution of a quota of interest on the capital required for the construction of a light railway between Bankipore and Gya was considered. The last scheme has, however, since been vetoed by the Government of India.

On the 16th March 1875.

No. 286, dated Arrah, the 10th January 1876.

From—W. S. WELLS, Esq., Chairman of the District Road Committee,

To—The Commissioner of the Patna Division.

IN continuation of this office No. 255 of 9th ultimo, and in accordance with instructions contained in your letter No. 364J of the 7th instant, I have the honor to report on certain points in regard to the improvement of the district works, as follows.

2. The attendance of the members of the District Road Committee was regular and fair, and the Committee sat six times during the last cess year of 1874-75.

3. There were no works of special difficulty undertaken during the year. Those that needed engineering supervision were made over to the District Engineer, Public Works Department. The extraordinary floods that prevailed towards the south of the district in August 1874 did no particular damage to the new famine works that had just previously been constructed, and they were rendered practicable as fair-weather roads without special outlay.

4. No land was required, or received, from zemindars during the year; nor was any special assistance from the landholders called for.

5. Excepting in the sub-district of Bhubooah, where the Deputy Magistrate was in bad health, the services of the sub-divisional officers were fully utilized in the execution of the annual superficial repairs of their several sub-divisions.

6. In the year 1874-75 more than half of the work was executed by the Public Works Department. The repairs of roads and bridges were all finished.

7. Besides the usual repairs of roads and bridges, the following works have been resolved upon for the current cess year, subject to any modifications that may appear necessary after further examination and enquiry:—

Raising of road from Gurhuni to Bihta.

Ditto ditto Chowsah to Chowsah railway station.

Ditto ditto Khyree to Sureya.

Metalling of road from Mohuneah to Bhubooah.

Collecting materials for bridging Sahur and Arrah road.

Raising Bickrum and Sussna road.

8. The usual rates in this district, including cost of petty working establishment, have been from Rs. 1-8 to Rs. 1-12 per———.

Arrah,
The 8th December 1875.

C. Vowell,
For Chairman, District Road Fund Committee.

No. 54, dated Mozufferpore, the 23rd February 1876.

From—C. F. Worsley, Esq., Offg. Magistrate and Chairman, District Road Committee,

To—The Commissioner of the Patna Division.

With reference to the latter portion of paragraph 3 of Government circular No. 50, dated 23rd July 1873, I have the honor to submit the following annual report on the operations of the District Road Fund during the past year, from the 1st October 1874 to 30th September 1875.

The Road Cess Act was extended to this district by notification of Government published in the *Calcutta Gazette* of 7th October 1874, but the members of the District Road Cess Committee were not appointed till the month of July 1875, when by Government letter dated 14th July 1875 the following gentlemen were appointed as members:—

Magistrate and Collector.
Senior Covenanted Assistant to the Magistrate and Collector.
District Superintendent of Police.
Road Cess Deputy Collector.
Baboo Bishen Deo Narain Sahee.
Syed Mahomed Tukee Khan.
Baboo Nathoolall Chowdry.
G. Toomey, Esq.
R. Brown, Esq.
F. Collingridge, Esq.
J. Fraser, Esq.
H. Studd, Esq.
H. Manners, Esq.
G. C. Swaine, Esq.
Baboo Hulkhoree Chowdry.
„ Tuliram Marwari.
„ Luccheeram Marwari.

There were three meetings of the Committee during the year, of which two were attended by a quorum.

By Government resolution No. 1209, dated 8th March 1875, on the reorganization of the Public Works Department charges in connection with local and provincial works, the Committee were called upon to submit a list of the persons who may be nominated to their district engineering establishments; but previous to this, the Government, in their letter No. 4671, dated 16th July 1874, directed the Committee to make their own arrangements for establishments in accordance with section 64 of Act X of 1871 (B.C.) from the commencement of the road cess year 1874-75, but afterwards by circular No. 65, dated 2nd October 1874, it was ordered that for the present, and until further orders, the district works are to be carried out by the Public Works establishments.

Agreeably to the instructions conveyed in the Government resolution above alluded to, and also with reference to circular No. 25 of 5th May 1875, a nomination roll of the engineering establishments proposed to be entertained in this district, with slight modifications as to the designation and salaries of the officers as submitted in September 1874, was submitted on the 12th June 1875.

Two overseers and a sub-overseer were appointed from the 15th August 1875, under instructions conveyed in letter No. 181J., dated 20th July 1875, from the Commissioner of Patna, but one of the overseers resigned shortly after joining his appointment. His place has not yet been filled up. The person nominated to the post of District Engineer could not be appointed, as Government, in letter No. 4679, dated 24th September 1875, stated that his services cannot be made available for the post for which he was nominated. Another man has, however, been nominated for the post of District Engineer, subject to the approval of the Chief Engineer, in December 1875, but no sanction has yet been received.

On the recommendation of certain members and the Executive Engineer, the following roads, which were constructed during the famine, and were considered important ones,

owing to their connection with the main roads in the district, on which much traffic passes, were included in the list of the existing district roads :—

		Length.
Road from	Husnaghât to Sonbursa	17 miles.
Ditto	Reghye to Rajapore	9 „
Ditto	Berhampoora to Sukree *viâ* Lowdowsee ...	7 „
Ditto	Peroo to Dooriah.	
Ditto	Peroo to Bukrah.	
Ditto	Kantee to Lallgunge *viâ* Marwan and Jatkowlee Ghât	26 „

By Government order No. 15F. of 20th April 1875, the District Committee were called upon to provide means for the maintenance of the relief roads and bridges in the Seetamurhee sub-division.

Upon this the Executive Engineer, who was requested to report the amount likely to be required for the maintenance of the above roads and bridges, submitted an estimate amounting to Rs. 7,413, which was sanctioned by the Committee at a meeting held on the 6th August 1875, and provision for this amount was made in the budget for the current cess year.

Two Branch Road Cess Committees have also been formed, one at Hajeepore and the other at Seetamurhee, and the members constituting the Committee were also appointed by Government in letter dated 14th July 1875

The annual accounts of the District Road Fund for the road cess year 1874-75 were, after examination, passed by the Committee.

The estimate of income and expenditure for the year under review was prepared by the Magistrate and Chairman in consultation with the District Engineer, and laid before the then District Road Committee for approval at a meeting held on the 8th September 1874. The estimate, after being approved of by the Committee, was submitted for sanction to the Commissioner on the 11th September 1874.

In this estimate the receipts were estimated at Rs. 2,21,345, and the expenditure at Rs. 2,21,345.

In consequence of the formation of two districts in January last, this estimate was returned by the Commissioner with his letter No. 66J., dated 19th March 1875, for excluding therefrom all works relating to the Durbhunga district, as also for the transfer of such ferry collections as may belong to that district. Again, Government with letter No. 1801, dated 5th April 1875, returned the same estimate for revision, with reference to the notification No. 469, of 29th December 1874, for correction of the balance at credit of the District Road Fund on the 30th September 1874, in accordance with the orders conveyed in letters Nos. 604 and 690, dated respectively the 1st and 9th February 1875, and also for making provision in it for the Public Works Department establishments under the principle laid down in the 15th and 17th paragraphs of the Government resolution No. 1209, dated 8th March 1875.

The revised estimate, which was prepared in accordance to the instructions above referred to, and was submitted to Commissioner on the 2nd June 1875, made provision for the receipts and expenditures, amounting at one and the same sum of Rs. 1,03,390.

The chief sources of income during the year under review were ferry tolls 1 per cent. road fund, staging bungalow collection, and other miner items of receipts, as detailed in part II of the annual accounts, amounting to Rs. 1,05,615-1-8. There was also at the end of September 1874 a balance of Rs. 1,00,613-5-9 in the treasury.

During the year 1874-75, therefore, the gross amount available for expenditure, including the cash balance, was Rs. 2,06,228-7-5.

On the expenditure side the charges under head "collection of revenue" include the cost of establishment and contingencies of the Road Cess Deputy Collectors engaged in the work of valuation, and also establishment and contingencies of the Committee's office. There was no provision in the budget estimate for the establishment and contingencies of the Road Cess Deputy Collectors. This charge, however, was met from the fund provided for the road establishment under the District Road Committee under Government instructions above referred to.

The outlay in original works amounted to Rs. 2,25,239-2-11. The greater portion of this sum was spent on relief works, undertaken during the late famine in 1873-74, and accounted for in this year's account. The only original work of some importance which was undertaken during the year under review was the metalling of the first three miles of the Hajeepore Road No. 5. Provision for this work was made in the budget estimate for 1872-73, but the work was not undertaken in that year. The metalling of a few miles of this road was sanctioned as famine work by the Commissioner in his memorandum of inspection tour, No. 163F of 5th June 1874, to the address of Government. The work was begun during the rains, but owing to the lax supervision and want of interest exhibited by the then Executive Engineer, progress has been very slow indeed. This work has, however, been completed in the current road cess year. The estimate for this work, amounting to Rs. 12,671, was sanctioned by Government on the 6th December 1875 in letter No. 5737.

Rs. 3,921-4 were expended during the year in the collection of materials for metalling the last three miles of the above road, and Rs. 911-2-1 for raising earthwork on the said portion of the road. Provision for this work was long made in the estimates for the last

two or three years, but the detailed estimate has not yet been sanctioned. It will be sent along with other estimates for sanction as soon as they are received from the Executive Engineer.

The total expenditure under repairs amounted to Rs. 58,975-11-2. This sum was not only expended in the maintenance of ordinary roads and repairs to bridges and drains, but also in the repairs of bunds and famine relief roads, staging bungalows, and other works as detailed in part II of the annual accounts.

It should be remarked here that the annual surface repairs to almost all the roads in the three sub-divisions constituting the Durbhunga district were executed before it was formed a separate district; consequently the expenditure on these roads has been shown in the annual account of this district.

Rs. 7,125 were remitted to the Magistrates of Sarun and Patna during the year. This amount is on account of the collections of the ferries lying between this and the Sarun district, allotted by the Commissioner under orders of the Government, conveyed in resolution No. 1009, dated 23rd February 1872, for the 3rd and 4th quarters of 1873-74, and the three quarters of 1874-75. The annual contribution of this district amounts to Rs. 5,700.

Out of Rs. 9,275 shown under head "Establishment," Rs. 5,275 were on account of salary of sub-overseers and mohurirs employed on famine works, and Rs. 4,000 on account of percentage for Public Works establishments for 1874-75.

Rs. 3,110-12 were expended in feeding cattle, purchasing and repairing tools, and in conveying tools from one place to another during the famine, as detailed in part II.

Thus the total expenditure during the year under report was Rs 3,11,533-7-8. No other works of any importance requiring comment were undertaken during the year.

It is to be observed that during the famine large sums were expended on works without reference to the District Road Committee, and which afterwards were made debitable to District Road Fund, which, although supplemented from time to time by special grants from Government, was still unable to meet such large expenditure. The consequence was that a large amount was placed at debit of that fund, but the income derived from the different sources which constitute the District Road Fund being insufficient, and entirely absorbed in paying off ordinary expenses, will be insufficient to adjust the debit balance against the fund, unless Government come forward to aid the District Road Fund by a further grant of the amount applied for by this office; and unless this is done, there is no probability of the total expenditure incurred during the famine being recovered from a fund, of which the present income is barely sufficient to meet its current expenditure.

In conformity with the Government order dated 23rd July 1873, the Committee beg to state that they propose to do almost all the works included in the budget estimate for the year 1875-76 during that year, if time and funds at their disposal admit.

No. 102, dated Mozufferpore, the 17th March 1876.

From—C. F. WORSLEY, Esq., Offg. Magistrate and Chairman, District Road Committee,

To—The Commissioner of the Patna Division.

WITH reference to paragraph 4 of your letter No. 50J., dated 4th instant, I have the honor to report as follows.

2. The District Committee worked satisfactorily during the year. There were three meetings, which were well attended both by European and native members, all of whom take interest in their duties

3. No special assistance was given by zemindars in the way of giving lands for works executed during the year; but the Mohunt of Jointpore made over to Government under registered deeds all lands taken from his estate during the famine for relief works. Zemindars generally have not preferred claims on account of lands so taken.

4. Managers of factories as usual took charge of the repairs of most of the roads in the district.

G. J. B. T. DALTON,
For Offg. Magistrate and Chairman.

No. 24, dated Durbhunga, the 11th January 1876.

From—E. S. MOSELEY, ESQ., Officiating Magistrate of Durbhunga,
To—The Commissioner of the Patna Division.

WITH reference to your circular No. 346J. of 20th November last, I have the honor to submit the Local Improvement Report and Annual Road Fund Accounts of this district for the cess year 1874-75.

2. The operations for the valuation of estates and tenures on which the road cess is to be levied in this new district under Act X of 1871 (B. C.) were commenced in January last and are not yet completed, and no division has yet been made of the large balance of the Ferry Fund of the old Tirhoot district, now lying in the Mozufferpore treasury, between the latter district and this. Hence the income of the Road Fund consisted solely of the revenue arising from ferries, of the fines levied under the Road Cess Act, and of a few minor items, and was, it is needless to say, miserably inadequate to the necessities of the district, in which some 800 miles of road have to be kept in repair. I may here remark that the same remark applies to this year's operations, as the cess will not be collected until next year, and that, as you have ordered steps to be taken for bridging and repairing of the roads leading to the

distressed tracts in the Mudhoobunnee sub-division, which have not been provided for in the budget estimate, and for which no funds are available, I recommend that some portion at least of the balance of the Tirhoot Ferry Fund be at once allotted to this district.

3. The following establishments were sanctioned by your predecessor's letter No. 61J., dated 22nd May 1875 :—

I.—For Chairman's Office.

		Rs.
1	Clerk on Rs. 40 rising to Rs. 60, by annual increment of Rs. 3 ...	40
1	Moonshee	20
2	Peons on Rs. 6 each	12
	Stationery	8
	Total ...	80

II.—District Engineer's Office.

1	Assistant Engineer on Rs. 250 with consolidated travelling allowance Rs. 100 a month	350
1	Writer-accountant	40
1	Moonshee	20
4	Peons on Rs. 5 each	20
	Stationery	10
	Total ...	440

III.—Sub-divisional Establishments.

3	Overseers on Rs. 50 each, and horse allowance of Rs. 15 a month each	195
12	Peons on Rs. 8 each	96
	Stationery	6
	Total ...	297
	Contingencies	33
	Grand Total ...	850

The number of road peons was afterwards with your sanction increased from twelve to sixteen, and their pay cut down from Rs. 8 to Rs. 6, thus leaving the monthly expenditure under this head unchanged. Mr. H. Salmond, who had been employed in this district in the Public Works Department during 1874, was first nominated to the post of District Engineer, but unfortunately for the district he obtained an appointment in the Burma State Railway Department, and resigned his post before his nomination had been sanctioned. Mr. J. St.Joseph, who had been employed under the Department Public Works in the Sarun district during the famine year, was then nominated to the vacant post on the recommendation of your predecessor, and joined his appointment on 14th August 1875. The district establishments had been completely organized before the close of the year under review, and all works since undertaken have been, or are being, systematically carried out and supervised under the petty contract system.

4. The following gentlemen were appointed under Government order dated the 14th July 1875 to constitute the District Committee, viz. :—

Magistrate and Collector ... ...
Assistant to the Magistrate and Collector ... } *ex-officio.*
District Superintendent of Police ... ...
Road Cess Deputy Collector ... ...
Kumar Gunessur Singh.
„ Gopessur Singh.
Lieutenant-Colonel J. Burn.
C. MacDonnel, Esq.
E. Roberts, Esq
G. Anderson, Esq.
E. May, Esq.
R. P. Irving, Esq.
Babu Girjadutt Singh.
„ Bunsheedhari Singh.
„ Tara Narayan Chowdhuri.
Mowlovi Ekbal Ali Khan.
„ Nuzimuddin Hossain.
Moonshee Sadiq Ali.
Rai Bunwari Lal.
„ Goberdhun Lal.

and the following gentlemen are to constitute Branch Committees, viz :—

Sub-division Mudhoobunnee.

The Sub-divisional Officer (*ex-officio.*)
Mr. H. L. Gale.
„ J. Lloyd.
„ Stair.
babu Gridhari Singh.
„ Doorgadutt Singh.
„ Punput Singh.

Sub-division Tajpore.

The Sub-divisional Officer (*ex-officio.*)
Mr. M. Smith.
„ W. Mackenzie.
„ E. Dalgkish.
„ E. Studd.
„ T. Lloyd.
Babu Purmeshari Pershad Naran Singh.
„ Sew Pershad Singh.
„ Nundun Lall.

As the budget estimates for the current cess year (1875-76) had not been drawn up before the close of the year under review, and there was no other business which it appeared necessary to bring before the Committee, no meeting either of the District or Branch Committees was held during the year.

5. The total income during the year was Rs 15,853-3-4, as shewn under the different heads of the annexed annual statement, against an expenditure of Rs. 8,767-12-7, as follows, viz :—

	Rs. A. P.	Rs. A. P.
On original works	1,107 12 9	
Repairs of roads and bridges	2,442 9 4	
Petty repairs (miscellaneous works)	78 11 2

District Engineer's establishment	1,628 6 2

		6,374 7 8

Establishment for executive officer under the Committee ...	100 0 0	
Contingencies for valuation office	248 15 7	
For executive office	10 0 0	
		2,393 4 11
Grand Total	...	8,767 12 7

The details of each of the above items are set forth in the annexed annual statement.

6. *Original works.*—A bridge at a cost of Rs. 1,107-12-9 was constructed over the Baya river near Bazitpore on the occasion of the visit of His Excellency the Viceroy in December 1874. No other original work was undertaken.

7. *Repairs.*—The expenditure under this head calls for no special remark.

No. 160, dated the 14th February 1876.

From—The Officiating Magistrate of Durbhunga,
To—The Commissioner of the Patna Division.

WITH reference to your No. 7J., dated the 20th ultimo, I have the honor to state that a sum of Rs. 939-9-8 was contributed by Babu Nitressur Singh for construction of a road from Bargariah to Jhunjarpore, which will be constructed this year.

2. The following statement shows the agency by which each work was carried out :—

Repair of a bridge at Buktiarpore (by sub-divisional officer, Tajpore).
First 14 miles of Tajpore to Mozufferpore (by sub-divisional officer, Tajpore).
Repairs of roads in the neighbourhood of Hathowry factory (Mr. Roberts).
Repair of Jainagar—Lowkaha roads (Mr. Gale).
Construction of a bridge over Bya river (Mr. Macnurton of Beegoo Serai).
Bazitpore to Chamta Ghât (by Sadiq Ali, Sub-Deputy Collector).

The two last-named works were constructed on account of the visit of His Excellency the Viceroy to Durbhunga.

3. As regards the discrepancies pointed out between the figures shown in the annual statement and those in the quarterly statements, I beg to state that in making the comparison your office has apparently omitted the figures returned in the 2nd quarterly statement as "Staging bungalows' receipts," which have subsequently been placed under "Receipts," from "Miscellaneous sources," and the advance from Mozufferpore, which has been placed under "Deposit," under Controller-General's instructions.

The expenditure on account of "Staging bungalow establishment," exhibited in the quarterly statements as a distinct item, has been subsequently included in the expenditure on repair of roads and bridges under the above authority. Revised statements for the 2nd, 3rd, and 4th quarters of the last year 1874-75 are herewith submitted, which will reconcile the discrepancies notified in your office. As regards the discrepancies pointed out in the total of the items under the head "Establishment for collection of revenue," your office has omitted the figures returned in the 2nd quarterly statement.

The total receipt from tolls, &c., amounted during the year to Rs. 50,034-7-6, which being deducted from Rs. 9,30,748-0-11, being the amount expended in excess during the year 1873-74,—*vide* 2nd and 3rd paragraphs of this office letter, No. 152, of 5th February 1875,—the balance, Rs. 8,80,713-9-5, was the total amount overdrawn, and remaining unadjusted on the 30th September 1875.

3. To this must be added the expenditure incurred during the past year, which amounted to Rs. 7,53,054-14-5, of which Rs. 1,208-9-0 were spent in office establishment and contingencies; Rs. 1,51,265-0-1 in original works, the principal of which was the new road from Sewan to Basantpore, costing Rs. 20,201-6-5; Rs. 5,39,201-1-0 in repairs; Rs. 60,954-12-9 in relief establishments, &c., under the Executive Engineer, Captain J. May; and Rs. 425-7-6 in tools. Thus the total sum expended in excess of the credit at the close of last year amounted to Rs. 16,33,768-7-9, besides the outstanding balance of Rs. 10,292-9-6 in the hands of the several parties, as per statement enclosed.

4. The total amount drawn in excess from the treasury up to 30th September 1875, as per pass book, was Rs. 7,77,249-8-2, which, with the sum of Rs. 8,66,811-9-1, the value of Government grain expended on relief works, after deducting the outstanding balance of Rs. 10,292-9-6, makes up the total amount of excess expenditure up to the 30th September 1875 to Rs. 16,33,768-7-9, as above stated. To cover this outlay, as well as other charges which were not brought into account, an application for a grant-in-aid of Rs. 16,95,673-5-7 has been submitted to Government through the Commissioner under this office letter No. 579L, of the 30th September 1875; since then the Public Works Department grain accounts have been adjusted, as per letter No. 15969, of 14th ultimo, from the Controller of Public Works Accounts, Bengal (copy annexed).

5. Out of the budget estimate sanctioned for the year, the total amount expended on district works amounted to Rs. 44,579-8-6, of which Rs. 595-3-9 were spent in office establishment and contingencies; Rs. 13,148-7-3 in original works; Rs. 25,937-15-7 in repairs; Rs. 37-14-0 in tools; and Rs. 4,859-15-11 in establishments under the Executive Engineer, Captain J. May, including some banniahs' commission, &c., which are chargeable to relief works.

6. For further details, I beg to refer you to the accompanying copy of the Executive Engineer's report, No. 302, of the 2nd December 1875.

7. All works were executed solely under the supervision of Captain J. May, whose energy, aptitude for work, and professional skill, are of the highest order. I have had occasion to travel over many of the roads which were either constructed or repaired by Captain May during the famine, and have been much struck by the excellence of the work, which has stood the test of two rainy seasons. The road from Sewan to Bussuntpore, which connects the road system of this district, is a model of what a good road ought to be; well raised, with turfed slopes and substantial bridges. I have also seen many of the tanks which were excavated during the famine in various parts of the district, and am able to testify that the work done in most instances was really good and durable. Captain May was called upon during the year to furnish a statement giving full particulars of all the relief works undertaken in this district. This voluminous return, which has been forwarded to your office, shows not only that Captain May was careful in the matter of accounts, but that the rates at which he and his subordinates performed the work during the famine were not excessive, considering the pressure of work at that time and the extensive character of the operations. I am led to believe that, putting aside the large expenditure for which Captain May is not in any way responsible, the works carried out in this district, both as regards quantity and quality, will compare most favorably with other districts in the division.

8. In conclusion I trust that Government may be moved to expedite the settlement of the District Road Fund accounts, and to transfer to the credit of the fund a sum sufficient to wipe off the liabilities incurred during the famine.

SARUN MAGISTRACY,
The 27th January 1876,

G. E. PORTER,
Offg. Magistrate and Chairman.

No. 150D, dated Motiharee, the 7th December 1875.

From—J. F. K. HEWITT, Esq., Magistrate of Chumparun,
To—The Commissioner of the Patna Division.

WITH reference to your circular letter, No. 346J, dated 20th November last, I have the honor to submit herewith the local improvement report of this district for the year ending 30th September 1875. The report will show the present state of the different roads now under the supervision of the District Road Committee, and what was done to render them useful and convenient for carriages and traffic during the last year.

REPORT.

REPAIR WORKS.

1. *Road from Motiharee to Segowli.*—This road is completed by the Public Works officers, and is in first-class order from end to end. All the bridges have been thoroughly repaired.

2. *Motiharee to Dacca.*—The surface repairs to this road were completed by the Public Works officers. A bridge has also been built near the Lallbagiah crossing. The road is in fair order.

3. *Motiharee to Turcoliah.*—Surface repairs were completed on this road, but nothing more was done. It is under thorough repairs. The bridge over the Dhunotee requires thorough repairs, which it will not be advisable to undertake without the advice of an engineer.

4. *Barrah to Serrah.*—Earthwork on this road is completed; the road is in fair order.

5. *Segowli to Gobindgunj.*—The road was commenced by Public Works officers; about six miles of this road is completed, and the road is now being taken in hand by Captain May.

6. *Bettiah to Segowli.*—This road was undertaken by the Public Works officers. All the necessary repairs to earth-work are executed; the road is now in good order.

7. *Dacca to Seetamudhee.*—The portion of this road lying within this district was put into good order during the last year by the Public Works officers, and the bridges built.

8. *Seeraha to Tattariah.*—A great deal of woodwork was done on this road by the Public Works officers during the last year, especially on the low-lying land near Seeraha, which had previously been impassable in floods. Irish bridges have been provided on this part of the road, which will prevent any stoppage of traffic in future.

9. *Merper to Ghorasun.*—The surface repairs on this road were thoroughly completed last year; the road now is in as fair order as it is possible for the present track to be. This road requires to be remade from end to end, and a straight road should be substituted for the present circuitous track.

10. *Peepra to Sutturghat.*—The earthwork on the road was completed, and the cart-tracks thoroughly repaired. A bridge was built near Peepra; it has again got into bad order owing to the amount of traffic on it, but all the necessary repairs are now being undertaken.

11. *Motiharee to Mehsee.*—The small culverts, which were indispensably necessary on this road, are completed; petty repairs to earth-work are also done; the road is now in fair order.

12. *Rajpore to Gobindgunj Road.*—The bridges on this road, which were in a dangerous state, have all been thoroughly repaired. The road itself is now in fair order, and what requires still to be done will be taken in hand at once.

13. *Etwaghat to Dhaka.*—The bridges which were wanted have been completed, and the cart-tracks repaired; the bridges are all in good order. The earthwork necessary will be done this year.

14. *Motiharee to Serrah.*—The earthwork to this road is completed, and the road is now in fair order; the bridges, however, require repair.

15. *Segowli to Ruxole.*—This road was put into thoroughly good order by the Department Public Works officers, and the bridges completely repaired.

16. *Chupra Bahas to Bettiah.*—This road was also finished and put into thorough order by the Department Public Works officers.

17. *Motiharee to Kutkenwah.*—The road was taken in hand and completed by Public Works officers during the famine; several of the bridges were thoroughly repaired. The road is now in good order, and the damages done to it by the carriage of a heavy machine of Sir Jung Bahadoor have since been perfectly repaired.

BETTIAH SUB-DIVISION.

18. *Bettiah to Baghaha.*—Nothing has been done on this road during the year under review. The work necessary for the road being chiefly bridges, it will not be taken in hand till after the rains. It is now being surveyed.

19. *Bettiah to Lowriah.*—The bridges on this road are thoroughly repaired, and the road itself is in good order.

20. *Bettiah to Gobindgunj.*—The road up to Jugdishpore has undergone petty repairs. A bridge is required on this road to facilitate the waterway.

21. *Bettiah to Lohoriah.*—This road has not yet been taken in hand; it will be repaired after the indigo season. The road to Bhowara should be completed.

22. *Jugdishpore to Lallsuniah.*—Nothing now remains to be done on this road; the surface repairs are completed, and the cart-tracks are in good order.

No. 176D, dated Motiharee, the 5th January 1876.

From—J. F. K. HEWITT, Esq., Magistrate of Chumparun,

To—The Commissioner of the Patna Division.

WITH reference to your letter No. 212J, dated 20th December last, I have the honor to submit as follows a supplementary report on the local improvement of this district for the year ending 30th September 1875.

2. The District Road Cess Committee worked exceedingly well during the last year, and gave valuable assistance in the introduction and working of the Road Cess Act. The Sub-Divisional Officer at Bettiah, and all the planters throughout the district, exerted their best in superintending both the repair and famine works, and their services were of greatest value to the Committee. The zemindars gave up all lands taken up for famine roads without compensation.

3. As regards the works resolved upon for the current cess year, I have the honor to state that with the exception of the Bettiah and Baghaha road, and the road from Bettiah to Gobindgunj, which will be superintended by Mr. Sealy, Assistant Engineer, and on which a great deal of bridging is still required (though these roads have been made for years), no other original works are contemplated owing to there being no District Engineer. There are several works which the Committee proposes to undertake as soon as we are allowed to appoint an engineer of our own.

4. A list showing the expenditure on different works, both by Public Works and civil officers, is herewith annexed.

5. With reference to the discrepancies pointed out between the amounts shown in the annual account and those shown in the quarterly returns, I beg to subjoin herewith a statement showing how the difference has occurred. It will be observed that the expenditure, Rs. 119-14-5, by Public Works officers during December 1874, shown at the foot of the last quarterly return of the year 1874-75, was not included in the details of expenditure in the quarterly account. The amount, when shown in detail, stands as below—

REVISED DRAFT RULES PROPOSED UNDER ACT III (B.C.) OF 1876.

No. 200.

NOTIFICATION.—IRRIGATION BRANCH.

Dated the 13th June 1876.

IN exercise of the powers conferred on him by Act III B.C. of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following draft rules for the Sone Canals.

Rules under Act III B.C. of 1876.

1. The Collector, before awarding compensation under sections 16 and 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Water shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur. From the decision of the Divisional Canal Officer an appeal shall lie to the Superintending Canal Officer, whose order shall be final.

3. Water shall not ordinarily be granted where the length of the water-course, from its head to its point of contact with the village boundary, would exceed two (2) miles.

4. Water for irrigation shall not be supplied, except through a water-course so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(*a*) the water will pass without wastage;

(*b*) the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation, will not be obstructed.

5. The Divisional Canal Officer may withhold or postpone the grant of water for a crop to any cultivator whose fields he may have ascertained by personal inspection (by himself or one of his assistants) to be unprepared for irrigation by division into compartments not greater in area than 1 cottah or 1361·25 superficial feet, and by the addition of small water channels, as is customary in irrigation from wells.

Rice-fields are exempted from the operation of this rule.

NOTE.—*This rule shall only apply in those cases in which the discovery is made previous to the first watering of a crop; the water having been once given cannot be withheld for that crop, but a higher rate may be levied as provided in Rule 25.*

6. Persons desiring to construct a village channel shall prefer a written application to the Divisional or Sub-Divisional Canal Officer. In the latter case the application shall be forwarded to the Divisional Canal Officer.

7. The application, if granted, shall be subject to the Act, and also, unless otherwise specially agreed upon, be deemed granted under the following conditions:—

(*a.*)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.

(*b.*)—That the applicants nominate a headman known or ascertained to be a substantial person possessed of property to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the water-course according to their shares, and to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the water-course.

(*c.*)—That in any case where persons desirous of taking water fail to appoint a headman, or cannot agree among themselves as to the headman, the Collector shall nominate, and the Divisional Canal Officer appoint, a headman.

(*d.*)—That the headman shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under Rule 10.

(*e.*)—That for each crop, previous to water being taken for any field, application shall be made in the prescribed form (Appendix A.) through the said headman to the Sub-Divisional Canal Officer or other officer authorized to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B.) from such officer.

(*f.*)—That in any case where the Divisional Canal Officer, owing to the known recusancy of any village, or of any class of cultivators, anticipates difficulty in realising water-rates, he shall intimate the same to the Collector or Sub-Deputy Collector, in whose option it shall be to require payment of water-rates in advance.

(*g.*)—That any other cultivators in the same village, able and willing to irrigate their lands from the said water-course, shall be admitted as shareholders in the water-course on paying their proportionate share (to be determined by the amount of land they hold) of the first cost and maintenance of the water-course.

(*h.*)—That all alterations in the number of shareholders, distribution of shares, or nomination of headman, shall be reported for the sanction of the Divisional Canal Officer.

8. The Divisional Canal Officer may accept the nominee of the shareholders in a water-course as "headman" of such water-course, and is empowered to pay him the fees as hereinbelow detailed, subject to the condition of satisfactory performance of duty.

9. The allowance to the headman of a water-course for duties connected with that water-course, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be 5 per cent. on the assessments of canal water-rates derived from the water-courses in his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

10. The allowance to the headman of a water-course for collecting the water-rates shall be 5 per cent. on the assessments, and shall be paid by the Collector on receipt of the full payment of demand for that crop and not otherwise, unless he can satisfy the Collector that the balance in arrear is so through no negligence of his. The payment to be made within two months of the dates named in the permit.

11. An appeal against retrenchments under Rules 9 and 10 shall lie to the Superintending Canal Officer and Commissioner respectively if preferred within thirty days of such retrenchment, and the Superintending Canal Officer or Commissioner's decision shall be final.

12. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

13. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following regulations:—

(*a.*)—No tank shall be so filled unless exclusively used for domestic purposes, and for watering cattle; such tanks are generally in the immediate neighbourhood of villages.

(*b.*)—No tank shall be so filled from which irrigation is practised.

(*c.*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d.*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer, issued on the written applications of the parties concerned. The filling of tanks can only be permitted at such times, and to such extent, as the Sub-Divisional Canal Officer approves.

(*e.*)—No tank shall be so filled unless the water-course used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f.*)—The privilege herein accorded may be suspended for twelve months for breach of these regulations, by written order of the Divisional Canal Officer, subject, however, to revision by the Superintending Engineer, whose decision shall be final.

14. The Divisional Canal Officer may, by written order under section 76 (*a*) (ii), stop the supply to any water-course when he has satisfied himself by personal inspection (by himself or one of his Assistants) that the water-course is not maintained in proper repair. Immediate report of any such closure shall be made to the Superintending Canal Officer, and the special ground for stoppage explained.

15. The Divisional Canal Officer may, under section 76 (*a*) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the headmen of water-courses. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Officer to stop any supply of water in case of pressing emergency.

16. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

17. Claims to remission, under section 76 (*b*), of ordinary charges payable for use of canal water shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss the Divisional Canal Officer may remit the whole or any portion of the charges. All applications for remission of water-rate shall be made to the Divisional Canal Officer at least seven days previous to the cutting of the crop. An appeal from the Divisional Canal Officer's decision shall lie to the Superintending Canal Officer, whose order shall be final.

18. Before awarding compensation under section 76 (*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. Under this rule an appeal shall lie to the Commissioner of the Division, whose order shall be final.

19. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follows:—

WATER-RATES.

Sone Canals.

NOTE.

1 Cottah ... ... = 1361·25 superficial feet.
1 Beegha .. .. = 27225·00 „ „
Acre ... . = 43560·00 „ „

20. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

21. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

22. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate.

23. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

24. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant Governor.

25. Persons irrigating lands from a canal without a written permit for water for such lands, or taking water at times prohibited by proper authority, shall be chargeable with double water-rates on the area irrigated, in addition to such penalties as may be imposed under sections 93 and 94 of the Act.

26. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. five rupees per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower charge if he thinks fit.

27. If mixed crops be grown in the same field, the water-rate shall be calculated on the highest rated crop.

28. When the original crop sown in a canal-irrigated field fails and is ploughed up and a fresh crop is sown in the same season, the water-rates leviable shall be due on the second crop.

29. When a field is irrigated which has not been prepared by division into compartments and by the addition of small water channels as prescribed in Rule 5, an additional charge may be imposed, equal to half the amount of water-rate leviable on the field. In

each case the Divisional or Sub-Divisional Officer must certify that he personally examined the field, and that it was not properly prepared for irrigation according to the terms of the rule.

30. The amounts demandable for water-rate shall be determined and apportioned by the Divisional Canal Officer.

31. All water-rates shall become due on the dates noted on the "permits," viz. the dates on which the crops ordinarily come to maturity, and are as follows:—

Water-rate on spring crops,—wheat, barley, peas, poppy, &c.,—shall become due on 31st March.

Water-rate on summer crops,—cheena, &c.,—shall become due on 30th June.

Water-rate on bhadoi crops,—seera rice, Indian-corn, murwa, &c.,—shall become due on 31st October.

Water-rate on annual and winter crops,—aghani rice, joaur, &c.,—on 31st December,—and shall be paid within one month of such dates.

32. In the case of lands held on Báoli tenures, half the water rates shall be recoverable from the zemindar or landlord.

33. Collection of all water-rates will be made by the Collector strictly in accordance with the statement of demands furnished to him by the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

34. The Collector will make the collections through the Deputy Collectors attached to each division of the canal, and the Subordinate Canal Revenue Establishment.

35. Objections to the demand on the score of short supply, or of matters affecting the Irrigation Department, addressed to the Collector, shall be referred by him to the Canal Divisional Officer. Meanwhile the collection of the demand shall not be suspended.

36 Claims for remission so referred by the Collector, and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer.

37. A remission statement signed by the Superintending Canal Officer, shall be sufficient authority for a refund by the Collector.

38. If the decision of the Divisional Canal Officer uphold the original demand, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order. The decision of the Superintending Canal Officer shall be final.

39. In cases in which the water-rate is irrecoverable, from the absconding or bankruptcy of the defaulter, or when the question at issue does not depend on the canal supply, or the action of the Irrigation Department, the Collector will obtain sanction to remission of canal demands from the Commissioner of the Division. All such remissions shall be reported at the close of each official year to the Divisional Canal Officer.

40. If a cultivator is dissatisfied with the entries made against him in the "permit" (Appendix B), whether as to the fact of the land having been charged "flow" instead of "lift," or as to the measurements and entries of class of crop, he must lodge a complaint, either personally or through the headman of his water-course, with the Divisional or Sub-Divisional Canal Officer within fifteen days of the issue of the permit.

41. No person, without the permission in writing of the Divisional or Sub-Divisional Canal Officers, shall pass, or shall cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting upon such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

42. No Canal Officer, unless specially exempted by the Lieutenant-Governor, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

NOTIFICATION.—SEPARATE REVENUE.—POST OFFICE.

Simla, the 16th June 1876.

No 1070.—British India having been admitted to the General Postal Union, with effect from the 1st July 1876, the Governor-General in Council is pleased, in exercise of the powers conferred by the Indian Post Office Act, 1866, to direct that, on and after the 1st July 1876, the following postage-duties shall be chargeable on letters and other articles hereinafter specified, sent through the post from any place in British India to any of the countries mentioned in the Schedule hereunto annexed; and that the transmission through the post of the said other articles shall be subject to the following rules and conditions; and to make the following orders and directions:—

Postage-duties chargeable upon letters and other articles sent through the post from any part of British India to any country belonging to the General Postal Union.

	Each letter per ½ oz.	PRINTED PAPERS, LEGAL AND COMMERCIAL DOCUMENTS, AND PATTERNS.	
		Each newspaper, per 4 ozs.	Each packet of printed papers, &c., per 2 ozs.
Upon letters sent through the post from any place in British India—	Annas.	Annas.	Annas.
to the United Kingdom and countries belonging to the Union served through the United Kingdom—			
viâ Brindisi	6	2	2½
viâ Southampton	5	1	1½
to Aden, Malta, and Gibraltar	4	1	1½
to any country belonging to the Union not coming under the foregoing heads	5	1	1½

2. The higher rates thus prescribed for correspondence sent *viâ* Brindisi to the United Kingdom and countries served through it result from the conveyance of such mails by special train through Italy and France; and the lower rates of letter postage for Aden, Malta, and Gibralter, are those hitherto in force, which it is not the object of the present arrangement to increase.

3. The annexed Schedule shows in detail the countries coming under the foregoing heads, as well as the routes and other particulars connected with the transmission of correspondence to them.

Printed Papers and Legal and Commercial Documents.

(N.B.—Attention is drawn to the limit of weight, viz. 2 lb, fixed for a packet of printed papers or legal and commercial documents. *See Schedule.*)

4. Under the head of "Printed Papers" are included newspapers, stitched or bound books, pamphlets, music, visiting cards, catalogues, prospectuses, announcements and notices of various kinds, whether printed, engraved or lithographed and photographs. Under the head of "Legal and Commercial Documents" are included acts or deeds of all kinds drawn up by public functionaries, invoices, policies of insurance, copies or extracts of deeds under private seal, written upon stamped or unstamped paper, scores or sheets of manuscript music, *and in general all manuscript papers and documents which have not the character of an actual and personal correspondence.*

5. Articles posted as "Printed Papers" or as "Legal and Commercial Documents" must be placed under bands or simply folded, so as to admit of the contents being easily examined, and, excepting as follows, "Printed Papers" must contain no manuscript writing, figure, or mark whatever:—

(*a.*) Proofs of printing or of music may bear corrections made with a pen, relating exclusively to the text or to the execution of the work. Manuscript may be annexed to such proofs.

(*b.*) Circulars, Notices, &c., may bear the signature of the sender, with his trade or profession, and may also show the place of origin and the date.

(*c.*) A book may contain a manuscript dedication or a complimentary inscription from the author.

(*d.*) Passages in the text to which it is desired to call attention may be marked with a simple stroke.

(*e.*) Prices may be added in manuscript or otherwise on printed or lithographed stock and share lists, prices current, and market reports.

(*f.*) No other manuscript additions may be made; nor are typographical additions allowed, if they tend to take from the packet its general character.

6 Articles posted as "Printed Papers" or "Legal and Commercial Documents" which do not fulfil the foregoing conditions, or are not fully prepaid, will be treated as unpaid letters, with the sole exception of newspapers and printed papers, such as circulars, notices, &c., which will, in such cases, not be forwarded.

Patterns of Merchandise.

(*N. B.*—Attention is drawn to the limit of weight, *viz.* 8 ounces, fixed for a packet of patterns *See Schedule.*)

7. Patterns of merchandise are chargeable with the reduced postage under the following conditions:—

(*a.*) They must be placed in bags, or in boxes, or envelopes removeable so as to admit of an easy examination of their contents.

(*b.*) They must not have any saleable value, or bear any manuscript writing other than the name or the trade or profession of the sender, the address of the person for whom the packet is intended, a manufacturer's or trade mark, numbers and prices.

8. Patterns of merchandise may not be introduced into a letter, or into a packet of any other kind, unless they form an integral part of a particular work.

9. Patterns not packed in accordance with these conditions, or not fully prepaid, will be treated as unpaid letters, except those which are valuable. The latter will not be forwarded, nor any of which the conveyance would be attended with risk or danger.

Money, Jewels, &c., and articles liable to customs duty.

10. No letter or packet containing gold or silver money, jewels, or precious articles, or any article liable to customs duty may be sent through the post under this Notification.

Correspondence received from countries belonging to the Union.

11. Although post cards are not among the classes of correspondence, for the transmission of which by post from India provision has been made, those received from other countries of the Union will be delivered in India as paid letters.

12. Letters received from any country of the Union as unpaid or insufficiently paid will be charged, on delivery, at the rate which would be chargeable on a letter posted in India for that country by the same route, together with an additional rate of two and a half annas per half ounce. The value of any stamps (as marked by the country of origin) which may be affixed to an insufficiently paid letter will be deducted from the amount thus chargeable, fractions of an anna in the remainder being raised to one anna.

13. No additional postage will henceforth be charged for the redirection of letters or other articles sent through the post from any foreign country, whether belonging to the General Postal Union or not, to any place in British India.

PART III.

Act of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[First Publication.]

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 21st April 1876, and having been assented to by the Governor-General on the 10th July 1876, is hereby published for general information:—

ACT No. VI OF 1876.

An Act to Provide for inquiry into Disputes regarding Rent, and to prevent Agrarian Disturbances.

Preamble.

FOR the purpose of providing for inquiry into disputes regarding rent, and of preventing agrarian disturbances: It is enacted as follows:—

Local extent.

1. This Act may be called the "Agrarian Disputes Act, 1876:"

It extends to all the territories for the time being subject to the Lieutenant-Governor of Bengal.

It shall come into force from the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General, and shall continue in force for three years from such date.

Interpretation.

2. In this Act, unless there be something repugnant in the subject or context—

"Lieutenant-Governor."

"Lieutenant-Governor" means the Lieutenant-Governor of Bengal, or the person acting in that capacity.

"Board."

"Board" means the Board of Revenue for the provinces for the time being subject to the Lieutenant-Governor of Bengal.

"Commissioner."

"Commissioner" means the Commissioner of a Division, and includes any officer whom the Lieutenant-Governor may vest (as he is hereby empowered to do) with all or any of the powers of a Commissioner under this Act.

"The Collector."

"The Collector" means the officer appointed to make the inquiry under this Act.

"Section."

"Section" means a section of this Act.

Lieutenant-Governor may declare provisions of Act to be in force in any tract of country.

3. If it shall appear to the Lieutenant-Governor that a serious dispute exists in any tract of country as to any question in respect of the adjustment of rents, or as to arrears of rents,

and if application shall be made to the Lieutenant-Governor by any person interested in such dispute praying that the Lieutenant-Governor do take action under the powers vested in him by this Act,

the Lieutenant-Governor may, by an order to be published in the *Calcutta Gazette*, declare the provisions of this Act to be in force in such tract, the boundaries of which shall be defined in the said order,

and may direct that inquiry be made for the determination of such dispute by the Collector of the district, or by such other officer as the Lieutenant-Governor may think fit to appoint in that behalf.

A copy of such order shall be published by being posted up at the court of every Judge and Munsif, and at the office of every Collector and Sub-Divisional Officer within whose jurisdiction, and at every police station within the jurisdiction of which, the said tract or any part of it is situated, and in such one or more conspicuous places in the said tract as the Collector may direct.

From the date of the publication of the copy of such order in the office of the Collector of the district, this Act shall be deemed to be in force in such tract until the Lieutenant-Governor shall by notification declare that it is no longer there in force.

Lieutenant-Governor may vest officer with powers of a Deputy Collector.

4. The Lieutenant-Governor may specially vest any officer with the powers of a Deputy Collector under this Act; and any officer so vested may exercise any of the powers, and discharge any of the functions of the Collector under this Act (except in respect of appeals) which he may be required to exercise or to discharge by a general or special order of the Collector.

Lieutenant-Governor to specify matters for inquiry.

5. Whenever the Lieutenant-Governor shall have made an order under section three, the Lieutenant-Governor shall also issue instructions specifying any matters of fact into which the Collector shall inquire, in accordance with the provisions of the said section; and on receipt of such instructions the Collector shall proceed to make the inquiry in accordance therewith.

Collector may allow parties to come before him and make objections.

6. Before proceeding to make such inquiry, the Collector shall publish a notification in the manner provided by clause five of section three, stating the nature of the inquiry to be made, and calling upon all parties who may deem themselves interested therein to appear before him, either in person or by agent, for the purpose of making such representations and advancing such objections as to them may seem fit; and such representations and objections (if any) shall be duly heard and considered by the Collector.

Power to Collector to enforce attendance of witnesses.

7. For the purpose of such inquiry, the Collector shall have power to summon and enforce the attendance of parties and witnesses, to examine such parties and witnesses, and to compel the production of documents by the same means (as far as may be) and in the same manner as is provided in the case of a court under the Code of Civil Procedure.

Collector to draw up report, and to allow persons to take copies of the same.

8. After making the necessary inquiry, the Collector shall draw up a report stating the result of the inquiry, and his own opinion on each of the matters specified for inquiry under section five, and shall publish a notice in his office stating that any person may take a copy of the said report for the purpose of advancing before the Commissioner any objections thereto which he may think fit, and that such objections must be filed in the office of the Commissioner, or in the office of the Collector for transmission to the Commissioner, within fifteen days of the publication of the said notice.

Collector and Commissioner to report result of inquiry to Board

9. The Collector shall forward such report and copies of any objections which may be filed in his office under the last preceding section to the Commissioner, and the Commissioner, after considering such objections, and causing any further inquiry to be made which he may think fit, shall submit the report of the Collector, with copies of the objections made thereto, and with his own opinion on each of the matters specified for inquiry under section five, to the Board.

Board to issue instructions to Collector.

10. After considering the reports and objections submitted by the Commissioner under the last preceding section, the Board shall issue such instructions as to it shall seem fit, not being inconsistent with the provisions of this Act, in respect to the determination of each of the matters specified for inquiry under section five, and the Collector shall make an order determining each of the said matters in accordance with such instructions of the Board.

Suits to be transferred to Collector.

11. On receipt of such instructions the Collector shall publish at his office, a notice of such receipt and from the date of the publication of such notice, and as long as this Act is in force in the tract mentioned in section three, all suits of the nature of those specified in section 23 of Act X of 1859, relating to such tract, shall be instituted before, and, except as hereinafter otherwise expressly provided, be cognizable by, the Collector and by no other tribunal.

Collector to send copy of notice to Courts.

12. As soon as possible after publication of the notice mentioned in the last preceding section, the Collector shall send a copy thereof to every Court which had jurisdiction to entertain such suits immediately before the publication of the said notice.

Procedure in suits.

13. In the disposal of such suits the Collector shall, as far as possible, follow the procedure prescribed in Act X of 1859, and all powers exercised by a Collector under the said Act may be exercised by the Collector under this Act, provided that all such suits shall be decided by a reference to, and in accordance with, any order of the Collector determining a matter under section ten, in so far as such order may be applicable.

Power to refer to arbitration.

14. The Collector may, with the consent of the parties concerned, refer any such suit to arbitration, and the provisions of sections 313 to 325 (both inclusive) of the aforesaid Act VIII of 1859 shall, as far as may be practicable, apply to such references.

Rules for determining rate of rent.

15. Whenever in any suit instituted under the provisions of this Act it shall appear to the Collector that a ryot having a right of occupancy is liable to enhancement of the rent previously paid by him on the ground that the value of the produce or the productive powers of the land held by him have been increased otherwise than by the agency or at the expense of the ryot;

or whenever in any such suit it shall appear to the Collector that such ryot is entitled to claim an abatement of the rent previously paid by him on the ground that the value of the produce or the productive powers of the land held by him have been decreased by any cause beyond the powers of the said ryot,

the Collector shall, if possible, fix the rate of rent payable by such ryot, so that the rent previously paid by such ryot shall bear to the rent so fixed the same proportion as the former value of the produce of the soil, calculated on an average of three or five years next before the

date of the alleged rise or decrease in value, bears to the present value of such produce;

but if in any such suit the Collector shall not be able to ascertain to his satisfaction the former value of the produce as required for the application of the above rule,

the Collector may, if he think proper so to do, determine the rate of rent payable by such ryot according to any of the following methods:—

(*a*) by fixing the rent of the ryot so that it shall represent such portion of the existing average gross value of the produce of the land held by him as the Collector shall consider fair and equitable with reference to the circumstances of each case;

(*b*) by fixing the rent of the ryot so that it shall represent such portion of the average net profits of the land held by him (after deducting from the average gross annual value of the produce of such land such a sum as may be deemed proper on account of costs of production and disposal of such produce) as the Collector shall consider fair and equitable with reference to the circumstances of each case;

(*c*) by taking as the standard of comparison the rates which are generally paid in adjacent places by ryots having no right of occupancy, or in such places as the Collector may select, for lands of a similar description and having similar advantages; and by fixing the rates of rent to be paid by the ryot having a right of occupancy at such percentage below the rent which would be paid for the same lands by ryots having no right of occupancy as the Collector may consider fair and equitable with reference to the circumstances of each case.

Suit may be brought by or against any number of ryots collectively.

16. In every suit under this Act of the nature of those specified in the first, second, third, and fourth clauses of section 23 of Act X of 1859, any number of ryots or other tenants may be sued, or may sue collectively, and it shall be no ground for dismissing or refusing to hear the application that such ryots or other tenants are wrongly joined as plaintiffs or defendants, provided all such ryots or tenants hold land in the same estate;

but no order shall be passed in such case unless the officer making such order is satisfied that all parties have had an opportunity to appear and make objection to any claims preferred against them;

and if at any time it shall appear to the Collector that the question between any two of the parties of whom one is so joined with others cannot conveniently be so jointly tried, the Collector may order a separate trial to be held.

Order to specify how far it applies to each ryot.

17. Every order passed in any such case as is mentioned in the first clause of the last preceding section, shall specify the extent to which each of the ryots or other tenants named in the order shall be affected thereby.

Rate of rent once fixed under Act, to be fixed for five years.

18. Every decree of a Collector under this Act in any suit of the nature of those specified in the first clause of section 23 of Act X of 1859 shall have effect, and the rates of rent determined by such decree shall be payable from the beginning of the year in which such suit was instituted (such year being computed according to the era in force in the aforesaid tract), or from such later date as the Collector may fix; and the rates of rent so determined shall not be liable to abatement or enhancement for five years from the first day of the year in which the decree may have effect as provided in this section, or, in case any part of the tract is comprised within a temporarily-settled estate, until the conclusion of the period of the settlement with Government under which such estate is held, if such period expires before the lapse of five years as aforesaid.

Provided that, during the currency of the term for which the rent has been fixed as aforesaid, any person may bring a suit to enhance the rent of any ryot or tenant whose rent has been so fixed, on the ground that the area of the ryot's or tenant's holding has been increased by alluvion or otherwise, and on no other ground

And any ryot or tenant may, during the said period, bring a suit for abatement of his rent which has been so fixed, on the ground that the area of the land held by him has been diminished by diluvion or otherwise, and on no other ground.

Collector may refer suit to Civil Court.

19. Notwithstanding anything contained in this Act, if it shall appear to the Collector that any suit which is pending before him involves any question relating to the title of land or to some interest in land, as between parties having conflicting claims thereto, or any other question which can more properly be decided by a civil court, or, in districts in which Act X of 1859 is in force, by a revenue court under that Act, the Collector may transfer such suit to a civil court or revenue court (according to whether such civil court or such revenue court would have had jurisdiction in the matter if this Act had not been passed); and such court shall thereupon proceed to deal with the suit as if this Act had not been passed, and as if the suit had originally been instituted before such court.

Collector may decide question before transferring suit to civil court.

20. If such suit involves a question of rent or any other question which may properly be settled by the Collector under this Act, as well as a question which may more properly be decided by such civil court or revenue court, the Collector may decide the former question under this Act before transferring the suit to such other court; and such decision shall be subject to the provisions of this Act in respect of appeals, and the civil court or revenue court shall be bound to give the final decision in the suit in accordance with the decision of the Collector or of the appellate authority under this Act on such question, so far as such decision is applicable.

Enforcement of decisions.

21. Every order and decree of a Collector under this Act may be enforced by the same means and in the same manner as if such order or decree were an order or decree to the same effect made under Act X of 1859.

Powers of Collector after withdrawal of Act.

22. Notwithstanding that the Lieutenant-Governor may have issued a notification as provided in section three declaring this Act to be no longer in force in any tract, the Collector shall proceed to decide all suits pending before him on the date of issue of such notification as if no such notification had been issued; and in

respect of all such suits and of all other matters and suits which may be pending before the Board, the Commissioner, or the Collector on the date of the issue of such notification, the said Board, Commissioner, and Collector shall, until such matters or suits are finally decided or disposed of, exercise the same powers with respect thereto as if such notification had not been issued.

Suit to contest order or decree under this Act.

23. No suit to contest any order or judgment of any officer under the provisions of this Act shall be instituted before any court or tribunal otherwise than as provided in this Act.

Control and supervision of Commissioner and Board.

24. In the performance of their duties under this Act, the Deputy Collectors shall be subject to the general control and direction of the Collector, the Collector to the general control and direction of the Commissioner, and all officers to the general control and direction of the Board.

Appeal to and from Collector.

25. An appeal shall lie to the Collector against every order and judgment of a Deputy Collector under this Act, except as hereinafter otherwise provided; but no appeal shall lie against any order or judgment of the Collector under this Act except as hereinafter expressly provided.

No appeal from any decree of Collector for money below Rs. 100, unless the decision involve some question of right to enhance rents or some question relating to a title to land.

26. In suits of the nature of those specified in clauses two, four, and seven of section twenty-three of Act X of 1859, when such suits have been tried and decided by the Collector, if the amount sued for, or the value of the property claimed, does not exceed one hundred rupees, the judgment of the Collector shall be final and not open to revision or appeal, unless in any such suit a question of right to enhance or otherwise vary the rent of a ryot or tenant, or any question relating to a title to land, or to some interest in land as between parties having conflicting claims thereto, has been determined by the judgment, in which case the judgment shall be open to appeal in the manner provided in section twenty-nine.

The provisions of section 154 of Act X of 1859 shall apply to all suits in which the judgment of the Collector is final.

No appeal to be against judgment declaring arrear due unless arrears have been paid.

27. Notwithstanding anything contained in this Act, no appeal shall lie against any order declaring arrears of rent to be due and directing that such arrears be paid, unless such appeal shall be accompanied by the certificate of the Collector that the amount of such arrears has been paid to the Collector; and on payment of such amount, the Collector, if required so to do by the person making such payment, shall be bound to grant such certificate, and to hold the amount in deposit until the appeal shall have been disposed of, or until the period for making such appeal shall have expired.

Appeal against judgment of Deputy Collector.

28. When any such suit as is mentioned in section twenty-six in which, if tried and decided by the Collector, the judgment of the Collector would be final, is tried and decided by a Deputy Collector, an appeal from the judgment of the Deputy Collector shall lie to the Collector. and the provisions of sections 157 to 159 (both inclusive) of the said Act X of 1859 shall apply to such appeals.

In what suits appeal to lie to Commissioner and to Board.

29. In all suits other than those in which when tried and decided by a Collector, the judgment of the Collector is final as aforesaid, or when tried and decided by a Deputy Collector, an appeal is allowed to the Collector, an appeal from the judgment of the Collector or Deputy Collector shall lie to the Commissioner, and the decision of the Commissioner shall be final, unless the amount or value in dispute exceed five thousand rupees, in which case an appeal from the Commissioner's decision shall lie to the Board.

Time for presenting appeals from orders

30. Every appeal against the order of a Deputy Collector shall be presented to the Collector within fifteen days, and every appeal against the order of a Collector shall be presented to the Commissioner, or to the Collector for transmission to the Commissioner, within thirty days of the date of the order appealed against.

Every appeal against the order of a Commissioner shall be presented to the Board, or to the Commissioner for transmission to the Board, within sixty days of the date of the order appealed against.

Orders passed in appeal by a Commissioner or a Collector shall not be open to any further appeal, except as hereinbefore provided: but the Board or the Commissioner may at any time call for any case, and pass such orders thereon as they may think proper.

14. In this Act 'section' means section of the said Indian Registration Act, 1871.

'Section' defined.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to make in the Registration Act thirteen amendments which the experience of the past five years has shown to be desirable.

Of these, the first is intended to authorize the Local Governments to establish in each sub-district more Sub-Registrars than one, who will exercise concurrent jurisdiction. The absence of such a power has been found inconvenient in the Lower Provinces, and probably elsewhere. Power is also expressly given to authorize any Sub-Registrar whose Office has been amalgamated with that of a Registrar to exercise all the powers of a Registrar other than those conferred by sections 68 and 72. Some doubt had arisen whether or no such a power was implied.

The second embodies in section seventeen of the Act the resolution of the Government of India in the Home Department, No. 51-1906, dated 10th July 1874. Its effect is to expressly exempt from compulsory registration documents merely creating a right to obtain other documents, which will, when executed, create, &c., rights of the value of Rs. 100 and upwards to immoveable property.

The third is intended to make it clear that section 18, clause (7), is not to encroach upon the provisions of section 17.

The fourth places the Registrar of the Lahore District on the same footing, as regards documents relating to land situate in any part of British India, as the Registrars of Districts including the Presidency Towns. This change has been made on the recommendation of the Local Government.

The fifth simply amends the drafting of section 31 of the Act.

The sixth expresses distinctly two of the intentions of the legislature in framing section 34 of the Act, *viz.* that the time allowed for presentation is the time allowed under the first four sections of Part IV, *i.e.*, not merely the time (four months) ordinarily allowed, but also any extension of that period allowed under sections 24, 25, 26, and that, not only the fine mentioned in section 34, but the fines, if any, payable under section 24, must be paid in case of delay in appearing before the Registrar.

The seventh amends the drafting of sections 42 and 43, and expressly confines, in accordance with the intention of the framers of Act VIII of 1871, sections 44 and 45 to cases in which the testator himself, as distinguished from a depositing agent, desires to withdraw the deposit, or has died.

The eighth exempts the Registrar from the duty of copying a will under section 46 when it has already been copied under section 45; and when he has to copy a will, expressly empowers him to open the sealed cover in which it is preserved.

The ninth is an amendment of section 50, and is intended to supply a defect which has already given rise to fraudulent practices. That section now provides that registered documents relating to land, of which the registration is optional, shall take effect against unregistered documents. But it makes no such provision as to documents of which the registration is compulsory and which have accordingly been registered. Deeds coming under section 18 of the Act, whether registered or not, take effect against deeds registered under section 17, according to date of execution. The result is that, although a registered deed creating a right of the value of Rs. 99 to land cannot be defeated by an unregistered deed, a registered deed creating a similar right worth Rs. 101 may be defeated by an antedated unregistered deed creating a right worth anything under Rs. 100. The mischief feared is an extensive fabrication of falsely dated deeds purporting to create rights of small value in order to defeat deeds creating rights of large value. The remedy which the Bill proposes is to make documents registered under section 17 take effect against unregistered documents.

The tenth amendment is in section 59. That section now provides only for dating and signing endorsements made under section 58. It is desirable to make a similar provision for endorsements made under section 52.

The eleventh amendment consists in expressly excluding wills and codicils from sections 64 and 65.

The twelfth amendment effects a slight, but desirable, amendment in the drafting of section 71.

The thirteenth and last amendment clears up a doubt which has been raised as to the meaning in section 72 of the expression "District Court."

SIMLA; *The 5th June* 1876. } A. HOBHOUSE.

WHITLEY STOKES,
Secy. to the Govt. of India.

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 29th June 1876, and was referred to a Select Committee with instructions to make their report thereon in a month:—

No. 9 of 1876.

A Bill to amend the Stage Carriages' Act.

Preamble.

Whereas Act No. XVI of 1861 (*for licensing and regulating Stage Carriages*) does not apply to carriages drawn by camels or oxen, and it is expedient to render it applicable to such carriages; It is hereby enacted as follows:—

Amendment of Act XVI of 1861, section 21.

1. For the third sentence of section 21 of the said Act, the following shall be substituted (that is to say):

"The term 'horse' shall include ponies, mules, camels, and oxen."

Local extent of Act XVI of 1861.

2. The said Act, as amended by this Act, applies to the whole of British India, but not so as to supersede or contravene the provisions of any local law dealing with the same subject.

STATEMENT OF OBJECTS AND REASONS.

The Government of the North-Western Provinces has recently called the attention of the Government of India to the necessity of bringing conveyances drawn by camels within the scope of the Stage Carriages' Act of 1861. The primary object of the present Bill is to make this amendment; and the opportunity has been taken to render the Act applicable also to carriages drawn by oxen, and to declare it to be in force throughout British India.

FLOATING HOSPITAL FOR THE PORT OF CALCUTTA.

Minute by the Lieutenant-Governor of Bengal, dated 5th July 1876.

I HAVE had for some time past under consideration the establishment of a riverside hospital for the sailors of the merchant shipping of the port of Calcutta.

2. The advantage of such a hospital, indeed the necessity for it, is manifest. At present shipping cases are ordinarily treated in the General Hospital. This, as is well known, is an excellent hospital, but it is distant two miles from the Hooghly. If a sailor is attacked with cholera, or acute dysentery, or other emergent sickness, he must either be taken from Prinsep's Ghât on the Hooghly across the Maidan in the heat of the day, or, if his removal is deferred till the cool of the evening, he must be left for some hours without proper medical assistance; and in either case his chance of recovery is seriously endangered.

3. A riverside Branch Hospital would meet this difficulty. It need not be a large or extensive building; ten or twelve beds would be sufficient, as it would be merely a temporary receiving house for patients till they could be conveniently and safely moved to the General Hospital. It would also be of great service as a dispensary at which medicines prescribed by the Port Health

Officer could readily be made up, avoiding the delay of sending into the town to a chemist. Such a hospital has been estimated to cost about Rs. 18,000, and the money could be provided without difficulty from the Hospital Port Dues' Fund, against which this is a perfectly legitimate charge.

4. But the scheme has hitherto been in abeyance from the difficulty of finding a site. On the recommendation of sanitary authorities, I proposed a site near Hastings Bridge. But to this military objections were strongly raised. Better, still, would have been a site near Prinsep's Ghât. But there are military objections to the erection of any building in that neighbourhood. Then, if the hospital were placed down the river at Garden Reach, or up the river north of the Eden Gardens, it would be of comparatively little use. At Garden Reach it would be too far from the General Hospital, besides being inconvenient for the Port Health Officer to visit; and if placed further north, it would be a long way from the Medical College Hospital, and moreover cases which occur in that part of the river are generally taken to the Howrah Hospital, which is conveniently situated for the purpose. The proposed Branch Hospital, if it is to be on the river bank, must be somewhere near Prinsep's Ghât.

5. I am thus driven to the alternative plan, which is to provide a floating hospital; to purchase a hulk and fit it up for the purpose. This would be much more expensive: a hulk is estimated to cost Rs. 40,000 or Rs. 45,000, and about Rs. 7,000 more would be required for alterations and fittings. Drs. French and Pilcher also think that there are objections to a floating hospital as calculated to infect the river; but Dr. Coates does not agree in this view, and says that, with a proper use of disinfectants, there is no more reason why a floating hospital should pollute the river than a hospital on shore pollutes the neighbourhood.

6. The statistics show that in the General Hospital the percentage of deaths to admissions is much greater in shipping cases than in others. This is perhaps due in some measure to the masters of vessels omitting to send sick men promptly to hospital; but in part it may be attributed to the unavoidable delay which occurs owing to the distance of the hospital from the river, and perhaps also to the bad effect of the journey across the Maidan in the heat of the day. This mortality might probably be reduced if a floating hospital were established under the charge of the Health Officer of the Port. The emergent cases would be received in it; the cases requiring protracted treatment would continue to be sent to the General Hospital. The expense involved has indeed to be considered. There would be an initial outlay of say half a lakh, and about Rs. 500 a month for maintenance. Still the fund is able to meet this call upon it; and I think that an outlay of this amount is fully justifiable for the sake of the sailors of so great a port as Calcutta. Such an institution may be the means of saving many valuable lives, and would altogether be beneficial to the crews in the river.

7. I therefore authorize the Sanitary Commissioner (who is strongly in favor of the project) to arrange, in communication with the Master Attendant, for the purchase of a hulk, which would be suitable for conversion into a floating hospital. Tenders might be invited by advertisement.

RICHARD TEMPLE.

CANAL FOR NAVIGATION BETWEEN CALCUTTA AND EASTERN BENGAL.

Minute by the Lieutenant-Governor of Bengal, dated 6th July 1876.

THE attention of the Government of Bengal has been repeatedly drawn to the circuitousness of the route which the river traffic between Calcutta and Eastern Bengal is obliged to take. The route is well known to be that of the Sunderbuns. Besides being circuitous, it is in some parts dangerous, especially in those parts which fall within the rivers Pudda and Megna.

2. Although some portion of the traffic is taken off by the Eastern Bengal Railway, still the greater portion follows the water highways, notwithstanding that these natural highways are so tortuous as to be lengthened out to an excessive distance. It is calculated that a laden boat plying between Eastern Bengal travels some 200 to 300 miles more than it would travel if there were anything like a straight route by water. The local trade statistics which are being collected are hardly complete enough to enable me at this moment to state the amount of this river traffic; but it is known to be vast, varied, and valuable.

3. The obvious remedy would be to construct a canal for navigation across the country from Eastern Bengal to Calcutta. The matter was brought to my notice by Colonel Haig, R.E., with reference to a project for a canal from somewhere near Goalundo to Calcutta, and by Mr. Bradford Leslie, C.E., with reference to a project for a canal from somewhere near the mouth of the Megna river to Calcutta.

4. My own opinion has been, and still is, in favour of proposing a canal from a point at or near Madareepore in the south of the Fureedpore district, situated on a branch of the lower Megna river. From Madareepore the canal would be carried across the Gorai river (there called the Mudhomuttee), thence it would join the Atara-Bankee river and pass on to Koolna on the river Bhyrub in the Jessore district; then it would be carried across the country without obstacle to Calcutta. The only serious difficulty would be the crossing of the Gorai; but I believe that this could be overcome by engineering skill The distance from Madareepore to Calcutta would be 140 miles. The saving of distance in the route to Calcutta would, as already stated, be between 200 and 300 miles. The position of Madareepore seems to me to be remarkably favourable for such a project. It would be specially convenient for the trade from Dacca, Naraingunge, Tipperah, and Sylhet. It would be sufficiently convenient for the traffic of the Brahmapootra and the Jaboona, including the trade from Rungpore, Serajgunge, and Mymensingh; and it would be so far removed from the terminus of the Eastern Bengal Railway as not to interfere with that line.

5. I must admit that it would not suit the trade with the marts of the Backergunge district; but the accommodation of that trade cannot possibly be combined with any plan that would be suitable for the trade of the rest of Eastern Bengal. If, however, the project from Madareepore to Calcutta were to prove successful, there would be no difficulty in making a branch from Koolna to Burrisaul, the capital of Backergunge, 55 miles distant. This, indeed, is the way in which I should propose to accommodate the trade of the Backergunge district.

6. Altogether, I have no doubt that the project would, if executed, prove of signal benefit to Bengal; and I should be very glad if means could be found of promoting it.

7. Colonel Haig has at my request visited that part of the country, and has recorded a very valuable and interesting Note, which is hereto appended, and in which he discusses in general terms the several plans which have been, or might be, formed. It is satisfactory to find that the operations of the last season have resulted in the surveying of the line between Calcutta and Koolna. I have directed that the survey be carried on from Koolna to Madareepore, and from Koolna to Burrisaul, as soon as the season shall permit. I also desire that copies of these papers be sent to the Commissioner of the Presidency Division, and to the Commissioner of Dacca, with a request that they will consult all those principally concerned in the trade and submit a report in due course.

Note by COLONEL F. T. HAIG, R.E., *Chief Engineer, Bengal, Irrigation Branch, on certain points in connection with the proposed Navigation Canals.*

HAVING lately returned from a tour through the Eastern Districts, I make the following note of certain points in connection with the proposed navigation canals.

2. I went first to Kooshtea, where I was joined by Mr. Hughes, and with him inspected the Ganges and Gorai from a place about 10 miles above Kooshtea down to a mile below the railway bridge. I then proceeded to Goalundo, and next by steamer down the Pudda and Ureal Khal, calling at Furreedpore, where I spent some hours with the Collector, and at Madareepore. At Burrisaul I stayed two days with the Collector, receiving from him much information about the trade and traffic of the Backergunge district, and thence returned to Calcutta by the small-boat Sunderbuns route, *viâ* Koolna.

3. The first point to be noted has reference to the projected canal for the accommodation of the boat traffic of the Upper Ganges and the Northern Districts of Bengal.

4. Mr. Hughes has from the first proposed to place the head of this canal on the Gorai, a little below the railway bridge, to make a short cut from that point into the Kaligunga, and canalize the latter down to its junction with the Koomar. From the latter point two lines have been proposed, one *viâ* the Eastern Bengal Railway to Nyehattee, where it would lock into the Hooghly, the other due south to the town of Jessore, and thence in much the same direction to the Eastern Districts' Canal. I have not received any report upon the comparative merits of the two lines, but I have scarcely a doubt that the lastmentioned is the proper one.

5. There is a doubt, however, which is common to both lines, viz. the condition of the head of the Gorai. This river has always had such a deep and constant stream that at first we thought it would be quite sufficient if we could lead off a canal from it. Of late years, however, it would seem that a change in the direction of the main stream of the Ganges, a little above the Gorai, has had an important and injurious effect upon the latter. The Ganges now no longer flows past Kooshtea. This town is properly speaking on the Gorai. The dry weather stream of the Ganges has left the channel by which it formerly came down in a direction nearly north and south, for about 6 miles, to Kooshtea, and now takes a more direct course across the great loop in the centre of which Kooshtea lies. The consequence is that the actual present head of the Gorai is about 4 miles above where it used to be, that is to say, instead of being 2 miles above the railway bridge, it is now 6 miles. As the churs between which the Gorai flows for this new 4 miles are not yet raised to flood level, the Ganges in floods flows transversely, or nearly so, to the channel of the Gorai, and tends to obliterate it or to raise its bed. On the subsidence of the floods, therefore, the Gorai has to scour out its own channel to a certain extent, and hence for some two or three months there is a great rush of water down from the Ganges towards the bridge, and the channel is at times shallow.

6. The sections which Mr. Hughes has taken of the Gorai for a short distance above and below the bridge show that its bed has been raised many feet in the course of a few years, no doubt by deposits brought down from the Ganges during the annual formation of the dry weather channel. If the current now is no greater than it used to be, there can be no doubt that the dry weather volume of the Gorai has been largely reduced; but upon this point we have no data whatever. I think, however, it is certain that there has been a considerable reduction of discharge, as the diminution of volume has been noticed by residents at points lower down. Still the lowest summer discharge is even now very large, not less than 12,000 cubic feet per second, and, flowing, as this great body of water does, in a comparatively narrow channel between steep banks, it affords excellent navigation. The Gorai is therefore the favorite route for all boats from the Upper Ganges, Rajshahye, Southern Pubna, &c., during the months when the Nuddea rivers are closed. It used to be also the steamer route, but this year the difficulties above alluded

to at its head have led to its abandonment in the dry months by the steamers of the India General Steam Navigation Company.

7. It becomes therefore an important question whether this gradual contraction of the channel of the Gorai at its head is likely to continue or not. My impression is that it is not, for two reasons,—1*st*, because as the banks of the new head rise, if the channel remains as it is, the process which tends to silt up the bed during floods must gradually cease, and a deep permanent channel will probably be formed; and 2*nd*, the Ganges may at any time revert to its former bed, in which case the same volume would be thrown into the Gorai as used to enter it before the recent changes took place. Still there is a sufficient degree of uncertainty upon the point to raise the question whether a canal might safely be led off from the Gorai, whether, that is, a deep entrance channel at the head of that river might always be depended upon.

8. Without speculating upon this point, I think it will be sufficient to point out that it will not very materially affect the question of a canal to the Hooghly, because if at any time (and the time would certainly be remote) the Gorai entrance should have to be abandoned, a cut of 20 miles would give a secure and permanent head in the reach of the Ganges in which the terminal station of the Northern Bengal (State) Railway is situated, and this 20 miles would not be a very important addition, should it ever be found necessary to a canal 132 miles in length.

9. It may be asked, why not make the head there at once? To this I would reply that, with the information I now have, I certainly should not consider such an additional expense necessary, especially as it would involve the construction of a long spur somewhat similar to that at Naraje, at the head of the Katjooree, in Orissa, to keep a deep channel along the right bank. The probability is that the condition of the head of the Gorai is now at its worst, and that the deep channel of the Ganges where it takes off has reached the northernmost limit of its changes, as I myself saw two places on its left bank, just above the Gorai, where long groins of clay protruded into the river and withstood the force of the current. With this base there could be no difficulty in fixing such points permanently with stone. For boat traffic, moreover, there is not the slightest likelihood of there ever being insufficient depth of water at the head of the Gorai. This river has a greater fall than any of the other flood outlets of the Ganges, and the draught into it from that river must always be proportionably stronger than in them.

10. The next question is about the proper terminus or termini for the Eastern Districts' Canal. It is quite clear that this canal must start from Calcutta and must strike Koolna. This point is obligatory, as it is the place to which all the different streams of traffic from the Eastern and Northern Districts to Calcutta converge. The question is about the line beyond Koolna. There are three different lines of traffic to be considered—1*st*, that from the Brahmapootra; 2*nd*, that from the Megna; and 3*rd*, that from the Backergunge district and Chittagong.

11. Now no line that will suit the two first will offer any advantages to the last. It may therefore be considered a settled point that the Backergunge, Noakholly, and Chittagong traffic must have an independent line of its own. The line which Mr. Kimber has been surveying for this purpose starts from Koolna, follows the Bhoyrub for about half its length, then cuts across to the nearest point on the Modhumutty (the name of the tidal portion of the Gorai), and thence is carried straight, or nearly straight, to Burrisaul.

12. Burrisaul, however, is a place of no commercial importance whatever. The point to make for is evidently Jalookati, a place on the Nalchitty river (which is the steamer and boat route), about 12 miles from Burrisaul. This town and Nalchitty (which is a few miles distant on the banks of the same river) are the two most important commercial centres in Backergunge. Mr. Barton, the Collector, told me that, in reply to some questions he had put to them, the mahajuns of Jalookati admitted a banking business with Calcutta alone last year to the extent of 63 lakhs of rupees, which, as Mr. Barton remarked, is probably not above half the real amount; and Mr. Kimber has shown me some figures obtained from the Collector which make the annual value of the trade of the place considerably over a million

sterling. The canal from the Modhumutty should, I think, run as direct as possible to Jalookati, where it would connect with the river, and a further short cut of about 3 miles would be required from a point a little beyond Nalchitty to Burrisaul.

13. The line thus sketched from Koolna to Burrisaul would probably give all the facilities required for the Backergunge and Chittagong traffic.

14. But as regards the traffic from the Megna and Brahmapootra, this line, while it would afford the very important advantage of a great reduction in the length of the Sunderbun route, would leave all the difficulties and dangers of the navigation of the Pudda unremedied. These are so serious that I am satisfied that at least one additional line of canal is required connecting with the Pudda at a point much higher up than Burrisaul, by which boats might avoid the navigation of the great river.

15. Two or three suitable points present themselves. That highest up river is Fureedpore. It is a place of no consequence commercially, but it is only about 22 miles below Goalundo, so that boats going to or from the Brahmapootra would, if there was a canal to Fureedpore, avoid almost all the dangers of the Pudda. It has, moreover, the advantage of a remarkable fresh water lake, about 1½ miles in diameter, formed apparently by the closing up of some old bend of the Pudda, and with never less than 18 feet depth of water throughout a great part of it. It would form a splendid terminal harbour, and could be connected by a short cut with the river. This was one of the reasons which led Mr. Bradford Leslie to select Fureedpore as the terminus for the line of canal which he proposed.

16. The next point is Madareepore, 45 miles further down river. It is a little civil station, with a Deputy Magistrate, but has no trade to speak of. It possesses, however, one remarkable advantage; the Koomar, which drains a great part of the Fureedpore district, has its principal mouth at this point, and would form an admirable terminus for a canal. The channel is wide, and had a depth of 18 feet of water right out into the Pudda when I entered it. The river had then risen 5 feet, so that there must be 13 feet of water in the channel in summer. I cannot account for this deep and clear outlet except on the supposition that the drainage discharge of the Koomar is large enough to produce a most effective scour. The rise and fall of tide is not more than 2 feet. There, however, the channel is, and apparently always has been, in the same state, and it affords a strong inducement to make Madareepore a terminal point.

17. A third point is near Gournuddee at a sharp bend in the Ureal Khal, 16 miles due south of Madareepore, but I do not think that this place has anything specially to recommend it.

18. Now, supposing Fureedpore to be the point aimed at, the most suitable line would apparently be one taking off from the Jessore canal at Jessore, and following generally the line of the Jessore and Fureedpore road. This line has not yet been reported upon, but a set of levels is being taken along it. There is, however, I suspect, a most serious objection to it—the crossing of the Gorai. This could not be effected by an aqueduct, as the floods of that river rise at least to the level of the banks, so that the relative water levels would render an aqueduct impracticable. The alternative would be locks; in fact there is no question that this method would be adopted in any case for the sake of the Gorai traffic. But if there is any change taking place in the levels of the bed in the upper part of the Gorai, it may extend as far down as where this line would cross, and make it difficult to keep a clear passage; it might also affect the flood levels.

19. On this account I think it will be advisable to cross the Gorai well within tidal limits, and a more suitable line would be from Koolna, *vid* the Attarabanka (or if that be thought too winding, a direct cut instead), to the Mudhomutty, from whence a canal to Fureedpore would be aligned as shown in blue in the accompanying map. The Attarabanka lateral canal might be an improvement, but would not be a necessary part of this line, as that river affords very good navigation. In this way the addition of 42 miles of canal to the canal from Calcutta to Koolna would give navigation direct to Fureedpore, and be an immense gain to all the traffic of the Brahmapootra Valley.

20. A branch of only 18 miles in length from this Fureedpore canal would give communication with the Koomar and Madareepore, and effect a great saving in distance in the Megna traffic, both boat and steam. The steamers going to the Megna have to ascend the Ureal Khal some 15 miles above Madareepore before they can get into the Pudda, and then go down the latter to the mouth of the Megna. The distance to the latter point from Calcutta by the present steamer route is 482 miles; by the canal route just described it would be 194 miles. But since this note was commenced, a communication received from a native resident shows that there is a more direct route by 12 miles between the Mudhomutty and Madareepore than that above suggested, so that the actual distance would be 182 miles only, showing a saving to steamers of no less than 200 miles between Calcutta and the Megna.

21. The more direct route just mentioned is shown in the map in red dotted line. If it is adopted, then it might be better to take the line to Fureedpore, as shewn by a continuation of the red line, viz. along the Koomar, utilizing it where practicable, rather than by the line (blue) first mentioned.

22. It will be observed that the Koomar has a second mouth about 10 miles above Madareepore. The canal would thus have three separate outlets into the Pudda—at Fureedpore, at the upper mouth of the Koomar, and at the lower mouth. This would be an important advantage, as in the event of any silting or obstruction due to repairs at one entrance, two others would always be available.

23. Supposing these two lines of canal, 44 miles in length, to be made between the Mudhomutty and Pudda, I do not think there could be a doubt that every boat and steamer engaged in the Brahmapootra and Megna trade would take the new route; the saving in distance, and for boats in avoidance of the dangers of the Pudda navigation, would be so great. The distance from Calcutta to Goalundo would be 198 miles *vid* Canal to Madareepore and the Pudda, or 176 miles *vid* Canal to Fureedpore and Pudda. By rail it is 152 miles. By the present steamer route it is 502 miles. I should mention that there is a practicable boat channel, shewn in blue, from the Ureal Khal across to the mouth of the Megna, a little above Madareepore.

24. Thus the canal would effect a saving in distance of 300 miles in the case of the Brahmapootra traffic, and, as already shown, of 200 miles in the case of the Megna. When we consider the great and increasing importance of the trade of these two great valleys, surely such a canal must be pronounced simply indispensible, and the only astonishment is that it has not long ago been constructed.

25. Supposing such a scheme of canals as above described to meet with approval, the next point to be considered would be the section to be given to them, and to what extent they should be adopted for steamer traffic. I think all must, from the very requirements of the boat traffic, be suited for steamers of a certain size, as they must certainly admit boats of the largest class used upon the Pudda, and the dimensions of these, with a certain addition to the length which it would be advisable to allow, would require a canal and locks on which steamers of say 18 feet×120 feet, with a depth of at least 5 feet, might ply. Nothing less than this width or depth would suffice for the existing boat traffic. But the question is how far the canals should be adapted to the requirements of the steamers now running on the Pudda and Brahmapootra. These being all side-wheel steamers, their dimensions are altogether too great for a canal. Their width from out to out of paddle boxes is generally 70 feet. The canal and locks should, I think, be large enough to admit the barges only. These have a width of 35 feet and a length of perhaps 150. They should be towed through the canal by small tugs, and the steamers themselves should be kept in the great rivers, and not come to Calcutta at all. Of course, if the steamer companies expressed a willingness to introduce stern-wheel steamers of a class that could navigate both canal and river, the locks might be made large enough for them. These are points yet requiring discussion. I think, however, that the main canal to Koolna and the continuation to Madareepore, or perhaps to Fureedpore also, should be of the dimensions required for the present steamer barges. So also, I am inclined to think, should be the Jessore and Kooshtea Canal. It seems doubtful

whether it might not be sufficient to make the Burrisaul line large enough for boats only.

26. Such is the shape that the scheme has taken in my own mind up to the present time. It will be well perhaps to circulate this paper for the opinions of the Commissioners and Collectors, and of any other persons whose advice might be of value.

27. I have said nothing about the drainage of bheels, as it is uncertain as yet to what extent we can combine this object with navigation.

28. Up to the present time the progress made in the investigations has been as follows. The line between Calcutta and Koolna has been surveyed; those between Koolna and Burrisaul and Madareepore only partially so, though various trial lines have been run. A trial line has also been levelled for the Jessore and Kooshtea Canal.

29. The field operations of the season are now over, and the various survey parties have been called in, and will now be engaged in plotting their field work, after which I hope it will be possible to prepare at least approximate estimates of the probable cost of the scheme.

30. Two Deputy Collectors are engaged in collecting statistics and information connected with the boat traffic.

RESOLUTION ON THE REPORT OF THE ROYAL BOTANICAL GARDEN FOR THE YEAR ENDING 31ST MARCH 1876.

FINANCIAL DEPARTMENT.—AGRICULTURE.

Calcutta, the 10th July 1876.

READ—

Report of Royal Botanical Garden for the year ending 31st March 1876.

THE Lieutenant-Governor observes with pleasure the report of the successful growth of the trees and shrubs in the Botanical Garden during the year, and especially of the ornamental group of trees from the Sikhim Terai. The new plant-house that was erected under Dr. King's supervision last year promises to afford an equable temperature for the growth of those plants which cannot stand extremes of climate. The funds specially granted for the improvement of the garden appear to have been generally laid out to the best advantage. The Lieutenant-Governor desires particularly to acknowledge Dr. King's services in this respect.

2. It is to be regretted that, notwithstanding the stringent orders which were issued last year, there should still be reason for complaint that the river bank continues to be cut away by the wash of tug-steamers passing at an excessive rate of speed. Further measures, however, will be taken to prevent the recurrence of this source of damage to the garden.

3. The Lieutenant-Governor notices that Mr. Lister's researches in the Chittagong Hill Tracts have resulted in supplying the garden with plants and seeds of considerable value and interest, and particularly in enlarging the fine collection of orchids. In connection with this subject, Dr. King remarks on the difficulty of bringing together in Calcutta the flora of the higher and colder parts of the Indian Empire. In the present state of provincial finances it has been found impossible to supply this defect by establishing branch gardens in the lower Himalayas; until this is done, the Indian collections must be incomplete, but the Lieutenant-Governor fully recognizes that the Calcutta garden well maintains its reputation as a representative collection of tropical and sub-tropical plants. The Lieutenant-Governor will see whether the newly established garden at Rungaroon near Darjeeling cannot render some assistance in this respect.

4. The present season has placed it beyond a doubt that neither the Madagascar rubber-vine, nor the *Hevea Braziliensis*, can be grown for commercial purposes in Bengal; but Calcutta still remains the most suitable place for raising seedlings, and the Lieutenant-Governor considers it a matter for regret that, owing to the loss from defective packing of a large consignment of seeds from England, no progress was made during the past year in the experiment of growing India-rubber.

5. The attempt to grow vanilla appears to have failed in consequence of the plants being overshaded. Dr. King expresses his opinion that vanilla can never become a staple product of Bengal; but the Lieutenant-Governor would wish the experiment to be renewed for at least another season. Although the ipecacuanha cannot be grown as a regular crop in Bengal, the plants have been so successfully propagated in the gardens that large numbers of them were sent to Ceylon, the Neilgherry hills, and Burmah; while Dr. King says that the supply can be indefinitely increased. It is satisfactory to find that the ipecacuanha supplied to the Surgeon-General for trial in hospital practice was reported to be quite as efficient as the best South American drug.

6. Mahogany seedlings are said to have been in great demand, and Dr. King states that the difficulty in extending mahogany planting in Bengal lies solely in the scarcity of seed, which he proposes to supply by special arrangement from Honduras and Jamaica. The Lieutenant-Governor has, however, already expressed an opinion on this subject that, having regard to the absence of any effective local demand for mahogany, and the difficulty of competing with the West Indian timber in European markets, the resources of Government had better be applied to promoting the growth of trees of undoubted usefulness in this country.

7. A correspondence upon a proposal to utilize bamboo shoots for the manufacture of paper stock has recently been under consideration; and, in connection with these papers, the Lieutenant-Governor will await with interest the results of Dr. King's experiments in treating the bamboo so as to induce it to yield a continuous crop of shoots irrespective of season. It is to be hoped that in another year the baobab trees in the garden will have advanced far enough for Dr. King to be able to report on the quality of their fibre, and upon its fitness for manufacture into paper.

8. The number of plants sent out from the Botanical Garden during 1875-76 is almost double that of the preceding year. The increase is mainly caused by the supply of a large collection of plants to His Royal Highness the Prince of Wales, to the Zoological Gardens at Alipore, and to twenty-two stations on the Northern Bengal State Railway. A large number of plants was also supplied to the Magistrate of Hooghly for planting in the district roads.

9. The Lieutenant-Governor thanks the Superintendent and his staff for their efficient work during the past year. Dr. King has materially added to his labors by assisting in laying out the Zoological Garden at Alipore, by preparing a manual of cinchona cultivation for the Government of India, and in other ways. A proposal to relieve the Superintendent of his duties as Professor of Botany at the Medical College is now under the consideration of Government, and it is hoped that this arrangement, if found practicable, will leave him more ample leisure for independent scientific research.

By order of the Lieutenant-Governor of Bengal,

H. J. REYNOLDS,
Offg. Secy. to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORT ON THE MEDICAL INSTITUTIONS OF CALCUTTA AND ITS SUBURBS FOR 1875.

MEDICAL.

Calcutta the 11th July 1876.

READ—

Letter from the Surgeon-General, Indian Medical Department, No. 259, dated the 22nd May 1876, submitting his report on the Medical Institutions of Calcutta and its Suburbs for the year 1875.

Read again—

The report for the year 1874, with the orders of Government passed thereon.

THE report for the past year affords satisfactory evidence of the increasing popularity and usefulness of the medical institutions of Calcutta and its suburbs. The public health during the year was not affected in any serious degree by epidemic disease, nor by an unusual amount of sickness; yet the number of persons who resorted for medical treatment to the hospitals and dispensaries increased by nearly 20 per cent., or from 263,027 in 1874 to 313,462 during the past year. Thus the increase which was noticed in the report for the previous year has been more than sustained. The following table exhibits the number of persons who were treated at the different institutions as in-door and out-door patients during the last three years :—

2. Of the 50,435 patients who received medical and surgical advice and treatment in excess of the total number of the previous year, 2,426 were in-door, and 48,009 out-door patients. The increase is chiefly observable in the number treated in the General Hospital, the Mayo Hospital, and the Howrah Hospital. There has been a slight falling off in the numbers attending the North Suburban Hospital and the Alipore dispensary, while the attendance at the Medical College Hospital has varied but little during the past three years. Complete statistics regarding the race, sex, and age of the patients have not been furnished, as particulars were not recorded as regards 9,544 out-door patients treated at the Presidency General Hospital. But of 303,918 patients, 181,352 were males, 48,111 were females, and 74,455 were children under ten years of age. The proportion per cent of each race to the total treated was 49·93 Hindoos, 33·20 Mahomedans, 11·80 Eurasians, and 2·41 Europeans. As compared with the percentages of the previous year, the increase which is observable in the number of Hindoo patients is almost exactly equal to the decrease in the number of the remaining classes.

3. The returns of the hospitals and of the municipality alike show that the last half of the year was much more unhealthy than the first. The largest number of in-door patients was admitted during the months of November, October, August, September, December, and July. The month of February is shown to have been the most healthy of the year. The greatest mortality occurred in November, and the lowest in June. The large number of deaths in November is exceptional, and is attributed to the unusual prevalence of cholera during that month, as during previous years the largest proportion, or 31·43 per cent. of the patients treated, were suffering from intermittent

and remittent fevers with their sequelæ. The diseases next in order of frequency appear to have been dysentery, diarrhœa, and cholera, and, as compared with 1874, bowel complaints generally seem to have been more prevalent. It is noteworthy that of the patients suffering from typhoid fever 69 per cent. were Europeans. There was a marked and deplorable increase in the number of deaths from small-pox. Eighty deaths occurred from this disease in the hospitals, as against seventeen only in the previous year. The disease would also appear to have been of a severe type, as the mortality was 37 per cent. of the total number treated. The municipal returns show altogether 775 deaths from small-pox during the year. This mortality is twelve times the average of the nine preceding years, and gives evidence of an outbreak of some virulence, though it was fortunately of limited extent.

4. The number of cholera cases treated in the hospitals was greater than in any of the five preceding years, and, with the exception of 1873, the death-rate was greater than in any year since 1868. The total number of admissions for this disease was 787 against an average of 493 during the five preceding years, and of these 405 died, giving a death-rate of 515 per mille. The highest death-rate occurred in the Presidency General Hospital, where no less than 50 Europeans, out of 75 treated, or over 66 per cent., succumbed to the disease. From the statement showing the localities from which cholera cases were admitted, it appears that there was a considerable increase of the disease in every division of the town and suburbs, with the exception of the River Division and the well-drained and well-watered quarter in which Europeans chiefly reside. This increase is chiefly observable in the third division and in Howrah, where the number of cases rose from 45 and 61 to 110 and 114 respectively. Of the 75 patients received in the Presidency General Hospital, no less than 60 came from the shipping, and though the total number of cholera cases received from the riverside decreased from 143 in 1874 to 104 in 1875, it would seem that the sanitary condition of the port is still far from satisfactory. An examination of the detailed returns tends to show that this is owing less to emanations from the unembanked foreshore than to the discharge of the Fort sewage into the river. The most unhealthy situations were the Esplanade, Prinsep's Ghât, and Hastings' Ghat moorings, from which 18, 21, and 15 cholera cases respectively were admitted into the hospitals; while one case only was admitted from Coilah Ghât, Baboo Ghât, and Chandpal Ghât respectively, three from Bankshall Ghât, and nine from the jetties. These figures, indeed, appear to indicate that those parts of the river are most unhealthy which come directly under the influence of the sewage discharge from the Fort. This question has engaged the attention of this Government and of the Government of India during the year, and a scheme is under consideration for disposing of the sewage of the Fort by connecting the drains with the Municipal sewers.

5. The mortality from all the most frequent diseases, dysentery and debility excepted, was higher than in 1874, and these results agree generally with those shown in the municipal returns. Of the 22,806 in-door patients treated, 3,815 died, giving a death-rate of 167 per thousand, as against 152 and 143 per thousand in 1874 and 1873 respectively. The death-rate returns, however, present very marked differences in the several institutions, ranging as the figures do from 22 per mille in the Police Hospital, and 65 per mille in the General Hospital, to 280 in the Campbell Hospital, and 319 in the Alipore Dispensary. The following table exhibits the death-rate per thousand at the different hospitals and dispensaries for the past three years :—

	1875.	1874.	1873.
1. Medical College Hospital	134·20	108·3	109·2
2. General Hospital	65·24	49·5	61·4
3. Mayo Hospital and Dispensary	117·14	137·4	51·8
4. Campbell Hospital	280·77	251·6	288·7
5. Municipal Police Hospital	22·56	24·7	21·6

6. The very low rate of mortality in the Police Hospital is of course to be accounted for by the fact that whenever a constable is incapacitated for work he is required to go to hospital. Thus the proportion of petty cases must be much larger than in hospitals to which persons ordinarily resort only when they distrust domestic treatment. It may be presumed that the comparatively small death-rate which has prevailed among the patients of the General Hospital is due to the superior physique of the bulk of the patients, who are Europeans. The small death-rate among in-door European sufferers, particularly in dysentery, diarrhœa, and ague cases, as compared with the mortality among native patients, is certainly very noticeable. The death-rate at the Medical College Hospital was considerably higher than in either of the previous years, owing chiefly, Dr. Chevers considers, to the exclusion of incurable patients from the Sealdah Hospital during a part of the year. It appears that about 108 per mille is considered the normal rate of mortality in this hospital. In the Mayo Hospital the death-rate has been subject to great fluctuation during the past three years. Nearly two-thirds of the hospital patients of Calcutta and the suburbs were treated in that institution, but no explanation has been offered of the marked differences which have occurred. In the Howrah General Hospital, the mortality is far in excess of that of the Medical College Hospital or the Mayo Hospital, though a considerable number of the patients were Europeans. The Lieutenant-Governor would have been glad to have received some explanation as regards these statistics, and the more so as the returns show instances of marked variations in the rate of mortality from the same diseases in the different institutions. The excessive and continued mortality in the Campbell Hospital, (viz. 280 per mille) has been stated to be inevitable, and Dr. Woodford's remarks would certainly point to that conclusion. But it would have been well had Dr. Woodford illustrated his remark that one of the chief causes is attributable to the fact that this institution receives the rejected of other hospitals, by giving the number of cases thus received on the ground of incurability or for other reasons. It is shown, however, that of the total number of deaths four-sevenths occurred within a week after admission. Turning from the Campbell Hospital, which treats in-door patients only in one part of the suburbs, to the Alipore Dispensary which receives comparatively but few in-door patients in another, the Lieutenant-Governor finds a still more alarming death-rate, reaching during the past year to the very high figure of 319 per mille. No explanation, however, has been offered of the causes to which this remarkably high rate of mortality is to be ascribed.

7. The total expenditure on account of the medical institutions of Calcutta and the suburbs amounted to Rs. 4,88,835-5-6, against a total income of Rs. 6,15,043. Of this sum, Rs. 3,77,054-14-11 were contributed by Government on account of salaries, special allowances, and cost of medicines, &c; Rs. 25,887-11 were realized as interest from invested funds; Rs. 19,988-10-6 were received as subscriptions and donations, and Rs. 52,486-7-3 were contributed from local funds and municipalities. The total floating balance on the 1st of January last amounted to Rs. 1,26,207-12-2.

8. *Medical College Hospital.*—This institution had the advantage of the experience and supervision of Dr. Chevers throughout the year. Of the 3,915 in-door patients treated, exclusive of the inmates of the Eye Infirmary, 1,673 were Europeans and Eurasians, and 2,242 were natives. The number treated, both of out-door and in-door patients, was slightly in excess of that of the previous year. The high rate of mortality among native patients, as compared with that which prevailed among Christians, was still more marked than in the previous year, the death-rate being 222 and 59 per thousand respectively. This heavy mortality among natives, which is particularly observable in cases of ague and intermittent fever, is attributed by Dr. Chevers to the number of incurable cases received, which could not be admitted in the Sealdah Hospital, as above noticed, and to the low state of vitality among many of the sufferers owing to their extreme poverty. It is observed that the falling off in the attendance at the Medical and Surgical dispensaries, which was noticed in the report for 1874, was still more marked during the past year. The decrease amounted in the Medical dispensary to 422 persons, and in the Surgical to 2,644, but no explanation has been offered on the point. On the other hand, it is

observed that there was an increased attendance of patients at the Ophthalmic and Dental dispensaries and at the dispensary for women and children. The death-rate among patients after operations was 260·50 per thousand, as against 235·29 during the previous year. The Lieutenant-Governor is glad, however, to observe that this increased rate is not attributable to hospitalism or septicœmia, as only eight deaths of the thirty-one which occurred were attributable to this cause, as against ten during the previous year. The number also is considerably below the average of the six previous years.

9. *Presidency General Hospital.*—There has been a very large increase in the number of patients treated in this institution during the past year, the total number being 12,778, as against 3,933 during the previous year. The number of European patients received into the hospital was 2,905, as against 2,437 in 1874. In the absence of any epidemic, such as the dengue fever of 1872, this circumstance is satisfactory. Dr. Ewart reports that the number of applicants is still in excess of the accommodation available, and that the question of relieving the women's ward by providing separate quarters for the nurses is under consideration. Although this hospital has generally been free from septic disease, an outbreak of erysipelas occurred; but the Lieutenant-Governor is glad to learn that Dr. Ewart was able to arrest the spread of this disease by segregating the affected patients from the other surgical cases, and that no fatal case can be traced to this cause. The death-rate among the in-door patients has increased from 45·95 to 58·17 per thousand, and is attributable to the heavy mortality among the cholera patients, which accounts for one-third of the mortality. It is noticeable that while Europeans appear to resist other diseases better than natives, a much larger proportion of Europeans than natives succumbed to cholera. The large increase in the attendance of patients at the out-door dispensary affords satisfaction, and attests the increasing popularity of the institution. The Lieutenant-Governor will be glad to consider any application which Dr. Ewart may have to make for the removal of the present condemned quarters of the hospital subordinates. The improvements which have been effected in the drainage and lavatory arrangements, and in the external appearance of the hospital, have elicited much favorable comment, and the manner in which they have been carried out reflects much credit on Dr. Ewart and his assistants Drs. Raye and Mackenzie.

10. *Campbell Hospital.*—The number of admissions to this hospital again shows an increase. Of the total number of patients treated, viz. 7,782, 203 were Eurasians and 7,579 natives; 5,178 were cured or relieved, 58 were transferred to the Lunatic Asylum, and 2,185 died. The very high rate of mortality has already been commented upon. Referring to the heavy mortality among the patients after operations, which amounted to 285·71 per thousand, Dr. Woodford states that he has been compelled to restrict the major surgical operations to urgent cases of accident in consequence of the want of detached accommodation for the patients. This want has now, however, been supplied by the erection of an additional shed sanctioned by Government at the close of the year.

11. *Mayo Hospital.*—Dr. Cayley is able to point to two very gratifying proofs of the success of his labor, and of those of his subordinates, as shown by the great increase in the number of patients treated and the decrease in the rate of mortality. The increase is particularly noticeable in the Mayo Hospital itself, and in the affiliated dispensaries of Chitpore and Sukea's Street. One hundred and four major and ninety-two minor operations were performed, with a mortality of thirty, or at the rate of 153·06 per thousand. The financial condition of the institution is satisfactory, and altogether the administration of the year is very creditable to Dr. Cayley's exertions.

12. *Howrah General Hospital.*—A small decrease in the attendance of Christian patients has been accompanied by a marked increase in the number of native patients. The death-rate (154 per thousand), though less than the previous year, continues to be high. The number of cholera cases among Christians was smaller than in 1874, but the mortality (590 per thousand) was much heavier. Among natives on the other hand there was a great increase of this disease, and at the same time a marked decrease in the death-rate. The conservancy arrangements continue in an unsatisfactory state, but the Lieutenant-Governor is glad to learn that better latrine and bath-room

accommodation will be provided in the new wing which is in course of erection. The finances of the hospital were prudently administered, and the accounts show a small balance to the credit of the funds. His Honor is disappointed to learn that difficulty has been experienced in obtaining a sufficient attendance of members of the committee for the discharge of current business, and that the donations received from natives amounted to Rs. 25 only during the year as against Rs. 1,465 contributed by Europeans. The Lieutenant-Governor has little doubt, however, that this might be remedied if the Magistrate would bring the claims of the institution to the prominent notice of the large number of wealthy native gentlemen who reside in Howrah and its neighbourhood.

13. *Calcutta Hospital Nurses' Institution.*—The Lieutenant-Governor learns with pleasure that the Lady Superintendent of Nurses, Miss Huband, has already effected a marked improvement in the nursing arrangements at the General Hospital, and that a larger sum than usual, amounting to Rs. 9,113, has been received during the year by subscriptions and donations in support of this admirable institution.

14. The principal points connected with the reports on the institutions named in the margin have been noticed in the remarks on the general report. As pointed out, however, by Dr. Beatson, the excellent health and the slight mortality among the members of the River Police Force, of whom one only died from cholera, is very remarkable, as contrasted with that of the seamen of the mercantile marine. The Lieutenant-Governor would have been glad to have received some explanation of the fact. The Lieutenant-Governor concurs with the Surgeon-General in thinking that the arrangement under which the duties of dresser and compounder are performed by two native medical pupils at the North Suburban Hospital is false economy, and that it should be discontinued. The report on the Calcutta Lock-hospitals has been separately dealt with.

15. The acknowledgments of the Lieutenant-Governor are due to Sir J. C. Brown and to Dr. Beatson for the efficient control and supervision exercised by them over the medical institutions of Calcutta and the suburbs during the past year. His Honor also desires to tender his thanks to Drs. Ewart, Cayley, Woodford, and Bird for their unwearied attention and devotion to the duties connected with the several institutions over which they have presided. Dr. Chevers, to whom the thanks of Government have been so frequently communicated for his management of the Medical College Hospital, has now permanently withdrawn from the sphere of usefulness in which he has labored with so much success for so many years, and in which he has gained the esteem and respect of all classes of the community.

R. L. MANGLES,

Offg. Secretary to the Govt. of Bengal.

Dacca Div. 22	Tipperah, „ 7, „	3·92	Weather—The first part of the week was fine, but for the last two days it was very rainy. The prospects of the *aous* crop are excellent, the only fear is of there being too much rain just now, as the crops are ripening.

Chittagong Div. 24	Noakholly, „ 6, „	9·32	Weather—Cool and pleasant. South-easterly winds have prevailed throughout the week. The early rice crops in the high land are going on well, but the low land crops in some parts of the district are reported to have been damaged by submersion. Patna Div. 26	Patna, July 10,* '76	2·57	Weather—Still very hot and oppressive. There has been sufficient rain to allow of the lands being ploughed and sown. Some more rain will soon be wanted. Cholera cases still reported from all parts of the district.
Patna Div. 27	Gya, „ 8, „	2·76	Weather—Highest reading of thermometer was 107°4′ in shade. The rainfall at Aurungabad has been 4·46 inches, which has done considerable good to the crops. At Nowada the rainfall has been 4·86, at Jehanabad 3·32 inches. Rice sowings going on actively; murwa being transplanted, and all agricultural operations being favorably carried on. Cholera still prevalent in different parts of the district.
Patna Div. 28	Shahabad, „ 8, „	1·75	Weather—Cloudy and hot. Rain has benefited sowings. The river Soane came down in a very sudden flood, and was 20 feet 6 inches above zero at Koelwar at 1-30 A.M. In the morning the river was 16 feet and a decimal at Dehri; the highest previous flood on record being a very small fraction above 12 feet. The country enclosed between the canal and railway banks and the river has been inundated, and there has been loss of property. A very few lives also are said to have been lost.
Patna Div. 29	Durbhunga, „ 8, „	1·14	From the south of the district in Tajpore, and south-east of the Sudder sub-division, the prospects continue favorable. In the north of the district, the Mudhoobunnee sub-division, the week's rainfall has been scanty, and agriculture has been somewhat retarded. The central tracts in the neighbourhood of the head-quarters are still in want of rain, and the area sown down is not much greater than it was a week ago. Heavy clouds promise abundant rain, which however does not fall. Prices are stationary and fairly easy. Public health is good.
Patna Div. 30	Muzufferpore, „ 8, „	1·42	Weather—Cloudy. *Bhadoi* crop is doing well, but sufficient rain has not yet fallen to facilitate the transplantation of paddy. Public health is good.

* Telegrams of the 10th July, received on the same day, show rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Contd.*)			
PATNA DIVN.—(*Contd.*) 31	Sarun, July 8, '76	2·05	Weather—Temperature much reduced; now seasonable. The rainfall at Sewan has been 3 31 inches. There was heavy rain at Gopalgunge on the 2nd, and drizzling rain on the 4th instant. The state and prospects of the crops are on the whole good. The late rains, which appear to have been general throughout the district, have benefited the standing crops, and have enabled the cultivators to prepare their lands for the *bhadoe* sowings. The early sowings, which were suffering from drought, have now recovered, and are coming on well. The manufacture of indigo has commenced. Cholera still prevalent. It has, however, been reported to be declining in Gopalgunge. The heavy rainfall of Sunday last (2nd July) could not have been more opportune.
32	Chumparun, „ 7, „	2·19	Weather—Cloudy. Rain threatening, but there has been none for some days. The prospects of the crops are very good.
BHAGULPORE DIVN. 33	Monghyr, „ 8, „	3 64	Weather—Seasonable. The state and prospects of the crops continue to be good
34	Bhagulpore, „ 10,* „	3 01	Weather—Wind either south-east or east. The rainfall at Banka has been 2·4, at Muddehpoora 5 2, and at Soopool 1 30 inches. All officers report on the brightness of prospects at present. *Aghani* rice is being transplanted in many places. The Soopool officer says rain has fallen more abundantly in the north of the sub-division. General health is very good.
35	Purneah, „ 8, „	8 48	Weather—Stormy. The rain appears to have been more heavy in the east than in the west of the district. The prospects of the rice crop are good all over the district; very good in the north. The indigo and the *cheena* crops have been damaged by the heavy rain.
36	Sonthal Perghs. „ 9, „	3·72	Weather—Plenty of rain everywhere. The state and prospects of the crops are very good.
ORISSA.			
ORISSA DIVN. 37	Cuttack, July 1, '76	·29	Weather—Overcast and threatening. Rainfall scanty. Young paddy coming up well. Cholera increasing and spreading.
38	Pooree, „ 6. „	·61	Weather—Occasional showers throughout the district. State and prospects of the crops are favorable. Cholera is prevalent in parts.
39	Balasore, „ 7, „	2·11	Weather—A few showers have fallen, some of them heavy, but insufficient to mitigate the want of potable water, which is making itself felt so severely along the coast. Steady and continued rain is required. Sowings are almost completed The young crop is doing well. The week ending with the 2nd July shews an amelioration in the cholera epidemic in the south of the district. The number of deaths from cholera reported during the period has been 290.
CHOTA NAGPORE.			
	South-Western Frontier Agency.		
40	Hazareebagh, July 7, '76	9·96	Weather—Seasonable. Promising cultivation is now being carried on all over the district. The young crops are looking well.
41	Lohardugga, „ 8, „	3 26	Weather—Seasonable. The state and prospects of the crops in the Sudder sub-division are on the whole satisfactory, but more rain is wanted in some parts. From Palamow rain, which was urgently wanted, has at last been reported. The previous want of rain, it is stated, has somewhat seriously affected the prospects of the *bhadoe* crop. During the week under review some cholera cases still reported. This disease is still prevalent in Palamow, but less than before. Small-pox is same as before.
42	Singbhoom, „ 7, „	·73	Weather—Hardly seasonable. The present is a very critical time for paddy cultivation, and a good deal of rain is necessary to enable the different operations, as *karaning* or second ploughing and transplanting, to be done, and the native idea is that they must be done in the month of *Asar*; but the rainfall has been insufficient for them. This week last year we had 3·77 inches of rain, while this year it is only ·73. The paddy still looks promising, and the indian-corn very much so. Some cases of cholera have been reported during the week.
43	Manbhoom, „ 8, „	1·52	Weather—Sky overcast; but very little rain has fallen during the past week. General condition of crops is good at present. Paddy being transplanted in some places. Indian-corn and other crops promising. Some slight mischief to sugarcane from drought reported from Govindpore sub-division.

* Telegram of the 10th July, received on the same day, shows rainfall during the seven days immediately preceding.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

COMMERCE AND TRADE.

The 4th July 1876.

No. 396.—With reference to the Notification in this Department, No. 388, dated the 4th December 1875, the Governor-General in Council is pleased to direct the publication of the following order issued by Her Majesty the Queen in Council :—

AT THE COURT AT WINDSOR.

The 17th day of May 1876.

Present :

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by the "Merchant Shipping Act Amendment Act, 1862," it is enacted that whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the principal Act have been adopted by the Government of any foreign country, and are in force in that country, it shall be lawful for Her Majesty by order in Council to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificate of registry or other national papers, and thereupon it shall no longer be necessary for such ships to be remeasured in any port or place in Her Majesty's dominions; but such ships shall be deemed to be of the tonnage denoted in their certificates of registry or other papers, in the same manner, to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the certificate of registry of British ships is to be deemed the tonnage of such ships.

And whereas it has been made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships now in force under the "Merchant Shipping Act, 1854," have been adopted by the Royal Norwegian Government, with the exception of a slight difference in the mode of estimating the allowance for engine room, and such rules are now in force in the Kingdom of Norway having come into operation on the 1st day of April 1876, Her Majesty is hereby pleased, by and with the advice of Her Privy Council, to direct as follows :—

1. As regards sailing ships, that merchant sailing ships of the said Kingdom of Norway, the measurement whereof shall, after the said 1st day of April 1876, have been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, shall be deemed to be of the tonnage denoted in such registers and other national papers, in the same manner, and to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the certificate of registry of British sailing ships is deemed to be the tonnage of such ships.

2. As regards steam ships, that merchant ships belonging to the said Kingdom of Norway which are propelled by steam or any other power requiring engine room, the measurement whereof shall, after the said 1st day of April 1876, have been ascertained and denoted in the registers and other national papers of such steam ships, testified by the dates thereof, shall be deemed to be of the tonnage denoted in such registers or other national papers, in the same manner, and to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the certificate of registry of British ships is deemed to be the tonnage of such ships: provided nevertheless, that if the owner or master of any such Norwegian steam ship desires the deduction for engine room in his ships to be estimated under the rules for engine room measurement and deduction applicable to British ships instead of under the Norwegian rule, the engine room shall be measured and the deduction calculated according to the British rules.

NOTIFICATION.—SEPARATE REVENUE.—POST OFFICE.

Simla, the 16th June 1876.

No 1070.—British India having been admitted to the General Postal Union, with effect from the 1st July 1876, the Governor-General in Council is pleased, in exercise of the powers conferred by the Indian Post Office Act, 1866, to direct that, on and after the 1st July 1876, the following postage-duties shall be chargeable on letters and other articles hereinafter specified, sent through the post from any place in British India to any of the countries mentioned in the Schedule hereunto annexed; and that the transmission through the post of the said other articles shall be subject to the following rules and conditions; and to make the following orders and directions:—

Postage duties chargeable upon letters and other articles sent through the post from any part of British India to any country belonging to the General Postal Union.

	Each letter per ½ oz.	PRINTED PAPERS, LEGAL AND COMMERCIAL DOCUMENTS, AND PATTERNS.	
		Each newspaper, per 4 ozs.	Each packet of printed papers, &c., per 2 ozs.
Upon letters sent through the post from any place in British India—	Annas.	Annas.	Annas.
to the United Kingdom and countries belonging to the Union served through the United Kingdom—			
vid Brindisi	6	2	2½
vid Southampton	5	1	1½
to Aden, Malta, and Gibraltar	4	1	1½
to any country belonging to the Union not coming under the foregoing heads	5	1	1½

2. The higher rates thus prescribed for correspondence sent *vid* Brindisi to the United Kingdom and countries served through it result from the conveyance of such mails by special train through Italy and France; and the lower rates of letter postage for Aden, Malta, and Gibralter, are those hitherto in force, which it is not the object of the present arrangement to increase.

3. The annexed Schedule shows in detail the countries coming under the foregoing heads, as well as the routes and other particulars connected with the transmission of correspondence to them.

Printed Papers and Legal and Commercial Documents.

(N B.—Attention is drawn to the limit of weight, viz. 2 lb, fixed for a packet of printed papers or legal and commercial documents *See Schedule.*)

4. Under the head of "Printed Papers" are included newspapers, stitched or bound books, pamphlets, music, visiting cards, catalogues, prospectuses, announcements and notices of various kinds, whether printed, engraved or lithographed and photographs. Under the head of "Legal and Commercial Documents" are included acts or deeds of all kinds drawn up by public functionaries, invoices, policies of insurance, copies or extracts of deeds under private seal, written upon stamped or unstamped paper, scores or sheets of manuscript music, *and in general all manuscript papers and documents which have not the character of an actual and personal correspondence.*

5. Articles posted as "Printed Papers" or as "Legal and Commercial Documents" must be placed under bands or simply folded, so as to admit of the contents being easily examined, and, excepting as follows, "Printed Papers" must contain no manuscript writing, figure, or mark whatever:—

(*a.*) Proofs of printing or of music may bear corrections made with a pen, relating exclusively to the text or to the execution of the work. Manuscript may be annexed to such proofs.

(*b*) Circulars, Notices, &c., may bear the signature of the sender, with his trade or profession, and may also show the place of origin and the date.

(*c.*) A book may contain a manuscript dedication or a complimentary inscription from the author.

(*d.*) Passages in the text to which it is desired to call attention may be marked with a simple stroke.

(*e.*) Prices may be added in manuscript or otherwise on printed or lithographed stock and share lists, prices current, and market reports.

(*f*) No other manuscript additions may be made; nor are typographical additions allowed, if they tend to take from the packet its general character.

6 Articles posted as "Printed Papers" or "Legal and Commercial Documents" which do not fulfil the foregoing conditions, or are not fully prepaid, will be treated as unpaid letters, with the sole exception of newspapers and printed papers, such as circulars, notices, &c., which will, in such cases, not be forwarded.

Patterns of Merchandize.

(*N. B.*—Attention is drawn to the limit of weight, *viz.* 8 ounces, fixed for a packet of patterns *See Schedule.*)

7. Patterns of merchandise are chargeable with the reduced postage under the following conditions:—

(*a*) They must be placed in bags, or in boxes, or envelopes removeable so as to admit of an easy examination of their contents.

(*b.*) They must not have any saleable value, or bear any manuscript writing other than the name or the trade or profession of the sender, the address of the person for whom the packet is intended, a manufacturer's or trade mark, numbers and prices.

8. Patterns of merchandise may not be introduced into a letter, or into a packet of any other kind, unless they form an integral part of a particular work.

9. Patterns not packed in accordance with these conditions, or not fully prepaid, will be treated as unpaid letters, except those which are valuable. The latter will not be forwarded, nor any of which the conveyance would be attended with risk or danger.

Money, Jewels, &c., and articles liable to customs duty.

10. No letter or packet containing gold or silver money, jewels, or precious articles, or any article liable to customs duty may be sent through the post under this Notification.

Correspondence received from countries belonging to the Union.

11. Although post cards are not among the classes of correspondence, for the transmission of which by post from India provision has been made, those received from other countries of the Union will be delivered in India as paid letters.

12. Letters received from any country of the Union as unpaid or insufficiently paid will be charged, on delivery, at the rate which would be chargeable on a letter posted in India for that country by the same route, together with an additional rate of two and a half annas per half ounce. The value of any stamps (as marked by the country of origin) which may be affixed to an insufficiently paid letter will be deducted from the amount thus chargeable, fractions of an anna in the remainder being raised to one anna.

13. No additional postage will henceforth be charged for the redirection of letters or other articles sent through the post from any foreign country, whether belonging to the General Postal Union or not, to any place in British India.

3. If it shall appear to the Lieutenant-Governor that a serious dispute exists in any tract of country as to any question in respect of the adjustment of rents, or as to arrears of rents,

Lieutenant-Governor may declare provisions of Act to be in force in any tract of country.

and if application shall be made to the Lieutenant-Governor by any person interested in such dispute praying that the Lieutenant-Governor do take action under the powers vested in him by this Act,

the Lieutenant-Governor may, by an order to be published in the *Calcutta Gazette*, declare the provisions of this Act to be in force in such tract, the boundaries of which shall be defined in the said order,

and may direct that inquiry be made for the determination of such dispute by the Collector of the district, or by such other officer as the Lieutenant-Governor may think fit to appoint in that behalf.

A copy of such order shall be published by being posted up at the court of every Judge and Munsif, and at the office of every Collector and Sub-Divisional Officer within whose jurisdiction, and at every police station within the jurisdiction of which, the said tract or any part of it is situated, and in such one or more conspicuous places in the said tract as the Collector may direct.

From the date of the publication of the copy of such order in the office of the Collector of the district, this Act shall be deemed to be in force in such tract until the Lieutenant-Governor shall by notification declare that it is no longer there in force.

Lieutenant-Governor may vest officer with powers of a Deputy Collector.

4. The Lieutenant-Governor may specially vest any officer with the powers of a Deputy Collector under this Act; and any officer so vested may exercise any of the powers, and discharge any of the functions of the Collector under this Act (except in respect of appeals) which he may be required to exercise or to discharge by a general or special order of the Collector.

Lieutenant-Governor to specify matters for inquiry.

5. Whenever the Lieutenant-Governor shall have made an order under section three, the Lieutenant-Governor shall also issue instructions specifying any matters of fact into which the Collector shall inquire, in accordance with the provisions of the said section; and on receipt of such instructions the Collector shall proceed to make the inquiry in accordance therewith.

Collector may allow parties to come before him and make objections

6. Before proceeding to make such inquiry, the Collector shall publish a notification in the manner provided by clause five of section three, stating the nature of the inquiry to be made, and calling upon all parties who may deem themselves interested therein to appear before him, either in person or by agent, for the purpose of making such representations and advancing such objections as to them may seem fit; and such representations and objections (if any) shall be duly heard and considered by the Collector.

Power to Collector to enforce attendance of witnesses.

7. For the purpose of such inquiry, the Collector shall have power to summon and enforce the attendance of parties and witnesses, to examine such parties and witnesses, and to compel the production of documents by the same means (as far as may be) and in the same manner as is provided in the case of a court under the Code of Civil Procedure.

Collector to draw up report, and to allow persons to take copies of the same.

8. After making the necessary inquiry, the Collector shall draw up a report stating the result of the inquiry, and his own opinion on each of the matters specified for inquiry under section five, and shall publish a notice in his office stating that any person may take a copy of the said report for the purpose of advancing before the Commissioner any objections thereto which he may think fit, and that such objections must be filed in the office of the Commissioner, or in the office of the Collector for transmission to the Commissioner, within fifteen days of the publication of the said notice.

Collector and Commissioner to report result of inquiry to Board

9. The Collector shall forward such report and copies of any objections which may be filed in his office under the last preceding section to the Commissioner, and the Commissioner, after considering such objections, and causing any further inquiry to be made which he may think fit, shall submit the report of the Collector, with copies of the objections made thereto, and with his own opinion on each of the matters specified for inquiry under section five, to the Board.

Board to issue instructions to Collector.

10. After considering the reports and objections submitted by the Commissioner under the last preceding section, the Board shall issue such instructions as to it shall seem fit, not being inconsistent with the provisions of this Act, in respect to the determination of each of the matters specified for inquiry under section five, and the Collector shall make an order determining each of the said matters in accordance with such instructions of the Board.

Suits to be transferred to Collector.

11. On receipt of such instructions the Collector shall publish at his office, a notice of such receipt and from the date of the publication of such notice, and as long as this Act is in force in the tract mentioned in section three, all suits of the nature of those specified in section 23 of Act X of 1859, relating to such tract, shall be instituted before, and, except as hereinafter otherwise expressly provided, be cognizable by, the Collector and by no other tribunal.

Collector to send copy of notice to Courts.

12. As soon as possible after publication of the notice mentioned in the last preceding section, the Collector shall send a copy thereof to every Court which had jurisdiction to entertain such suits immediately before the publication of the said notice.

Procedure in suits.

13. In the disposal of such suits the Collector shall, as far as possible, follow the procedure prescribed in Act X of 1859, and all powers exercised by a Collector under the said Act may be exercised by the Collector under this Act, provided that all such suits shall be decided by a reference to, and in accordance with, any order of the Collector determining a matter under section ten, in so far as such order may be applicable.

Power to refer to arbitration

14. The Collector may, with the consent of the parties concerned, refer any such suit to arbitration, and the provisions of sections 313 to 325 (both inclusive) of the aforesaid Act VIII of 1859 shall, as far as may be practicable, apply to such references.

Rules for determining rate of rent.

15. Whenever in any suit instituted under the provisions of this Act it shall appear to the Collector that a ryot having a right of occupancy is liable to enhancement of the rent previously paid by him on the ground that the value of the produce or the productive powers of the land held by him have been increased otherwise than by the agency or at the expense of the ryot;

or whenever in any such suit it shall appear to the Collector that such ryot is entitled to claim an abatement of the rent previously paid by him on the ground that the value of the produce or the productive powers of the land held by him have been decreased by any cause beyond the powers of the said ryot,

the Collector shall, if possible, fix the rate of rent payable by such ryot, so that the rent previously paid by such ryot shall bear to the rent so fixed the same proportion as the former value of the produce of the soil, calculated on an average of three or five years next before the

date of the alleged rise or decrease in value, bears to the present value of such produce;

but if in any such suit the Collector shall not be able to ascertain to his satisfaction the former value of the produce as required for the application of the above rule,

the Collector may, if he think proper so to do, determine the rate of rent payable by such ryot according to any of the following methods:—

(*a*) by fixing the rent of the ryot so that it shall represent such portion of the existing average gross value of the produce of the land held by him as the Collector shall consider fair and equitable with reference to the circumstances of each case;

(*b*) by fixing the rent of the ryot so that it shall represent such portion of the average net profits of the land held by him (after deducting from the average gross annual value of the produce of such land such a sum as may be deemed proper on account of costs of production and disposal of such produce) as the Collector shall consider fair and equitable with reference to the circumstances of each case;

(*c*) by taking as the standard of comparison the rates which are generally paid in adjacent places by ryots having no right of occupancy, or in such places as the Collector may select, for lands of a similar description and having similar advantages; and by fixing the rates of rent to be paid by the ryot having a right of occupancy at such percentage below the rent which would be paid for the same lands by ryots having no right of occupancy as the Collector may consider fair and equitable with reference to the circumstances of each case.

Suit may be brought by or against any number of ryots collectively.

16. In every suit under this Act of the nature of those specified in the first, second, third, and fourth clauses of section 23 of Act X of 1859, any number of ryots or other tenants may be sued, or may sue collectively, and it shall be no ground for dismissing or refusing to hear the application that such ryots or other tenants are wrongly joined as plaintiffs or defendants, provided all such ryots or tenants hold land in the same estate;

but no order shall be passed in such case unless the officer making such order is satisfied that all parties have had an opportunity to appear and make objection to any claims preferred against them;

and if at any time it shall appear to the Collector that the question between any two of the parties of whom one is so joined with others cannot conveniently be so jointly tried, the Collector may order a separate trial to be held.

Order to specify how far it applies to each ryot.

17. Every order passed in any such case as is mentioned in the first clause of the last preceding section, shall specify the extent to which each of the ryots or other tenants named in the order shall be affected thereby.

Rate of rent once fixed under Act, to be fixed for five years.

18. Every decree of a Collector under this Act in any suit of the nature of those specified in the first clause of section 23 of Act X of 1859 shall have effect, and the rates of rent determined by such decree shall be payable from the beginning of the year in which such suit was instituted (such year being computed according to the era in force in the aforesaid tract), or from such later date as the Collector may fix; and the rates of rent so determined shall not be liable to abatement or enhancement for five years from the first day of the year in which the decree may have effect as provided in this section, or, in case any part of the tract is comprised within a temporarily-settled estate, until the conclusion of the period of the settlement with Government under which such estate is held, if such period expires before the lapse of five years as aforesaid.

Provided that, during the currency of the term for which the rent has been fixed as aforesaid, any person may bring a suit to enhance the rent of any ryot or tenant whose rent has been so fixed, on the ground that the area of the ryot's or tenant's holding has been increased by alluvion or otherwise, and on no other ground.

And any ryot or tenant may, during the said period, bring a suit for abatement of his rent which has been so fixed, on the ground that the area of the land held by him has been diminished by diluvion or otherwise, and on no other ground.

Collector may refer suit to Civil Court.

19. Notwithstanding anything contained in this Act, if it shall appear to the Collector that any suit which is pending before him involves any question relating to the title of land or to some interest in land, as between parties having conflicting claims thereto, or any other question which can more properly be decided by a civil court, or, in districts in which Act X of 1859 is in force, by a revenue court under that Act, the Collector may transfer such suit to a civil court or revenue court (according to whether such civil court or such revenue court would have had jurisdiction in the matter if this Act had not been passed); and such court shall thereupon proceed to deal with the suit as if this Act had not been passed, and as if the suit had originally been instituted before such court.

Collector may decide question before transferring suit to civil court.

20. Extract from the Proceedings of the Government of Bombay, No. 110, dated 9th January 1875.
From Acting Chief Secretary to the Government of Bombay, No. 3330, dated 6th June 1876.

2. We think that the proposed Act should come into force throughout British India on 1st January 1877.

3. Act No. VII of 1836 declared that the legality of acts done under the two Bombay Regulations which the Bill proposes to repeal, should not be questioned in any Court of law. That Act was repealed by Act VIII of 1868, but not so as to restore the jurisdiction thus withdrawn. We have endeavoured to maintain the present state of affairs by declaring that the reference made in Act No. VII of 1836 to those Regulations shall be read as if made to the corresponding provisions of the Bill.

4. We have defined "opium" so as to include poppy-heads and all intoxicating drugs prepared from the poppy, and "Magistrate" so as to confine criminal jurisdiction under the proposed Act to Presidency Magistrates and (in the Mofussil) Magistrates of the first class.

5. We have repealed and consolidated all extant enactments relating to opium, except the local and departmental rules contained in sections 8 to 31 of Act XIII of 1857. The Bill, accordingly, now not merely authorizes the Local Government to make rules as to poppy-cultivation and the possession, transport, and sale of opium; it also provides rules as to the import, export, and warehousing of opium; and it empowers the Local Government, with the previous sanction of the Governor-General in Council, to prohibit or permit poppy-cultivation and the manufacture, possession, transport, import, export, or sale of opium, to make rules as to the manufacture, import, or export of opium, as to its safe custody and removal when warehoused, as to the disposal of things confiscated under the proposed Act, and as to rewards to officers and informers.

6. The penalties incurred for contravening the proposed Act, or any rule made thereunder are a year's imprisonment, fine for Rs. 1,000, or both; and where a fine is imposed, we have required (in accordance with Bombay Regulation XXI of 1827, section 7) the convicting Magistrate to direct the offender to be imprisoned in default of payment for a term which may extend to six months.

7. We have extended the power of confiscation to the whole of the opium which an offender, against the rules as to transport, import, or export, is transporting, importing, or exporting, as the case may be; and, when the offence is against the rules as to sale, to the whole of the opium in the offender's possession.

8. We have declared that, in prosecutions under the proposed Act, all opium for which the accused is unable satisfactorily to account shall be presumed to be opium in respect of which an offence has been committed.

9. When an offender against the Act is not known, or cannot be found, or when poppies or opium not in the possession of any person cannot be satisfactorily accounted for, we have provided for an enquiry and confiscation by the Collector of the district, or other proper officer.

10. We have empowered any duly authorized officer of any of the departments of Excise, Police, Customs, Salt, Opium, or Revenue, superior in rank to a peon or constable, on receiving written information that opium is unlawfully kept in an enclosed place, to enter, seize and arrest; and we have empowered any officer of any of those departments to seize opium carried in an open place which he has reason to believe liable to confiscation, and to arrest the person carrying it. We have required these officers to assist each other.

11. We have provided for the issue of warrants for arrest or search, and for the disposal of persons arrested and things seized.

12. We have provided a penalty for vexatious searches, seizures, and arrests under the proposed Act, and we think that every officer making an arrest or seizure should within forty-eight hours report the particulars to his official superior.

13. We have also provided, in places where Act XIII of 1857 is not in force, for the attachment of a poppy-crop alleged to be illegally cultivated.

14. Lastly, we have declared that arrears of taxes, &c., due under the proposed Act or rules, and arrears due from farmers of opium-revenue, may be recovered as if they were arrears of land revenue.

15. The publication ordered by the Council has taken place; but the Bill has been so much altered that we think that it should be republished, with this report, in the *Gazette of India* and in the local Gazettes.

CODIFYING THE LAND REVENUE LAW OF BENGAL.

Minute by the Lieutenant-Governor of Bengal, dated the 5th July 1876.

THE question of consolidating the Bengal Land Revenue Regulations into one Code was brought to my notice in 1874. At that time, however, it was thought that other legislative projects should be first disposed of. These having been disposed of, and considering that many obsolete enactments have been repealed, and that some particular parts of our land revenue laws have been recently reconsidered and determined, I believe that the task of consolidating the remainder is becoming practicable, with a reasonable amount of care and labour and within a reasonable length of time, and that it ought to be undertaken accordingly. There are now about fifty-six enactments in which our land revenue law is comprised. The above number of enactments is not so great as to indicate any extreme difficulty in codification. On the other hand, it is great enough to show the disadvantage of having our land revenue law scattered in so many different places: thus the importance, both to our officers and to the people, of codifying the land revenue law is manifest.

3. With this view I asked the Hon'ble F. R. Cockerell (now a Legislative Member of the Council of the Governor-General), whose knowledge of this subject is unsurpassed, to oblige me with suggestions. Mr. Cockerell has been

good enough to prepare a learned and valuable memorandum, which is hereto appended. He would divide the subject into six parts thus—

I.—Constitution of the revenue courts and offices.
II.—Settlement of the land revenue.
III.—Partition of joint undivided estates.
IV.—Recovery of arrears of revenue.
V.—Court of Wards.
VI.—Miscellaneous.

I concur generally in this arrangement of subjects, and I desire that a draft be prepared of a code, with the matter arranged under the headings above specified. I trust that a commencement will be immediately made. Doubtless, as the work proceeds, some amendments in detail will suggest themselves. The preparation of the draft will, in the first instance, devolve on the Secretary to the Bengal Legislative Council, Mr. F. Clarke. He will be placed in communication, for this purpose, with the Hon'ble H. Reynolds, who is Officiating Secretary to the Government of Bengal on the Revenue side, and also a Member of the Legislative Council.

RICHARD TEMPLE.

MEMORANDUM ON THE CONSOLIDATION OF THE BENGAL REVENUE REGULATIONS.

I would recommend that the new Revenue Code be divided into six "Parts" or "Chapters," thus—

1st Part—"Constitution of the Revenue Courts and Offices."

This would comprise—

1. The Board of Revenue.
2. Commissioners of Revenue.
3. Collectors.
4. Assistant and Deputy Collectors.
5. Commissioner in the Sunderbuns.
6. Kanungos (in Orissa).
7. Sub-Deputy Collectors and new Kanungos.
8. Putwaries or village accountants.

Next to the constitution of Revenue Courts and Offices, in the natural order of things, comes the settlement of the land revenue.

I propose therefore that this should form the subject of "Part II" or "Chapter II," and it should comprise "special" arrangements, which are fixed by existing enactments, such as the settlement of Orissa, of the ghatwali tenures in Beerbhoom, certain resumed "jagheer" and "kanungo chuckran" lands, and the like. The general principles of settlement as laid down in Regulations VII of 1822, IX of 1825, and IX of 1833; also the registration of estates, which is in fact the record of past settlements.

Then should follow, as "Part III" or "Chapter III," 'the partition of estates' I believe that a measure for the revision and consolidation of the law on this subject is now under the consideration of the Bengal Council, and if so, all that need be done is to incorporate that measure as matured with the Code in this chapter.

The final process, in the natural order of land revenue administration, is that for the recovery of arrears. I would bring this operation into "Part IV" or "Chapter IV," dividing it into separate heads or sections thus:—The first section should comprise measures to compel the payment of Government revenue by the person directly responsible therefor; and under the second section I would bring the substance of existing enactments in aid of the "sudder malgoozar," to enable him to exact prompt payments from under-tenure-holders, and *thus be* in a position to meet his own engagements with the Government.

The existing enactments of this class are Regulations VIII of 1819 and I of 1820, as well as the Bengal Council's Act VIII of 1865. I have devoted these two sections or divisions (showing which of existing enactments fall under either) by the marks (*a*) and (*b*) in the separate lists.

Outside of the "land revenue operations ordinary" comes the administration of certain revenue-paying estates by the "Court of Wards." The law on this subject in Lower Bengal is now contained exclusively, so far as enactments by the Legislature is concerned, in the Bengal Act (IV of 1870). I propose to bring this into the Code as "Part V" or "Chapter V."

There remain only very few Regulations and Acts, or portions thereof, on miscellaneous subjects, which would not conveniently fall within any of the preceding divisions. These I would bring into "Part VI" or "Chapter VI." There may be many other miscellaneous provisions of an executive character which are now to be found in circular orders of the Board of Revenue, and which it would be well to bring into the Code under this division.

Several circular orders by the same authority may be suitable for incorporation in other chapters. I have not attempted any classification or citation of those in my list, and in the absence of proper books of reference, I could not hope to produce anything like an exhaustive enumeration of them.

What I would urge generally in regard to these rules is that they should not be brought into the Code, unless they have attained, by long acceptance and operation without change, a certain degree of fixity and permanency, such as would make it desirable to give them all the weight of a positive enactment.

RESOLUTION ON THE EDUCATION OF THE POORER CLASSES OF EUROPEANS AND EAST INDIANS.

GENERAL DEPARTMENT—EDUCATION—No. 1959.

Calcutta, the 17th June 1876.

READ—

The Minute by the Lieutenant-Governor of Bengal, dated the 25th February 1875, on the education of the poorer classes of Europeans and East Indians in the town of Calcutta.

A letter from the Director of Public Instruction, No. 3308, dated the 21st June 1876, reporting the measures taken to give effect to the instructions of the Minute.

IN a Resolution recently issued, the Lieutenant-Governor has reviewed the results attained under his Minute of the 18th May 1875, for assisting European education in the interior of the provinces under the Government of Bengal. It remains to complete this review by recapitulation of what has been effected under the previous Minute of the 25th February 1875 for aiding the education of Europeans and East Indians in Calcutta, and what measures still require to be taken in order that the objects indicated in the Minute may be fully carried out.

2. A statement furnished by the Commissioner of Police, the figures of which were reproduced in the Minute, showed that the whole number of European and East Indian children in Calcutta, belonging to families with monthly incomes of Rs. 300 and under, was 5,327: and that of these, 2,549 were at school, and 1,503 were too young for school, leaving 1,275 not at school, who ought to be there. In other words, one child out of every three children of a school-going age might be said to be growing up in ignorance.

It was Sir Stuart Hogg's opinion that the great bulk of the children thus neglected belong to the humblest and poorest families; and this view is fully corroborated by the result of the enquiries subsequently made by Mr. Garrett, the Inspector of Schools.

3. The Minute contemplated the allowance of additional grants-in-aid, under the conditions of the existing rules, to the public bodies and private societies interested in education; the schools thus aided being in all cases open to inspection by the officers of Government. It was not proposed to insist upon the plan of payment by results; but the introduction of this system was noticed as desirable, so far as the circumstances of the several institutions might admit of it. Attention was directed to the affording of assistance for the construction of school-houses, and to the establishment of training-schools for masters and mistresses. Finally, it was remarked that corresponding aid should be afforded to primary schools intended for the poorer classes of natives in the town, in the same way as pathsalas and village schools are assisted in the surrounding districts.

4. The grants which have been made under the provisions of the Minute may be summarized as follows:—

St. Joseph's School
The Catholic Orphanage.
St. Chrysostom's School.
Mrs Hannah's School.

Four schools, three of them for boys and one for girls, which were previously in existence, but were not in receipt of Government aid, have received grants amounting to Rs. 520 per month.

St. Paul's Mission School.
Lower English School, Sooterkin's Lane.
St. Saviour's School, Wellesley Street.

Three new schools, all of which are mixed schools for boys and girls, have been established, and have been aided by grants amounting to Rs. 155 per month. The school in Sooterkin's Lane has also received Rs. 5,000 as a building grant, and a grant of Rs. 250 has been made to the St. Saviour's School for furniture.

St Stephen's, Hastings.
Loretto Day School

Two schools, one of which is a mixed school for boys and girls, and the other is a girls' school, have had additions, amounting to Rs. 76 per month, made to the grants they previously enjoyed. The former grants amounted to Rs. 174: the present amount of the grants is Rs. 250.

The total amount of the grants made to these nine schools under the Minute is Rs. 751 per month, besides the two special grants noticed above.

Of the nine schools referred to, four are under the charge of the clergy of the Roman Catholic Church, and four are administered by the clergy of the Church of England. Mrs. Hannah's School was primarily intended for the poor Jewish and Parsee children in Ezra Street and the neighbourhood: but as it was found to be attended by an increasing number of European children of the poorer classes, it was considered to come within the scope of the Minute.

In the above nine schools, the number of children has increased from 968 at the close of 1874-75 to 1,236 at the close of 1875-76, showing an increase of 268 children at school.

Twenty-four pathsalas for native children have also been subsidized with small grants, amounting to Rs. 51 per month.

5. It will not be out of place to notice here other educational assistance which has been given in Calcutta, since the publication of the Minute, to institutions attended by European and East Indian pupils, but not intended exclusively for the education of the *poorer* classes.

The grant to the Doveton College has been raised from Rs. 150 to Rs. 250 per month.

A special grant of Rs. 2,000 has been made to the St. Xavier's College.

A grant of Rs. 10,000 has been made to the St. James' School for boys, formerly known as the Calcutta Boys' School.

A grant of Rs. 50,000 has been made to the Pratt Memorial School for girls, and the site of the school has been given by Government.

6. The above figures appear to the Lieutenant-Governor to show that the Government of Bengal has amply redeemed the pledge given in the Minute, that every reasonable facility should be offered to the poorer families of Europeans and East Indians, through their religious pastors and the associations interested in education, to send their children to school. It is the opinion

of the best informed authorities on the subject that there is now no want of schools, or of school accommodation, for these classes, if the parents would only avail themselves of the opportunities given them for educating their children.

7. This being the case, the Lieutenant-Governor must confess to a feeling of disappointment that the liberal assistance afforded by Government has thus far produced such insufficient results as those recorded above. Even supposing that the increase of 268 children represents a clear addition of that number to those previously at school, it would still follow that at least one thousand children are growing up uneducated in Calcutta, and Sir Richard Temple is compelled to regard this not only as unsatisfactory, but as affording cause for some anxiety. He would again beg to draw most earnestly the attention of all religious and charitable associations to the facts now disclosed. The following passage from his Minute of the 25th February 1875 bears upon this aspect of the question :—

"If, despite our efforts, some children, through default of their parents, shall still remain absent from school, we can reckon that the pastors of the religious community to which the children belong will feel additional responsibility for such absence. By giving grants-in-aid upon their application, Government signifies its reliance upon the pastors to do all that is possible to ensure attendance, and they probably will be willing to accept the responsibility."

8. The Lieutenant-Governor desires to repeat that he is willing to continue to give assistance upon the principles already announced, but that he sees no reason to depart from those principles. It is to be feared that among the poorer sections of the European and East Indian community there must be many parents who are either unable or unwilling to send their children to school. But though the Lieutenant-Governor would gladly see such parents showing more readiness to avail themselves of the opportunities offered to them, he is not prepared to concede any modification of the system upon which State assistance is given at present. The best authorities on the question continue to be quite opposed to the giving, even to the poorest classes, of an education entirely gratuitous. Therefore, although the Government is willing, and indeed anxious, to afford help, it is not desired that any expectation should arise among poor parents that their children will ever be educated gratuitously at the cost of the State. Whether the circumstances of any part of Bengal are such as to make the introduction of a compulsory education law advisable, is a question which the Lieutenant-Governor has not yet felt himself required to consider. But it is impossible for the Government to view without serious concern so considerable a proportion of children of European parentage growing up in ignorance, and the Lieutenant-Governor fully recognizes that it is a matter of public policy to find a remedy for this evil.

9. Under these circumstances, the Lieutenant-Governor desires to take the opportunity of this Resolution to make a further appeal to the zeal and philanthropy of the several denominations of Christian ministers and the various associations which are interested in the education of the poor. It is his intention shortly to take steps for again verifying the number of children who are, and who are not, at school. But the Government can in this matter do little more than ascertain the facts of the case, and supplement private efforts by the aid of pecuniary grants. The co-operation of the clergy and of the societies is necessary to ensure that full advantage is taken of the assistance thus given, and the Lieutenant-Governor has every confidence that their influence will be readily and strenuously exerted.

10. The Inspector of Schools, Mr. Garrett, remarks in his report that it is impracticable to introduce in these schools a system of payment by results, because there is nothing like an uniform standard or test. The Lieutenant-Governor has already said that he does not desire to insist upon the introduction of this principle. But he is inclined to think that it would be possible to regulate the grants more generally on the capitation system than appears to be done at present. It may be conceded that payment according to numbers, without reference to the standard reached, is not a complete system of payment by results, but it is at least some approach to it; and without laying down any hard-and-fast line, the Lieutenant-Governor would say generally that it would be his wish that the amount of Government assistance should ordinarily be proportioned to the number of pupils attending the school.

11. With regard to the training of teachers, the Inspector is of opinion that the Free School and the association known as the Society of Christian Brothers are able to supply all the Protestant and Roman Catholic Schools with teachers without further assistance from Government. The Lieutenant-Governor will, however, be prepared to afford such assistance, if it should prove to be required.

12. The Lieutenant-Governor observes with much satisfaction the number of pathsalas which have been opened for the education of poor native children in Calcutta.

13. The thanks of Government are due to the Inspector, Mr. Garrett, for his complete and interesting report.

By order of the Lieutenant-Governor of Bengal,

H. J. REYNOLDS,

Offg. Secy. to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE CALCUTTA PORT COMMISSIONERS FOR THE YEAR 1875-76.

THE financial position of the Calcutta Port Trust, from the date of its establishment up to the 31st March 1876, shows a grand total expended on new works of Rs. 62,25,546. To meet this expenditure, the Commissioners have received Rs. 46,93,684 from time to time as loans from Government, and have met the difference, or Rs. 15,02,468, from surplus revenue. The total profit received from the jetties and inland vessels' wharves has amounted to Rs. 18,76,957; of this amount Rs. 17,73,999 has been expended on the construction of new works and on the repayment of Government loans, and the remainder, amounting to Rs. 1,02,958, is held as a cash balance and as provision for a reserve fund.

2. The principal works in progress during the year are recited by the Commissioners as follows—pitching slope along the whole length of jetty enclosure in front of the export sheds, water-supply, including tank-house for watering roads and cleaning slope, extension of new river-side road from Aheereetollah Ghât to northern boundary of the port, with jetty and floating stage; tramway to connect the jetties and inland vessels' wharves with the Eastern Bengal Railway; new workshop; landing stage at Chandpal Ghât; new Burning Ghât at Neemtollah; Port Commissioners' office building, and 30-ton crane. A good commencement has been made of the new building, but the 30-ton crane, it is stated, has not yet been placed in position. The Lieutenant-Governor is glad to see it stated that the dredging operations continue to be successfully carried on, and that there was a depth of water at all the jetties, so that they were kept available for vessels throughout the year.

3. The income and expenditure of the jetties have been as follows:—

	Income.	Expenditure.
	Rs.	Rs.
1871-72	3,63,706	2,04,778
1872-73	4,09,440	2,43,911
1873-74	4,21,774	2,68,413
1874-75	4,82,983	3,39,997
1875-76	5,44,350	3,70,758

This statement shows very satisfactory progress. The question of night-work at the jetties was brought forward during the year, and received a considerable amount of the time and attention of the Commissioners. It was finally decided that night-work should be allowed whenever shed accommodation and the necessary establishments were available, and night-work

has constantly been resorted to by vessels in order to obtain quicker despatch than day work alone would secure. By working at night, vessels of between three and four thousand tons burden have lately discharged and loaded at the jetties in six days.

4. The income and expenditure of the inland vessels' wharves are as follows:—

	Income	Expenditure
	Rs.	Rs.
1871-72	1,98,456	46,013
1872-73	2,01,834	68,381
1873-74	2,16,755	65,646
1874-75	2,47,730	94,440
1875-76	3,00,727	1,50,163

The increase in receipts is entirely due to the tolls collected at the new wharves north of Aheereetollah Ghât. The largest income was derived from the following articles:—

	1874-75	1875-76
	Rs.	Rs.
Grains	39,411	63,008
Seeds, &c.	34,304	55,920
Jute, &c.	37,589	50,541
Building materials	12,684	14,537

The increase under all the principal items of traffic is satisfactory. An enormous quantity of traffic is consigned to these wharves. Since September last, the Commissioners have assisted Government in the registration of the inland boat-traffic, by collecting all the tickets from boats arriving at the wharves and noting all boats coming without tickets. It was soon observed that a large number of boats came to the wharves from places below Hooghly (the lowest registering station on the Ganges) and were therefore not registered at all; and the Commissioners were asked to assist still further in this matter by undertaking the registration of all boats arriving at their wharves without a registration ticket. The Lieutenant-Governor takes this opportunity of conveying his acknowledgments to the Port Commissioners for the efficient way in which this work has been carried out.

5. The income of the Harbour Department amounted in the past year to Rs. 4,30,551, the expenditure to Rs. 4,25,698. The number of sailing vessels entering the port of Calcutta, which has been steadily decreasing since the year 1870-71 up to 1874-75, shows this year an increase, 508 sailing vessels having entered the port during 1875-76 against 473 in 1874-75; the average tonnage at the same time being 1,083 as compared with 1,037 in the previous year. The number of steamers is 406 in the past year against 454 in 1874-75 and 429 in 1873-74. The exceptional number of the two previous years is attributable to the large number of steamers arriving from Burmah with rice for famine relief purposes. But the Lieutenant-Governor observes from the following statement that the number of Suez Canal steamers entering and leaving the port is steadily increasing:—

Years	Arrivals.			Departures.		
	Number.	Gross tonnage.	Average tonnage	Number	Gross tonnage	Average tonnage.
1870-71	51	79,874	1,598	45	68,469	1,521
1871-72	87	156,583	1,709	78	144,924	1,858
1872-73	95	188,509	1,984	69	141,981	2,056
1873-74	118	266,960	2,262	96	221,693	2,309
1874-75	105	270,799	2,579	113	285,203	2,524
1875-76	145	360,586	2,486	130	335,670	2,582

6. Year by year there has been a steady increase in the number of Suez Canal steamers, but the increase in 1875-76, amounting to 40 steamers of nearly 90,000 tons burden, has been greater than in any preceding year.

7. A brief account is given in the Commissioners' report of the collisions and accidents to shipping that have occurred within the limits of the port jurisdiction. The only considerable one of these is the accident which led to the total wreck of the ship *British Viceroy* while hauling into moorings on the 30th August 1875. The accident in this case occurred in consequence of disobedience of the Port Rules and unskilful handling of the vessel, and the Assistant Harbour Master in charge was dismissed the Commissioners' service by order of Government.

8. The services of the newly appointed Health Officer of the Port are fully recognised by Government. This officer has brought to notice the need of a pure water-supply for the shipping in the port, and it is hoped that the Port Commissioners, in communication with the Municipality, will be able to make arrangements for meeting this want. The question is still under the consideration of Government with reference to the monopoly of supply which the Port Commissioners apparently desire.

9. The Port Commissioners completed a resurvey of the port in 1874-75, and it was then proposed that a similar survey should be made of the navigable channels and the river banks between the lower boundary of the port and the Sandheads. This proposition has been referred by the Government of India for the consideration and report of a special committee. In connection with this matter, the question of the deterioration of the moorings between Prinsep's Ghât and Tolly's Nullah, which has occasioned some anxiety to Government, will also be disposed of.

10. The disbursements on account of the Hooghly Bridge during the year have been Rs. 1,72,458-5-0, the receipts have been Rs. 3,71,628-7-6. The details of management have been well administered by the Commissioners. It was desired by the Agents of the Inland Steam River Companies that the bridge should be opened more than twice a week for the passage of vessels up and down; but the Commissioners came to the conclusion that it would be inconvenient to the general public to allow more frequent openings for the passage of vessels. The Commissioners are about to purchase a ferry steamer on their own account for crossing passengers at such times as traffic over the bridge is interrupted. The Commissioners have also been in communication with Government upon the subject of providing a tug steamer for the purpose of towing vessels through the bridge opening.

11. The Lieutenant-Governor has again the pleasure of recording his satisfaction with the successful administration of the Port Trust during the year.

By order of the Lieutenant-Governor of Bengal,

Junior Secy. to the Govt. of Bengal.

RESOLUTION ON THE REPORT OF THE CALCUTTA COURT OF SMALL CAUSES FOR THE YEAR 1875-76.

JUDICIAL.

Calcutta, the 17th July 1876.

READ—

Report of the Calcutta Court of Small Causes for 1875-76.

Read again—

Report of the Calcutta Court of Small Causes for 1874-75, and the Government Resolution thereon.

WITH regard to the remarks recorded in the Resolution of last year, in reference to the brevity of the report submitted by the Judges of the Calcutta Court of Small Causes, the Lieutenant-Governor is disappointed in having again to notice that the Judges have offered but few observations on the results shown in the figured statements which exhibit the work performed by the Court during the past year. These statements present some points of general and public importance which the Judges alone can properly elucidate; yet no critical examination of the figures has been attempted. The Lieutenant-Governor trusts that in their next report the Judges will review and explain such fluctuations in the various details as the litigation of the current year may exhibit.

Meanwhile, he requests that a special report may be made on the several points which have been noted below.

2. The Judges have again, during the past year, submitted their views on the subject of the amendment and revision of the Act which at present governs the operations of the Court. That Act, which was subsequently enlarged by Act XXVI of 1864, has now been in force for 26 years, and the Government has from time to time had the advantage of receiving various suggestions for its improvement from those who have been especially interested in watching its operation. The Lieutenant-Governor will not now enter upon a discussion of the various proposals which have been made. The question of codifying and amending the existing law has been again referred to the Government of India, and will shortly engage the attention of the Imperial Legislature.

3. It was observed in the Resolution on the results shewn in the report for 1874-75 that the number of cases instituted in that year had exceeded those of the previous year, while the amount in litigation had decreased. The reverse of this has happened in 1875-76, the number of cases having fallen off, concurrently with an increase in the amount at issue. The following statement shows the number of cases instituted, together with the value of the property in litigation, during each of the last five years:—

	Cases instituted.	Amount in dispute
		Rs.
1871-72	31,536	15,28,938
1872-73	34,843	16,23,110
1873-74	34,583	16,11,535
1874-75	34,983	15,70,142
1875-76	34,502	15,82,873

No explanation has been offered by the Judges of the decrease in litigation, the number of suits instituted being less than during any of the three previous years. Although the Court was open for 266 days during the year, as against 260 days in the previous year, it may be presumed that the falling off is attributable in some measure to the interruption of business which was caused by the closing of the courts during the last days of the year in honor of the visit of His Royal Highness the Prince of Wales. The number of cases instituted by Europeans exhibits a falling off of nine only. The decrease in those brought by natives, viz. 472, is, however, very marked, as being out of all proportion to the above, and is a point on which the Lieutenant-Governor would have wished for some explanation.

4. The following table exhibits the number of suits instituted in each of the last three years, classed according to the value of the claims made:—

Value of suits.	1873-74.	1874-75.	1875-76.
	Rs.	Rs.	Rs.
Under Rs. 50	28,584	29,063	28,711
Ditto „ 100	2,703	2,693	2,577
Ditto „ 500	2,789	2,718	2,671
Ditto „ 1,000	480	473	502
Above „ 1,000	27	36	41

The increase in the number of suits instituted for sums above Rs. 500, which has resulted in shewing an increase of Rs. 12,731 in the total value of suits, notwithstanding the falling off in the total institutions, is satisfactory as indicating greater confidence on the part of the public in the judgments of the Court. Four cases were referred by Mr. Sconce, as Officiating First Judge, for the opinion of the High Court under section 7 of Act XXVI of 1864. In all the decision of the Court was upheld.

5. Of the 1,326 cases pending from the previous year, and of those instituted during the year, 34,662 were disposed of as against 35,117 in 1874-75. In 15,114 of these, judgment was given for the plaintiffs, and in 1,361 for the defendants; 5,990 were non-suited or struck off, and 12,197 were compromised. Notwithstanding the decrease in the total number of cases disposed of, the number in which judgment was given for the defendants shows a small increase. These figures vary but little from those of the preceding year; but the large

increase of 245 cases which were referred to arbitration is very noticeable and should have been explained. The number of cases pending at the close of the year (1,166) was below the average. Of these cases, 742 had been instituted towards the close of the year, but were not returnable within that period, and 424 had been postponed after hearing in part. The files of the First, Third, and Fourth Judges show an undue proportion of these last-mentioned cases. The following table exhibits the number of cases instituted before each Judge, with the number of cases standing adjourned at the close of the year. :—

	Number of cases instituted.	Number of cases standing adjourned.
First Judge	1,975	71
Second „	7,563	2
Third „	7,457	129
Fourth „	7,544	182
Fifth „	9,963	31

6. The total number of after-judgment processes applied for was 9,503. Of these, 6,169 were warrants against the person. Only 2,834 of these warrants were executed. Three thousand three hundred and thirty-four processes for execution against the property of debtors were applied for, and of those 2,641 were executed. The executions under the latter head show an increase, and those under the former head a decrease, as compared with the figures for 1874-75. The number of bench warrants issued for the arrest of defendants before judgment has fallen from 109 to 62. With regard to the remarks recorded on this subject last year, the Lieutenant-Governor is glad to learn that great caution is now exercised by the Judges in the issue of such processes.

7. The Judges notice the falling off of 498 cases in the number of suits for goods sold and delivered, but declare that they are unable to account for it. The Lieutenant-Governor would have been glad, however, had enquiries been made by the Judges as regards this and other fluctuations which are observable, with a view to some explanations being afforded on the subject. It is further shown by the comparative statement that there has been a considerable increase in suits for money lent and for use and occupation, and a falling off in suits for trespass, for ejectment, and for money had and received. Suits also for the recovery of small tenements have fallen from 86 to 4. It is not stated, however, if this marked decrease is in any way owing to a doubt on the part of the Judges as to their jurisdiction to try cases of this nature, or to what cause it is attributable.

8. The Distress Act of 1875 has been in operation throughout the year, and the increased number of processes of distraint which have been issued under it shows that it has fairly met the requirements of suitors. The total amount of rent involved exhibits an increase from Rs. 22,266 to Rs. 27,417.

9. The Judges have experienced some difficulty in selecting persons qualified by character and attainments to act as law agents under the recognition of the Court. The Lieutenant-Governor entirely concurs with the Judges in thinking that it would be unadvisable to relax the rule recently adopted in favor of persons who have hitherto acted as suit brokers about the precincts of the Court. It is of the highest importance that the practice of touting should be discouraged as far as possible; and His Honor believes that much benefit to the public will ultimately result from a rigid adherence to the rule that has been laid down, that no law agent should be recognized by the Court who is not authorized to act in the High Court and in the courts subordinate to it.

10. The receipts of the year from different sources amounted to Rs. 1,99,256 as against Rs. 2,04,575. On the other hand, the item of house rent has entirely disappeared from the list of disbursements, and this circumstance, in conjunction with a large saving in the salaries of the Judges and in the contingent charges, has resulted in a decrease of nearly Rs. 20,000 in the expenditure. The net sum to be credited to the General Revenues amounted to Rs. 47,291 as against Rs. 33,321 in the previous year.

11. The Lieutenant-Governor fully concurs with the remarks recorded by the Judges as regards the lamented death of the late First Judge, Mr. G. S. Fagan. The Court has lost in Mr. Fagan the services of an eminent and careful Judge, who presided over it with great ability for many years.

By order of the Lieutenant-Governor of Bengal,

REPORT ON THE WORKING OF THE JUTE WAREHOUSE ACT IN HOWRAH DURING THE YEAR 1875-76.

No. 249, dated Burdwan, the 10th July 1876.

Memo. by—H. A. COCKERELL, Esq., Commissioner of the Burdwan Division.

FORWARDED in original to the Secretary to the Government of Bengal in the Judicial Department.

No. 227, dated Howrah, the 23rd May 1876.

From—T. J. C. GRANT, Esq., C.S., Chairman Municipal Commissioners, Howrah,
To—The Commissioner of the Burdwan Division.

Jute warehouses.

IN accordance with the provisions of section 31 of Act II (B.C.) of 1872, I have the honor to submit the following report on the administration of the Jute Warehouse and Fire-brigade Act in this municipality for the year ending 31st March 1876.

2. There were 50 jute warehouses registered during the year—26 were licensed, 11 were used for the storage of screwed bales of jute and cotton, and 13 were not used at all for these purposes. A classified list of the jute warehouses for which licenses were granted is given in Appendix A.

3. There were three new warehouses constructed during the year—two in connection with the Seebpore Jute Mills and the Howrah Mills, and the third was constructed within the premises of the Nasmyth's Press Company. As required by the Act, plans of these buildings were submitted to the Commissioners, and passed at special meetings.

4. The total income during the year amounted to Rs. 6,671-14-4, of which the following are the details:—

	Rs.	A.	P.
Balance of funds on the 1st of April 1875	118	3	9
License fees for 1875-76	5,821	3	10
Fines	80	0	0
Proceeds of sale of fire-brigade stock	652	6	9
Total ...	6,671	14	4

5. This shows a decrease of Rs. 6,810-12-5 as compared with the income of the preceding year, which is attributable to the following causes:—Firstly, during the year 1874-75, owners of jute warehouses were made liable to take out licenses for the whole year, whether their warehouses were used for the entire period or not, but the fees were received by instalments, such being the interpretation put upon the law by the Commissioners at the time. An objection was, however, raised to this rule, and a reference was made to the Advocate-General on the point, and he gave it as his opinion that the Commissioners could demand a license for only such time as a warehouse was actually used for the storage of jute, &c. This of course had the effect of considerably decreasing the amount of fees. Secondly, the schedule of rates of fees was revised in accordance with the amended Act (Act II of 1875), which fixed the minimum fee at Rs. 100 instead of Rs. 150. Thirdly, the depression in the jute market continued during the year under report, and there was a considerable falling off in the shipment of jute to England, in consequence of which there was not much employment for jute-screws.

6. The expenditure in the inspection of jute warehouses amounted to Rs. 2,044-8-9, which consisted of—

Inspection Establishment.

	Rs.	A.	P.
Inspector	1,460	0	0
Peons	103	6	9
Contingencies	8	2	0
Special Committees' inspection fees	48	0	0
Refund of license fees	425	0	0
Total ...	2,044	8	9

7. The refund of fees was made consequent on the opinion of the Advocate-General referred to in paragraph 5.

Fire-brigade.

8. The fire-brigade continued in its full force, as organized in April 1874, until the 6th August 1875, when, owing to the great falling off in the income under the Jute Act, the Commissioners were compelled to abolish the whole of the staff, with the exception of the Superintendent, and to sell the horses in order to meet liabilities. In order, however, that the town should not be left without any protection against fires, the services of the Superintendent were retained, and arrangements were made to take out the engines in the event of a fire by the police, or

any coolies that could be picked up at the time. Under this arrangement the engines were taken out on two occasions, and rendered as much assistance as could be expected under the circumstances.

9. One of the fires referred to in the foregoing paragraph having been rather extensive, and occurring in the very heart of the jute and cotton mart, and as the dry weather was setting in, at a meeting held on the 4th November 1875 the Commissioners resolved to reorganize the brigade, and to supplement the expenditure from *general funds*. Accordingly, on the 5th November, the brigade was again established on as economical a basis as could be in keeping with efficiency, and comprised the following staff:—1 Superintendent, 4 tindals, 21 khullasis, 1 coachman, and 2 syces. As this staff was not sufficient to *work* the engines, it was arranged that when fires occurred the brigade should be auxiliarized by the police, who should receive a remuneration of four annas per head. So far this system has been found to work satisfactorily, as the police attend promptly, and take part cheerfully with the firemen. Owing to the reorganization having been made shortly before the arrival of the Prince of Wales, the price of horses was so high that the Commissioners were unable to provide a suitable pair for the large engine, and as a makeshift, two of the mules of the Watering Department were utilised.

10. There were four fire-engine stations in the town—one at each of the three police stations, and one at the municipal office, a small engine with a staff of one tindal and three khullasis being at each police-station, and the large engine at the office, in charge of the Superintendent and a staff of 1 tindal, 12 khullasis, 1 coachman and 2 syces.

11. A fire watch was regularly kept on the top of the *cutchery* building, which commands an extensive view of the town, and intimation of all fires was promptly given by means of a bell placed in the office compound, to which was attached a cord communicating with the *cutchery*. As a rule, the large engine at the main station was equipped and put on the move within four or five minutes after the alarm was sounded.

12. The firemen were drilled, and the stations were regularly visited by the Superintendent. A statement showing the number of fires (together with such particulars as could be gathered regarding them) which occurred during the year, is given in Appendix C.

13. The following is an abstract of the expenditure in this department during the year:—

		Rs.	A.	P.			
I.	*Establishment*—						
	Superintendent	1,246	6	9			
	Tindals	341	8	3			
	Khullasis	1,829	7	9			
	Coachman	55	0	0			
	Syces	111	14	6			
	Rewards	39	12	0			
					3,624	1	3
II.	*Purchase of Stock*—						
	Repairs and alteration to engines	579	4	0			
	New delivery and suction hose	145	8	0			
	Uniforms, &c.	129	14	0			
	Lanterns for stations	20	8	0			
	False collars and leather for harness	31	0	0			
	Buckets	27	8	0			
	Feed, keep, &c., of horses	266	13	1			
	Purchase of land at Golabarry and construction of an engine-shed	1,517	14	5			
					2,718	5	6
III.	*Contingencies*.			...	119	4	9
				Total ...	6,461	11	6

14. The cost of the inspection establishment being Rs. 2,044-8-9, and that of the fire-brigade Rs. 6,461-11-6, the total expenditure amounted to Rs. 8,506-4-3. This exceeds the income under the Jute Act by Rs. 1,834-5-11. As explained in paragraph 9, the expenditure was supplemented from *general funds*, and this was done by a transfer from an allotment that had been made in the budget for the purchase of a strip of land for widening a road, the acquisition of which was abandoned. As shown in the foregoing statement, the cost of purchasing a piece of land and establishing a fire-engine station amounted to Rs. 1,517-14-5. Properly speaking, the whole of this expenditure, or at least the cost of the land (amounting to Rs. 1,327-1-5), should have been debited to *general funds*, so that the actual excess amounts to Rs 507-4-6.

CENTRAL RELIEF FUND.

Proceedings of the 31st Meeting of the Executive Committee of the Central Relief Fund, held on the 28th January 1875.

PRESENT:

The Hon'ble V. H. Schalch, C.S.I., *Chairman.*
„ J. Inglis, C.S.I.
„ J. R. Bullen-Smith.
The Hon'ble Rajah Joteendro Mohun Tagore.
Moonshee Ameer Ali, Khan Bahadoor.
The Hon'ble Degumber Mitter.

I.—The proceedings of the 29th and 30th meetings, held respectively on the 26th November 1874 and on the 7th January 1875, were read and confirmed.

II.—After a discussion on the subject of the final adjustment of accounts with Government and with the district officers, and of the preparation of the final report of the Committee's proceedings, it was resolved—

(1) To await the receipt, from the Deputy Comptroller-General of relief accounts on special duty, of audited accounts of money and grain expended on purposes of charitable relief up to 31st January 1875.

(2) To ask the Government of Bengal to call on the Commissioners for, and to furnish the Committee with, complete information (*a*) as to the number of persons relieved from the beginning of the famine up to 31st January 1875, under each of the heads of the Committee's Notification of the 4th of March 1874, and (*b*) as to the number of orphans received, disposed of, and remaining on the 31st January 1875, and the cost of the maintenance of the last-named orphans.

(3) The local committees were authorized to make such *ad-interim* arrangements for the support of the orphans left on their hands as might seem best to them.

(4) That out of the sum now at the credit of the Committee in the Bank of Bengal, the Committee offer to place at the disposal of the Government of Bengal, pending final settlement of accounts, a sum of twenty lakhs of rupees, on the condition that any sum which may be found to be due to the Committee on such final adjustment be hereafter refunded, in view to enable the Committee to determine the disposal of such balance.

(5) That the bills presented by the Deputy Comptroller-General for payment on account of medical relief stand over, pending the final adjustment of accounts.

III.—Several applications for grants from the Committee's funds were laid before the meeting.

Resolved that all these, and any similar applications which may hereafter be received, be ordered to stand over until the final adjustment of accounts has been made.

Proceedings of the 32nd Meeting of the Executive Committee of the Central Relief Fund, held on the 9th September 1875.

PRESENT:

„ Rajah Joteendro Mohun Tagore.
The Hon'ble Baboo Doorga Churn Law.

T. M. Robinson, Esq.

I.—The minutes of the last meeting were read and confirmed.

II.—A letter from Government, No. 1232S.R., dated 27th July 1875, giving particulars of orphans whose support would devolve on the Committee, was considered.

Resolved.—The cash balance is now Rs. 1,81,438-0-8, and as the Assistant Comptroller-General believes his adjustment accounts will result considerably in favour of the Committee, disbursements may safely be made from this amount. Provision for orphans should be the first charge, and the following payments once for all will meet a portion of the Committee's liabilities in full of all claims past and future :—

		Rs.
3	Orphans in the Burdwan division	475
6	Ditto in Moorshedabad	1,200
	To be paid only if the remittance of Rs. 1,600, already made on this account, does not suffice.	
1	Orphan in Cooch Behar	396
1	Ditto in Purneah	96

Besides the above there remain the following orphans to be provided for, as shown in the statement received from Government, viz.—

In the Bettiah orphanage		106
„ Chuprah „		5
„ Bhagulpore „		14
	Total ...	125

For these 125 the charge, at Rs. 3 each per mensem, would amount annually to Rs. 4,500; and as the most economical way of meeting this would be by investing a sufficient sum in 4 per cent. Government Securities, the Accountant-General should be consulted as to the investment. Up to the date for which the Assistant Comptroller-General is adjusting accounts, charges for orphans will be included in his adjustment, and thereafter the proposed provision will suffice. Commissioners will be instructed to report yearly the number of deaths and of those reaching the limit of age, and the savings can, as they accumulate, be added to the principal.

III.—Applications for grants, as shown in the following statement, were then considered:—

Serial No.	Date of application.	Name and address of applicant.	Nature of application.	Amount applied for.
1	20th October 1874 ...	Rev. H. Uffman, German Missionary, Purulia (through Chota Nagpore Commissioner).	To meet cost of relief works till the harvest... Their cost for ten years, at Rs. 4 a month each, is .. The Collector of Midnapore has been instructed to return an unexpended balance of Rs. 18,000.	Rs. 20,000

11	6th November 1874 ...	Commissioner of Chota Nagpore.	Proposes to divide the balance in hand among four charitable dispensaries in Hazareebagh.	Rs. 3,029-5-6 available balance.

Resolved that for application No. 1 a sum of Rs. 500 be granted;

That applications 2, 7, 8, 9, 10, and 11, be rejected;

That application No. 3 await reply to a reference to the North-Western Provinces' Government as to whether the Committee should give any assistance;

That to meet application No. 4, Rs. 18,000, refunded by the Collector of Midnapore, be remitted to Balasore;

That on account of application No. 5 a sum of Rs. 1,000 be granted, to be devoted to famine orphans;

And that in the case of application No. 6, a sum of Rs. 1,000 be granted for the present, the matter being reconsidered hereafter, when the accounts shall have been adjusted.

IV.—The Chairman then took the sense of the meeting as to the possibility of dissolving the Committee, and constituting a permanent trust for the balance. The meeting agreed in the opinion that action could not properly be taken till the adjustment of accounts was finally settled, and it was known to what the balance in the Committee's hands would actually amount.

Proceedings of the 33rd Meeting of the Executive Committee of the Central Relief Fund, held on the 4th December 1875.

PRESENT:

The Hon'ble V. H. Schalch, C.S.I., *Chairman.* | The Hon'ble J. R. Bullen-Smith, C.S.I.
" J. Inglis, C.S.I. | Rajah Joteendro Mohun Tagore, Bahadoor.
T. M. Robinson, Esq.

I.—The Chairman brought before the meeting the question of how best to deal with the balance of the funds at the disposal of the Committee. The following statements were submitted as showing how the matter stood:—

A.

	Rs.	A.	P.
General subscriptions received and advertised ...	25,51,673	3	1
Government contribution drawn	21,45,657	14	5
	46,97,331	1	6
Retained by local subscribers	39,365	4	0
Actually at disposal of Central Committee ...	46,57,965	13	6
Add Government contribution undrawn	4,06,015	4	8
Total ...	50,63 981	2	2

B.

	Rs.	A.	P.
Total amount locally expended by Central Committee's orders	26,14,213	9	10
Remitted to Government for adjustment of district accounts	20,00,000	0	0
	46,14,213	9	10
Cash balance in hand	43,752	3	8
	46,57,965	13	6
Add Government contribution undrawn	4,06,015	4	8
	50,63,981	2	2

The Chairman submitted a demi-official letter from the Comptroller-General of Accounts enquiring whether the Committee proposed to prefer any further claim for contribution from the Government, and stating that, after settling the district accounts, he would probably have in hand not less than 14½ lakhs of the 20 lakhs placed at his disposal by the Committee, regarding the disposal of which balance also orders would be required.

The Chairman also submitted a demi-official letter from Sir W. Muir on the same subject. A discussion ensued, in the course of which it was pointed out that the expenditure of the Committee (1) on the objects contemplated in clauses (*b*), (*c*), (*d*), of their Notification of the 4th March 1874; (2) on the support of orphans; and (3) on the relief of distress in the districts affected by the cyclone of October 1874,* had amounted to above 31½ lakhs,* or about 6 lakhs more than the total amount of the general subscriptions received by them; so that strict faith had been kept with the subscribers in spending the funds only on the special charitable objects notified by the Committee.

	Rs.
* Spent under Committee's orders	26,14,213
By Comptroller out of 20 lakhs, say	5,50,000
Total ..	31,64,213

It was ultimately *resolved*—

(1) That all distress having ceased, and due provision having been made for the orphans thrown on the hands of the Committee, it was unnecessary now to draw from Government the sum of Rs. 4,06,015-4-8, required to make the Government contribution exactly equivalent to the sum of the general subscriptions.

(2) That for similar reasons it was unnecessary to require a refund from Government of the unexpended balance of the 20 lakhs, made over to the Comptroller-General for settling the district accounts.

(3) That the sum invested for the support of orphans should be made over to Government absolutely, on condition of the Government undertaking to maintain the orphans on the principles accepted by the Committee (being the same as those adopted by the Committee of 1867, and laid down at pages 213-4 of the compilation of "Administrative Experience in Former Famines")—Government providing their allowances at the rate of Rs. 3 per mensem for each orphan, up to the age of 17 in the case of boys, and 16 in the case of girls: and looking to the fact that there will certainly be savings on annual proceeds of the sum transferred, while the principal itself will also in time lapse to Government, Government be further requested to provide some moderate marriage portion for the girls, to secure their proper settlement in their own sphere of life.

(4) That before submitting to the General Committee for approval the final report embodying the foregoing proposals, the Government be addressed with a view to ascertaining whether there is any objection on its part to the course which the Committee proposes to adopt.

The Committee then proceeded to consider how it should dispose of the cash balance in hand of Rs. 43,752-3-8 The application made by the American Mission, 140, Dhurrumtollah, for a grant of Rs. 30,000 towards the cost of an Orphan Home, was reconsidered. It was suggested that it would be a suitable permanent memorial of the Fund, and gratifying to many subscribers in Europe, if a building were provided in Calcutta which should be maintained as an Orphan Home in perpetuity. And it was resolved that if the American Mission would agree to accept the grant on condition that the property in the building to be built or acquired by them should be vested in trustees for the purpose in question, a grant of Rs. 30,000 might very properly be made to that body.

The Hon'ble J. Bullen-Smith undertook to place himself in communication with the Manager of the Mission and report the result. The question of the disposal of the remainder of the cash balance was meantime postponed.

Proceedings of the 34th Meeting of the Executive Committee of the Central Relief Fund, held on the 12th July 1876.

PRESENT:

The Hon'ble V. H. Schalch, C.S.I., *Chairman.*	The Hon'ble H. H. Sutherland.

The draft of a final report, and a memorandum of applications for disposal, and of the cash balance available, were laid before the Committee.

Revd. H. Stern, of the Goruckpore Orphanage, applied for assistance in supporting 45 orphans received by him during the famine, and represented that, with the funds already in his hands, a sum of Rs. 10,000 would enable him to provide for their complete maintenance, in the case of boys up to the age of 18, and girls to the age of 16. It was resolved that a sum of Rs. 10,000 be accordingly remitted to Mr. Stern.

Particulars regarding a home for destitute female orphans in Calcutta were next taken into consideration, and it was resolved to set apart for this institution a sum of Rs. 50,000. Of this amount Rs. 40,000 was assigned for the purchase of a suitable building, the balance of Rs. 10,000 to be capitalized, and the income therefrom to be made available for the repairs of the building, Government being appointed as trustees for the proper administration of the grant.

Finally, it was resolved that the balance of about Rs. 56,000 should be invested and made over to the District Charitable Society, so that the income accruing from this investment should be expended in the relief of distressed natives and Europeans in Calcutta.

The necessary additions were made to the draft report and its appendices, which were then finally approved.

A good season is expected The crops on the low lands are being cut, and if no sudden rise of the rivers occurs, a second cutting may be obtained. Owing to improvement in the silk trade, the mulberry crops are also expected to be more profitable during the year.

	Central Districts.—(*Continued*)		
Cooch Behar Divs. 16	Darjeeling, July 14, '76	5·70	Weather—There has been a little cessation of the heavy rain we had during the previous fortnight, but the weather is quite seasonable and good for the crops. The Indian-corn in the hills, and the early rice in the plains, are progressing towards ripening. All other crops are doing well.
17	Julpigoree, „ 15, „	1·27	Weather—Showery. The cutting of the early rice has commenced. The moderate and regular rainfall is highly favorable to the planting of the late rice
	Cooch Behar, „ 13, „	1·27	Weather—Hot. Very little rain Light clouds, with a slight breeze sometimes blowing but not regularly The break in the rains is opportune for reaping. Prospects of *hymanic dhan* is very favorable. General health of the division is good. Cholera is disappearing
	Eastern Districts		
Dacca Divs. 18	Dacca, July 17,* '76	1·91	Weather—Seasonable. State and prospects of the crops are very favorable.
19	Fureedpore, „ 15, „	·71	Weather—Fine, with occasional showers which is favorable for the crops. State and prospects of the crops are very good If heavy inundation keeps off three weeks more, there will be a very fine *aous* harvest. Much of the *aous* crop has been cut, except only a small proportion of the fine standing crops. *Til*, or sessamum, still being cut on high lands. Sugarcane, jute, and indigo, are doing well. General health is good.
20	Backergunge, „ 13, „	4·41	State and prospects of the crops are well, save that cattle disease is reported to be present in eleven thanas, in three of which deaths have occurred in consequence.
21	Mymensingh, „ 14 „	·83	Weather—A stiff breeze from the south-east prevalent. Only slight showers at the Sudder and Jamalpore, but elsewhere abundant rain. State and prospects of the crops are everywhere favorable.
22	Tipperah, „ 14, „	2·53	Weather—Cool. Alternate rain and sunshine throughout the week. The reaping of the *aous* crop has commenced. The prospects of all crops are good.
Chittagong Divs. 23	Chittagong, „ 13, „	4·94	Weather—Stormy. State and prospects of the crops are favorable.
24	Noakholly, „ 13, „	9·66	Weather—Cooler than in the previous week. Good southerly breeze. There has been rain every day during the week. Transplantation of *aman* crop is going on. The late heavy rain has done some injury to the low land crops. In places where the water has lodged in large quantities much loss is expected, unless it speedily drains off
25	Chittagong Hill Tracts, „ 11, „	7·01	Weather—Heavy rain during the first part of the week. The paddy and cotton plants are thriving well. The *cheknal dhan* is being reaped here and there in small quantities.
	Hill Tipperah, „ 12, „	1·82	Weather—Cool. State and prospects of the crops are good both in plains and hills.
BEHAR.			
Patna Divs. 26	Patna, July 17,* '76	·27	Weather—Partly clear and partly cloudy, with drizzling at intervals. Broadcast sowings are being made, but more rain is wanted Sporadic cases of cholera throughout the district.
27	Gya, „ 15, „	1·59	Weather—Scarcely any rain during the greater part of the week in the interior. Highest reading of thermometer 97° in shade. Rice sowings going on. Rain is most wanted in Jehanabad sub-division. Fever has become prevalent Cholera has decreased.
28	Shahabad, „ 15, „	·12	Weather—Cloudy and hot, with strong easterly wind. Crops which were sown have germinated and are good now. Rain is urgently needed, and in Sasseeram especially, where canal water is not available, if there be no rain within the next week, the consequence will be very serious.
29	Durbhunga, „ 15, „	·18	Except in the extreme north and in the north-east of the district (which has been lately visited by the Collector, and where the crops are at present all that could be wished), the rains still continue to hold off. At the head-quarters only 3' inches of rain have fallen since the 1st of May up to date, the average fall in the district in that period being about 17 inches. Averages based on statistics collected from two Government registering stations, and five indigo factories scattered over the Sudder and Mudhoobunnee sub-divisions, show the rainfall this year from January to May to have been 4 inches (*i e* almost up to the average), while the rainfall in June and July has been only 5½ inches (*i e* about 1/7 of the average). Progress has, however, been made in sowing the *bhadoi* crops, and the portion of the *dhan* crop which is sown broadcast, and the light intermittent showers keep these crops in good condition. Except in the north and north-east of the district however, where the rainfall has been heavier than elsewhere, transplantation of rice is much retarded. A heavy fall of rain within the present month is very necessary.

* Telegrams of the 17th July, received on the same day, show rainfall during the seven days immediately preceding.

	No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Contd.*)				
Patna Divn.—(*Contd.*)	30	Muzufferpore, July 15, '76	·4	Weather—Cloudy and cool. Rain is very much wanted in Muzufferpore and Seetamarhee sub-divisions. Transplantation of rice is delayed, and *marwa* crop is suffering from want of rain. In Hajeepore sub-division 5·8 inches of rain has fallen during the week, and the prospects of the crops are satisfactory. Health of the district is good.
	31	Saran, „ 15, „	·46	Weather—Most unseasonable. Very dry and hot, with cool nights. No heavy rain has fallen in the Sudder station since last September. The rainfall at Sewan has been ·04 inches. Drizzling rain at Gopalgunge on the 5th and 7th instant. There has been slight rain in most part of the district, but heavy rain is wanted everywhere. The *bhadoe* sowings are in progress, but the hot sun burns up the crops. Cholera is still prevalent. It has, however, been reported to be declining in Gopalgunge. Prices of gram, barley, and Indian-corn, have slightly risen
	32	Chumparun, „ 14, „	Nil.	Weather—There have been a few slight local showers, but these have fallen only in a few places. Rain is much wanted for the late and early rice crops.
Bhagulpore Divn.	33	Monghyr, „ 15, „	·98	Weather—Sunshine and light showers. The crop prospects continue to be good.
	34	Bhagulpore, „ 17,* „	·37	Weather—East winds. The rain at Soopoole has been 2·46 inches, and heavier rain in the north of that sub-division. Bright and very favorable for the *bhadoe* crops, with passing clouds and drizzling showers. Heavy rain will soon be necessary for transplanting the *aghani* rice. Ganges rising rapidly. General health very good.
	35	Purneah, „ 15, „	·51	Weather—Seasonable. The weather is all that can be desired for the rice.
	36	Sonthal Pergns. „ 16, „	3·05	Weather—Cool and breezy, with occasional heavy showers. State and prospects of the crops are generally satisfactory. Ploughing is going on briskly, and transplantation of rice crop has begun.
ORISSA.				
Orissa Divn.	37	Cuttack, July 8, '76	·92	Weather—Close and cloudy. Rainfall still very scanty. Crops coming on fairly. Cholera prevalent in many parts, and much sickness of other kinds, owing to the unhealthiness of the weather.
	38	Pooree, „ 13, „	·64	Weather—Cloudy and occasionally stormy, but little rain. State and prospects of the crops are fair. More rain is wanted for weeding. Cholera is bad in several places, and cattle disease has appeared in Serai pergunnah.
	39	Balasore, „ 14, „	8·41	Weather—The rainfall of the week has been abundant and general. The young crop is in excellent condition. The mortality from cholera has increased, and ranges from 500 to 700 deaths per week.
CHOTA NAGPORE.				
		South-Western Frontier Agency.		
	40	Hazareebagh, July 14, '76	·38	Weather—Unseasonable. Rain is much wanted still. The crops are looking well at present, but would be greatly benefited by more rain. A good deal of cholera reported from the interior, caused probably by surface water running into tanks, poluting them, and rendering the water unwholesome.
	41	Lohardugga, „ 15, „	2·32	Weather—Seasonable, but less rain than usual at this time of the year. In Palamow no rain worth mentioning reported during the last week. In the Sudder sub-division the state and prospects of the crops are on the whole satisfactory, but in Palamow prospects of the crops are reported to be bad, except in the southern *suppahs*, owing to the very great deficiency of rainfall up to the present. Cholera is on the increase in Palamow, and small-pox is still prevalent there.
	42	Singbhoom, „ 14, „	2·26	Weather—Seasonable. Prospects of the crops are favorable.
	43	Manbhoom, „ 15, „	6·49	Weather—Very favorable for crops. Days of alternate sunshine and rain. Crops are looking vigorous everywhere. Cholera is abating, and general public health is much improved

* Telegram of the 17th July, received on the same day, shows rainfall during the seven days immediately preceding.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 17. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table,—"Prof. papers on Indian Engineering, No. CXIII." The temperatures at the sea level are taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Clouds.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 10.

The above being all comparable, afford the data for constructing a meteorological chart for the month, which shall show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

BOARD OF REVENUE, L. P., FORT WILLIAM, the 6th July 1876.

THE following order is published for general information :—

CIRCULAR ORDER.

STAMPS.
A. MONEY, ESQ., C.B.

It has been brought to the notice of the Member in charge that the provisions of the General Stamp Act as regards the necessity for affixing receipt stamps to acquittances for sums of money above Rs. 20 are very frequently disregarded, and that some misconception exists as to the precise purport of those provisions. As a case in point, is was recently contended by a Calcutta firm, in excuse for an omission to furnish a stamped receipt for a remittance from the mofussil, that an unstamped acknowledgment is all that is required by the Stamp Act in cases where the acknowledgment is forwarded under stamped cover by post. In order to remove so erroneous an impression, and to make the provision of the law more widely known, the Member in charge directs the issue of the following notification by publication in the *Calcutta Gazette*, and by extensive circulation in each district, both in English and the language of the district :—

NOTIFICATION.

No. 858B.

Dated the 25th July 1876.

It is hereby notified for general information that under Article 7, Schedule II, Act XVIII of 1869, the receiver of any sum of money exceeding Rs. 20 in satisfaction of a debt, who is required to give a receipt, must affix to it an adhesive stamp of one anna; and that if he should give such receipt without the same being duly stamped, he is liable to a fine not exceeding Rs. 100. It is also notified that the Magistrate has power, under Section 38 of the Act, to reward any informer of an infraction of the above rule by giving him a sum of money not exceeding half of the amount of fine imposed by such Magistrate on the offender

A receipt, however, granted to a cultivator for the rent of land paying revenue to Government is exempted from stamp duty.
